## BURUNDI

- *Overall Attitudes Toward the World Bank Group*
- *World Bank Group's Work and Engagement on the Ground*
- *World Bank Group's Support in Development Areas*
- *World Bank Group's Knowledge Work and Activities*
- *The Future Role of the World Bank Group in Burundi*

- *Background Information*

## II. Methodology

From February 2021 to April 2021, 402 stakeholders of the WBG in Burundi were invited to provide their opinions on the WBG's work in the country by participating in a Country Opinion Survey. Participants were drawn from the Office of the President, Prime Minister; office of a minister; office of a parliamentarian; ministries/ministerial departments/implementation agencies; Project Management Units (PMUs) overseeing implementation of WBG projects; consultants/contractors working on WBG-supported projects/programs; local governments; independent government institutions; the judicial system; state-owned enterprises; bilateral and multilateral agencies; private sector organizations; the financial sector/private banks; private foundations; NGOs and community based organizations; trade unions; faith-based groups; youth groups; academia/research institutes/think tanks; the media; and other organizations.

A total of 225 stakeholders participated in the survey (56% response rate). Respondents completed the questionnaire with a representative from the local fielding agency, received the questionnaire via a courier and returned it accordingly, or they completed the questionnaire online.

Every country that engages in the Country Opinion Survey (COS) must include specific indicator questions that will be aggregated for the World Bank Group's annual Corporate Scorecard. These questions are identified throughout the survey report.

The results in this year's Country Survey were compared to those in the Country Survey conducted in FY'17 (response rate was 58%, N=218). Data were weighted to reach the same stakeholder composition in two years, which allows for year comparisons. Stakeholder groups which were not present in both fiscal years were not included in the comparison. Respondents who belonged to the "other" stakeholder category were not included either. As a result, mean ratings, percentages of respondents, and the total number of respondents in both years are slightly different from those of the original data reported in the FY'17 COS report and the non-weighted data presented in appendices A, B, C and E. For the weighted stakeholder breakdown and year comparison results, please refer to Appendix D (page 88).

Note that the body of the report presents data on selected questions of the survey questionnaire. Please refer to Appendix A for data on all survey questions. Appendices B, C, D, and E present data on selected questions. Additional data breakdowns are available upon request.

## Appendix D: Responses to Selected Questions by Year<sup>28</sup>

All data presented in this appendix are weighted. As a result, means of the FY 2021 data and the total number of respondents indicated will be slightly different from the aggregated responses in Appendix A. Similarly, responses from FY 2017 respondents and the total number of respondents indicated may differ from those reported in the FY 2017 COS report.

- FY 2017 Number of comparable respondents = 190
- FY 2021 Number of comparable respondents = 193
