- c. She will be disappointed, and her teaching will be negatively affected.

2.20 Saurabh's principal/manager never praises him. How will Saurabh feel?

- a. It won't matter much.
- b. He will be disappointed, but his teaching will be not affected.
- c. He will be disappointed, and his teaching will be negatively affected.

Section 3:

Instruction: Please tick one (✓) box for each question.

How much do you agree with these statements?	Strongly disagree	Disagree	Agree	Strongly agree
3.1 A teacher could learn new methods, but she will not be able to change her current teaching skill level.				
3.2 Most students have a certain amount of intelligence, and not much can be done to change their learning outcomes.				
3.3 Making all students learn is completely in the control of a teacher.				
3.4 I am unable to help each and every student in the class learn despite my best efforts.				
3.5 No matter what one can significantly change their current skill as a teacher.				
3.6 No matter how much talent a student has, there can always be significant changes in it.				

Instruction: Please choose one option for each of the questions below and fill the chosen answer (a, b, c, or d) in the box given against the question.

3.7 Pramod notices that students in his class are less regular to the school and their results have not improved in the past year. How would Pramod feel?

--	--	--	--	--	--

- a. It will not affect him much.
- b. He will be disappointed, but his teaching effort will remain the same.
- c. He will be disappointed, and he will reduce his teaching effort.
- d. He will be disappointed and he will try to increase his teaching effort.

3.8 How much belief do you have as a teacher that the students who initially face difficulties can eventually learn?

- a. Not at all
- b. Little bit
- c. To a large extent
- d. Very much

3.9 Sushila joins as a primary school teacher. In 6 months she notices that the students who initially lagged behind have covered up and also participate more in class. How would Sushila feel?

- a. It will not matter at all.
- b. She will be happy, but she will not work harder.
- c. She will be happy and will work harder.
- d. She will feel happy and that now that students have caught up, she can work a little less hard.

3.10 Naresh is a teacher who is unable to increase students' attendance in the school despite best of his efforts. He is being pressurized from the administration for this and his promotion has been stalled overlooking his efforts. How will Naresh feel?

- a. Very demotivated
- b. Slightly demotivated
- c. Slightly motivated
- d. Very motivated

3.11 If my principal gives me other work instead of teaching (and position, pay, travel-time, etc. will remain the same), I will be:

- a. very happy
- b. happy
- c. disappointed
- d. very disappointed

3.12 Taking into account your interest in helping children learn as well as the support and responsibilities you get from the school system, the community, your family, and the students themselves, how motivated have you been most of the time in the past week in your work as a teacher?

- a. 100%: I am as motivated in my job as a teacher as possible, all or almost all of the time
- b. 99%-80%: I feel motivated most of the time but if some things changed, I could be more motivated
- c. 79%-60%: I feel motivated about half of the time but there is room for improvement
- d. 59%-40%: I feel motivated about half of the time but there is room for significant improvement
- e. 39%-20%: I feel motivated about half of the time but there is room for a lot of improvement
- f. 19%-0%: I hardly feel motivated

3.13 Do you feel as motivated as a teacher could be?

- a. Yes
- b. No

--	--	--	--	--	--

3.14 a.) Please fill in the blanks and calculate the number of days you could attend the school by the formula given below.

1. Total number of days: 14
2. Number of public holidays in the last 14 days: _____
3. Number of days school was closed due to any other reasons: _____
4. Number of days you had to stay outside the school due to administrative works: _____

How many days could you have attended school over the past 14 days: $(1 - (2+3+4)) = 14 - (\text{_____} + \text{_____} + \text{_____}) = \text{_____}$ days

b.) Of those days you could attend out of above 14 days, how many days have you attended the school?

_____ days

If absent, why were you unable to attend? (Optional)
