The Fujitsu fi-5530C Color Departmental Scanner offers an incredible feature set in a compact package. Measuring only 11.9" by 16" by 9", the fi-5530C is the smallest A3 scanner currently available but handles a vigorous duty cycle of up to 3,000 documents per day. What's more, it scans at speeds up to 47 ppm / 94 ipm (landscape, 200 dpi), features dual CCDs with true, 600-dpi resolution for capturing subtle details, and uses ultrasonic doublefeed detection for reliable, automatic scanning.

For greater ease-of-use, the fi-5530C includes a 100-page automatic document feeder (ADF) that handles documents ranging from 2.1" by 2.9" to 11" by 17", Ultra SCSI and high-speed USB 2.0 interfaces for simplified connectivity, and Adobe Acrobat 7.0 software, which converts documents to cross-platform Adobe Portable Document Format (PDF) files. And with automatic size detection (auto-crop) and de-skew, scanned documents can always look their best.
