Submitted By  
Mr. Robert K. Tellewoyan  
Team 14 Supervisor

**National Establishment Census (NEC)  
Team 14 Reports –Dec. 11, 2007-Jan. 17 2008**

**Introduction**

The National Establishment Census (NEC) is a complete enumeration of all businesses with in the Country, such as NGOs, Private and Public sectors, to enable government to Collect actual information which is essential for sound development planning.

**Working Relationship/ Experience.**

Team14 is comprised of 5 members, 4 enumerators and 1 Supervisor and this Team controls WestPoint, work on Water Street and the front street area. The working relationship with the Team members was very cordial to me as a supervisor.

My experience on the field is commerce and finance field workers are always asking the business partners for registration lesson. They are sometimes very hard to give information about their businesses, meanly the foreigners. How ever 95% responded freely and 5% refused, but at the end every things was all fined.

**Challenges and constraints**

My team members suffered a lot, sometimes no car to get to the working site sooner, we sometimes walk or get to work late. Because of this my team spent 2 weeks to have completed my first assignment.Later, we joined Tamba Mayson to complete central Monrovia A. The transportation fare was finished and we had to enter our own account to complete the job because of the distances that we live.

Materials received for The National Establishment Census (NEC) and a complete Breakdown reports December 10, 2007 –January17, 2008.

### **Recommendation**

1. I do recommend to this institution to provide us car for the next field work.
2. Whenever the next field work is to come, please print the said information into the media for the benefit of her citizens and other foreigners.
3. The refusal should be punished so as to set good example for other in the future to come.
