LABSTAT DIGEST

(A Statistical Digest on Labor Cost)

Vol. 2 No. 20

October 2000

Labor Cost in the Philippines (Fourteenth of a fourteen-part series)

Last year, the Bureau of Labor and Employment Statistics undertook a nationwide Labor Cost Survey (LCS) that covered **non-agricultural establishments employing at least 20 persons**. The inquiry fills one of the important gaps in the statistical measurement of wages in the country. Thus, it supplements the other statistical undertakings that collect data on wage rates, earnings and compensation of employees.

The LCS aims to measure the level and composition of labor cost in the Philippines and the evolution of the cost components over time. The reference period of the first LCS is calendar year 1998 and the periodicity of the survey is every four (4) years. The second LCS will be conducted in 2003 with 2002 as reference year.

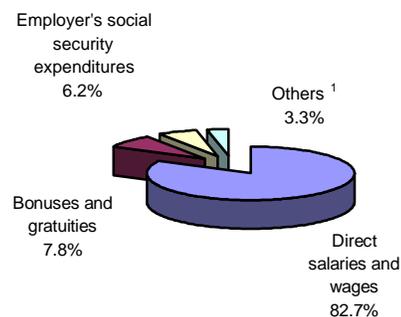

This part of the series focuses on the main labor cost components in **real estate, renting and business activities**. Statistics on the sub-components are available at the Bureau upon request.

Major Labor Cost Components

- In the real estate, renting and business activities, employers' total labor cost amounted to P24,879 million in 1998.
- The bulk of the major labor cost components went to direct wages and salaries (82.7%). Bonuses and gratuities accounted for 7.8 percent while employer's social security expenditures reached 6.2 percent and other labor costs at 3.3 percent.
- Across specific industries, miscellaneous business activities incurred P19,575 million which is almost 80.0 percent of the total labor cost of real estate, renting and business activities, while the research and development activities

posted the least expenses at P299 million which represented only 1.2 percent of the total industry disbursements.

Percent Distribution of Labor Cost in Real Estate, Renting and Business Activities by Major Cost Component, Philippines: 1998

¹ Include Remuneration for time not worked; Food, drink, fuel and other payments in kind; Cost of workers' housing shouldered by employer; Cost of training; Cost of welfare services; Other costs (cost of work clothes/uniform, transport of workers, travelling expenses, recruitment cost, etc.)

Source of data: Bureau of Labor and Employment Statistics, 1998 Labor Cost Survey.

Annual Labor Cost Per Employee

- Annual labor cost per employee in the real estate, renting and business activities stood at ₱111,310 in 1998.
- Each employee received ₱92,088 for direct wages and salaries and ₱8,672 for bonuses and gratuities. For employer's social security expenditures, each worker got ₱6,923 and ₱3,627 for other labor costs.
- Employers in the research and development spent the highest labor cost per employee at ₱215,622 followed by computer and related activities with ₱171,725.
- Direct wages and salaries per employee was noted highest in research and development at ₱147,725 per annum and lowest in renting of machinery and equipment without operator at ₱62,833.
- Aside from direct wages and salaries, each worker in the research and development industry also received the highest bonuses and gratuities (₱27,436), employer's social security expenditures (₱27,465) and other labor cost at ₱12,996. The least payment for all labor cost components went to workers in renting of machinery and equipment without operator.
- Meanwhile, proportion of bonuses and gratuities to respective direct wages and salaries in this industry ranged from 8.9 percent (*renting of machinery and equipment without operator*) to 18.6 percent (*research and development*).
