

Kyrgyz Republic MICS 2006 Indicators

1	Under-five mortality rate	62	Birth registration
2	Infant mortality rate	67	Early marriage (Marriage before age 15/Marriage before age 18)
3	Maternal mortality ratio	68	Young women aged 15-19 currently married/in union
4	Skilled attendant at delivery	69	Spousal age difference (>10 years)(Women of age 15-19, Women of age 20-24)
5	Institutional deliveries	70	Polygyny
6	Underweight prevalence (below -2 SD)	71	Child labour
7	Stunting prevalence (below -2 SD)	72	Labourer students
8	Wasting prevalence (below -2 SD)	73	Student labourers
9	Low birth weight infants	74	Any psychological/physical punishment
10	Infants weighed at birth	75	Prevalence of orphans
10	0 Attitudes towards domestic violence	78	Children's living arrangements
11	Use of improved drinking water sources	82	Comprehensive knowledge about HIV prevention among young people
12	Use of improved sanitation facilities	83	Condom use with non-regular partners
13	Water treatment	85	Higher risk sex in the last year
14	Disposal of child's faeces	86	Attitude towards people with HIV/AIDS
15	Exclusive breastfeeding rate	87	Women who know where to be tested for HIV
16	Continued breastfeeding rate	88	Women who have been tested for HIV
17	Timely complementary feeding rate	89	Knowledge of mother- to-child transmission of HIV
18	Frequency of complementary feeding	90	Counselling coverage for the prevention of mother-to-child transmission of HIV
19	Adequately fed infants	91	Testing coverage for the prevention of mother-to-child transmission of HIV
20	Antenatal care	92	Age-mixing among sexual partners
21	Contraceptive prevalence	96	Source of supplies (from public sources)
22	Antibiotic treatment of suspected pneumonia	97	Cost of supplies (median costs)
23	Care seeking for suspected pneumonia	98	Unmet need for family planning
24	Solid fuels	99	Demand satisfied for family planning
33	Use of oral rehydration therapy (ORT)		
34	Home management of diarrhoea		
35	Received ORT or increased fluids, and continued feeding		
41	Iodized salt consumption		
42	Vitamin A supplementation (under-fives)		
43	Vitamin A supplementation (post-partum mothers)		
44	Content of antenatal care		
45	Timely initiation of breastfeeding		
46	Support for learning		
47	Father's support for learning		
48	Support for learning: more than 3 children's books		
49	Support for learning: more than 3 non-children's books		
50	Support for learning: materials for play (3 or more toys)		
51	Non-adult care		
52	Pre-school attendance		
53	School readiness		
54	Net intake rate in primary education		
55	Net primary school attendance rate		
56	Net secondary school attendance rate		
57	Children reaching grade five		
58	Transition rate to secondary school		
59	Primary completion rate		
60	Adult literacy rate		
61	Gender parity index (Primary school, Secondary school)
