

## Using the Tanzania Education PETS/QSDS Data Set

The Tanzania PETS/QSDS data set is a survey of 180 primary schools, 135 of which are located in rural areas. The primary schools are located in 7 regions, , identified in variable 'zone'. Variable labels are in English.

All files include a variable named 'school\_code', which represents the primary school identifier. All files can therefore be merged using that variable. Variable 'pweight' represents the sampling weight for each school.

<b>FILE</b>	<b>DESCRIPTION</b>
education module 1.dta	General data on structure, staff, material, class size, attendance and budgets
education module 2.dta	Detailed data collected on up to 10 teachers per school during an announced visit.
education module 3.dta	Detailed data collected on up to 10 staff members per school during a follow-up, unannounced visit.
education module 4.dta	Grade 4 Classroom Observation log
education teacher.dta	Teacher examination dataset. 523 teachers were administered the survey test.
education ednumerator.dta	Pupil examination dataset. 1799 pupils were administered the survey test.
