Good morning/afternoon. My name is ... .., and I want to ask your help with some research. We are presently conducting a survey for the University of Cape Town, on what people in Cape Town think about a number of issues. We selected a random sample of households living in Cape Town, and you happened to be in this sample. We would like to interview one adult member of this household, i.e. someone who is eighteen years or older. Can you please tell me who lives in this household who is eighteen years or older, and when are their birthdays? We ask this because we want to select the person to interview on the basis of their birthday.

## Interview with selected respondent

**Interviewer: do not repeat this if you have already said this to the selected respondent.**

Good morning/afternoon. My name is ... .., and I want to ask your help with some research. We are presently conducting a survey for the University of Cape Town, on what people in Cape Town think about a number of issues. The survey takes about 60 minutes to complete. The information given is confidential and personal information will never be made public. We selected a random sample of households living in Cape Town, and your household happened to be in this sample. We then selected randomly one adult member of this household, you. Can you please help us with this research? If you have any questions, please ask me, or contact Citizen Surveys or the Centre for Social Science Research at the University of Cape Town. Here is some information about the project, including details of how to contact the researchers at the University of Cape Town. At the end of the interview, we shall give you a small gift as a token of our gratitude. First, I must ask you to sign this form to show that you consent to be interviewed.

**Interviewer: give the respondent the information sheet and ask them to sign the consent form overleaf.**

## Consent

The Cape Area Study is an ongoing study of life in Cape Town run by the Centre for Social Science Research at the University of Cape Town. This year (2005) we are examining what adults in Cape Town think about a number of issues, including the performance of local government, the neighbourhood, education, the future, and a range of social and political issues. This research will be used by students at the University of Cape Town and for books and articles about Cape Town.

- Your participation is entirely voluntary. You do not have to take part in the interview, and may stop at any time if you do not want to continue. You also have the right to skip any particular question or questions if you do not want to answer them.
- We expect that the interview will take approximately sixty minutes.
- All information collected for this study will be kept strictly confidential. Individual responses to our questions will never be made public, and no information which could identify you will ever be released.
- You have the right to ask questions at any point before the interview, during the interview, or after the interview is completed.
- If you would like to receive information about the findings of this study, please tell the interviewer at the end of the interview, check that your address is correct, and we will send you more information in due course.

By signing below, you signify that you agree to participate in the study.

Signature: \_\_\_\_\_

Date: \_\_\_\_\_ 2005

We ask for your name and contact details information *only* in case we need to contact you to check that the information was recorded correctly. We shall contact some of our interviewees in order to verify the information. Names and addresses will then be discarded; they will *not* be recorded on our computers.
