Steps of the Matching Process

MT. Matching the Targeting list with the SM and PL08 lists

- Prepare the preprinted form for the village/kelurahan, consisting of:
    1. Targeting Code
    2. Names of head of HH and spouse from Targeting list
    3. Survey Meter Baseline Code (Kode SM)
    4. Names of head of HH and spouse from Survey Meter Baseline list
    5. PL08 Code
    6. Names of head of HH and spouse from PL08 list
- Show the pre-printed form to the RT head
- Fill out the **MT07** column by circling the appropriate option regarding Kode SM:
    1. Kode SM is listed and accurate
    2. Kode SM is listed but inaccurate, write down new code in **MT08**
    3. Kode SM is listed but inaccurate, and this HH is not found in SM list
    4. Kode SM is not yet listed, write down the SM code in **MT08**
    5. Kode SM is not yet listed, and this HH is not found in the Survey Meter listing list
    6. Kode SM is not yet listed, and this HH does not live in this household (lives in another SLS, has moved, not known, has passed away, etc.)
- Fill out the **MT12** column by circling the appropriate option regarding PL08 Code:
    1. Kode PL08 is listed and accurate
    2. Kode PL08 is listed but inaccurate, write down new code in **MT13**
    3. Kode PL08 is listed but inaccurate, and this HH is not found in PL08 list
    4. Kode PL08 is not yet listed, write down the PL08 code in **MT08/MT13**
    5. Kode PL08 is not yet listed, and this HH is not found in PL 08 List
    6. Kode PL08 is not yet listed, and this HH does not live in this household (lives in another SLS, has moved, not known, has passed away, etc.)

LS. Matching the LS/SW list with the SM and PPLS lists
Instructions are the same with the MT module (replace all MT in column names with LS)

MS. Matching the Baseline List with the Targeting List
*** this module was deleted from our endline survey*

TN. Matching the TNP2K list with the PL11 list

- Fill out the **TN07** column by circling the appropriate option regarding PL11 codes:
    1. PL11 code is listed and accurate
    2. PL11 code is listed but inaccurate, write down new code in **TN08**
    3. PL11 code is listed but inaccurate, and this HH is not found in PL11 list
    4. PL11 code is not yet listed, write down the PL 11 code in **TN08**
    5. PL11 code is not yet listed, and this HH is not found in the PL11 list
    6. PL11 code is not yet listed, and this HH does not live in this household (lives in another SLS, has moved, not known, has passed away, etc.)
