2011

Housing and Population Census

Republic of Mauritius

Volume I: HOUSING AND LIVING CONDITIONS

FOREWORD

This year Mauritius took its eighteenth Census. The 2011 Housing and Population Census was taken in two rounds like the last four censuses conducted in 1972, 1983, 1990 and 2000. The Housing Census was conducted from 31 January to 19 June 2011 while the Population Census was taken from 20 June to 31 July 2011. The data processing for the Housing Census has been completed. The Population Census data are currently being captured through scanning and recognition technology. Data validation and coding are in progress. The operations are expected to be completed during the first semester of 2012. The longer delay is due to the larger volume and greater complexity of the population data as compared to the housing data.

This report is the first in the series showing the results of the 2011 Housing and Population Census in tabular form. It presents data on the Housing and Living Conditions in the Republic of Mauritius. As for the 1990 and 2000 Censuses, the 2011 Census data are being published down to the level of Municipal Wards or Village Council Areas. Sub-totals are provided for geographical districts as well as urban and rural areas within districts. Data for the Island of Agalega is also included. All tables include separate totals for the islands of Mauritius, Rodrigues and Agalega, and a grand total for the Republic of Mauritius.

It is hoped that the present report will be particularly useful to administrators, planners and policy-makers, and the public in general.

I wish to put on record my gratitude to all persons and organisations who have contributed in one way or another to the success of the census operations. In particular, I am thankful to members of the public for their co-operation, the census fieldstaff, the Mauritius Broadcasting Corporation, the Government Printer, the firm Urgence Informatique Europe which provided scanning services, and my own staff.

Concepts and definitions

Building	A building is any independent free-standing structure, comprising one or more rooms and other spaces, covered by a roof and usually enclosed within external walls or dividing walls which extend from the foundations to the roof. A building may be used or intended for residential, commercial and industrial purposes or for the provision of services. It may be a detached housing unit, a block of flats, shop, warehouse, factory, workshop, school, church, etc. Toilets, bathrooms, kitchens and garages in detached structures are not counted as separate buildings.
Housing Unit	A housing unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation, but occupied by a household for living purposes. Although intended for one household, a housing unit may be occupied by more than one household or by part of a household.
Room	A room is defined as a space in a housing unit enclosed by walls reaching from the floor to the ceiling or roof covering, or to a height of at least two metres. It is of a size large enough to hold a bed for an adult; that is, it has an area of at least four square metres.
Rooms for living Purposes	This category includes bedrooms, dining rooms, living rooms, studies, habitable attics and closed verandahs, which are used by a household for living purposes. Kitchens are included if they are at least 4 square metres in area. Open verandahs, corridors, lobbies, bathrooms, toilets, stores, garages not used for living purposes are not considered as rooms.
Detached room	This is a structure, without cooking facilities, which is occupied by one or more members of a household living in another building.
Household	<p>A household is either:</p> <ul style="list-style-type: none">(i) a one-person household, i.e., a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household; or(ii) a multi-person household, i.e., a group of two or more persons living together who make common provision for food or other essentials for living. The persons in the group may pool their incomes and have a common budget to a greater or lesser extent; they may be related or unrelated persons or a combination of both.

Households living in housing units have been referred to as private households to distinguish them from households in communal households such as collective quarters, hotels, infirmaries, hospitals and other institutions.

Homeless

A person who does not have a shelter. He carries his few possessions with him, sleeping under shop verandahs, in doorways, in the streets or in any other space on a more or less random basis. The following categories of persons are excluded:

- (i) Persons with no place of usual residence who move frequently between various types of accommodation (including dwellings, shelters or other living quarters);
- (ii) Persons usually resident in long-term (also called “transitional”) shelters or similar arrangements for the homeless.

(1) The types of building are as follows:

- 01 Building under construction and not inhabited
- 02 Building used wholly as one housing unit
- 03 Semi-detached houses containing more than one housing unit
- 04 Block of flats containing 3 or more housing units
- 05 Building intended to be used as one housing unit but crudely subdivided into smaller housing units
- 06 Other wholly residential building
- 07 Detached room intended to be used by part of a household
- 08 Building or structure occupied as improvised housing unit (e.g.longère, garage, tent)
- 09 Partly residential building
- 10 Tourist residence
- 11 Guest house
- 12 Hotel
- 13 Institutions (e.g Convent, Infirmary, Hospital, barracks)
- 14 Public building
- 15 Commercial building
- 16 Industrial building
- 17 Commercial and industrial building
- 18 Warehouse
- 19 Other non residential building

HOUSING AND POPULATION CENSUS

Republic of Mauritius

VOLUME II: DEMOGRAPHIC AND FERTILITY CHARACTERISTICS

October 2012

FOREWORD

This report is the second in the series showing the results of the 2011 Housing and Population Census. The first was published in November 2011 and contained the results of the Housing Census which preceded the Population Census by a few months. The present report presents data on the demographic and fertility characteristics of the population. The longer delay in producing the Population Census tables is due to the larger volume and greater complexity of the population data as compared to the housing data.

Data published in this report have been prepared at different geographical area levels. The code in the left-hand margin of the table of contents indicates the geographical level at which the tables are presented, namely, I: island level, D: district level and R: Municipal Council Ward and Village Council Area level.

Like all census data, the figures presented in the tables may still contain slight inaccuracies, which will be too costly to identify and correct. However, these do not in any way detract from the quality of the data and their usefulness. It is hoped that the present report will be particularly useful to administrators, planners and policy makers, and the public in general.

This report is the result of the efforts of many persons and organisations and I am grateful to all of them. In particular, I would like to thank members of the public for their understanding and co-operation, the census fieldstaff, the Mauritius Broadcasting Corporation, the Government Printer, the firm Urgence Informatique Europe which provided scanning services, and my own staff.

L.F.Cheung Kai Suet (Ms)

Introduction

1. Background

The history of census taking in Mauritius dates back to the eighteenth century. The Population Census conducted in year 2011 was the eighteenth for the Island of Mauritius and the eighth for the Island of Rodrigues.

2. Strategy

The 2011 Housing and Population Census, which cost about 200 million rupees and mobilised some 7,200 field officers, was taken in two distinct rounds: the Housing Census followed by the Population Census. The main reason for adopting this procedure was to obtain at the Housing Census a list of names and addresses of heads of households which served as frame for the Population Census.

The Housing Census was conducted from 31 January to 19 June 2011 and the Population Census from 20 June to 31 July 2011 in respect of all persons alive on the night of 3 - 4 July 2011.

The Population Census questionnaire, a copy of which is at the end of the report, was filled in by fieldstaff with information provided by respondents. The data was captured by making use of scanning and recognition technology. The software EDMS.Imaging ® was used to check for scanning errors and for correction using the Key from Image (KFI) technique. Coding was done through a computer-assisted program while validation and tabulation were done using the software Integrated Microcomputer Processing System (IMPS) for Censuses and Surveys, which was developed by the International Programs Center of the US Bureau of the Census.

3. Coverage

The Housing and Population Census covered the Islands of Mauritius, Rodrigues and Agalega. As regards St Brandon, only a count of persons spending the census night was made; these islands are mainly fishing outposts, with no permanent residents.

4. Population enumerated

The Census counted all persons present on Census night in all private households and communal establishments, including collective quarters, as well as usual residents who were absent on Census night. Combinations of answers to questions asked on whereabouts and usual address enable both the present population (de facto) and the resident population (de jure) counts.

At the 2011 Census the "de facto" population was 1,237,299 in the Republic of Mauritius whereas the resident population was 1,237,091. Census tables, unless otherwise stated, show the resident population; the distribution by the different islands was as follows:

Island	Area (sq. km)	Male	Female	Both sexes
Island of Mauritius	1,865	590,944	605,439	1,196,383
Island of Rodrigues	104	19,904	20,530	40,434
Agalega	70	174	100	274
St. Brandon	1	-	-	-
Republic of Mauritius	2,040	611,022	626,069	1,237,091

None of the published tables include Agalega and St. Brandon. The exclusion of the very small resident population in Agalega does not affect the usefulness of the tables. As for St. Brandon, there were no permanent residents at the time of the census, although 25 men, mostly fishermen, were present on the island on Census night.

5. Area level of tabulation

Different area levels of tabulation are used in this publication. An indication on the area levels at which tables are presented is given in the table of contents.

Several census tables have been prepared down to the level of Municipal Council Wards or Village Council Areas (MCW/VCA). Maps showing boundaries of the Municipal Council Wards and Village Council Areas are included in the Appendices together with a list of these areas within each district and their codes. All Municipal Ward and Village Council Area boundaries are given as they were on 3 July 2011, and all census data are in relation to these boundaries. Comparison of the 2011 Census data with the 2000 Census data at MCW/VCA level should be made with caution since there have been revisions of boundaries between the two censuses.

As regards Rodrigues, 6 local regions grouping adjacent localities were demarcated at the 2011 Census and some tables are published accordingly. A map showing the boundaries of these 6 local regions as well as a list of localities found therein are included in the Appendices.

6. Publication of results

The Housing Census data were published in November 2011 as Volume I of the series of the 2011 Census reports. The present report is the second in the series and contains data on the demographic and fertility characteristics of the population. In the coming month, several additional reports will be published showing information on economic, education, household, migration and disability characteristics.

7. Concepts, definitions and classifications

- (a) Household A household is either:
- (i) a one-person household, i.e., a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household; or
 - (ii) a multi-person household, i.e., a group of two or more persons living together who make common provision for food or other essentials for living. The persons in the group may pool their incomes and have a common budget to a greater or lesser extent; they may be related or unrelated persons or a combination of both.
- (b) Family nucleus A family nucleus is either a couple with or without unmarried children, or a lone parent with unmarried children.
- (c) Household type One person household is defined as a private household with only one usual resident.
- A nuclear household is defined as a private household consisting entirely of a single family nucleus.
- An extended household is defined as a private household consisting of any one of the following:
- (i) a single family nucleus plus other persons related to the nucleus
 - (ii) two or more family nuclei related to each other, without any other persons
 - (iii) two or more family nuclei related to each other with other persons related to at least one of the family nuclei
 - (iv) two or more persons related to each other, none of whom constitute a family nucleus

A composite household is defined as a private household consisting of any one of the following:

- (i) a single family nucleus plus other persons, some or none of whom being related to the nucleus
- (ii) two or more family nuclei related to each other plus other persons, some or none of whom being related to any of the nuclei
- (iii) two or more persons related to each other, none of whom constitute a family nucleus plus other unrelated persons
- (iv) two or more family nuclei not related to each other
- (v) Non-related persons only

- | | |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (d) Enumerated population | This category includes all persons who spent census night in the household (whether private or communal) as well as persons who usually live in the household but were absent on census night. |
| (e) Present population | This category includes all persons who spent census night in the household. |
| (f) Resident population | The resident population is a count of all usual residents of a country at the time of the census. For census purposes, "usual residence" is defined as the place at which the person lives at the time of the census, and has been there continuously for the past 12 months or intends to live there continuously for at least 12 months. |
| (g) Languages read and written (literacy) | Persons were asked to state the language(s) in which they could, with understanding, both read and write a short, simple statement in their everyday life. |
| (h) Educational attainment | <p>For persons not attending school, this refers to the highest level of education completed, whereas for persons attending school it refers to the standard, form or course being attended.</p> <p>Post-secondary education of the type that leads to an award not equivalent to a first university degree has been classified as vocational and technical training if the course has a "practical" orientation aimed at skilled and responsible employment.</p> |

- (i) Disability
- Persons were asked about any long-term disability, i.e. any limitation to perform a daily life activity in a manner considered normal for persons of their age.
- Persons were asked to report all disabilities that they had. However, each disabled person was counted only once. The classification used for tabulation is as follows:
- | | | |
|---------------|---|----------------------------------------------------------------------------------------------------------|
| EYE | - | A: Seeing even if wearing glasses |
| EAR | - | B: Hearing even if using a hearing aid |
| MTION | - | C: Walking or climbing stairs |
| LEARN | - | D: Remembering, concentrating or acquiring education and learning |
| PERSONAL CARE | - | E: Looking after oneself with regard to feeding, personal care and hygiene |
| SPEECH | - | F: Speaking and talking |
| MANU | - | G: Manual activities such as gripping and holding |
| BEHAVIOUR | - | H: Disturbances of behaviour, including antisocial behaviour, maladjustment and liability to self injury |
- (j) Currently employed
- This category includes (i) any person, aged 16 years and over who worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and (ii) any person who held a job during that week although he/she did not do any work. Work means any work for pay, profit or family gain, including self-employment with or without employees as well as work without pay in a family enterprise or farm; but it excludes housework in one's own home.
- (k) Currently unemployed
- These are persons aged 16 years and over who had not worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and did not hold a job during that week, and took active steps to look for work anytime during the previous 4 weeks, and were available for work during the week ending 3 July 2011.
- (l) Currently active
- This category consists of the currently employed and the currently unemployed population.

- | | |
|-------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (m) Currently inactive | This category consists of persons who were currently neither employed nor unemployed. |
| (n) Occupation | This was the job at which the person worked the most hours during the reference period. The National Standard Classification of Occupations, an adapted version of the 2008 International Standard Classification of Occupations was used for coding. |
| (o) Kind of business, industry or service | This was the kind of business, industry or service activities carried on at the person's place of work. The National Standard Industrial Classification of Economic Activities, based on the International Standard Industrial Classification of Economic Activities – ISIC Rev.4 of 2007, was used for coding. |

IN STRICT CONFIDENCE

REPUBLIC OF MAURITIUS
MINISTRY OF FINANCE & ECONOMIC DEVELOPMENT
CENTRAL STATISTICS OFFICE
POPULATION CENSUS (Night 3 - 4 July 2011)

Completion of the Questionnaire

Confidentiality

The census is being carried out under the Statistics Act 2000 which guarantees the confidentiality of personal information.

Who should be counted in this questionnaire?

- All persons present in the household on the Census night 3 - 4 July 2011 whether they are members of the household, visitors, guests, boarders or servants.
- All persons who usually live in the household but were away on census night.
- All persons who arrive on the premises and join the household on Monday 4 July 2011 without having been enumerated elsewhere.

How to complete the questionnaire?

1. Use a **BLACK** ballpoint pen of 0.7 mm diameter.
2. Shade check boxes like this

3. If you make a mistake, cross out the wrongly shaded check box, shade the appropriate box and circle it.

4. Write legibly in **CAPITAL** letters and keep each letter within 1 box; only leave a box to keep a space between words

SECONDARY EDUCATION

5. If you make a mistake, darken totally the wrong entries and continue the entries like this:

PRIMARY

Name, Address and Particulars of Household

G/DIST	MVCA	EA	BLOCK NO.	BUILDING NO.	HU NO.	HH NO.	HH TP

SURNAME

OTHER NAMES

NAME OF APARTMENT/FLAT

NO. & STREET/ROAD/LANE

LOCALITY

TOWN/VILLAGE

I. No. of Persons - Housing Census:

Total Male Female

II. No. of Persons - Population Census:

Total Male Female

III. Discrepancies: Yes ☐ No ☐

If «Yes», state reason(s):

1. Deceased ☐ 4. Birth..... ☐2. Marriage..... ☐ 5. Other ☐3. Split Households..... ☐

HOUSING AND POPULATION CENSUS

Republic of Mauritius

VOLUME III: EDUCATIONAL CHARACTERISTICS

October 2012

FOREWORD

This report is the third in the series showing the results of the 2011 Housing and Population Census. The first was published in November 2011 and contained the results of the Housing Census which preceded the Population Census by a few months. The second report covered the demographic and fertility characteristics of population while the present report presents data on the educational characteristics of the population. The longer delay in producing the Population Census tables is due to the larger volume and greater complexity of the population data as compared to the housing data.

Data published in this report have been prepared at different geographical area levels. The code in the left-hand margin of the table of contents indicates the geographical level at which the tables are presented, namely, I: island level, D: district level and R: Municipal Council Ward and Village Council Area level.

Like all census data, the figures presented in the tables may still contain slight inaccuracies, which will be too costly to identify and correct. However, these do not in any way detract from the quality of the data and their usefulness. It is hoped that the present report will be particularly useful to administrators, planners and policy makers, and the public in general.

This report is the result of the efforts of many persons and organisations and I am grateful to all of them. In particular, I would like to thank members of the public for their understanding and co-operation, the census fieldstaff, the Mauritius Broadcasting Corporation, the Government Printer, the firm Urgence Informatique Europe which provided scanning services, and my own staff.

L.F.Cheung Kai Suet (Ms)

Introduction

1. Background

The history of census taking in Mauritius dates back to the eighteenth century. The Population Census conducted in year 2011 was the eighteenth for the Island of Mauritius and the eighth for the Island of Rodrigues.

2. Strategy

The 2011 Housing and Population Census, which cost about 200 million rupees and mobilised some 7,200 field officers, was taken in two distinct rounds: the Housing Census followed by the Population Census. The main reason for adopting this procedure was to obtain at the Housing Census a list of names and addresses of heads of households which served as frame for the Population Census.

The Housing Census was conducted from 31 January to 19 June 2011 and the Population Census from 20 June to 31 July 2011 in respect of all persons alive on the night of 3 - 4 July 2011.

The Population Census questionnaire, a copy of which is at the end of the report, was filled in by fieldstaff with information provided by respondents. The data was captured by making use of scanning and recognition technology. The software EDMS.Imaging ® was used to check for scanning errors and for correction using the Key from Image (KFI) technique. Coding was done through a computer-assisted program while validation and tabulation were done using the software Integrated Microcomputer Processing System (IMPS) for Censuses and Surveys, which was developed by the International Programs Center of the US Bureau of the Census.

3. Coverage

The Housing and Population Census covered the Islands of Mauritius, Rodrigues and Agalega. As regards St Brandon, only a count of persons spending the census night was made; these islands are mainly fishing outposts, with no permanent residents.

4. Population enumerated

The Census counted all persons present on Census night in all private households and communal establishments, including collective quarters, as well as usual residents who were absent on Census night. Combinations of answers to questions asked on whereabouts and usual address enable both the present population (de facto) and the resident population (de jure) counts.

At the 2011 Census the "de facto" population was 1,237,299 in the Republic of Mauritius whereas the resident population was 1,237,091. Census tables, unless otherwise stated, show the resident population; the distribution by the different islands was as follows:

Island	Area (sq. km)	Male	Female	Both sexes
Island of Mauritius	1,865	590,944	605,439	1,196,383
Island of Rodrigues	104	19,904	20,530	40,434
Agalega	70	174	100	274
St. Brandon	1	-	-	-
Republic of Mauritius	2,040	611,022	626,069	1,237,091

None of the published tables include Agalega and St. Brandon. The exclusion of the very small resident population in Agalega does not affect the usefulness of the tables. As for St. Brandon, there were no permanent residents at the time of the census, although 25 men, mostly fishermen, were present on the island on Census night.

5. Area level of tabulation

Different area levels of tabulation are used in this publication. An indication on the area levels at which tables are presented is given in the table of contents.

Several census tables have been prepared down to the level of Municipal Council Wards or Village Council Areas (MCW/VCA). Maps showing boundaries of the Municipal Council Wards and Village Council Areas are included in the Appendices together with a list of these areas within each district and their codes. All Municipal Ward and Village Council Area boundaries are given as they were on 3 July 2011, and all census data are in relation to these boundaries. Comparison of the 2011 Census data with the 2000 Census data at MCW/VCA level should be made with caution since there have been revisions of boundaries between the two censuses.

As regards Rodrigues, 6 local regions grouping adjacent localities were demarcated at the 2011 Census and some tables are published accordingly. A map showing the boundaries of these 6 local regions as well as a list of localities found therein are included in the Appendices.

6. Publication of results

The Housing Census data were published in November 2011 as Volume I of the series of the 2011 Census reports. Volume II dealt with demographic and fertility characteristics while this report deals with educational characteristics. Several additional reports will follow; these will give information on economic, household, migration and disability characteristics.

7. Concepts, definitions and classifications

(a) Household

A household is either:

- (i) a one-person household, i.e., a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household; or
- (ii) a multi-person household, i.e., a group of two or more persons living together who make common provision for food or other essentials for living. The persons in the group may pool their incomes and have a common budget to a greater or lesser extent; they may be related or unrelated persons or a combination of both.

(b) Family nucleus

A family nucleus is either a couple with or without unmarried children, or a lone parent with unmarried children.

(c) Household type

One person household is defined as a private household with only one usual resident.

A nuclear household is defined as a private household consisting entirely of a single family nucleus.

An extended household is defined as a private household consisting of any one of the following:

- (i) a single family nucleus plus other persons related to the nucleus
- (ii) two or more family nuclei related to each other, without any other persons
- (iii) two or more family nuclei related to each other with other persons related to at least one of the family nuclei
- (iv) two or more persons related to each other, none of whom constitute a family nucleus

A composite household is defined as a private household consisting of any one of the following:

- (i) a single family nucleus plus other persons, some or none of whom being related to the nucleus
- (ii) two or more family nuclei related to each other plus other persons, some or none of whom being related to any of the nuclei
- (iii) two or more persons related to each other, none of whom constitute a family nucleus plus other unrelated persons
- (iv) two or more family nuclei not related to each other
- (v) Non-related persons only

- (d) Enumerated population This category includes all persons who spent census night in the household (whether private or communal) as well as persons who usually live in the household but were absent on census night.
- (e) Present population This category includes all persons who spent census night in the household.
- (f) Resident population The resident population is a count of all usual residents of a country at the time of the census. For census purposes, "usual residence" is defined as the place at which the person lives at the time of the census, and has been there continuously for the past 12 months or intends to live there continuously for at least 12 months.
- (g) Languages read and
written (literacy) Persons were asked to state the language(s) in which they could, with understanding, both read and write a short, simple statement in their everyday life.
- (h) Educational attainment For persons not attending school, this refers to the highest level of education completed, whereas for persons attending school it refers to the standard, form or course being attended.

Post-secondary education of the type that leads to an award not equivalent to a first university degree has been classified as vocational and technical training if the course has a "practical" orientation aimed at skilled and

responsible employment.

(i) Disability

Persons were asked about any long-term disability, i.e. any limitation to perform a daily life activity in a manner considered normal for persons of their age.

Persons were asked to report all disabilities that they had. However, each disabled person was counted only once. The classification used for tabulation is as follows:

EYE	-	A: Seeing even if wearing glasses
EAR	-	B: Hearing even if using a hearing aid
MTION	-	C: Walking or climbing stairs
LEARN	-	D: Remembering, concentrating or acquiring education and learning
PERSONAL CARE	-	E: Looking after oneself with regard to feeding, personal care and hygiene
SPEECH	-	F: Speaking and talking
MANU	-	G: Manual activities such as gripping and holding
BEHAVIOUR	-	H: Disturbances of behaviour, including antisocial behaviour, maladjustment and liability to self injury

(j) Currently employed

This category includes (i) any person, aged 16 years and over who worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and (ii) any person who held a job during that week although he/she did not do any work. Work means any work for pay, profit or family gain, including self-employment with or without employees as well as work without pay in a family enterprise or farm; but it excludes housework in one's own home.

(k) Currently unemployed

These are persons aged 16 years and over who had not worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and did not hold a job during that week, and took active steps to look for work anytime during the previous 4 weeks, and were available for work during the week ending 3 July 2011.

(l) Currently active

This category consists of the currently employed and the currently unemployed population.

(m)Currently inactive	This category consists of persons who were currently neither employed nor unemployed.
(n) Occupation	This was the job at which the person worked the most hours during the reference period. The National Standard Classification of Occupations, an adapted version of the 2008 International Standard Classification of Occupations was used for coding.
(o) Kind of business, industry or service	This was the kind of business, industry or service activities carried on at the person's place of work. The National Standard Industrial Classification of Economic Activities, based on the International Standard Industrial Classification of Economic Activities – ISIC Rev.4 of 2007, was used for coding.

Description of International Standard Classification of Education (ISCED-97) codes by level

ISCED LEVEL	DESCRIPTION
0	Pre-primary education
1	Primary education - <i>Standard 1 to CPE</i>
2	Lower Secondary education - <i>Form I to III; academic and pre-vocational</i>
3	Upper Secondary education - <i>Form IV to HSC and NTC Level 3</i>
4	Post-secondary non-tertiary education - <i>NTC Level 2</i>
5a	First Stage of Tertiary education (provides sufficient qualifications for gaining entry into advanced research programmes and professions with high skills requirements) - <i>Diploma</i>
5b	First Stage of Tertiary education (provides practical oriented/occupationally specific training, the successful completion of which usually provides the participants with a labour-market relevant qualification) - <i>Degree and Masters Degree</i>
6	Second Stage of Tertiary education (leading to an advanced research qualification) - <i>Mphil and PhD</i>

CPE: Certificate of Primary Education

SC: School Certificate

HSC: Higher School Certificate

NTC: National Trade Certificate

IN STRICT CONFIDENCE

REPUBLIC OF MAURITIUS
MINISTRY OF FINANCE & ECONOMIC DEVELOPMENT
CENTRAL STATISTICS OFFICE
POPULATION CENSUS (Night 3 - 4 July 2011)

Completion of the Questionnaire

Confidentiality

The census is being carried out under the Statistics Act 2000 which guarantees the confidentiality of personal information.

Who should be counted in this questionnaire?

- All persons present in the household on the Census night 3 - 4 July 2011 whether they are members of the household, visitors, guests, boarders or servants.
- All persons who usually live in the household but were away on census night.
- All persons who arrive on the premises and join the household on Monday 4 July 2011 without having been enumerated elsewhere.

How to complete the questionnaire?

1. Use a **BLACK** ballpoint pen of 0.7 mm diameter.
2. Shade check boxes like this

3. If you make a mistake, cross out the wrongly shaded check box, shade the appropriate box and circle it.

4. Write legibly in **CAPITAL** letters and keep each letter within 1 box; only leave a box to keep a space between words

SECONDARY EDUCATION

5. If you make a mistake, darken totally the wrong entries and continue the entries like this:

PRIMARY

Name, Address and Particulars of Household

G/DIST	MVCA	EA	BLOCK NO.	BUILDING NO.	HU NO.	HH NO.	HH TP

SURNAME

OTHER NAMES

NAME OF APARTMENT/FLAT

NO. & STREET/ROAD/LANE

LOCALITY

TOWN/VILLAGE

I. No. of Persons - Housing Census:

Total Male Female

--	--	--

II. No. of Persons - Population Census:

Total Male Female

--	--	--

III. Discrepancies: Yes ☐ No ☐

If «Yes», state reason(s):

- | | | | |
|--------------------------|--------------------------|----------------|--------------------------|
| 1. Deceased | <input type="checkbox"/> | 4. Birth..... | <input type="checkbox"/> |
| 2. Marriage..... | <input type="checkbox"/> | 5. Other | <input type="checkbox"/> |
| 3. Split Households..... | <input type="checkbox"/> | | |

iv. Number of questionnaires completed for this household:

v. Barcode of the first questionnaire for this household:

Remarks:

Enumerator ID:

Name of Enumerator:

Signature of the Enumerator:

COMPLETE A LINE FOR EVERY PERSON PRESENT ON CENSUS NIGHT (3 - 4 JULY 2011) AND ALSO FOR EVERY PERSON WHO USUALLY LIVES IN THE HOUSEHOLD BUT WAS ABSENT ON CENSUS NIGHT

2011

HOUSING AND POPULATION CENSUS

Republic of Mauritius

VOLUME IV: DISABILITY

October 2012

FOREWORD

This report is the fourth in the series showing the results of the 2011 Housing and Population Census. The first was published in November 2011 and contained the results of the Housing Census which preceded the Population Census by a few months. The previous two reports covered the demographic and fertility characteristics and the educational characteristics of the population. The present one deals with disability.

Data published in this report have been prepared at different geographical area levels. The code in the left-hand margin of the table of contents indicates the geographical level at which the tables are presented, namely, I: island level, D: district level and R: Municipal Council Ward and Village Council Area level.

Like all census data, the figures presented in the tables may still contain slight inaccuracies, which will be too costly to identify and correct. However, these do not in any way detract from the quality of the data and their usefulness. It is hoped that the present report will be particularly useful to administrators, planners and policy makers, and the public in general.

This report is the result of the efforts of many persons and organisations and I am grateful to all of them. In particular, I would like to thank members of the public for their understanding and co-operation, the census fieldstaff, the Mauritius Broadcasting Corporation, the Government Printer, the firm Urgence Informatique Europe which provided scanning services, and my own staff.

L.F.Cheung Kai Suet (Ms)

	Specimen of Population Census questionnaire	73

Introduction

1. Background

The history of census taking in Mauritius dates back to the eighteenth century. The Population Census conducted in year 2011 was the eighteenth for the Island of Mauritius and the eighth for the Island of Rodrigues.

2. Strategy

The 2011 Housing and Population Census, which cost about 200 million rupees and mobilised some 7,200 field officers, was taken in two distinct rounds: the Housing Census followed by the Population Census. The main reason for adopting this procedure was to obtain at the Housing Census a list of names and addresses of heads of households which served as frame for the Population Census.

The Housing Census was conducted from 31 January to 19 June 2011 and the Population Census from 20 June to 31 July 2011 in respect of all persons alive on the night of 3 - 4 July 2011.

The Population Census questionnaire, a copy of which is at the end of the report, was filled in by fieldstaff with information provided by respondents. The data was captured by making use of scanning and recognition technology. The software EDMS.Imaging ® was used to check for scanning errors and for correction using the Key from Image (KFI) technique. Coding was done through a computer-assisted program while validation and tabulation were done using the software Integrated Microcomputer Processing System (IMPS) for Censuses and Surveys, which was developed by the International Programs Center of the US Bureau of the Census.

3. Coverage

The Housing and Population Census covered the Islands of Mauritius, Rodrigues and Agalega. As regards St Brandon, only a count of persons spending the census night was made; these islands are mainly fishing outposts, with no permanent residents.

4. Population enumerated

The Census counted all persons present on Census night in all private households and communal establishments, including collective quarters, as well as usual residents who were absent on Census night. Combinations of answers to questions asked on whereabouts and usual address enable both the present population (de facto) and the resident population (de jure) counts.

At the 2011 Census the "de facto" population was 1,237,299 in the Republic of Mauritius whereas the resident population was 1,237,091. Census tables, unless otherwise stated, show the resident population; the distribution by the different islands was as follows:

Island	Area (sq. km)	Male	Female	Both sexes
Island of Mauritius	1,865	590,944	605,439	1,196,383
Island of Rodrigues	104	19,904	20,530	40,434
Agalega	70	174	100	274
St. Brandon	1	-	-	-
Republic of Mauritius	2,040	611,022	626,069	1,237,091

None of the published tables include Agalega and St. Brandon. The exclusion of the very small resident population in Agalega does not affect the usefulness of the tables. As for St. Brandon, there were no permanent residents at the time of the census, although 25 men, mostly fishermen, were present on the island on Census night.

5. Area level of tabulation

Different area levels of tabulation are used in this publication. An indication on the area levels at which tables are presented is given in the table of contents.

Several census tables have been prepared down to the level of Municipal Council Wards or Village Council Areas (MCW/VCA). Maps showing boundaries of the Municipal Council Wards and Village Council Areas are included in the Appendices together with a list of these areas within each district and their codes. All Municipal Ward and Village Council Area boundaries are given as they were on 3 July 2011, and all census data are in relation to these boundaries. Comparison of the 2011 Census data with the 2000 Census data at MCW/VCA level should be made with caution since there have been revisions of boundaries between the two censuses.

As regards Rodrigues, 6 local regions grouping adjacent localities were demarcated at the 2011 Census and some tables are published accordingly. A map showing the boundaries of these 6 local regions as well as a list of localities found therein are included in the Appendices.

6. Publication of results

The Housing Census data were published in November 2011 as Volume I of the series of the 2011 Census reports. Volume II dealt with demographic and fertility characteristics while Volume III dealt with educational characteristics of the population. The present one deals with disability. Several additional reports will follow; these will give information on economic, household and migration characteristics.

7. Concepts, definitions and classifications

- (a) Household A household is either:
- (i) a one-person household, i.e., a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household; or
 - (ii) a multi-person household, i.e., a group of two or more persons living together who make common provision for food or other essentials for living. The persons in the group may pool their incomes and have a common budget to a greater or lesser extent; they may be related or unrelated persons or a combination of both.
- (b) Family nucleus A family nucleus is either a couple with or without unmarried children, or a lone parent with unmarried children.
- (c) Household type One person household is defined as a private household with only one usual resident.
- A nuclear household is defined as a private household consisting entirely of a single family nucleus.
- An extended household is defined as a private household consisting of any one of the following:
- (i) a single family nucleus plus other persons related to the nucleus
 - (ii) two or more family nuclei related to each other, without any other persons
 - (iii) two or more family nuclei related to each other with other persons related to at least one of the family nuclei
 - (iv) two or more persons related to each other, none of whom constitute a family nucleus

A composite household is defined as a private household consisting of any one of the following:

- (i) a single family nucleus plus other persons, some or none of whom being related to the nucleus
- (ii) two or more family nuclei related to each other plus other persons, some or none of whom being related to any of the nuclei
- (iii) two or more persons related to each other, none of whom constitute a family nucleus plus other unrelated persons
- (iv) two or more family nuclei not related to each other
- (v) Non-related persons only

- | | |
|-------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (d) Enumerated population | This category includes all persons who spent census night in the household (whether private or communal) as well as persons who usually live in the household but were absent on census night. |
| (e) Present population | This category includes all persons who spent census night in the household. |
| (f) Resident population | The resident population is a count of all usual residents of a country at the time of the census. For census purposes, "usual residence" is defined as the place at which the person lives at the time of the census, and has been there continuously for the past 12 months or intends to live there continuously for at least 12 months. |
| (g) Languages read and written (literacy) | Persons were asked to state the language(s) in which they could, with understanding, both read and write a short, simple statement in their everyday life. |
| (h) Educational attainment | <p>For persons not attending school, this refers to the highest level of education completed, whereas for persons attending school it refers to the standard, form or course being attended.</p> <p>Post-secondary education of the type that leads to an award not equivalent to a first university degree has been classified as vocational and technical training if the course has a "practical" orientation aimed at skilled and</p> |

responsible employment.

(i) Disability

Persons were asked about any long-term disability, i.e. any limitation to perform a daily life activity in a manner considered normal for persons of their age.

Persons were asked to report all disabilities that they had. However, each disabled person was counted only once. The classification used for tabulation is as follows:

EYE	-	A: Seeing even if wearing glasses
EAR	-	B: Hearing even if using a hearing aid
MTION	-	C: Walking or climbing stairs
LEARN	-	D: Remembering, concentrating or acquiring education and learning
PERSONAL CARE	-	E: Looking after oneself with regard to feeding, personal care and hygiene
SPEECH	-	F: Speaking and talking
MANU	-	G: Manual activities such as gripping and holding
BEHAVIOUR	-	H: Disturbances of behaviour, including antisocial behaviour, maladjustment and liability to self injury

(j) Currently employed

This category includes (i) any person, aged 16 years and over who worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and (ii) any person who held a job during that week although he/she did not do any work. Work means any work for pay, profit or family gain, including self-employment with or without employees as well as work without pay in a family enterprise or farm; but it excludes housework in one's own home.

(k) Currently unemployed

These are persons aged 16 years and over who had not worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and did not hold a job during that week, and took active steps to look for work anytime during the previous 4 weeks, and were available for work during the week ending 3 July 2011.

(l) Currently active

This category consists of the currently employed and the currently unemployed population.

- | | |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| (m) Currently inactive | This category consists of persons who were currently neither employed nor unemployed. |
| (n) Occupation | This was the job at which the person worked the most hours during the reference period. The National Standard Classification of Occupations, an adapted version of the 2008 International Standard Classification of Occupations was used for coding. |
| (o) Kind of business,
industry or
service | This was the kind of business, industry or service activities carried on at the person's place of work. The National Standard Industrial Classification of Economic Activities, based on the International Standard Industrial Classification of Economic Activities – ISIC Rev.4 of 2007, was used for coding. |

F	Construction	T	Activities of households as employers; undifferentiated goods and services-producing activities of households for own use
G	Wholesale and retail trade; repair of motor vehicles and motorcycles	U	Activities of extra territorial organisations and bodies
H	Transportation and storage		
I	Accommodation and food service activities		
J	Information and communication		
K	Financial and insurance activities		
L	Real estate activities		
M	Professional, scientific and technical activities		
N	Administrative and support service activities		

IN STRICT CONFIDENCE

REPUBLIC OF MAURITIUS
MINISTRY OF FINANCE & ECONOMIC DEVELOPMENT
CENTRAL STATISTICS OFFICE
POPULATION CENSUS (Night 3 - 4 July 2011)

Completion of the Questionnaire

Confidentiality

The census is being carried out under the Statistics Act 2000 which guarantees the confidentiality of personal information.

Who should be counted in this questionnaire?

- All persons present in the household on the Census night 3 - 4 July 2011 whether they are members of the household, visitors, guests, boarders or servants.
- All persons who usually live in the household but were away on census night.
- All persons who arrive on the premises and join the household on Monday 4 July 2011 without having been enumerated elsewhere.

How to complete the questionnaire?

1. Use a **BLACK** ballpoint pen of 0.7 mm diameter.
2. Shade check boxes like this

3. If you make a mistake, cross out the wrongly shaded check box, shade the appropriate box and circle it.

4. Write legibly in **CAPITAL** letters and keep each letter within 1 box; only leave a box to keep a space between words

SECONDARY EDUCATION

5. If you make a mistake, darken totally the wrong entries and continue the entries like this:

PRIMARY

Name, Address and Particulars of Household

G/DIST	MVCA	EA	BLOCK NO.	BUILDING NO.	HU NO.	HH NO.	HH TP

SURNAME

OTHER NAMES

NAME OF APARTMENT/FLAT

NO. & STREET/ROAD/LANE

LOCALITY

TOWN/VILLAGE

I. No. of Persons - Housing Census:

Total Male Female

II. No. of Persons - Population Census:

Total Male Female

III. Discrepancies: Yes ☐ No ☐

If «Yes», state reason(s):

1. Deceased ☐ 4. Birth ☐2. Marriage ☐ 5. Other ☐3. Split Households ☐**iv. Number of questionnaires completed for this household:****v. Barcode of the first questionnaire for this household:**

Remarks: _____

Enumerator ID:

Name of Enumerator: _____ Signature of the Enumerator: _____

COMPLETE A LINE FOR EVERY PERSON PRESENT ON CENSUS NIGHT (3 - 4 JULY 2011) AND ALSO FOR EVERY PERSON WHO USUALLY LIVES IN THE HOUSEHOLD BUT WAS ABSENT ON CENSUS NIGHT

2011

HOUSING AND POPULATION CENSUS

Republic of Mauritius

VOLUME V: ECONOMIC CHARACTERISTICS

October 2012

FOREWORD

This report is the fifth in the series showing the results of the 2011 Housing and Population Census. The first was published in November 2011 and contained the results of the Housing Census which preceded the Population Census by a few months. The second report covered the demographic and fertility characteristics of population while the present report presents data on the economic characteristics of the population. The longer delay in producing the Population Census tables is due to the larger volume and greater complexity of the population data as compared to the housing data.

Data published in this report have been prepared at different geographical area levels. The code in the left-hand margin of the table of contents indicates the geographical level at which the tables are presented, namely, I: island level, D: district level and R: Municipal Council Ward and Village Council Area level.

Like all census data, the figures presented in the tables may still contain slight inaccuracies, which will be too costly to identify and correct. However, these do not in any way detract from the quality of the data and their usefulness. It is hoped that the present report will be particularly useful to administrators, planners and policy makers, and the public in general.

This report is the result of the efforts of many persons and organisations and I am grateful to all of them. In particular, I would like to thank members of the public for their understanding and co-operation, the census fieldstaff, the Mauritius Broadcasting Corporation, the Government Printer, the firm Urgence Informatique Europe which provided scanning services, and my own staff.

L.F.Cheung Kai Suet (Ms)

F	Construction	T	Activities of households as employers; undifferentiated goods and services-producing activities of households for own use
G	Wholesale and retail trade; repair of motor vehicles and motorcycles	U	Activities of extra territorial organisations and bodies
H	Transportation and storage		
I	Accommodation and food service activities		
J	Information and communication		
K	Financial and insurance activities		
L	Real estate activities		
M	Professional, scientific and technical activities		
N	Administrative and support service activities		

IN STRICT CONFIDENCE

REPUBLIC OF MAURITIUS
MINISTRY OF FINANCE & ECONOMIC DEVELOPMENT
CENTRAL STATISTICS OFFICE
POPULATION CENSUS (Night 3 - 4 July 2011)

Completion of the Questionnaire

Confidentiality

The census is being carried out under the Statistics Act 2000 which guarantees the confidentiality of personal information.

Who should be counted in this questionnaire?

- All persons present in the household on the Census night 3 - 4 July 2011 whether they are members of the household, visitors, guests, boarders or servants.
- All persons who usually live in the household but were away on census night.
- All persons who arrive on the premises and join the household on Monday 4 July 2011 without having been enumerated elsewhere.

How to complete the questionnaire?

1. Use a **BLACK** ballpoint pen of 0.7 mm diameter.
2. Shade check boxes like this

3. If you make a mistake, cross out the wrongly shaded check box, shade the appropriate box and circle it.

4. Write legibly in **CAPITAL** letters and keep each letter within 1 box; only leave a box to keep a space between words

SECONDARY EDUCATION

5. If you make a mistake, darken totally the wrong entries and continue the entries like this:

PRIMARY

Name, Address and Particulars of Household

G/DIST	MVCA	EA	BLOCK NO.	BUILDING NO.	HU NO.	HH NO.	HH TP

SURNAME

OTHER NAMES

NAME OF APARTMENT/FLAT

NO. & STREET/ROAD/LANE

LOCALITY

TOWN/VILLAGE

I. No. of Persons - Housing Census:

Total Male Female

--	--	--

II. No. of Persons - Population Census:

Total Male Female

--	--	--

III. Discrepancies: Yes ☐ No ☐

If «Yes», state reason(s):

- | | | | |
|--------------------------|--------------------------|---------------|--------------------------|
| 1. Deceased..... | <input type="checkbox"/> | 4. Birth..... | <input type="checkbox"/> |
| 2. Marriage..... | <input type="checkbox"/> | 5. Other..... | <input type="checkbox"/> |
| 3. Split Households..... | <input type="checkbox"/> | | |

iv. Number of questionnaires completed for this household:

v. Barcode of the first questionnaire for this household:

Remarks:

Enumerator ID:

Name of Enumerator:

Signature of the Enumerator:

COMPLETE A LINE FOR EVERY PERSON PRESENT ON CENSUS NIGHT (3 - 4 JULY 2011) AND ALSO FOR EVERY PERSON WHO USUALLY LIVES IN THE HOUSEHOLD BUT WAS ABSENT ON CENSUS NIGHT

FOR PERSONS AGED 12 YEARS AND OVER

The following questions refer to the person's work during the reference week Monday 27 June to Sunday 3 July 2011. If the person is retired or had no job during that week, answer for his/her last job. If the person has more than one job, answer for the job at which he/she worked the most hours.

P01 Person Number	P29 Name of establishment	P30 Kind of business, industry or service	P31A Place of work	P31B Place of work
	Write the name of the establishment, firm, government institution, etc., for which the person worked. If establishment has no name, give name of employer. If self-employed, write the name of business shop, agency, etc., or write the person's own name. If working for a private household (e.g. cook, gardener, etc.), write «PRIVATE HOUSEHOLD».	Write FULLY the kind of business, industry or service activities carried out at the person's place of work. Use precise terms such as SUGAR CANE CULTIVATION, SUGAR MANUFACTURING, CAR REPAIRS, PRIMARY EDUCATION, etc.	State if: 1 Fixed place of work outside home 2 No fixed place of work 3 Worked at home 4 Worked outside Mauritius	If P31A-1, write full address including municipal ward/village council area/locality. If P31A-2, write address where the person reported for work or the place where he/she worked the most. If P31A-3, write «HOME». If P31A-4, write the country.

2011

HOUSING AND POPULATION CENSUS

Republic of Mauritius

VOLUME VI: Geographical and migration characteristics

October 2012

FOREWORD

This report is the sixth in the series showing the results of the 2011 Housing and Population Census. The first was published in November 2011 and contained the results of the Housing Census which preceded the Population Census by a few months. The previous four reports covered the demographic and fertility characteristics, the educational characteristics, the disability characteristics and the economic characteristics of the population. This report deals with the geographical and migration characteristics.

Data published in this report have been prepared at different geographical area levels. The code in the left-hand margin of the table of contents indicates the geographical level at which the tables are presented, namely, I: island level, D: district level and R: Municipal Council Ward and Village Council Area level.

Like all census data, the figures presented in the tables may still contain slight inaccuracies, which will be too costly to identify and correct. However, these do not in any way detract from the quality of the data and their usefulness. It is hoped that the present report will be particularly useful to administrators, planners and policy makers, and the public in general.

This report is the result of the efforts of many persons and organisations and I am grateful to all of them. In particular, I would like to thank members of the public for their understanding and co-operation, the census fieldstaff, the Mauritius Broadcasting Corporation, the Government Printer, the firm Urgence Informatique Europe which provided scanning services, and my own staff.

L.F.Cheung Kai Suet (Ms)
Director of Statistics

	Appendix III - Map of Island of Rodrigues showing the six regions for which data are tabulated separately	35
	Appendix IV - List of localities within each local region defined for Rodrigues	36
	Specimen of Population Census questionnaire	37

Introduction

1. Background

The history of census taking in Mauritius dates back to the eighteenth century. The Population Census conducted in year 2011 was the eighteenth for the Island of Mauritius and the eighth for the Island of Rodrigues.

2. Strategy

The 2011 Housing and Population Census, which cost about 200 million rupees and mobilised some 7,200 field officers, was taken in two distinct rounds: the Housing Census followed by the Population Census. The main reason for adopting this procedure was to obtain at the Housing Census a list of names and addresses of heads of households which served as frame for the Population Census.

The Housing Census was conducted from 31 January to 19 June 2011 and the Population Census from 20 June to 31 July 2011 in respect of all persons alive on the night of 3 - 4 July 2011.

The Population Census questionnaire, a copy of which is at the end of the report, was filled in by fieldstaff with information provided by respondents. The data was captured by making use of scanning and recognition technology. The software EDMS.Imaging ® was used to check for scanning errors and for correction using the Key from Image (KFI) technique. Coding was done through a computer-assisted program while validation and tabulation were done using the software Integrated Microcomputer Processing System (IMPS) for Censuses and Surveys, which was developed by the International Programs Center of the US Bureau of the Census.

3. Coverage

The Housing and Population Census covered the Islands of Mauritius, Rodrigues and Agalega. As regards St Brandon, only a count of persons spending the census night was made; these islands are mainly fishing outposts, with no permanent residents.

4. Population enumerated

The Census counted all persons present on Census night in all private households and communal establishments, including collective quarters, as well as usual residents who were absent on Census night. Combinations of answers to questions asked on whereabouts and usual address enable both the present population (de facto) and the resident population (de jure) counts.

At the 2011 Census the "de facto" population was 1,237,299 in the Republic of Mauritius whereas the resident population was 1,237,091. Census tables, unless otherwise stated, show the resident population; the distribution by the different islands was as follows:

Island	Area (sq. km)	Male	Female	Both sexes
Island of Mauritius	1,865	590,944	605,439	1,196,383
Island of Rodrigues	104	19,904	20,530	40,434
Agalega	70	174	100	274
St. Brandon	1	-	-	-
Republic of Mauritius	2,040	611,022	626,069	1,237,091

None of the published tables include Agalega and St. Brandon. The exclusion of the very small resident population in Agalega does not affect the usefulness of the tables. As for St. Brandon, there were no permanent residents at the time of the census, although 25 men, mostly fishermen, were present on the island on Census night.

5. Area level of tabulation

Different area levels of tabulation are used in this publication. An indication on the area levels at which tables are presented is given in the table of contents.

Several census tables have been prepared down to the level of Municipal Council Wards or Village Council Areas (MCW/VCA). Maps showing boundaries of the Municipal Council Wards and Village Council Areas are included in the Appendices together with a list of these areas within each district and their codes. All Municipal Ward and Village Council Area boundaries are given as they were on 3 July 2011, and all census data are in relation to these boundaries. Comparison of the 2011 Census data with the 2000 Census data at MCW/VCA level should be made with caution since there have been revisions of boundaries between the two censuses.

As regards Rodrigues, 6 local regions grouping adjacent localities were demarcated at the 2011 Census and some tables are published accordingly. A map showing the boundaries of these 6 local regions as well as a list of localities found therein are included in the Appendices.

6. Publication of results

The Housing Census data were published in November 2011 as Volume I of the series of the 2011 Census reports. The previous four reports covered the demographic and fertility characteristics, the educational characteristics, the disability characteristics and the economic characteristics of the population. This report deals with the geographical and migration characteristics and will be followed by the publication of an additional report on economic characteristics of the population.

7. Concepts, definitions and classifications

(a) Household

A household is either:

- (i) a one-person household, i.e., a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household; or
- (ii) a multi-person household, i.e., a group of two or more persons living together who make common provision for food or other essentials for living. The persons in the group may pool their incomes and have a common budget to a greater or lesser extent; they may be related or unrelated persons or a combination of both.

(b) Family nucleus

A family nucleus is either a couple with or without unmarried children, or a lone parent with unmarried children.

(c) Household type

One person household is defined as a private household with only one usual resident.

A nuclear household is defined as a private household consisting entirely of a single family nucleus.

An extended household is defined as a private household consisting of any one of the following:

- (i) a single family nucleus plus other persons related to the nucleus
- (ii) two or more family nuclei related to each other, without any other persons
- (iii) two or more family nuclei related to each other with other persons related to at least one of the family nuclei
- (iv) two or more persons related to each other, none of whom constitute a family nucleus

A composite household is defined as a private household consisting of any one of the following:

- (i) a single family nucleus plus other persons, some or none of whom being related to the nucleus
- (ii) two or more family nuclei related to each other plus other persons, some or none of whom being related to any of the nuclei
- (iii) two or more persons related to each other, none of whom constitute a family nucleus plus other unrelated persons
- (iv) two or more family nuclei not related to each other
- (v) Non-related persons only

- (d) Enumerated population This category includes all persons who spent census night in the household (whether private or communal) as well as persons who usually live in the household but were absent on census night.
- (e) Present population This category includes all persons who spent census night in the household.
- (f) Resident population The resident population is a count of all usual residents of a country at the time of the census. For census purposes, “usual residence” is defined as the place at which the person lives at the time of the census, and has been there continuously for the past 12 months or intends to live there continuously for at least 12 months.
- (g) Languages read and written (literacy) Persons were asked to state the language(s) in which they could, with understanding, both read and write a short, simple statement in their everyday life.
- (h) Educational attainment For persons not attending school, this refers to the highest level of education completed, whereas for persons attending school it refers to the standard, form or course being attended.

Post-secondary education of the type that leads to an award not equivalent to a first university degree has been classified as vocational and technical training if the course has a "practical" orientation aimed at skilled and

responsible employment.

(i) Disability

Persons were asked about any long-term disability, i.e. any limitation to perform a daily life activity in a manner considered normal for persons of their age.

Persons were asked to report all disabilities that they had. However, each disabled person was counted only once. The classification used for tabulation is as follows:

EYE	-	A: Seeing even if wearing glasses
EAR	-	B: Hearing even if using a hearing aid
MTION	-	C: Walking or climbing stairs
LEARN	-	D: Remembering, concentrating or acquiring education and learning
PERSONAL CARE	-	E: Looking after oneself with regard to feeding, personal care and hygiene
SPEECH	-	F: Speaking and talking
MANU	-	G: Manual activities such as gripping and holding
BEHAVIOUR	-	H: Disturbances of behaviour, including antisocial behaviour, maladjustment and liability to self injury

(j) Currently employed

This category includes (i) any person, aged 16 years and over who worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and (ii) any person who held a job during that week although he/she did not do any work. Work means any work for pay, profit or family gain, including self-employment with or without employees as well as work without pay in a family enterprise or farm; but it excludes housework in one's own home.

(k) Currently unemployed

These are persons aged 16 years and over who had not worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and did not hold a job during that week, and took active steps to look for work anytime during the previous 4 weeks, and were available for work during the week ending 3 July 2011.

(l) Currently active

This category consists of the currently employed and the currently unemployed population.

(m) Currently inactive	This category consists of persons who were currently neither employed nor unemployed.
(n) Occupation	This was the job at which the person worked the most hours during the reference period. The National Standard Classification of Occupations, an adapted version of the 2008 International Standard Classification of Occupations was used for coding.
(o) Kind of business, industry or service	This was the kind of business, industry or service activities carried on at the person's place of work. The National Standard Industrial Classification of Economic Activities, based on the International Standard Industrial Classification of Economic Activities – ISIC Rev.4 of 2007, was used for coding.

IN STRICT CONFIDENCE

REPUBLIC OF MAURITIUS
MINISTRY OF FINANCE & ECONOMIC DEVELOPMENT
CENTRAL STATISTICS OFFICE
POPULATION CENSUS (Night 3 - 4 July 2011)

Completion of the Questionnaire

Confidentiality

The census is being carried out under the Statistics Act 2000 which guarantees the confidentiality of personal information.

Who should be counted in this questionnaire?

- All persons present in the household on the Census night 3 - 4 July 2011 whether they are members of the household, visitors, guests, boarders or servants.
- All persons who usually live in the household but were away on census night.
- All persons who arrive on the premises and join the household on Monday 4 July 2011 without having been enumerated elsewhere.

How to complete the questionnaire?

1. Use a **BLACK** ballpoint pen of 0.7 mm diameter.
2. Shade check boxes like this

3. If you make a mistake, cross out the wrongly shaded check box, shade the appropriate box and circle it.

4. Write legibly in **CAPITAL** letters and keep each letter within 1 box; only leave a box to keep a space between words

SECONDARY EDUCATION

5. If you make a mistake, darken totally the wrong entries and continue the entries like this:

PRIMARY

Name, Address and Particulars of Household

G/DIST	MVCA	EA	BLOCK NO.	BUILDING NO.	HU NO.	HH NO.	HH TP

SURNAME

OTHER NAMES

NAME OF APARTMENT/FLAT

NO. & STREET/ROAD/LANE

LOCALITY

TOWN/VILLAGE

I. No. of Persons - Housing Census:

Total Male Female

II. No. of Persons - Population Census:

Total Male Female

III. Discrepancies: Yes ☐ No ☐

If «Yes», state reason(s):

1. Deceased ☐ 4. Birth ☐2. Marriage ☐ 5. Other ☐3. Split Households ☐

iv. Number of questionnaires completed for this household:

v. Barcode of the first questionnaire for this household:

☐ Remarks: _____

Enumerator ID:

Name of Enumerator: _____ Signature of the Enumerator: _____

COMPLETE A LINE FOR EVERY PERSON PRESENT ON CENSUS NIGHT (3 - 4 JULY 2011) AND ALSO FOR EVERY PERSON WHO USUALLY LIVES IN THE HOUSEHOLD BUT WAS ABSENT ON CENSUS NIGHT

[illegible]

STATISTICS MAURITIUS

2011

HOUSING AND POPULATION CENSUS

Republic of Mauritius

VOLUME VII: HOUSEHOLDS CHARACTERISTICS

October 2012

FOREWORD

This report is the third in the series showing the results of the 2011 Housing and Population Census. The first was published in November 2011 and contained the results of the Housing Census which preceded the Population Census by a few months. The previous five reports covered the demographic and fertility characteristics, the educational characteristics, the disability characteristics, the economic characteristics and the geographical and migration characteristics of the population while the present report presents data on the households characteristics of the population. The longer delay in producing the Population Census tables is due to the larger volume and greater complexity of the population data as compared to the housing data.

Data published in this report have been prepared at different geographical area levels. The code in the left-hand margin of the table of contents indicates the geographical level at which the tables are presented, namely, I: island level, D: district level and R: Municipal Council Ward and Village Council Area level.

Like all census data, the figures presented in the tables may still contain slight inaccuracies, which will be too costly to identify and correct. However, these do not in any way detract from the quality of the data and their usefulness. It is hoped that the present report will be particularly useful to administrators, planners and policy makers, and the public in general.

This report is the result of the efforts of many persons and organisations and I am grateful to all of them. In particular, I would like to thank members of the public for their understanding and co-operation, the census fieldstaff, the Mauritius Broadcasting Corporation, the Government Printer, the firm Urgence Informatique Europe which provided scanning services, and my own staff.

L.F.Cheung Kai Suet (Ms)
Director of Statistics

	Appendix III - Map of Island of Rodrigues showing six local regions	73
	Appendix IV - List of localities within each local region defined for Rodrigues	74
	Specimen of Population Census questionnaire	75

Introduction

1. Background

The history of census taking in Mauritius dates back to the eighteenth century. The Population Census conducted in year 2011 was the eighteenth for the Island of Mauritius and the eighth for the Island of Rodrigues.

2. Strategy

The 2011 Housing and Population Census, which cost about 200 million rupees and mobilised some 7,200 field officers, was taken in two distinct rounds: the Housing Census followed by the Population Census. The main reason for adopting this procedure was to obtain at the Housing Census a list of names and addresses of heads of households which served as frame for the Population Census.

The Housing Census was conducted from 31 January to 19 June 2011 and the Population Census from 20 June to 31 July 2011 in respect of all persons alive on the night of 3 - 4 July 2011.

The Population Census questionnaire, a copy of which is at the end of the report, was filled in by fieldstaff with information provided by respondents. The data was captured by making use of scanning and recognition technology. The software EDMS.Imaging ® was used to check for scanning errors and for correction using the Key from Image (KFI) technique. Coding was done through a computer-assisted program while validation and tabulation were done using the software Integrated Microcomputer Processing System (IMPS) for Censuses and Surveys, which was developed by the International Programs Center of the US Bureau of the Census.

3. Coverage

The Housing and Population Census covered the Islands of Mauritius, Rodrigues and Agalega. As regards St Brandon, only a count of persons spending the census night was made; these islands are mainly fishing outposts, with no permanent residents.

4. Population enumerated

The Census counted all persons present on Census night in all private households and communal establishments, including collective quarters, as well as usual residents who were absent on Census night. Combinations of answers to questions asked on whereabouts and usual address enable both the present population (de facto) and the resident population (de jure) counts.

At the 2011 Census the "de facto" population was 1,237,299 in the Republic of Mauritius whereas the resident population was 1,237,091. Census tables, unless otherwise stated, show the resident population; the distribution by the different islands was as follows:

Island	Area (sq. km)	Male	Female	Both sexes
Island of Mauritius	1,865	590,944	605,439	1,196,383
Island of Rodrigues	104	19,904	20,530	40,434
Agalega	70	174	100	274
St. Brandon	1	-	-	-
Republic of Mauritius	2,040	611,022	626,069	1,237,091

None of the published tables include Agalega and St. Brandon. The exclusion of the very small resident population in Agalega does not affect the usefulness of the tables. As for St. Brandon, there were no permanent residents at the time of the census, although 25 men, mostly fishermen, were present on the island on Census night.

5. Area level of tabulation

Different area levels of tabulation are used in this publication. An indication on the area levels at which tables are presented is given in the table of contents.

Several census tables have been prepared down to the level of Municipal Council Wards or Village Council Areas (MCW/VCA). Maps showing boundaries of the Municipal Council Wards and Village Council Areas are included in the Appendices together with a list of these areas within each district and their codes. All Municipal Ward and Village Council Area boundaries are given as they were on 3 July 2011, and all census data are in relation to these boundaries. Comparison of the 2011 Census data with the 2000 Census data at MCW/VCA level should be made with caution since there have been revisions of boundaries between the two censuses.

As regards Rodrigues, 6 local regions grouping adjacent localities were demarcated at the 2011 Census and some tables are published accordingly. A map showing the boundaries of these 6 local regions as well as a list of localities found therein are included in the Appendices.

6. Publication of results

The Housing Census data were published in November 2011 as Volume I of the series of the 2011 Census reports. Volume II dealt with demographic and fertility characteristics; Volume III showed the educational characteristics; Volume IV showed the disability characteristics; Volume V showed the economic characteristics while Volume VI showed the geographical and migration characteristics. This volume deals with households characteristics.

7. Concepts, definitions and classifications

(a) Household

A household is either:

- (i) a one-person household, i.e., a person who makes provision for his own food or other essentials for living without combining with any other person to form part of a multi-person household; or
- (ii) a multi-person household, i.e., a group of two or more persons living together who make common provision for food or other essentials for living. The persons in the group may pool their incomes and have a common budget to a greater or lesser extent; they may be related or unrelated persons or a combination of both.

(b) Family nucleus

A family nucleus is either a couple with or without unmarried children, or a lone parent with unmarried children.

(c) Household type

One person household is defined as a private household with only one usual resident.

A nuclear household is defined as a private household consisting entirely of a single family nucleus.

An extended household is defined as a private household consisting of any one of the following:

- (i) a single family nucleus plus other persons related to the nucleus
- (ii) two or more family nuclei related to each other, without any other persons
- (iii) two or more family nuclei related to each other with other persons related to at least one of the family nuclei
- (iv) two or more persons related to each other, none of whom constitute a family nucleus

A composite household is defined as a private household consisting of any one of the following:

- (i) a single family nucleus plus other persons, some or none of whom being related to the nucleus
- (ii) two or more family nuclei related to each other plus other persons, some or none of whom being related to any of the nuclei
- (iii) two or more persons related to each other, none of whom constitute a family nucleus plus other unrelated persons
- (iv) two or more family nuclei not related to each other
- (v) Non-related persons only

- (d) Enumerated population This category includes all persons who spent census night in the household (whether private or communal) as well as persons who usually live in the household but were absent on census night.
- (e) Present population This category includes all persons who spent census night in the household.
- (f) Resident population The resident population is a count of all usual residents of a country at the time of the census. For census purposes, "usual residence" is defined as the place at which the person lives at the time of the census, and has been there continuously for the past 12 months or intends to live there continuously for at least 12 months.
- (g) Languages read and written (literacy) Persons were asked to state the language(s) in which they could, with understanding, both read and write a short, simple statement in their everyday life.
- (h) Educational attainment For persons not attending school, this refers to the highest level of education completed, whereas for persons attending school it refers to the standard, form or course being attended.

Post-secondary education of the type that leads to an award not equivalent to a first university degree has been classified as vocational and technical training if the course has a "practical" orientation aimed at skilled and

responsible employment.

(i) Disability

Persons were asked about any long-term disability, i.e. any limitation to perform a daily life activity in a manner considered normal for persons of their age.

Persons were asked to report all disabilities that they had. However, each disabled person was counted only once. The classification used for tabulation is as follows:

EYE	-	A: Seeing even if wearing glasses
EAR	-	B: Hearing even if using a hearing aid
MTION	-	C: Walking or climbing stairs
LEARN	-	D: Remembering, concentrating or acquiring education and learning
PERSONAL CARE	-	E: Looking after oneself with regard to feeding, personal care and hygiene
SPEECH	-	F: Speaking and talking
MANU	-	G: Manual activities such as gripping and holding
BEHAVIOUR	-	H: Disturbances of behaviour, including antisocial behaviour, maladjustment and liability to self injury

(j) Currently employed

This category includes (i) any person, aged 16 years and over who worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and (ii) any person who held a job during that week although he/she did not do any work. Work means any work for pay, profit or family gain, including self-employment with or without employees as well as work without pay in a family enterprise or farm; but it excludes housework in one's own home.

(k) Currently unemployed

These are persons aged 16 years and over who had not worked for at least one hour during the week from Monday 27 June to Sunday 3 July 2011, and did not hold a job during that week, and took active steps to look for work anytime during the previous 4 weeks, and were available for work during the week ending 3 July 2011.

(l) Currently active

This category consists of the currently employed and the currently unemployed population.

(m) Currently inactive	This category consists of persons who were currently neither employed nor unemployed.
(n) Occupation	This was the job at which the person worked the most hours during the reference period. The National Standard Classification of Occupations, an adapted version of the 2008 International Standard Classification of Occupations was used for coding.
(o) Kind of business, industry or service	This was the kind of business, industry or service activities carried on at the person's place of work. The National Standard Industrial Classification of Economic Activities, based on the International Standard Industrial Classification of Economic Activities – ISIC Rev.4 of 2007, was used for coding.

IN STRICT CONFIDENCE

REPUBLIC OF MAURITIUS
MINISTRY OF FINANCE & ECONOMIC DEVELOPMENT
CENTRAL STATISTICS OFFICE
POPULATION CENSUS (Night 3 - 4 July 2011)

Completion of the Questionnaire

Confidentiality

The census is being carried out under the Statistics Act 2000 which guarantees the confidentiality of personal information.

Who should be counted in this questionnaire?

- All persons present in the household on the Census night 3 - 4 July 2011 whether they are members of the household, visitors, guests, boarders or servants.
- All persons who usually live in the household but were away on census night.
- All persons who arrive on the premises and join the household on Monday 4 July 2011 without having been enumerated elsewhere.

How to complete the questionnaire?

1. Use a **BLACK** ballpoint pen of 0.7 mm diameter.
2. Shade check boxes like this

3. If you make a mistake, cross out the wrongly shaded check box, shade the appropriate box and circle it.

4. Write legibly in **CAPITAL** letters and keep each letter within 1 box; only leave a box to keep a space between words

SECONDARY EDUCATION

5. If you make a mistake, darken totally the wrong entries and continue the entries like this:

PRIMARY

Name, Address and Particulars of Household

G/DIST	MVCA	EA	BLOCK NO.	BUILDING NO.	HU NO.	HH NO.	HH TP

SURNAME

OTHER NAMES

NAME OF APARTMENT/FLAT

NO. & STREET/ROAD/LANE

LOCALITY

TOWN/VILLAGE

I. No. of Persons - Housing Census:

Total Male Female

II. No. of Persons - Population Census:

Total Male Female

III. Discrepancies: Yes ☐ No ☐

If «Yes», state reason(s):

1. Deceased ☐ 4. Birth ☐2. Marriage ☐ 5. Other ☐3. Split Households ☐

iv. Number of questionnaires completed for this household:

v. Barcode of the first questionnaire for this household:

☐ Remarks: _____

Enumerator ID:

Name of Enumerator: _____ Signature of the Enumerator: _____

COMPLETE A LINE FOR EVERY PERSON PRESENT ON CENSUS NIGHT (3 - 4 JULY 2011) AND ALSO FOR EVERY PERSON WHO USUALLY LIVES IN THE HOUSEHOLD BUT WAS ABSENT ON CENSUS NIGHT
