I. Objectives

This survey was designed to achieve the following objectives:

- Assist the World Bank in gaining a better understanding of how stakeholders in Burkina Faso perceive the Bank;
- Obtain systematic feedback from stakeholders in Burkina Faso regarding:
 - Their views regarding the general environment in Burkina Faso;
 - Their overall attitudes toward the World Bank in Burkina Faso;
 - Overall impressions of the World Bank's effectiveness and results, knowledge and research, and communication and information sharing in Burkina Faso; and
 - Perceptions of the World Bank's future role in Burkina Faso.
- Use data to help inform the Burkina Faso country team's strategy.

II. Methodology

In December 2012 and January 2013, 517 stakeholders of the World Bank in Burkina Faso were invited to provide their opinions on the Bank's assistance to the country by participating in a country survey. Participants in the survey were drawn from among the office of the President or Prime Minister; the office of a Minister; the office of a Parliamentarian; employees of a ministry, ministerial department, or implementation agency; consultants/contractors working on World Bank-supported projects/programs; project management units (PMUs) overseeing implementation of a project; local government officials or staff; bilateral agencies; multilateral agencies; private sector organizations; private foundations; the financial sector/private banks; NGOs; community-based organizations (CBOs); the media; independent government institutions; trade unions; faith-based groups; academia/research institutes/think tanks; and the judiciary branch. A total of 329 stakeholders participated in the country survey (64%).

Respondents received questionnaires via courier or email and returned them accordingly. Respondents were asked about: general issues facing Burkina Faso, their overall attitudes toward the Bank; the World Bank's effectiveness and results; the Bank's knowledge work and activities; working with the World Bank; the Bank's future role in Burkina Faso, and the Bank's communication and information sharing.

Every country that engages in the Country Survey must include specific indicator questions that will be aggregated for the Bank's annual Corporate Scorecard. These questions are identified throughout the survey report.

- A. General Issues facing Burkina Faso: Respondents were asked to indicate whether Burkina Faso was headed in the right or wrong direction, the most important development priorities, and which areas would contribute most to reducing poverty and generating economic growth in Burkina Faso.

II. Methodology (continued)

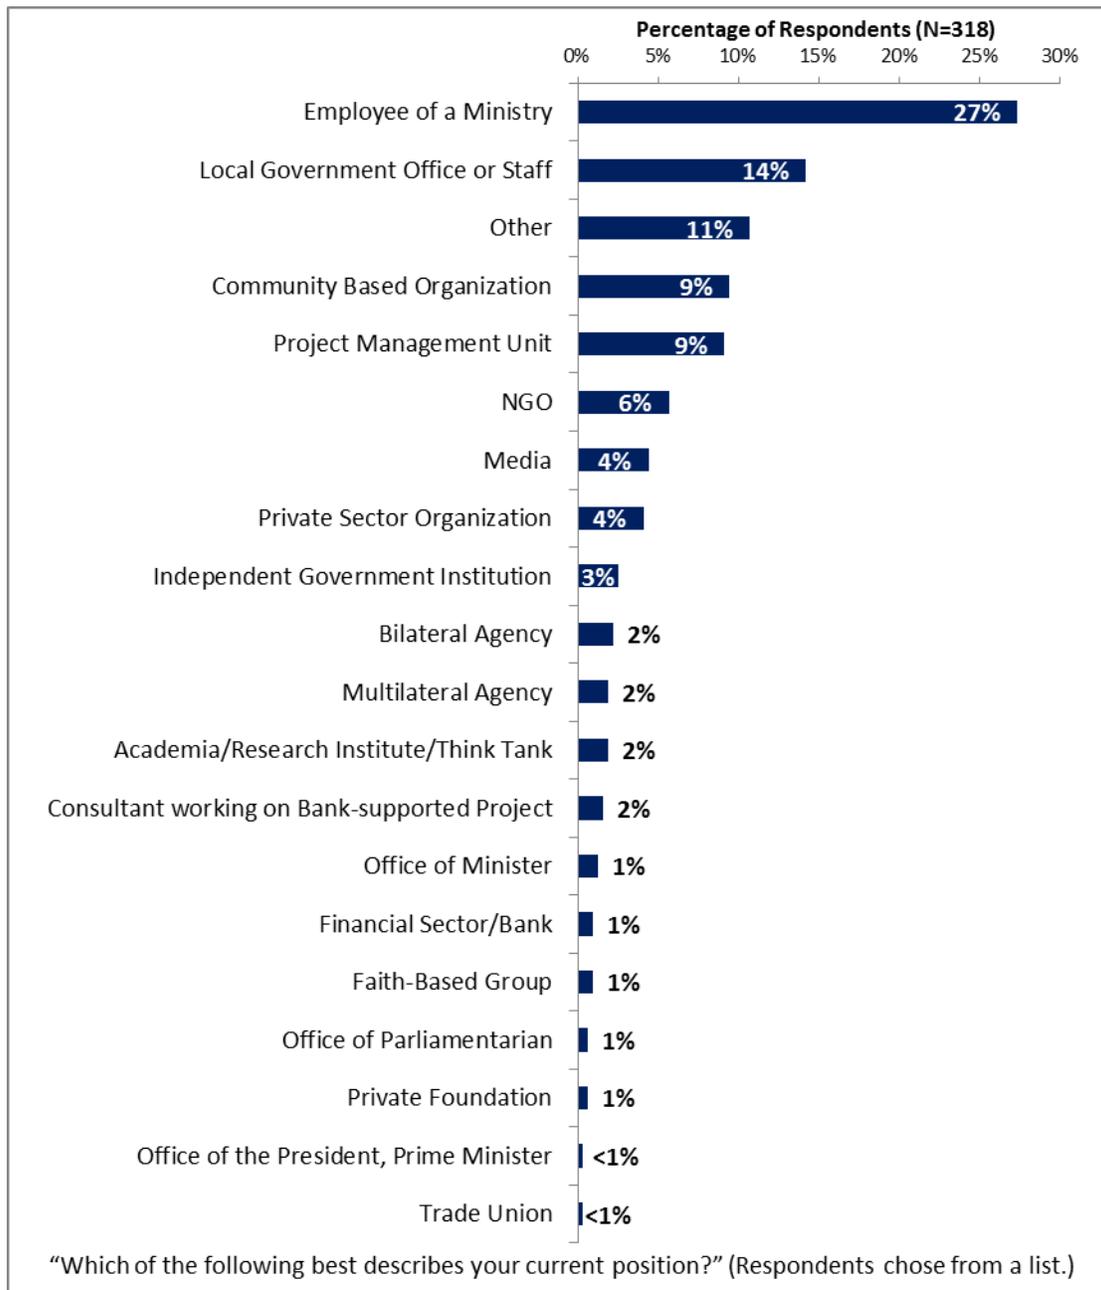

- B. Overall Attitudes toward the World Bank: Respondents were asked to rate their familiarity with the World Bank, the Bank's effectiveness in Burkina Faso, Bank staff preparedness, the extent to which the Bank should seek to influence the global development agenda, agreement with various statements regarding the Bank's work, and the extent to which the Bank is an effective development partner. Respondents were also asked to indicate the sectoral areas on which it would be most productive for the Bank to focus its resources, the Bank's greatest values and greatest weaknesses in its work, the most effective instruments in helping to reduce poverty in Burkina Faso, with which groups the Bank should work more in Burkina Faso, and how they attribute slow or failed reform efforts.
- C. World Bank Effectiveness and Results: Respondents were asked to rate the Bank's level of effectiveness across thirty-four development areas, the extent to which the Bank's work helps achieve sustainable development results in Burkina Faso, and the extent to which the Bank meets Burkina Faso's need for financial instruments and knowledge services.
- D. The World Bank's Knowledge Work and Activities (i.e., Analysis, Studies, Research, Data, Reports, Conferences): Respondents were asked to indicate how frequently they consult Bank knowledge work and activities in the work they do, the areas on which the Bank should focus its knowledge work and activities, and to rate the effectiveness and quality of the Bank's knowledge work and activities, including how significant a contribution it makes to development results and its technical quality.
- E. Working with the World Bank: Respondents were asked to rate their level of agreement with a series of statements regarding working with the Bank, such as the World Bank's "Safeguard Policy" requirements being reasonable and the Bank disbursing funds promptly.
- F. The Future Role of the World Bank in Burkina Faso: Respondents were asked to rate how significant a role the Bank should play in Burkina Faso's development in the near future and to indicate what the Bank should do to make itself of greater value in Burkina Faso.
- G. Communication and Information Sharing: Respondents were asked to indicate how they get information about economic and social development issues, how they prefer to receive information from the Bank, their access to the Internet, and their usage and evaluation of the Bank's website and PICs. Respondents were asked about their awareness of the Bank's Access to Information policy, past information requests from the Bank, and their level of agreement that they use more data from the World Bank as a result of the Bank's Open Data policy. Respondents were also asked to indicate their level of agreement that they know how to find information from the Bank and that the Bank is responsive to information requests.
- H. Background Information: Respondents were asked to indicate their current position, specialization, whether they professionally collaborate with the World Bank, their exposure to the Bank in Burkina Faso, and their geographic location.

In addition, when possible, responses from respondents completing this year's country survey were compared to responses from the 166 respondents (58% response rate) who completed the survey in FY 2009 and the 105 respondents (50% response rate) who completed the survey in FY 2004. Notations and/or charts are included when these comparisons were possible.

III. Demographics of the Sample

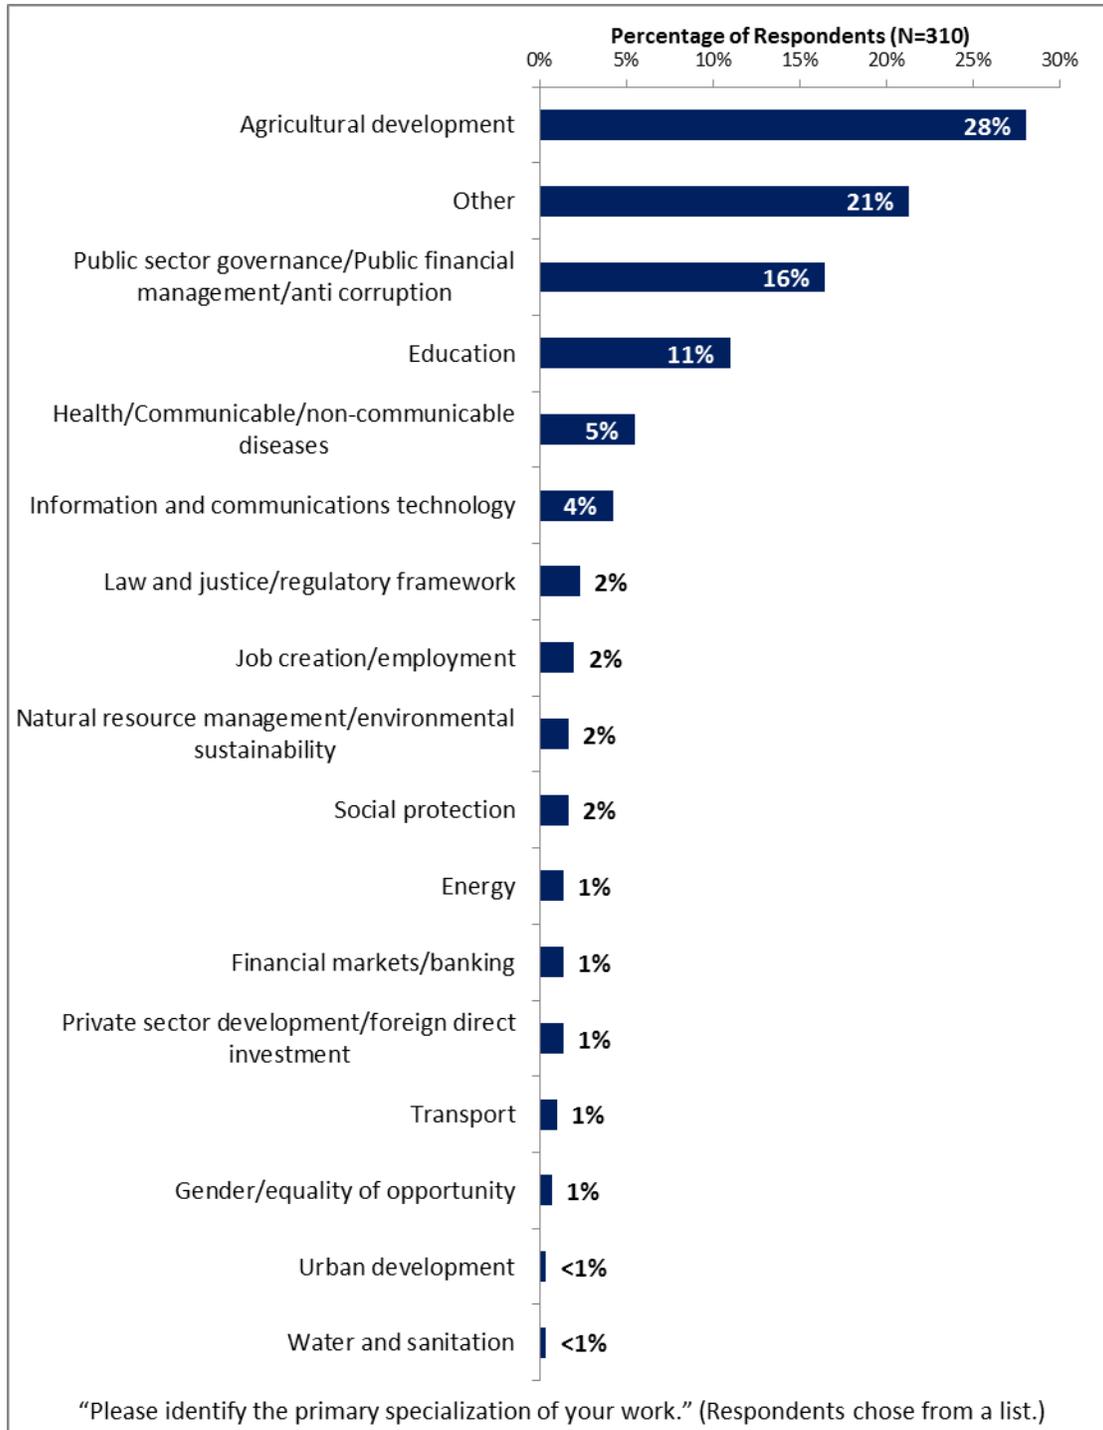

Current Position

- For further analyses, the small number of respondents from the office of a Minister were combined with those from the office of the President/Prime Minister, consultants working on Bank-supported projects were combined with those from PMUs, respondents from multilateral agencies were combined with those from bilateral agencies, respondents from the financial sector/private banks were combined with those from the private sector, respondents from private foundations, CBOs, NGOs, trade unions, and faith-based groups were combined into a “CSO” category, and the few academic respondents were included in the “Other” category.

III. Demographics of the Sample (continued)

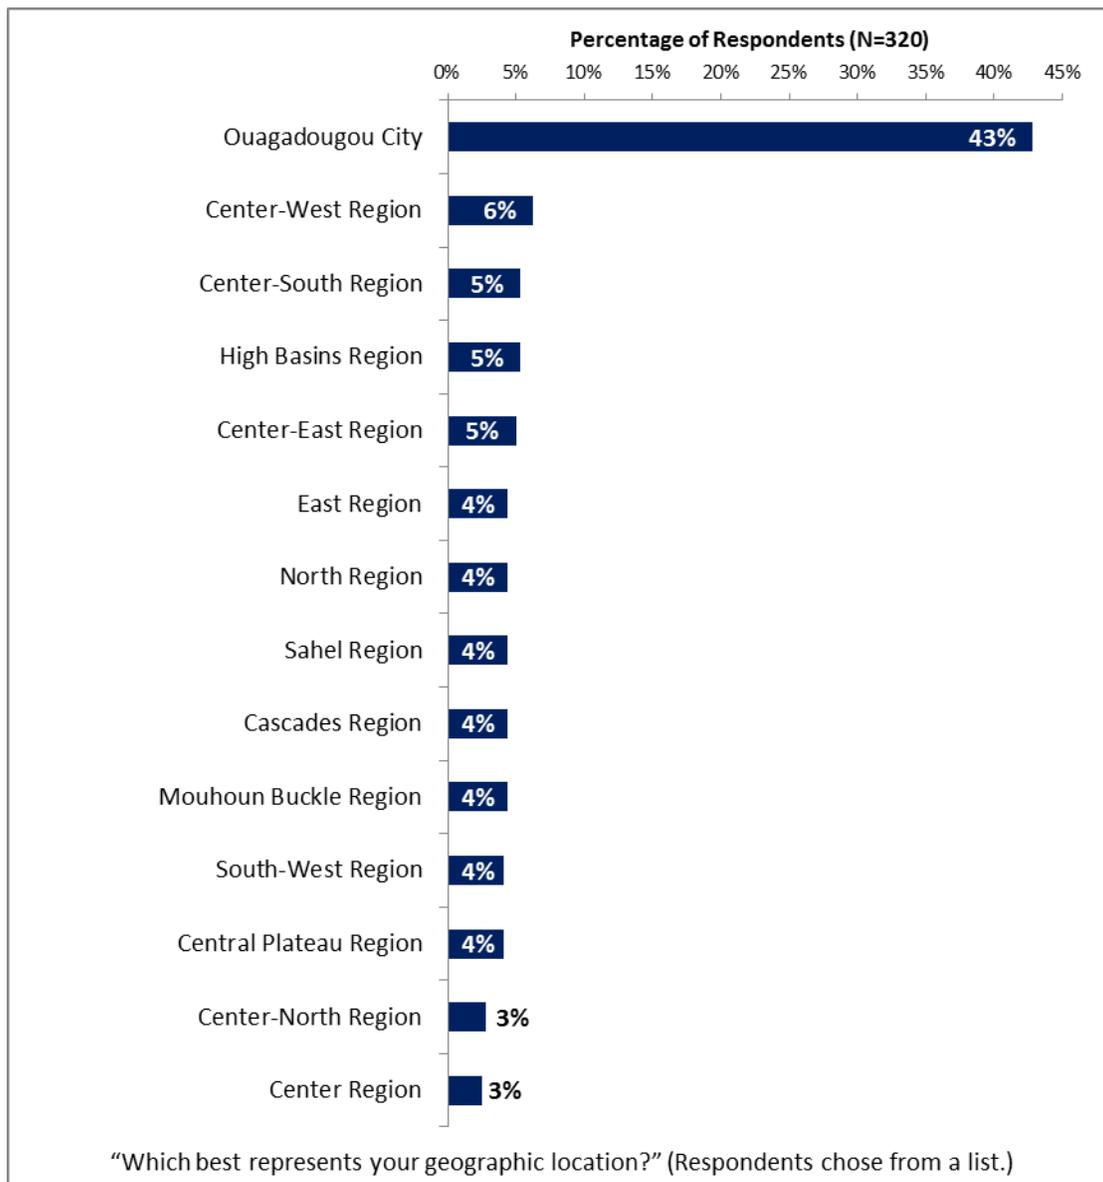

Area of Primary Specialization

III. Demographics of the Sample (continued)

Geographic Location

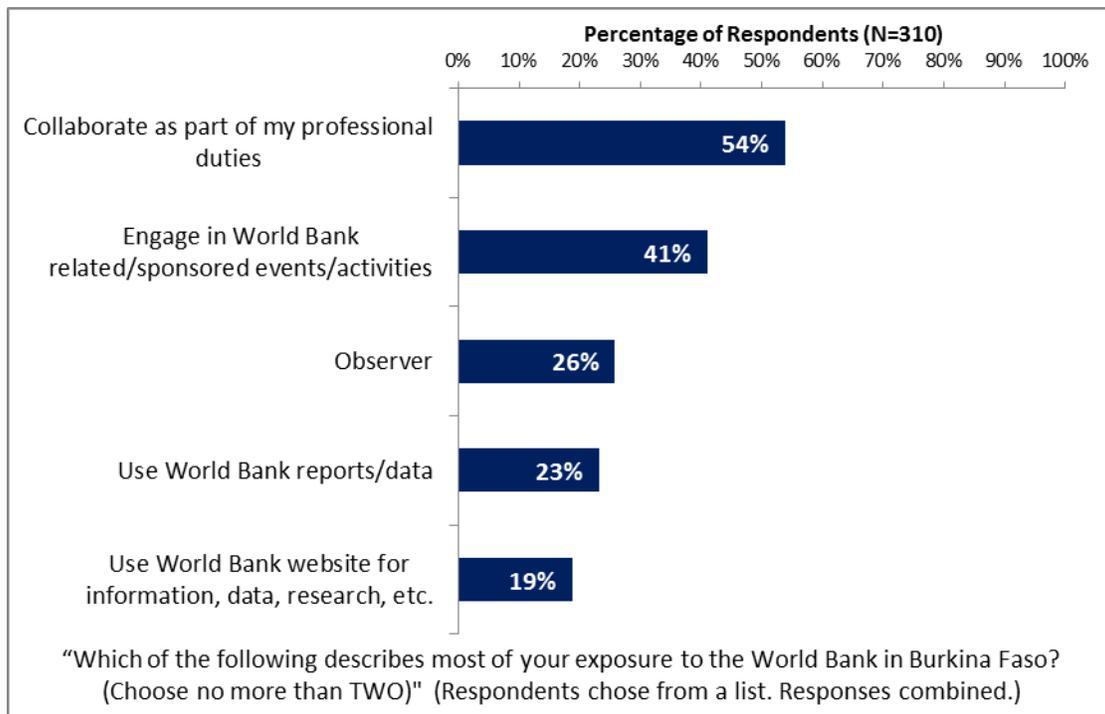

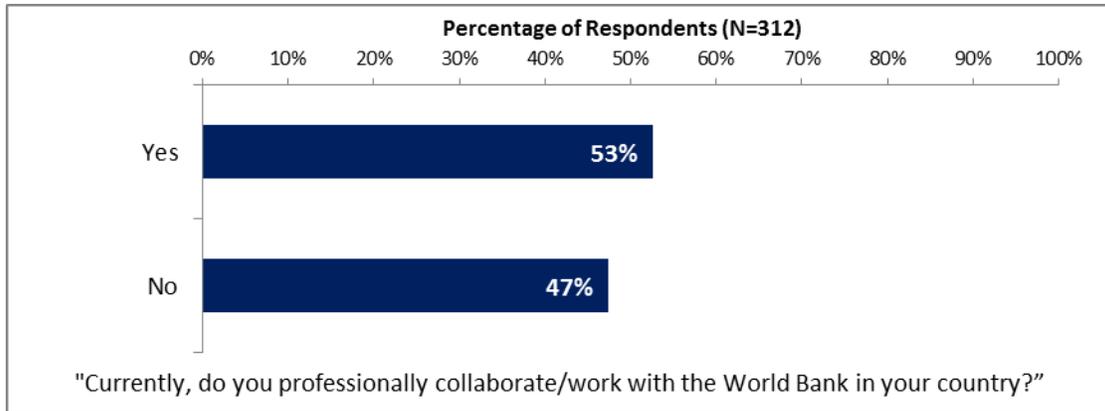

- For further analyses, respondents from regions outside Ouagadougou City were combined into an “Other Regions” category. Responses across geographic locations for all country survey questions can be found in the Appendix (see page 82). Only significant differences between geographic locations in response to indicator questions will be discussed in the body of this report.

III. Demographics of the Sample (continued)

Collaboration with and Exposure to the World Bank

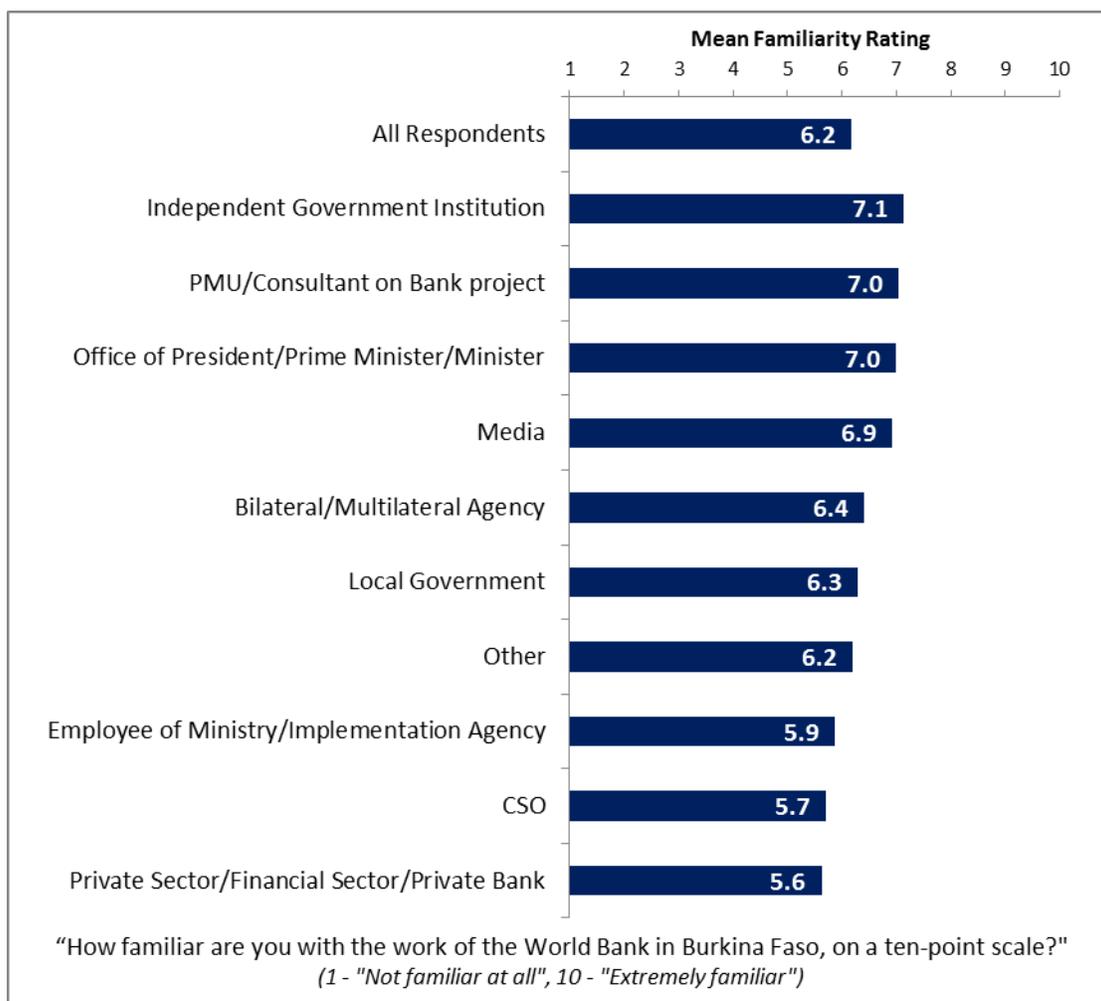

- Differences in responses to the indicator questions, based on levels of collaboration and exposure to the World Bank in Burkina Faso, can be found in the Appendix (page 97). Please note that where these two factors appear to have a significant relationship with overall views of the Bank, it is highlighted in yellow in that table.

III. Demographics of the Sample (continued)

Familiarity with the World Bank

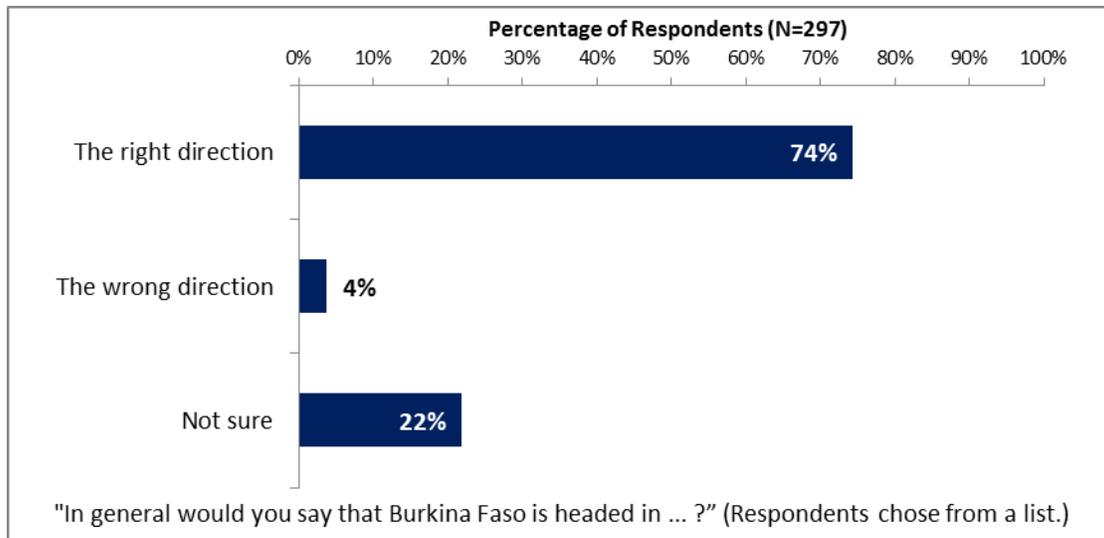

- Across all respondents, familiarity with the Bank received a mean rating of 6.2; this was significantly higher than the mean rating received in the FY '09 country survey (5.4), but significantly lower than the mean rating received in the FY '04 country survey (7.2).
 - Respondents from independent government institutions, PMUs/consultants on Bank projects, and those from the office of the President/Prime Minister/Minister and the media had the highest levels of familiarity with the World Bank whereas respondents from CSOs, the private sector/financial sector/private banks, and employees of ministries had significantly lower levels of familiarity.
 - Respondents across geographic locations had statistically similar levels of familiarity with the Bank.
 - It should be noted that respondents' ratings of familiarity with the Bank were significantly, strongly correlated with their perceptions of the Bank's overall effectiveness in Burkina Faso, and significantly, moderately correlated with the Bank's ability to help achieve sustainable development results, and the Bank's relevance to Burkina Faso's development.

IV. General Issues facing Burkina Faso

Headed in the Right Direction

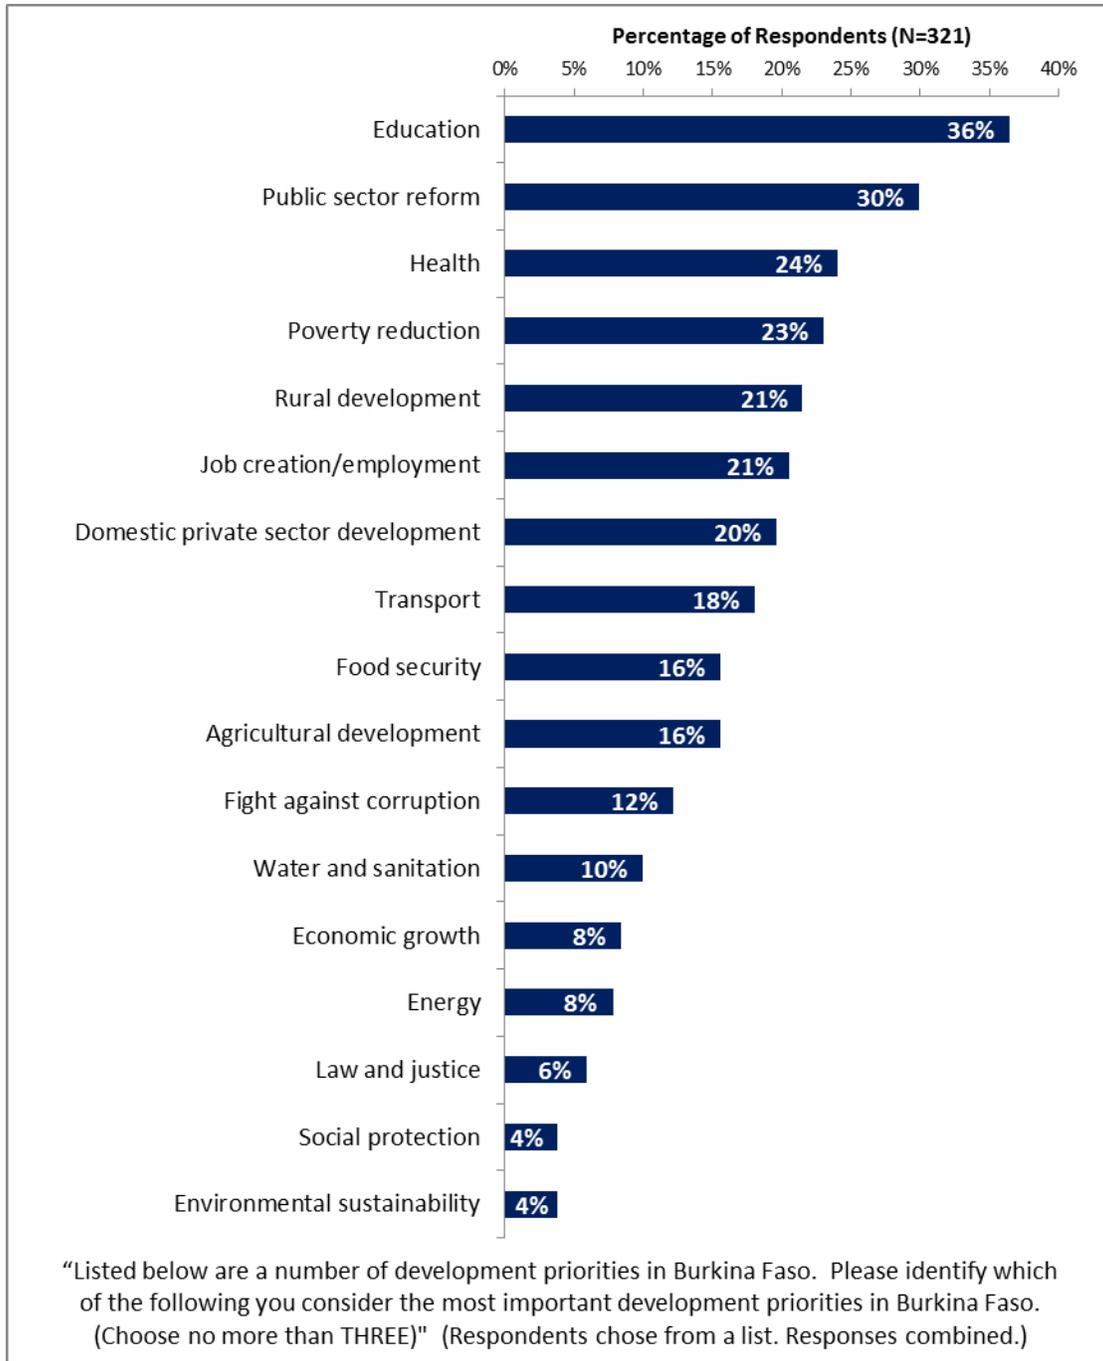

- When asked whether Burkina Faso was headed in the right or wrong direction, nearly three-quarters of all respondents indicated that Burkina Faso was headed in the right direction.

IV. General Issues facing Burkina Faso (continued)

Development Priorities

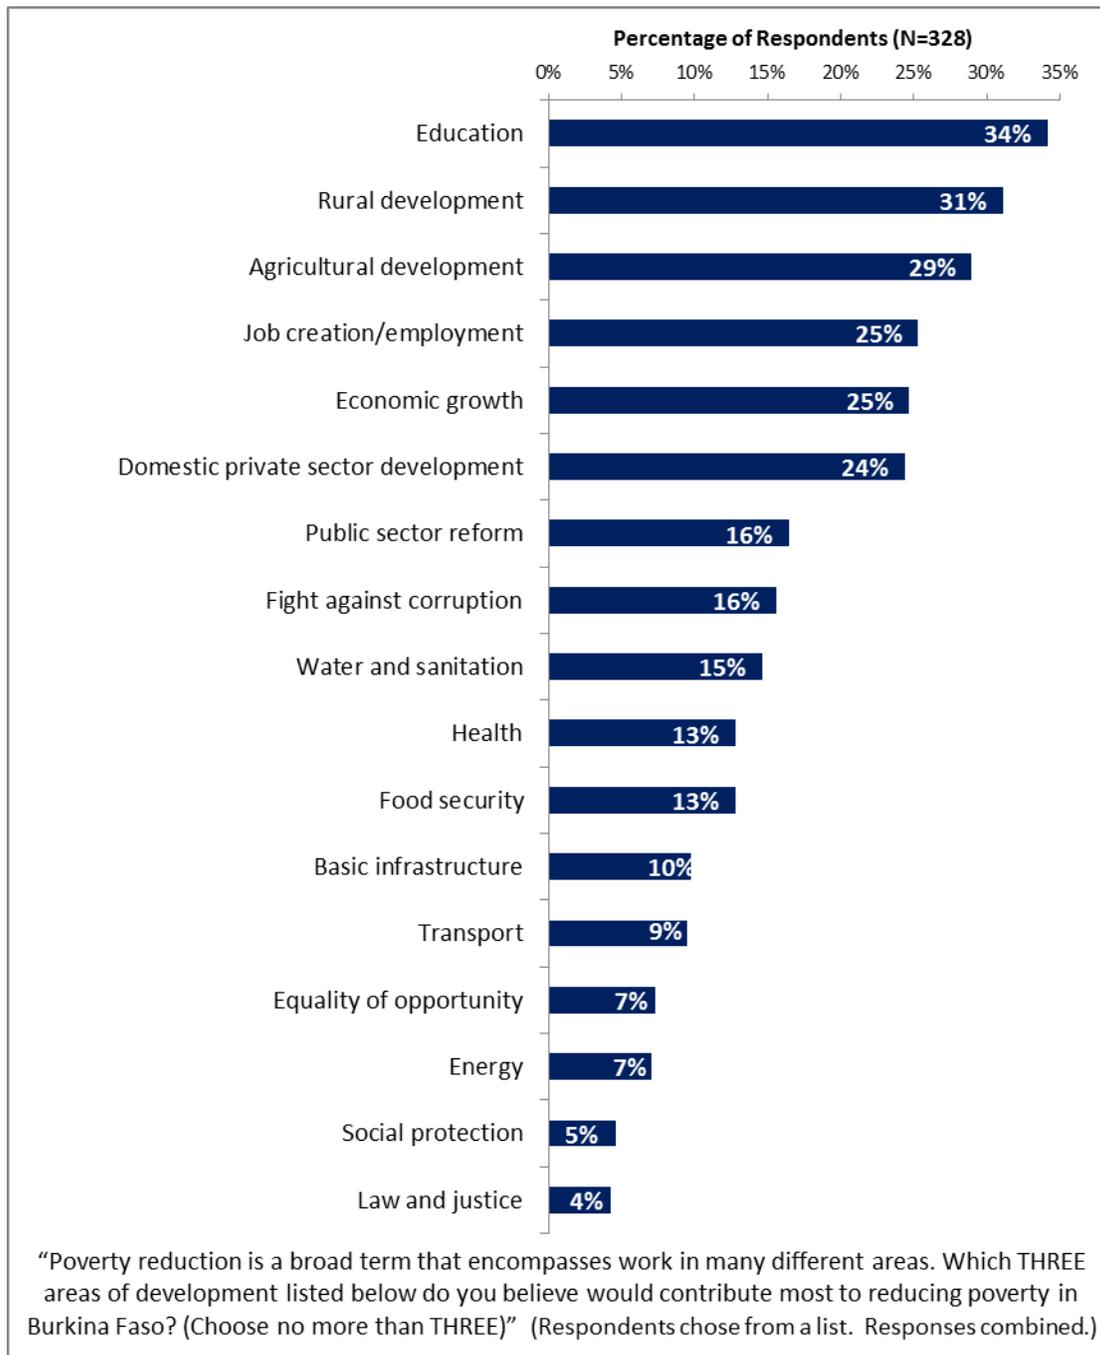

- Respondents in the FY '09 country survey indicated that government effectiveness/governance (32%), increasing access to education (30%), reducing poverty (26%), and economic growth (22%) were the most important development priorities facing Burkina Faso.

IV. General Issues facing Burkina Faso (continued)

Factors Contributing to Poverty Reduction

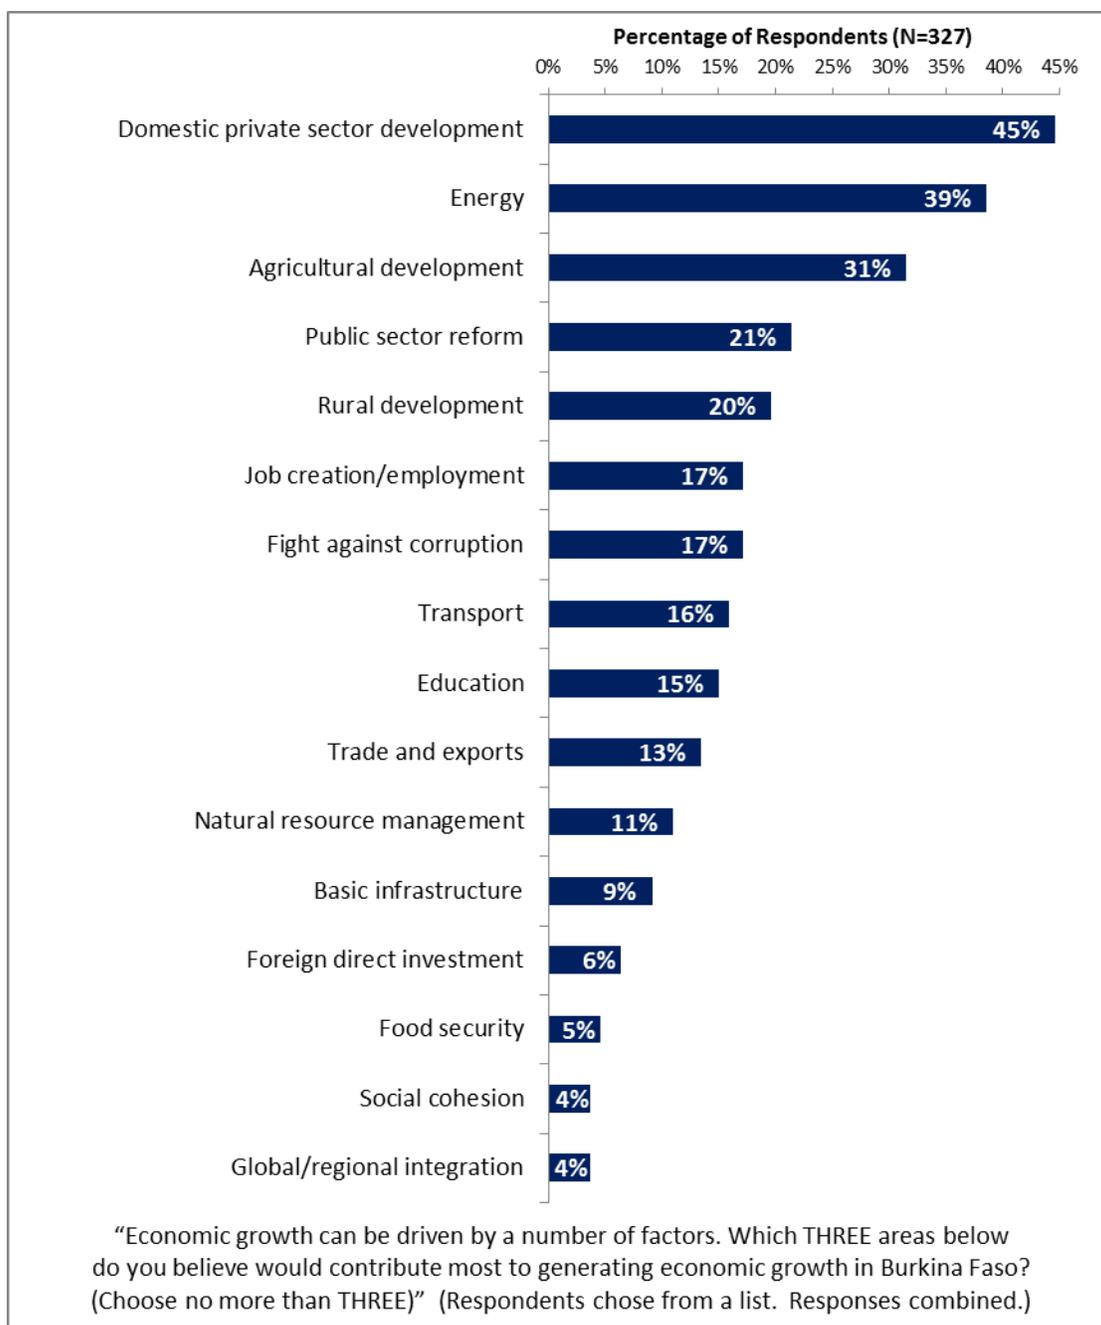

- Respondents in the FY '09 country survey indicated that agricultural development (47%) would contribute most to poverty reduction in Burkina Faso.

IV. General Issues facing Burkina Faso (continued)

Factors Contributing to Economic Growth

- Respondents in the FY '09 country survey indicated that increasing agricultural productivity (70%) would contribute most to generating economic growth in Burkina Faso.

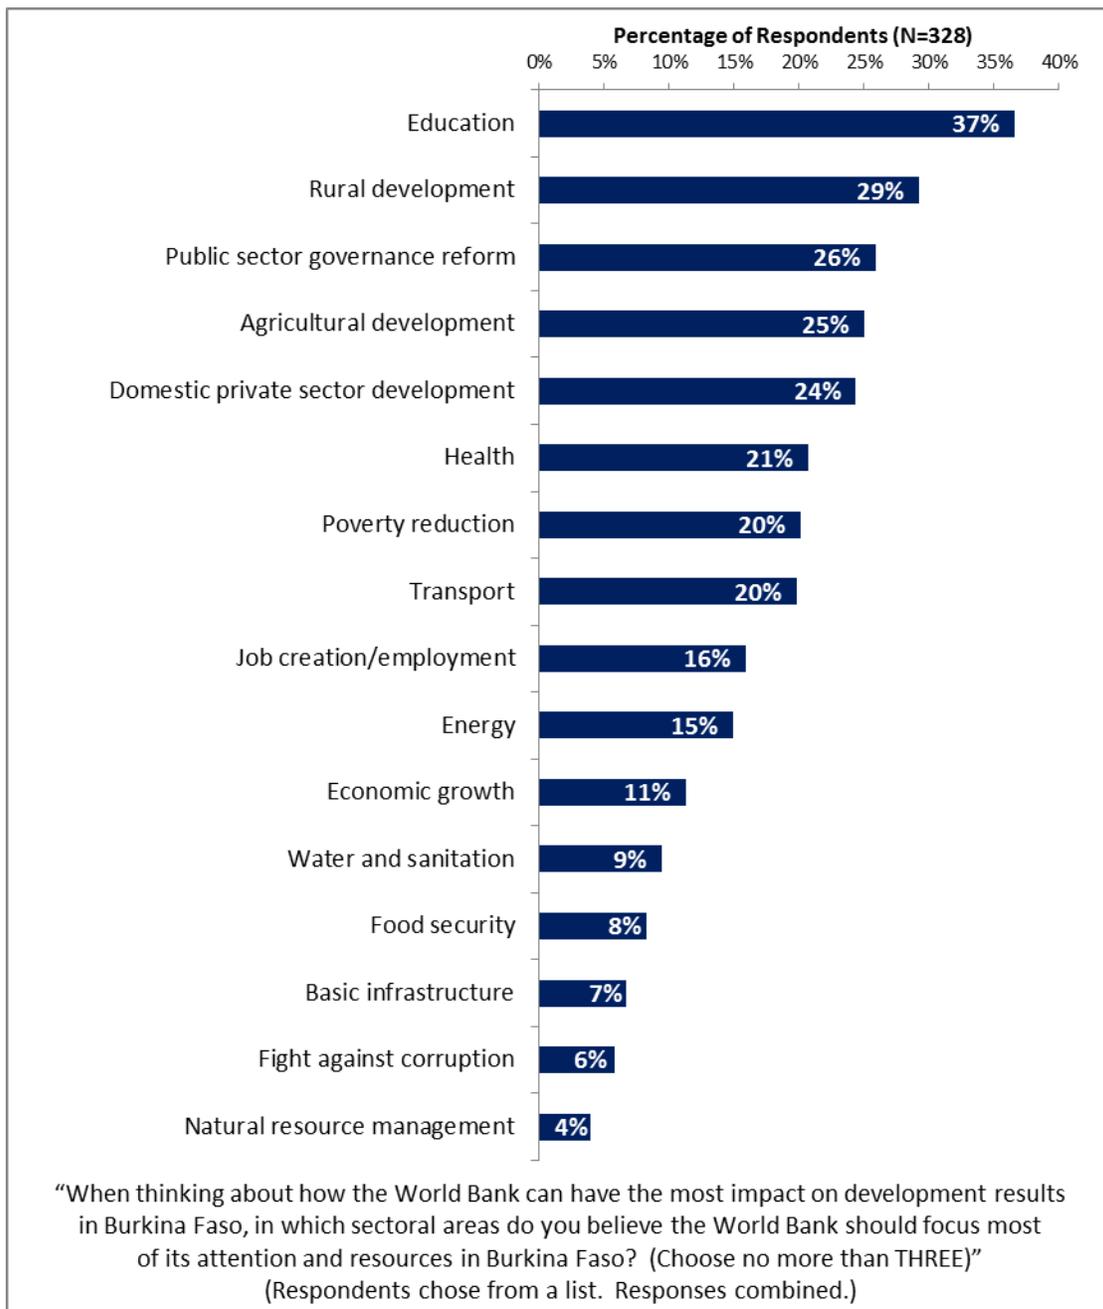

V. Overall Attitudes toward the World Bank

As noted in the “Methodology” section, the indicator questions referred to throughout the survey report are questions that are asked in every country that engages in the Country Survey. These will be aggregated for the Bank’s annual Corporate Scorecard.

Focusing World Bank Resources

- Respondents in the FY '09 country survey indicated that it would be most productive for the Bank to focus most of its resources on agriculture development (31%) and increasing access to education (28%) in Burkina Faso.

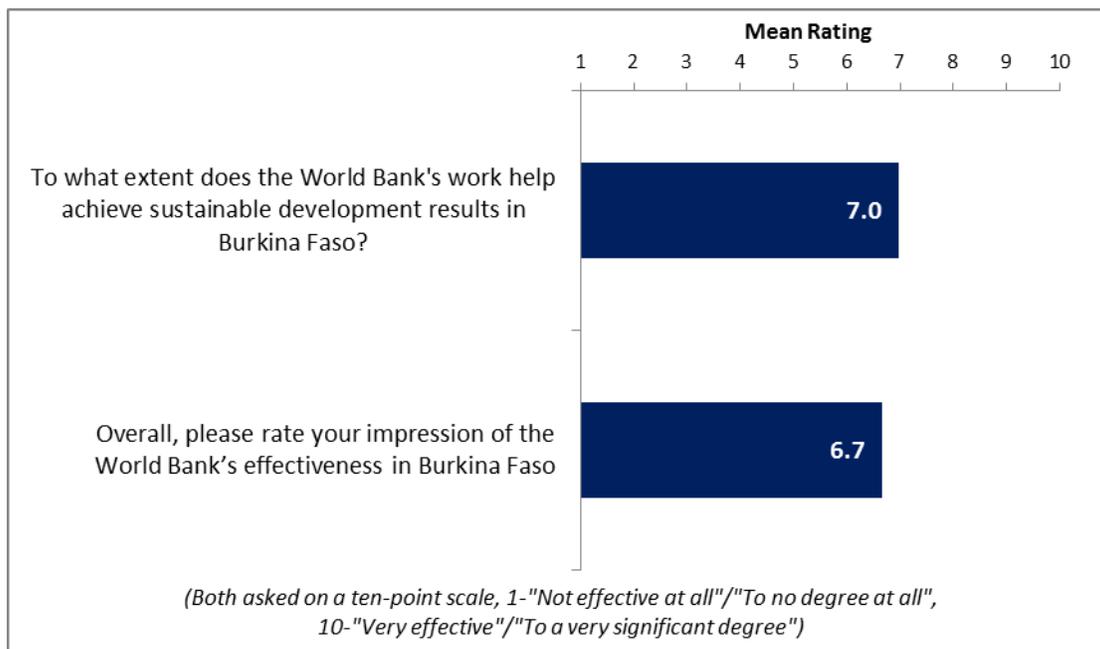

V. Overall Attitudes toward the World Bank (continued)

The World Bank's Overall Effectiveness in Burkina Faso (*Indicator Question*)

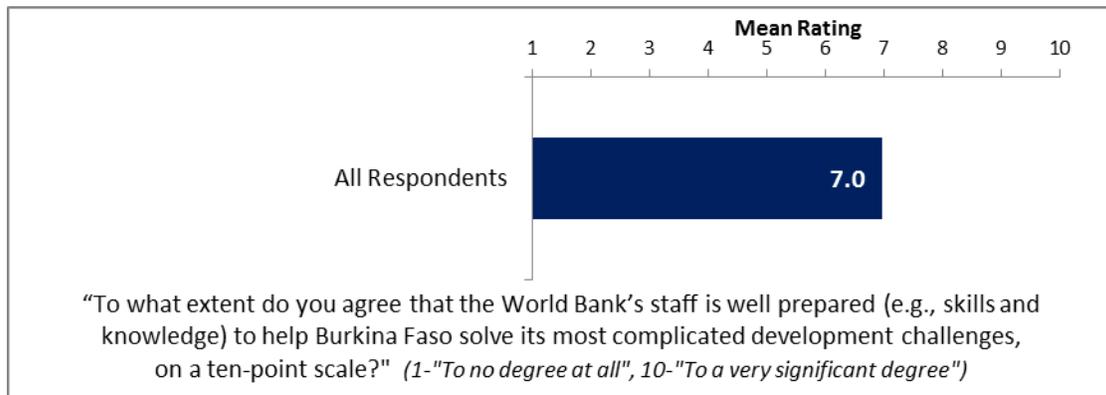

- Ratings of the World Bank's work achieving sustainable development results in Burkina Faso received a mean rating of 7.0 across all respondents.
 - Respondents from Other Regions had significantly higher ratings for the extent to which the Bank's work achieves sustainable development results in Burkina Faso (7.3) compared to respondents from Ouagadougou City (6.6).
 - Respondents across all stakeholder groups gave statistically similar ratings for the extent to which the Bank's work achieves sustainable development results in Burkina Faso.

- Across all respondents, ratings of the World Bank's overall effectiveness in Burkina Faso received a mean rating of 6.7; this was significantly higher than the mean overall effectiveness rating received in the FY '09 country survey (6.0), but statistically similar to the mean overall effectiveness rating received in the FY '04 country survey (6.9).
 - Respondents from Other Regions had significantly higher ratings for the Bank's overall effectiveness in Burkina Faso (6.9) compared to respondents from Ouagadougou City (6.4).
 - Respondents across all stakeholder groups had statistically similar ratings for the Bank's overall effectiveness in Burkina Faso.

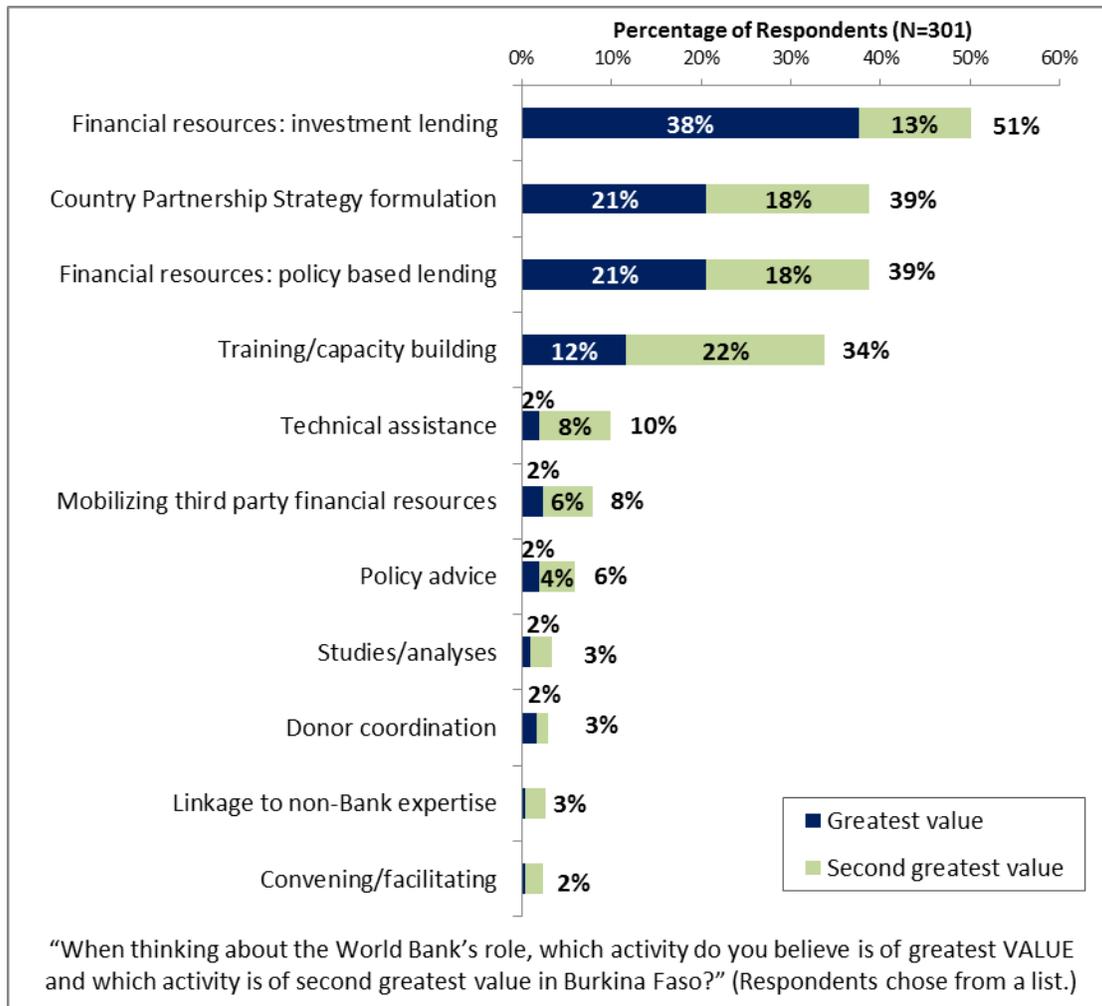

V. Overall Attitudes toward the World Bank (continued)

Bank Staff are Well Prepared to Help Burkina Faso

The World Bank’s Greatest Value in Burkina Faso

- Speed and complexity of processes concern stakeholders most.

VI. Sectoral Effectiveness

Specific Areas of Effectiveness

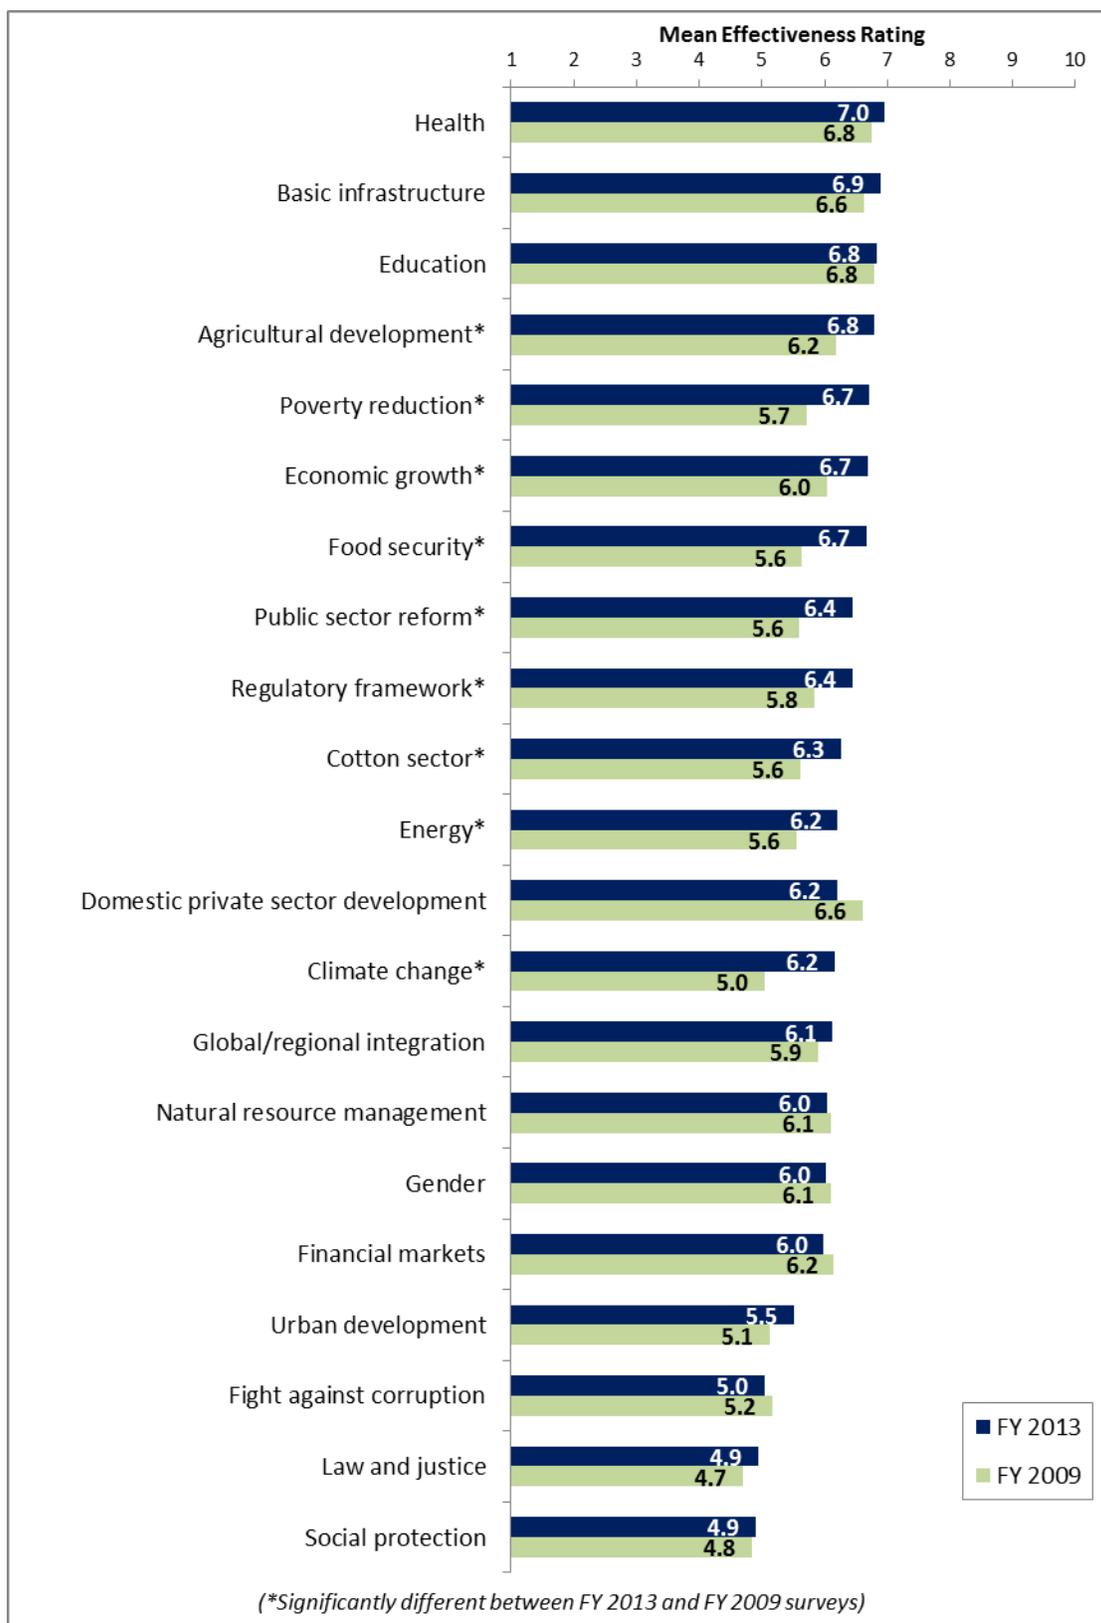

VI. Sectoral Effectiveness (continued)

Specific Areas of Effectiveness (continued)

- There were significant stakeholder group differences in their ratings of the Bank's effectiveness in just three of these thirty-four development areas.
 - Respondents from PMUs/consultants on Bank-supported projects had the highest ratings for the Bank's effectiveness at "Gender" whereas respondents from the office of the President/Prime Minister/Minister, private sector/financial sector/private banks, and the media had significantly lower ratings.
 - Respondents from PMUs/consultants on Bank-supported projects and the office of the President/Prime Minister/Minister had the highest ratings for the Bank's effectiveness at "Water and sanitation" whereas respondents from private sector/financial sector/private banks, independent government institutions, and the media had significantly lower ratings.
 - Employees of ministries/implementation agencies and respondents from PMUs/consultants on Bank-supported projects, local government, and independent government institutions had the highest ratings for the Bank's effectiveness at "Disaster management" whereas respondents from bilateral or multilateral agencies and the media had significantly lower ratings.
- As shown on the next page, respondents in this year's country survey had significantly higher ratings of the Bank's effectiveness across several of these development areas compared to respondents from the FY '09 country survey.

VI. Sectoral Effectiveness (continued)

Specific Areas of Effectiveness (continued)

VI. Sectoral Effectiveness (continued)

Drivers of Effectiveness

To determine the key drivers of respondents' ratings of the Bank's overall effectiveness and ratings of its ability to help achieve sustainable development results in Burkina Faso, bivariate correlational analyses were conducted using respondents' ratings of the thirty-four specific areas of effectiveness.

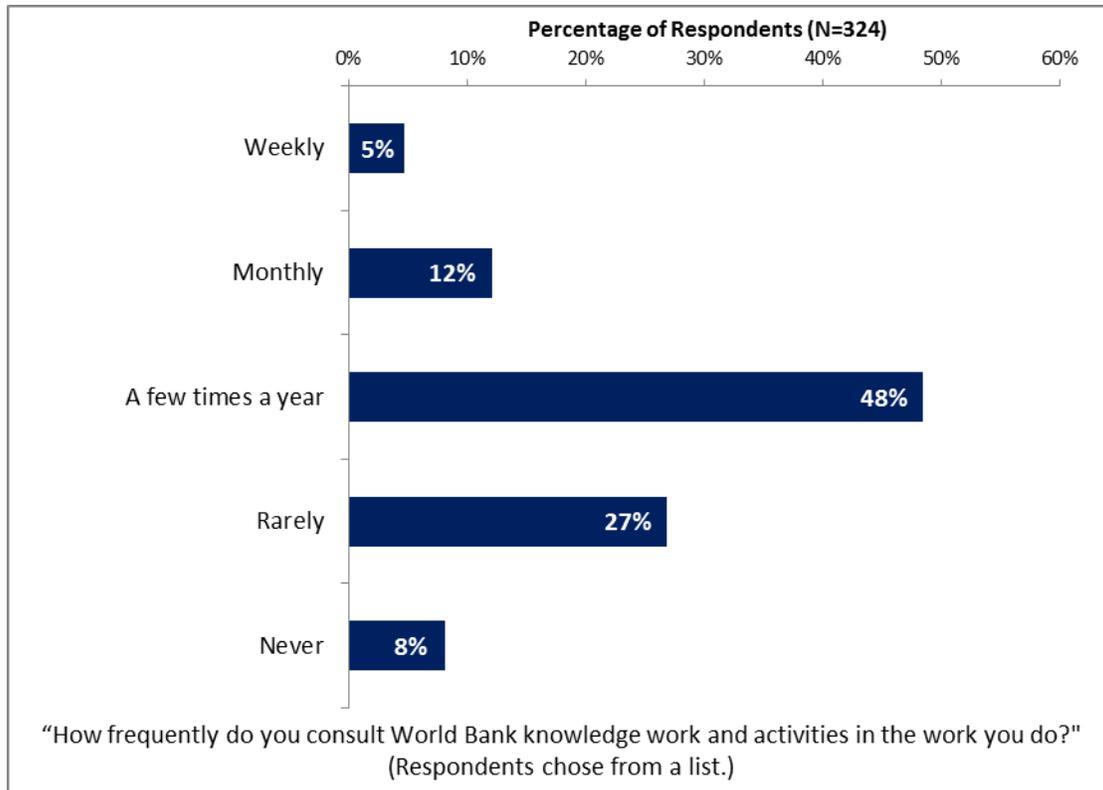

Correlational analyses, however, are not able to tell us exactly what is causing respondents' ratings of the Bank's overall effectiveness or ratings of its ability to help achieve sustainable development results. Rather, these analyses tell us that as ratings of effectiveness in one area increase, respondents' ratings of the Bank's overall effectiveness increase, or as ratings of effectiveness in one area increase, ratings of the Bank's ability to help achieve sustainable development results increase. Thus, it can be inferred that respondents' perceptions of effectiveness in one specific area are related to, or drive, respondents' perceptions of the Bank's overall effectiveness or perceptions of the Bank's ability to help achieve sustainable development results.

- **Overall Effectiveness:** Those specific areas with the highest Pearson Product-Moment correlations were determined to be the most closely related to perceptions of the Bank's overall effectiveness, suggesting that ratings of effectiveness in those specific areas are drivers of perceptions of the Bank's overall effectiveness in Burkina Faso. The areas determined to be key drivers from these analyses were:
 - The Bank's effectiveness at energy;
 - The Bank's effectiveness at agricultural development;
 - The Bank's effectiveness at food security; and
 - The Bank's effectiveness at rural development.
 - Of note, the areas determined to be key drivers of the Bank's overall effectiveness in the FY '09 country survey were:
 - The Bank's effectiveness in helping to strengthen the health sector;
 - The Bank's effectiveness in helping to bring about economic growth; and
 - The Bank's effectiveness in helping to reduce poverty.
- **Achieving Sustainable Development Results:** Those specific areas with the highest Pearson Product-Moment correlations were determined to be the most closely related to perceptions of the Bank's ability to help achieve sustainable development results in Burkina Faso, suggesting that ratings of effectiveness in those specific areas are drivers of perceptions of the Bank's ability to help achieve sustainable development results. The areas determined to be key drivers from these analyses were:
 - The Bank's effectiveness at agricultural development;
 - The Bank's effectiveness at food security; and
 - The Bank's effectiveness at economic growth.

VII. World Bank Knowledge and Instruments

Knowledge: Frequency of Use

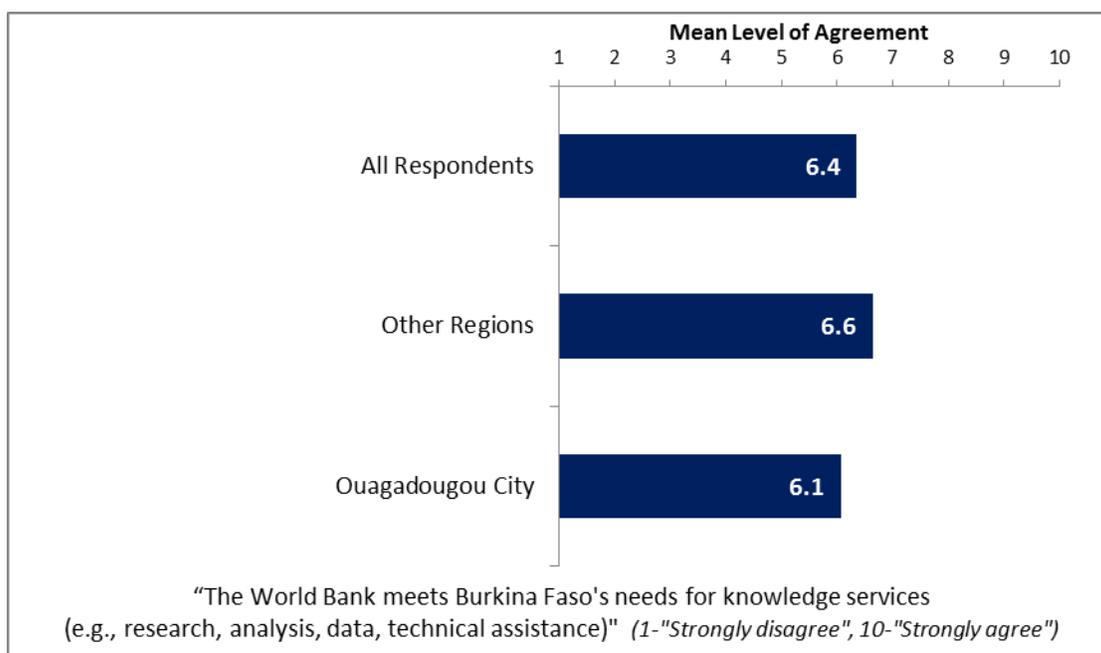

- Respondents from the office of the President/Prime Minister/Minister, PMUs/consultants on Bank-supported projects, the media, and bilateral or multilateral agencies had significantly higher rates of usage for the World Bank’s knowledge work and activities compared to respondents from other stakeholder groups.

VII. World Bank Knowledge and Instruments (continued)

Knowledge: Meeting Burkina Faso's Knowledge Needs (*Indicator Question*)

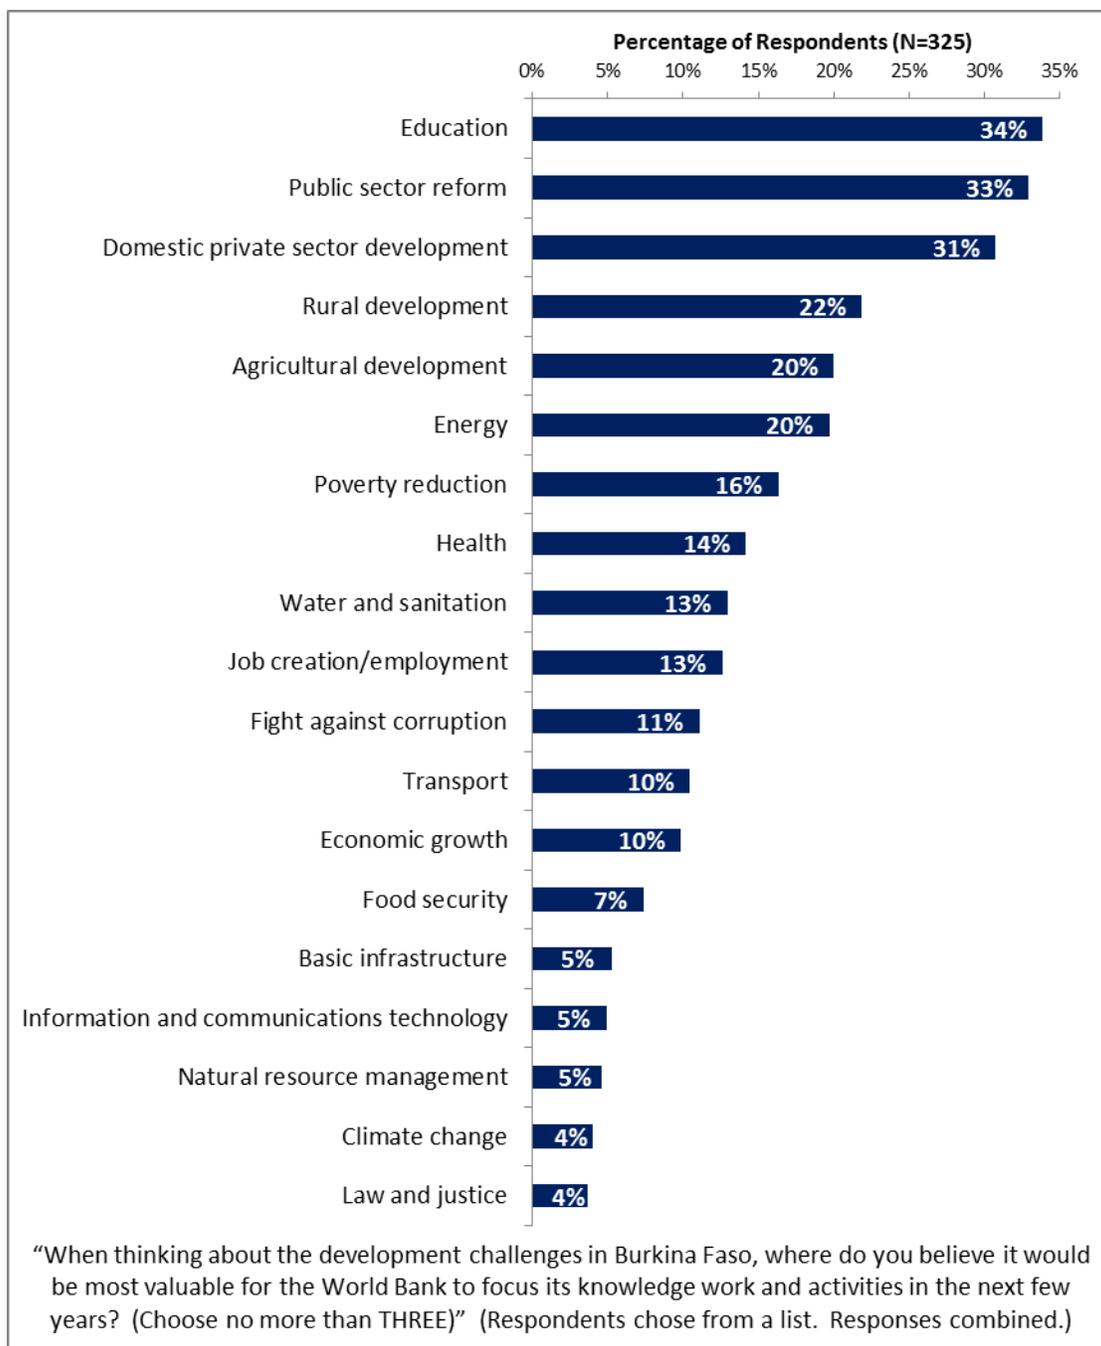

- Respondents from Other Regions had significantly higher levels of agreement that the Bank meets Burkina Faso's needs for knowledge services
- Respondents across all stakeholder groups had statistically similar levels of agreement that the Bank meets Burkina Faso's needs for knowledge services.

VII. World Bank Knowledge and Instruments (continued)

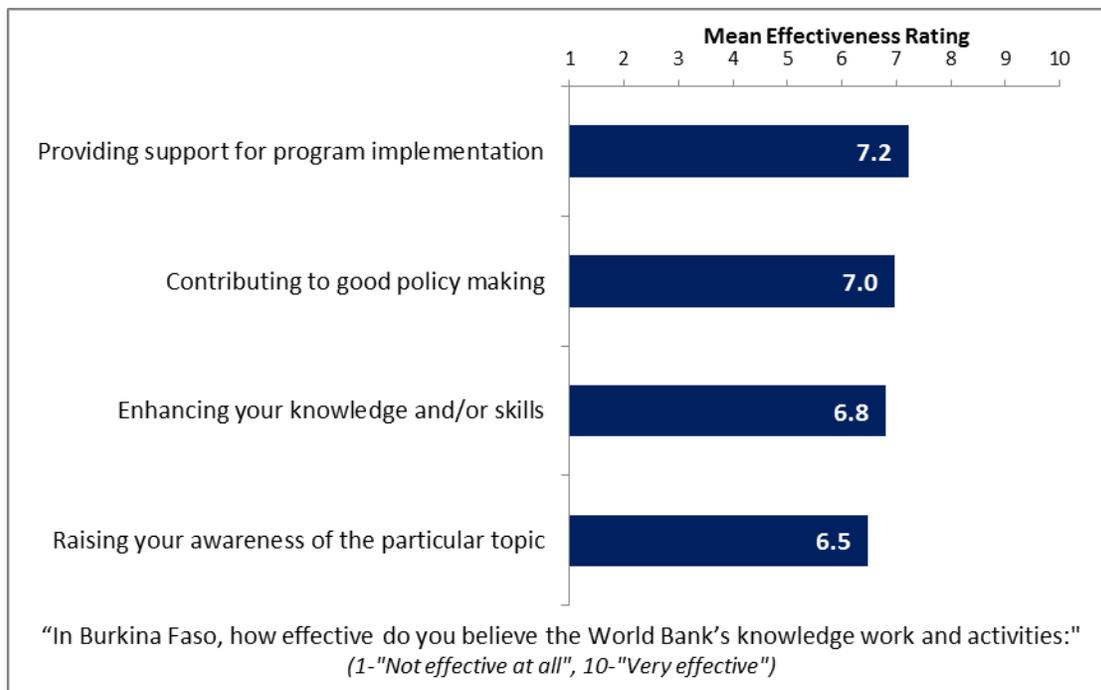

Knowledge: Focusing Bank Research

- Respondents in the FY '09 country survey indicated that it would be most valuable for the Bank to focus its research efforts on education (29%), enhanced business environment for private sector development (23%), and agricultural productivity (22%) in Burkina Faso.

VII. World Bank Knowledge and Instruments (continued)

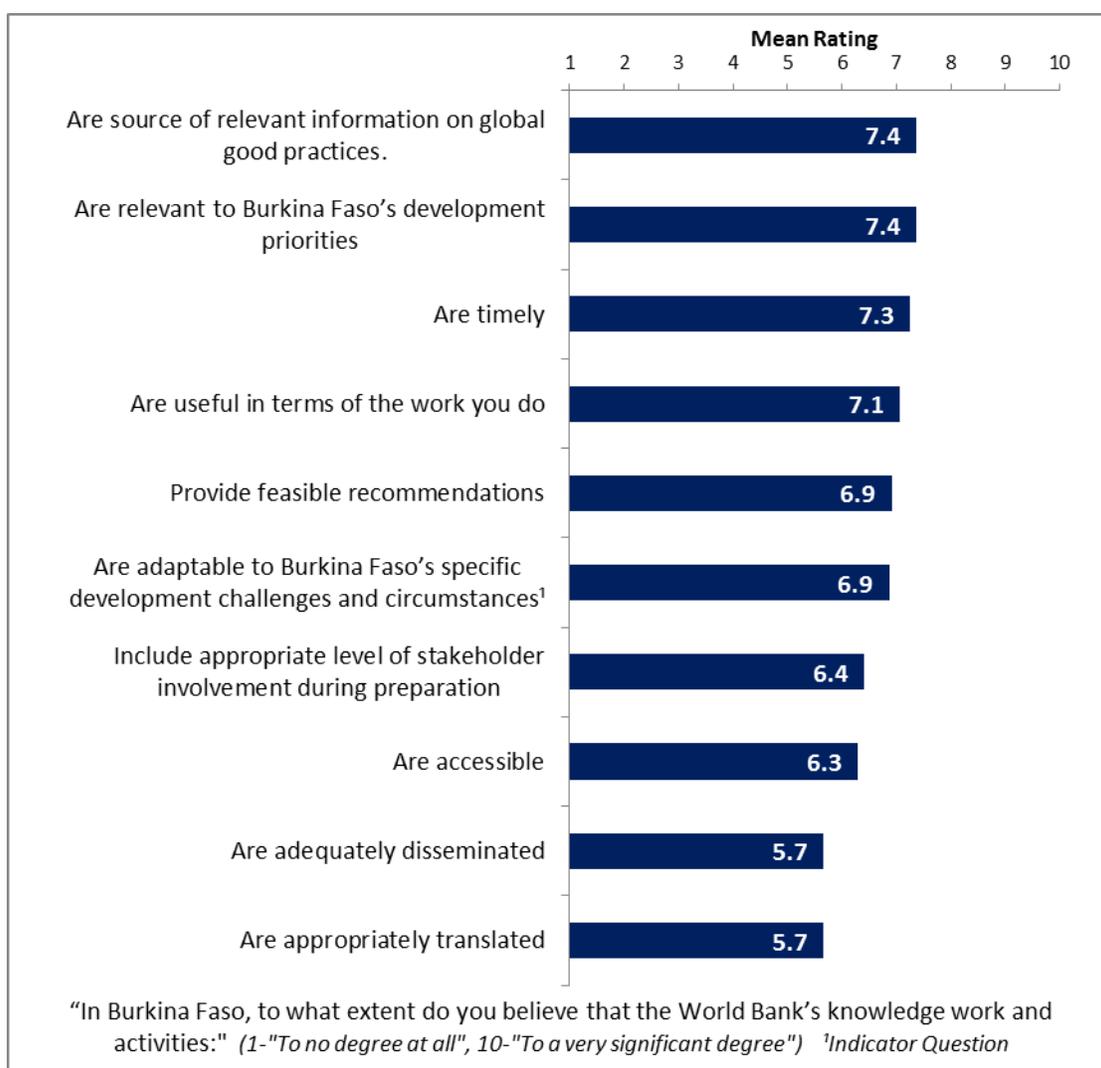

Knowledge: Effectiveness

VII. World Bank Knowledge and Instruments (continued)

World Bank Country Survey FY13 – BURKINA FASO

The World Bank is interested in gauging the views of clients and partners who are either involved in development in Burkina Faso or who observe activities related to social and economic development. The following survey is meant to give the World Bank's team that works in Burkina Faso, greater insight into how the Bank's work is perceived. This is one tool the World Bank uses to assess the views of its critical stakeholders. With this understanding, the World Bank hopes to develop more effective strategies, outreach and programs that support development in Burkina Faso. The World Bank commissioned an independent firm to oversee the logistics of this effort in Burkina Faso. This ensures anonymity and confidentiality. We hope you'll be candid. To complete the survey, please circle/check the response that most accurately reflects your opinion. **If you prefer not to answer a question, please leave it blank.**

PLEASE NOTE: IN SOME CASES THE SURVEY WILL ASK FOR A SPECIFIC NUMBER OF RESPONSES. PLEASE DO NOT CHOOSE ANY MORE THAN REQUESTED. IF MORE RESPONSES ARE CHOSEN, DATA CANNOT BE INCLUDED IN ANALYSIS.
