Cape Area Panel Study

A study of the changing lives of young adults in Cape Town

Town Centre for Social Science Research, University of Cape

Private Bag, Rondebosch 7701

In 2002 one of the members of this household, _____ participated in our Cape Area Panel Study. You or someone else in his/her household in 2002 also helped by providing information on the household as a whole. The Cape Area Panel Study is a study of young adults' schooling, health and well-being in South Africa. It is run by researchers at the University of Cape Town together with colleagues at the University of Michigan in the United States. The purpose of this study is to learn more about the challenges and opportunities facing young people as they make the transition to adulthood.

We would like to interview you to find out some information about this household and the people who live in it. It is our expectation that the results from this study will improve our understanding of the health, education, and work experience of young people in South Africa today.

We want to make sure that you understand the following information about the study.

- Your participation is entirely voluntary. You may refuse to take part in the interview, and may stop at any time if you do not want to continue. You also have the right to skip any particular question or questions if you do not wish to answer them.
- We expect that the interview will take approximately thirty minutes.
- All information collected for this study will be kept strictly confidential. Individual responses to our questions will never be made public, and no information which could identify you or the members of your household will ever be released.
- You have the right to ask questions at any point before the interview, during the interview, or after the interview is completed.
- We will want to re-interview you or some other member of this household in two or three years. But we will ask for permission again at that time. Agreeing to participate now does not mean you have to participate the next time around.

By signing below, you signify that you agree that you agree to participate in the Cape Area Panel Study.

Module F: Income transfers

We would like to know about income or goods that are sent from this household to other households or that come into this household from other households. For example, someone in this household may be regularly sent money by a relative working outside the household, or someone outside the household may have helped pay for an expense such as a funeral. Someone in this household may have helped someone in another household with the costs of schooling or with an expense such as a funeral. We are interested in important sources of support that your household receives or gives, not in small gifts.

			GO TO	
F.1	Did anyone in this household <u>receive</u> money or goods from someone outside the household in the last 12 months?	Yes	1	F.2
		No	2	F.9

If yes, complete the table below for each transfer. If a transfer comes regularly, put this as one transfer. If there are more than 3 transfers, list the ones that provided the largest amount of money or goods.

			Transfer in #1	Transfer in #2	Transfer in #3
F.2	Which person <u>received</u> this money or goods? If one person is the primary recipient, put the line number of that person. If the transfer is for more than one person, put 88.	Line number			
F.3	How is the person who sent the transfer related to the person who received it? (see code list F3)	Code			
F.4	About how old is the person who sent the transfer?	Age			
F.5	Where does sender live? (see code list F5)	Code			
F.6	How many times did you receive this transfer in the last 12 months?				
F.7	What was the Rand value of the usual transfer (if goods were sent, think of how much it would cost to buy those goods)?	Rands			
F.8	What was the main use of the money or goods? (see code list F8)	Code
