TRANSECT WALK

(1) Need to be done in each village
(2) 20 randomly selected households in each village
(3) Minimum 60 households in each GP. If less than 3 villages per GP, then do more HHs per village to meet minimum 60 HHs
(4) Select HH randomly in a transect walk. Select 5 starting points in each village and do 4 interviews at each starting point leaving 7-8 households in between. Starting points should be indifferent directions. Object is geographical coverage of the village.
