PART II, SECTION 1A: LAND AND ITS USE: QUALITY OF LAND AND CROPS GROWN

We would like to ask some questions about all the land used by your beteseb during the last full agricultural year. Please include land you are cultivating that belongs to other households. Also include land that is your land but cultivated by other household. First, give details about the plots cultivated during the last 12 months. First mention the **plots cultivated during the last Meher**. Then mention all **plots cultivated during the Belg**. If some plots were cultivated during **both the (equivalent of) Meher and Belg**, mention them as one plot. A plot used for **permanent crops** is considered used for Meher and Belg. If they were cultivated with different crops during each season. On the line with the details about the plot, give the season and then the crops cultivated during the Meher and then the crops cultivated during the Belg in the following line. Mention also land used exclusively for **woodland, livestock grazing or left fallow** during the last 12 months. Finally, list all plots belonging to the household but **rented out or sharecropped out** and used by another household. **A plot belongs to the same parcel if it is physically connected, and is not separated by a natural obstacle or by land from another farmer.**

PART II, SECTION 1A: LAND AND ITS USE: QUALITY OF LAND AND CROPS GROWN

We would like to ask some questions about all the land used by your beteseb during the last full agricultural year. Please include land you are cultivating that belongs to other households. Also include land that is your land but cultivated by other household. First, give details about the plots cultivated during the last 12 months. First mention the **plots cultivated during the last Meher**. Then mention all **plots cultivated during the Belg**. If some plots were cultivated during **both the (equivalent of) Meher and Belg**, mention them as one plot. A plot used for **permanent crops** is considered used for Meher and Belg. If they were cultivated with different crops during each season. On the line with the details about the plot, give the season and then the crops cultivated during the Meher and then the crops cultivated during the Belg in the following line. Mention also land used exclusively for **woodland, livestock grazing or left fallow** during the last 12 months. Finally, list all plots belonging to the household but **rented out or sharecropped out** and used by another household. **A plot belongs to the same parcel if it is physically connected, and is not separated by a natural obstacle or by land from another farmer.**

PART II, SECTION 2C: AGRICULTURAL INPUTS: OTHER EXPENDITURES

We would like to ask you some questions about expenses related to inputs into crop agriculture during the last completed Meher season and the preceding Belg. For permanent crops, if there is only one harvest, give the total expenditure of each item for the last harvest in the table related to 'Meher'. If there are two harvests per year for the permanent crop, give first the costs related to the largest harvest in the 'Meher' table and then those related to the second harvest in the next box. If more than two harvests take place or if the crop is harvested continuously throughout the year, give the total expenses on inputs for the last 12 months in the 'Meher' table.

During the LAST (completed) MEHER, has the household incurred any expenses related to inputs for crop agriculture, including for the hiring of labour?

PART II, SECTION 6: EVENTS DURING THE LAST KIREMT SEASON

Please think back at the last main rainy season (Kiremt). We would like to know whether any of the following events happened to you which affected the growth of your crops and the harvest. These questions should be asked to all farmers who harvest during the Meher season, AND ALL FARMERS WHO GROW PERMANENT CROPS; and any other farmers for whom these rains can be relevant.

Permanent crop growers should be asked in general about the growing season preceding the last main harvest. If the crop is continuously harvested, ask for a general assessment of the last growing season. When referring to 'Kiremt', interpret this for the permanent crop growers as the main rains. Space is provided to qualify answers if needed.
