PART II, SECTION 1A: LAND AND ITS USE: QUALITY OF LAND AND CROPS GROWN

We would like to ask some questions about all the land used by your beteseb during the last full agricultural year. Please include land you are cultivating that belongs to other households. Also include land that is your land but cultivated by other household. First, give details about the plots cultivated during the last 12 months. First mention the **plots cultivated during the last Meher**. Then mention all **plots cultivated during the Belg**. If some plots were cultivated during **both the (equivalent of) Meher and Belg**, mention them as one plot. A plot used for **permanent crops** is considered used for Meher and Belg. If they were cultivated with different crops during each season. On the line with the details about the plot, give the season and then the crops cultivated during the Meher and then the crops cultivated during the Belg in the following line. Mention also land used exclusively for **woodland, livestock grazing or left fallow** during the last 12 months. Finally, list all plots belonging to the household but **rented out or sharecropped out** and used by another household. **A plot belongs to the same parcel if it is physically connected, and is not separated by a natural obstacle or by land from another farmer. Plots can be divided into parcels.**

PART II, SECTION 2C: AGRICULTURAL INPUTS: OTHER EXPENDITURES

We would like to ask you some questions about expenses related to inputs into crop agriculture during the last completed Meher season and the preceding Belg. For permanent crops, if there is only one harvest, give the total expenditure of each item for the last harvest in the table related to 'Meher'. If there are two harvests per year for the permanent crop, give first the costs related to the largest harvest in the 'Meher' table and then those related to the second harvest in the next box. If more than two harvests take place or if the crop is harvested continuously throughout the year, give the total expenses on inputs for the last 12 months in the 'Meher' table.

During the LAST (completed) MEHER, has the household incurred any expenses related to inputs for crop agriculture, including for the hiring of labour?

PART II, SECTION 6: EVENTS DURING THE LAST KIREMT SEASON

Please think back at the last main rainy season (Kiremt). We would like to know whether any of the following events happened to you which affected the growth of your crops and the harvest. These questions should be asked to all farmers who harvest during the Meher season, AND ALL FARMERS WHO GROW PERMANENT CROPS; and any other farmers for whom these rains can be relevant.

Permanent crop growers should be asked in general about the growing season preceding the last main harvest. If the crop is continuously harvested, ask for a general assessment of the last growing season. When referring to 'Kiremt', interpret this for the permanent crop growers as the main rains. Space is provided to qualify answers if needed.

PART II, SECTION 9: RISK AND TIME PREFERENCES

We will now ask you to make a decision in which you can earn real money.

You can choose which of the following situations you would like to be in, a situation of more or less certainty. [USE HANDOUT 1] Once you have chosen we will flip a coin and you will be paid the amount of money based on the flip of the coin and your decision.

- a. You receive 2.5 Birr regardless of whether it is lion or crown
- b. You receive 2 Birr if it is lion, 4 Birr if it is crown
- c. You receive 1.5 Birr if it is lion, 5.5 Birr if it is crown
- d. You receive 1 Birr if it is lion, 7 Birr if it is crown
- e. You receive 0 Birr if it is lion, 10 Birr if it is crown

There is an equal chance that the coin will land on lion or crown.

Before you choose we will do a practice round.

1. Think of the option you might like to choose, now we will flip the coin so you can see what you would have won. FLIP COIN AND RECORD WHETHER LION OR CROWN LANDED ____

2. We will now ask you to decide for real money. Which situation would you like (a, b, c, d, or e)?

6. How often do the kiremt rains fail for your land? Once every _____ years [ENTER THE NUMBER OF YEARS THE RAINS FAIL]

7. Are there signs (e.g. in the temperature, the behavior of animals, the rain received in the last years, the number of the year) that you might receive timely or sufficient rain? ____ 1. Yes 2. No

8. USE HANDOUT 4 AND 20 BEANS. Given the number of times the rains fail, and any signs you have observed, indicate by placing beans on the relevant square how likely it is that you think the Kiremt rains will fail this year. The more sure you are that they will fail the more beans should be placed on this square. If you think there is equal chance they will fail and they will not fail place the beans equally between the two squares.
ONCE RESPONDENT HAS FINISHED MOVING BEANS

Introduction of the weather station

- There is a weather station located near this village at Debre Ziet
- This weather station collects information on the amount of rain that falls on that weather station each day. The total amount of rain that fell during the Kiremt rains (from Hamle to Meskerem) is recorded. This card [SHOW WEATHER STATION CARD] shows the amount of rain that fell during the Kiremt rains in the last ten years. [READ AMOUNT OF MM FOR 2000 EC AND 1999 EC]
- The amount of rain that falls on your plot is similar, but not always the same as the amount that falls in Debre Ziet. For example you can compare the amount that fell in the last five years on your plot with this weather station [CONTRAST GRAPHICS ON WEATHER STATION CARD WITH HANDOUT 3 RESPONSES]

Description of contract

Imagine a well-known Ethiopian insurance company developed the following insurance product and was offering it to farmers in this kebele:

- By making 12 monthly payments farmers will have a written insurance contract that states the company will pay3000 Birr in Tikmit in the case that the level of rainfall recorded in the weather station at Butajira during the Kiremt rains (from Hamle to Meskerem) is less than 350 mm
- If the rainfall is less than 350mm it means the Kiremt rains failed. (1 DROP CLOUD OR LESS)
- In the last ten years you would have received a payout in 1994 EC and 1997 EC, but not any other year. [INDICATE USING WEATHER STATION GRAPHIC].
- Whether or not you receive the money is based on the rainfall in the weather station in Butajira, not the rainfall on your fields.
- The rainfall on your field might be more or less than this, for example if the rainfall at the weather station is  [SHOW CARD] the rainfall on your fields could be  also or it could be  [SHOW CARD] or 

Understanding

Imagine you bought the insurance I just described to you:

10. The weather station counts 370mm of rain (more than 1 drop card) from Hamle to Meskerem. Will you get an insurance payout? 1. Yes 2.No _____

11. a. The weather station counts 300mm of rain (less than 1 drop card) from Hamle to Meskerem Will you get an insurance payout? 1. Yes 2.No _____
b. If yes, how much? _____ Birr

12. Does the insurance pay you on the basis of the rainfall you received in your own field or the rainfall received at the weather station? _____

1. Own field 2. Weather station 3. Both 4. Don't know

Willingness to pay

X___ Y___ Z___

13. a. Would you be willing to pay **X** Birr [SAY **X** ENTERED ABOVE] every month to this insurance company for twelve months to buy this insurance for one year? 1. Yes 2. No _____
(IF YES, ASK b, IF NO ASK c)

b. If yes to **X**, would you be willing to pay **Y**? 1. Yes 2. No _____

c. If no to **X**, would you be willing to pay **Z** to your iddir? 1. Yes 2. No _____

d. How sure are you of your answers? 1. Very sure 2. Sure 3. Not very sure _____

14. Now imagine your iddir could buy this product on behalf of every household in the iddir .The iddir leaders would be responsible for learning about whether the insurance would help members of the iddir and for making the monthly payments to the insurance company. They would receive the written insurance contract and would ensure the payment is received from the insurance company if the rainfall was below 350mm. They would distribute the 3000 Birr to each household.

a. Would you pay **X** Birr to your iddir each month for them to buy this insurance? 1. Yes 2. No _____
(IF YES, ASK b, IF NO ASK c)

b. If yes to **X**, would you be willing to pay **Y** to your iddir? 1. Yes 2. No _____

c. If no to **X**, would you be willing to pay **Z** to your iddir? 1. Yes 2. No _____

d. How sure are you of your answers? 1. Very sure 2. Sure 3. Not very sure _____

15. [IF RESPONDENT ANSWERED NO TO 13c and 14c]

Why would you not pay? (circle most important reason)

1. The insurance is too expensive, I would only choose to buy insurance at a cheaper price
2. I do not need weather insurance
3. The rain on my fields is too different from the rain in Debre Ziet
4. I do not trust the insurance company to really pay me if the rain is low
5. I don't really understand the contract
9. Other _____

16. In general, would you prefer to have insurance through an individual contract with the insurance company or through a contract between your iddir and the insurance company? 1. Individually 2. Through iddir _____

17. If individually list reason (circle most important reason)

1. Not everyone in my iddir would want to buy the same product
2. Not everyone in my iddir could afford to buy this product
3. I prefer to make the payments myself / have personal interaction with the insurance company
9. Other _____

18. If through iddir list reason (circle most important reason)

1. It is better to let the iddir leaders decide whether this is a good product to buy

2. It is easier to have the iddir leaders make payments and receive payout for distribution
3. It is better that everyone has the same protection against the weather
9. Other _____

Financial literacy

19. How many times in the last 10 years would the insurance contract I described earlier have paid you? _____

20. If you had a friend living and farming in Debre Ziet would he always receive the same amount of rainfall as you? 1.Yes 2. No _____

21. If you flip a coin, how likely is it that you get a lion or a crown? _____

1. More likely to get lion 2. More likely to get crown 3.The same, equally likely to get lion or crown
