The Papua New Guinea Country Opinion Survey is part of the Country Opinion Survey Program series of the World Bank Group. This report was prepared by the Public Opinion Research Group (PORG) team led by Sharon Felzer (Senior Communications Officer, Head of PORG), Jing Guo, Jessica Cameron, and Svetlana Markova. Calita Woods and Dania Mendoza provided data support. The report was prepared under the overall guidance and supervision of Sumir Lal (Director, ECRGP). PORG acknowledges the significant contribution from the Papua New Guinea country team and the local fielding agency Tebbutt Research Institute. In particular, PORG is grateful to Laura Bailey (Country Manager) and Kym Louise Smithies (Communications Officer) for their ongoing support throughout the Country Opinion Survey process.

I. Objectives

This survey was designed to achieve the following objectives:

- Assist the World Bank Group in gaining a better understanding of how stakeholders in Papua New Guinea (PNG) perceive the Bank Group;
- Obtain systematic feedback from stakeholders in Papua New Guinea regarding:
 - Their views regarding the general environment in Papua New Guinea;
 - Their overall attitudes toward the World Bank Group in Papua New Guinea;
 - Overall impressions of the World Bank Group's effectiveness and results, knowledge work and activities, and communication and information sharing in Papua New Guinea;
 - Perceptions of the World Bank Group's future role in Papua New Guinea.
- Use data to help inform Papua New Guinea country team's strategy.

II. Methodology

From April to May 2014, 463 stakeholders of the World Bank Group in Papua New Guinea were invited to provide their opinions on the World Bank Group's assistance to the country by participating in a country survey. Participants in the survey were drawn from the office of the President; the office of the Prime Minister; office of a minister; office of a parliamentarian; ministries, ministerial departments, or implementation agencies; consultants/contractors working on World Bank Group-supported projects/programs; project management units (PMUs) overseeing implementation of a project; local government officials; bilateral and multilateral agencies; private sector organizations; private foundations; the financial sector/private banks; NGOs; community based organizations; the media; independent government institutions; trade unions; faith-based groups; academia/research institutes/think tanks; the judiciary branch; and other organizations. A total of 150 stakeholders participated in the survey (32% response rate).

Respondents either completed questionnaires with a representative of the fielding agency or they received the questionnaire via courier and returned it accordingly. Respondents were asked about: general issues facing PNG; their overall attitudes toward the World Bank Group (WBG); the WBG's effectiveness and results; the WBG's knowledge work and activities; working with the WBG; the WBG's sectoral focus in the PNG, the WBG's future role in PNG; and the WBG's communication and information sharing in PNG.

Every country that engages in the Country Opinion Survey must include specific indicator questions that will be aggregated for the World Bank Group's annual Corporate Scorecard. These questions are identified throughout the survey report.

- A. General Issues Facing Papua New Guinea: Respondents were asked to indicate whether PNG is headed in the right direction, what they thought were the top three most important development priorities in the country, which areas would contribute most to reducing poverty and generating economic growth in PNG, and how "shared prosperity" would be best achieved in PNG.
- B. Overall Attitudes toward the World Bank Group: Respondents were asked to rate their familiarity with the WBG, the WBG's effectiveness in Papua New Guinea, WBG staff preparedness to help PNG solve its development challenges, their agreement with various statements regarding the WBG's work, and the extent to which the WBG is an effective

II. Methodology (continued)

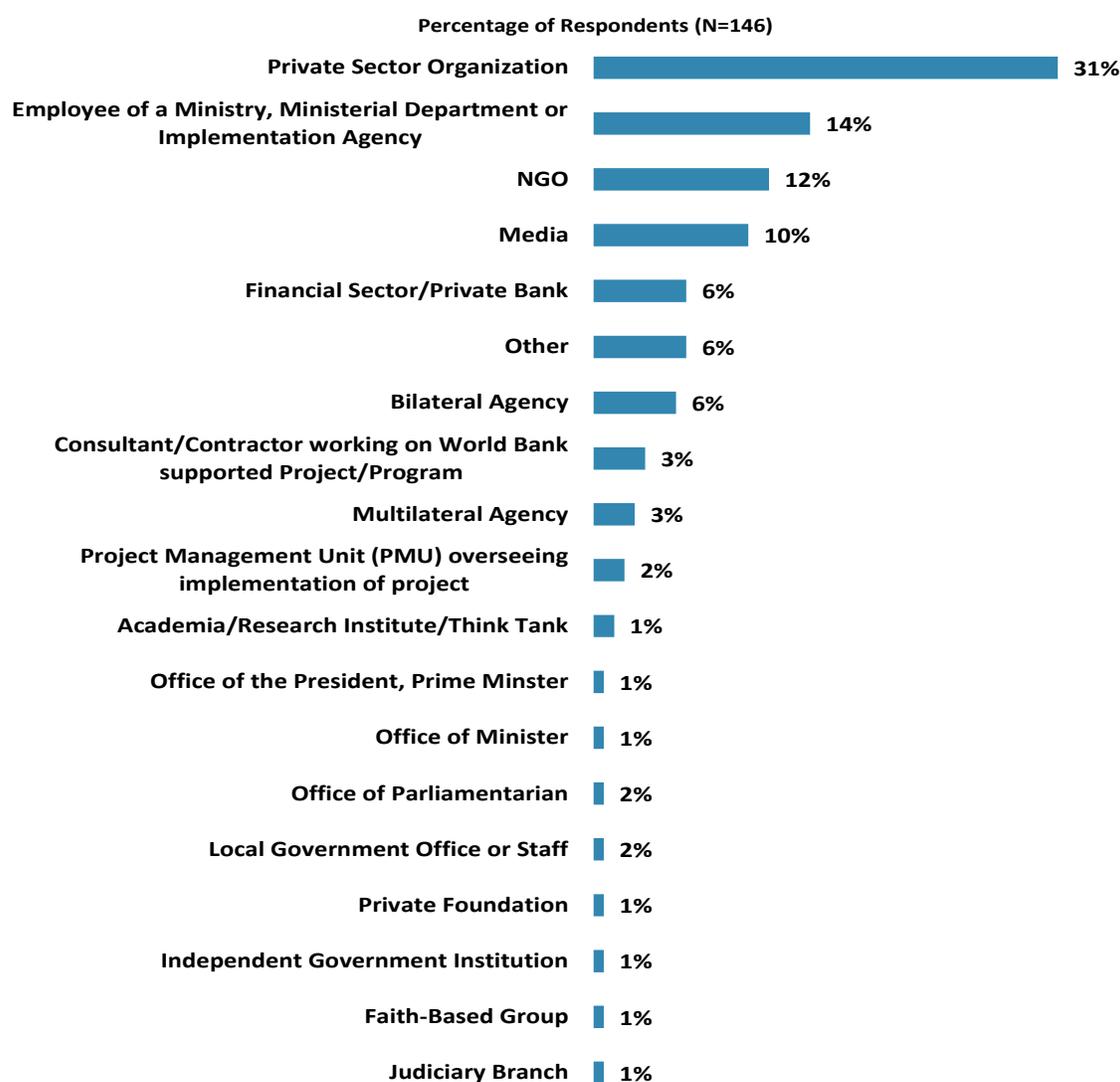

- B. Overall Attitudes toward the World Bank Group (continued): development partner. Respondents were asked to indicate the WBG's greatest values and weaknesses, the most effective instruments in helping reduce poverty in PNG, with which stakeholder groups the WBG should collaborate more, in which sectoral areas the WBG should focus most of its resources (financial and knowledge services), and to what reasons respondents attributed failed or slow reform efforts. Respondents were also asked to respond to a few questions about capacity building, whether they believe the WBG should have more or less local presence and more or effective collaboration with the UN.
- C. World Bank Group's Effectiveness and Results: Respondents were asked to rate the extent to which the WBG's work helps achieve development results in PNG, the extent to which the WBG meets PNG's needs for knowledge services and financial instruments, the WBG's level of effectiveness across twenty three development areas, such as education, public sector governance/reform, transport, and job creation/employment.
- D. The World Bank Group's Knowledge Work and Activities: Respondents were asked rate the effectiveness and quality of the WBG's knowledge work and activities, including how significant of a contribution it makes to development results and its technical quality.
- E. Working with the World Bank Group: Respondents were asked to rate their level of agreement with a series of statements regarding working with the WBG, such as the WBG's "Safeguard Policy" requirements being reasonable, and disbursing funds promptly. They were also asked to indicate whether they think the WBG should take more risk in PNG and whether the WBG is adequately staffed in PNG.
- F. The World Bank Group's Sectoral Focus in PNG: Respondents were asked to indicate which areas the WBG would be most valuable in related to sustainable development of mining sector, the oil and gas sector, and sustainable development of minerals revenues.
- G. The Future Role of the World Bank Group in PNG: Respondents were asked to indicate what the WBG should do to make itself of greater value in PNG, and which services the Bank should offer more of in the country, and what the WBG should do to improve its collaboration with the UN in the field. They were also asked to which areas the country will benefit most from WBG playing a leading role as compared to other donors.
- H. Communication and Information Sharing: Respondents were asked to indicate how they get information about economic and social development issues, how they prefer to receive information from the WBG, and their usage and evaluation of the WBG's websites. Respondents were also asked about their awareness of the WBG's Access to Information policy, past information requests from the WBG, and their level of agreement that they use more data from the WBG as a result of the WBG's Open Data policy.
- I. Background Information: Respondents were asked to indicate their current position, specialization, whether they professionally collaborate with the WBG, their exposure to the WBG in PNG, which WBG agencies they work with, and their geographic location.

When possible, responses from respondents completing this year's country survey were compared to responses from 81 respondents (54% response rate) who completed the survey in FY 2003. For more details, please see Appendix E (page 140).

III. Demographics of the Sample

Current Position

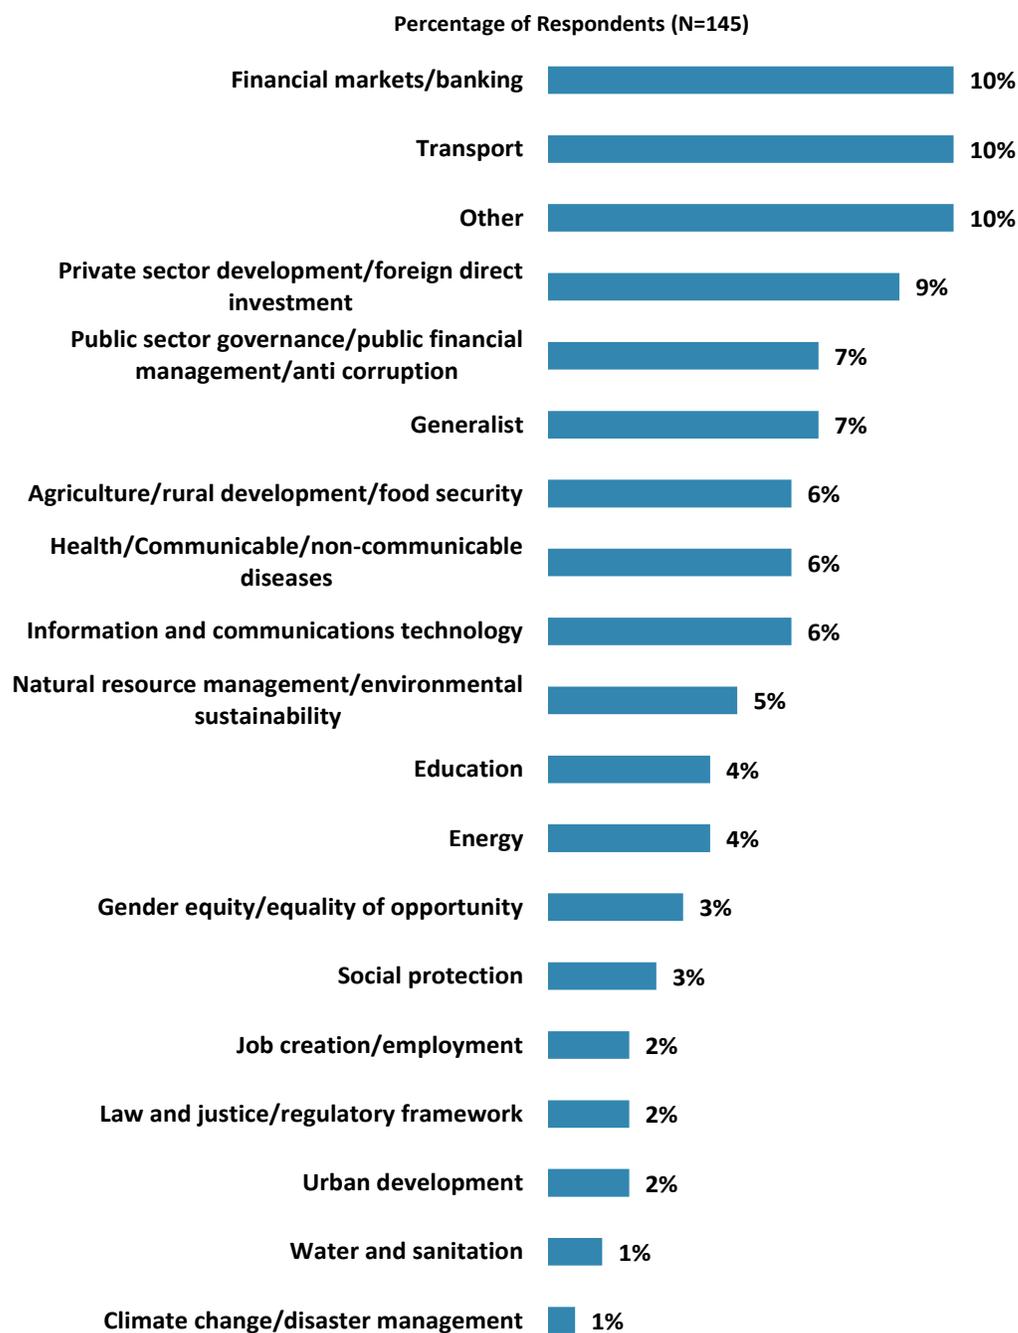

- For further analyses, respondents from bilateral agencies were combined with those from multilateral agencies; respondents from the financial sector/private banks were combined with those from private sector organizations; respondents from PMUs were combined with consultants/contractors working on WBG-supported projects/programs. Respondents from private foundations, NGOs, and faith-based groups were combined into “CSO.” Few respondents from the Office of the President, Prime Minister, and Ministers, office of parliamentarian, local governments, independent government institutions, academia/research institutes/think tanks, the judiciary branch and other organizations were included in the “Other” category. There were no respondents from the CBOs or trade unions.

“Which of the following best describes your current position?”
(Respondents chose from a list.)

III. Demographics of the Sample (continued)

Area of Primary Specialization

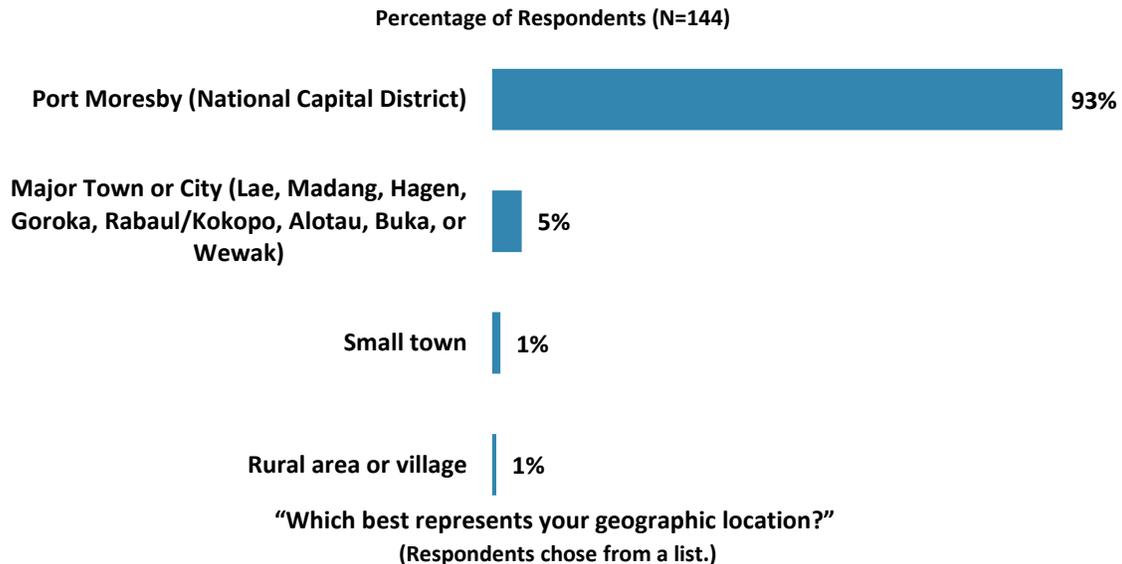

“Please identify the primary specialization of your work.”
(Respondents chose from a list.)

III. Demographics of the Sample (continued)

Geographic Location

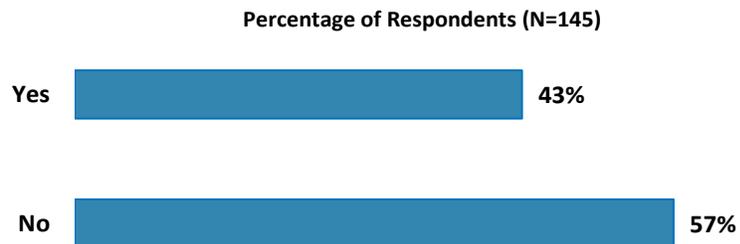

- The vast majority of respondents indicated that they were located in Port Moresby (National Capital District). Because of the small number of respondents from other locations, these locations were combined in the “Other” category for all further analyses.
- Responses across both geographic locations for all country survey questions can be found in the Appendix C (see page 104). Only significant differences between geographic locations in response to indicator questions will be discussed in the body of this report.

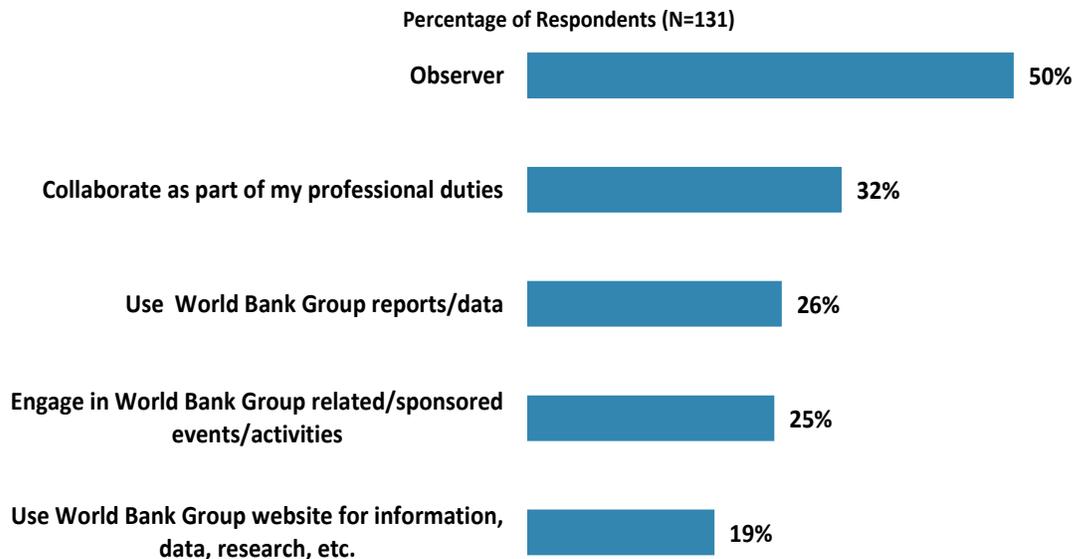

III. Demographics of the Sample (continued)

Collaboration with and Exposure to the World Bank Group

- Differences in responses to all questions based on the levels of collaboration can be found in Appendix D (see page 122). Differences in responses to the indicator questions, based on levels of collaboration and exposure to the World Bank Group in Papua New Guinea, can be found in Appendix D and F (see page 122 and 142). Please note that where these two factors appear to have a significant relationship with overall views of the World Bank Group, it is highlighted in yellow in that table.

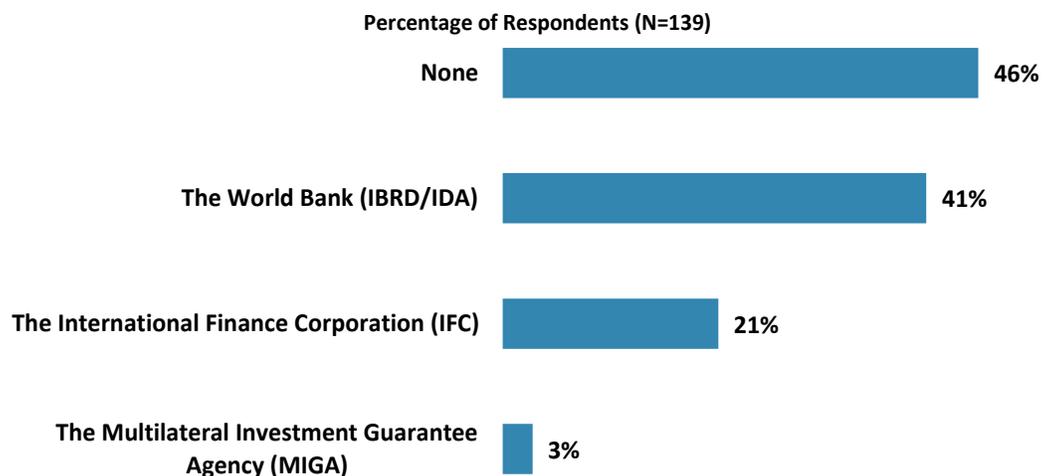

"Currently, do you professionally collaborate/work with the World Bank Group in your country?"

"Which of the following describes most of your exposure to the World Bank Group in Papua New Guinea? (Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

III. Demographics of the Sample (continued)

Exposure to Agencies within the World Bank Group

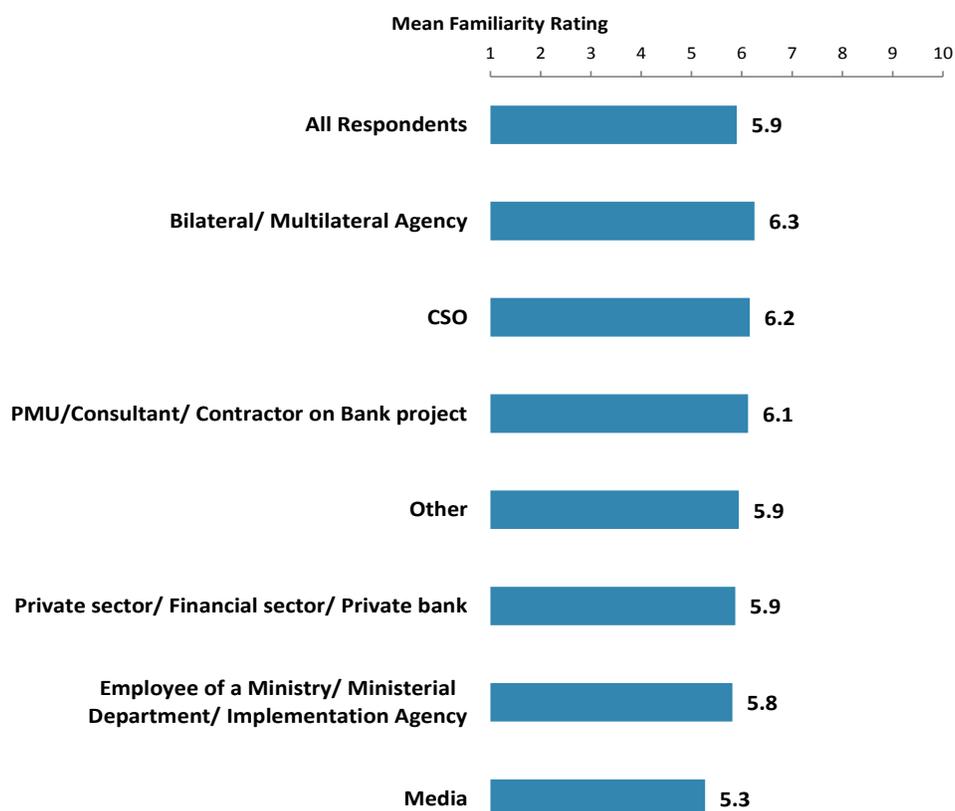

"Which of the following describes most of your exposure to the World Bank Group in Papua New Guinea? (Choose no more than TWO)"
(Respondents chose from a list. Responses combined.)

III. Demographics of the Sample (continued)

Familiarity with the World Bank Group

- Respondents across stakeholder groups had statistically similar levels of familiarity with the World Bank Group.
- Respondents across geographic locations had statistically similar levels of familiarity with the World Bank Group.
- Respondents' ratings of familiarity with the WBG were significantly, strongly correlated with their perceptions of the WBG's overall effectiveness in Papua New Guinea, and significantly, moderately correlated with their perceptions of the WBG's relevance to Papua New Guinea's development and the WBG's ability to help achieve development results in Papua New Guinea.

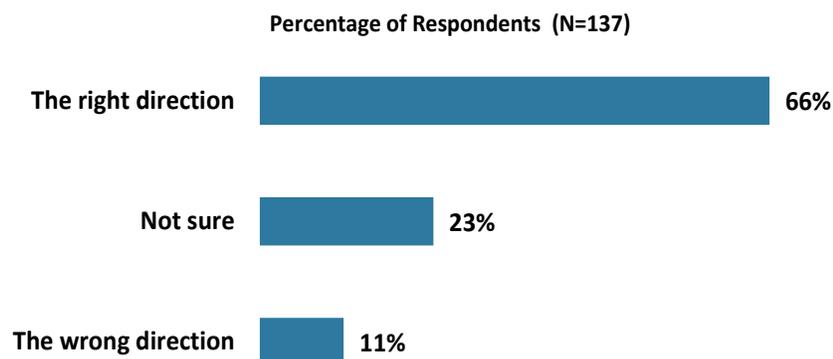

"How familiar are you with the work of the World Bank Group in Papua New Guinea?"
 (1 - "Not familiar at all", 10 - "Extremely familiar")

IV. General Issues Facing Papua New Guinea

Headed in the Right Direction

- A majority of respondents across stakeholder groups and geographic locations indicated that Papua New Guinea is headed in the right direction.

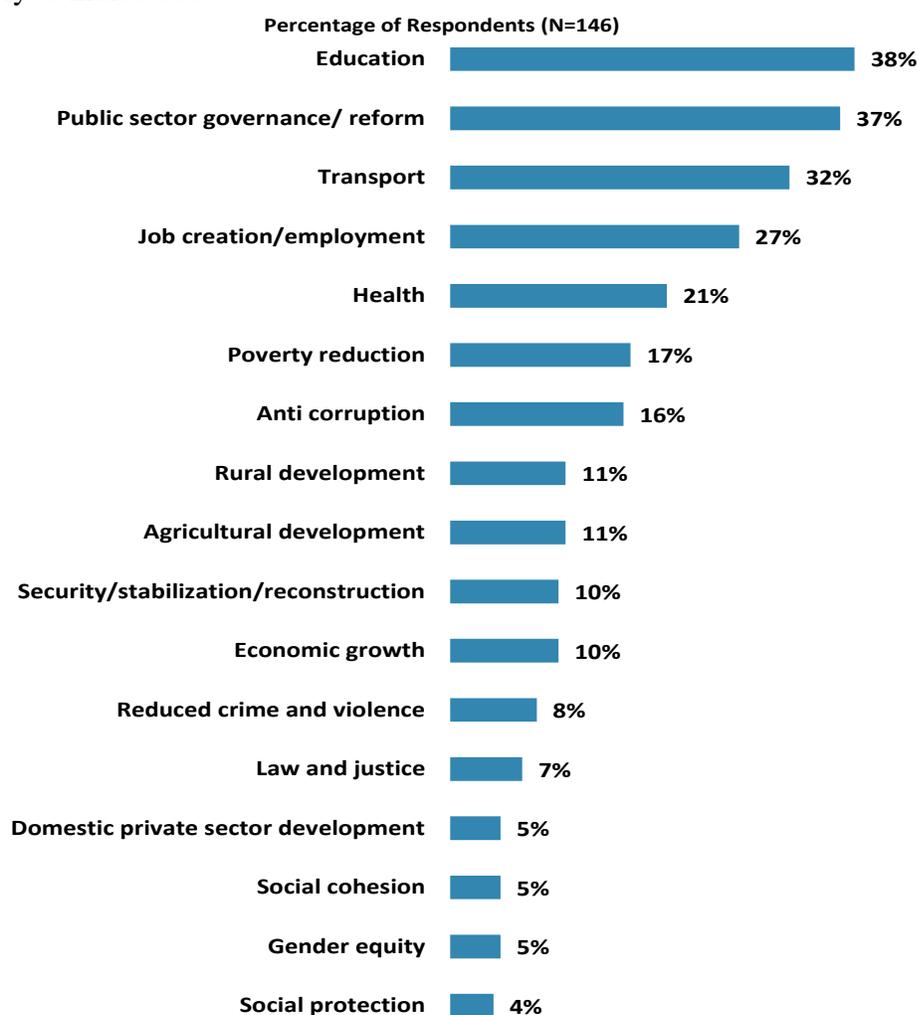

"In general, would you say that Papua New Guinea is headed in ...?"
(Respondents chose from a list.)

IV. General Issues Facing Papua New Guinea (continued)

Development Priority

- Respondents across stakeholder groups, geographic locations, and specialized sectors had statistically similar responses to the importance of “*education*” as a top development priority facing Papua New Guinea.
- There were significant stakeholder group differences in their views about the importance of “*public sector governance/reform.*” Employees of ministries/ministerial departments/implementation agencies were mostly likely to perceive it as a top development priority, whereas respondents from CSOs and the media were significantly less likely to indicate so.

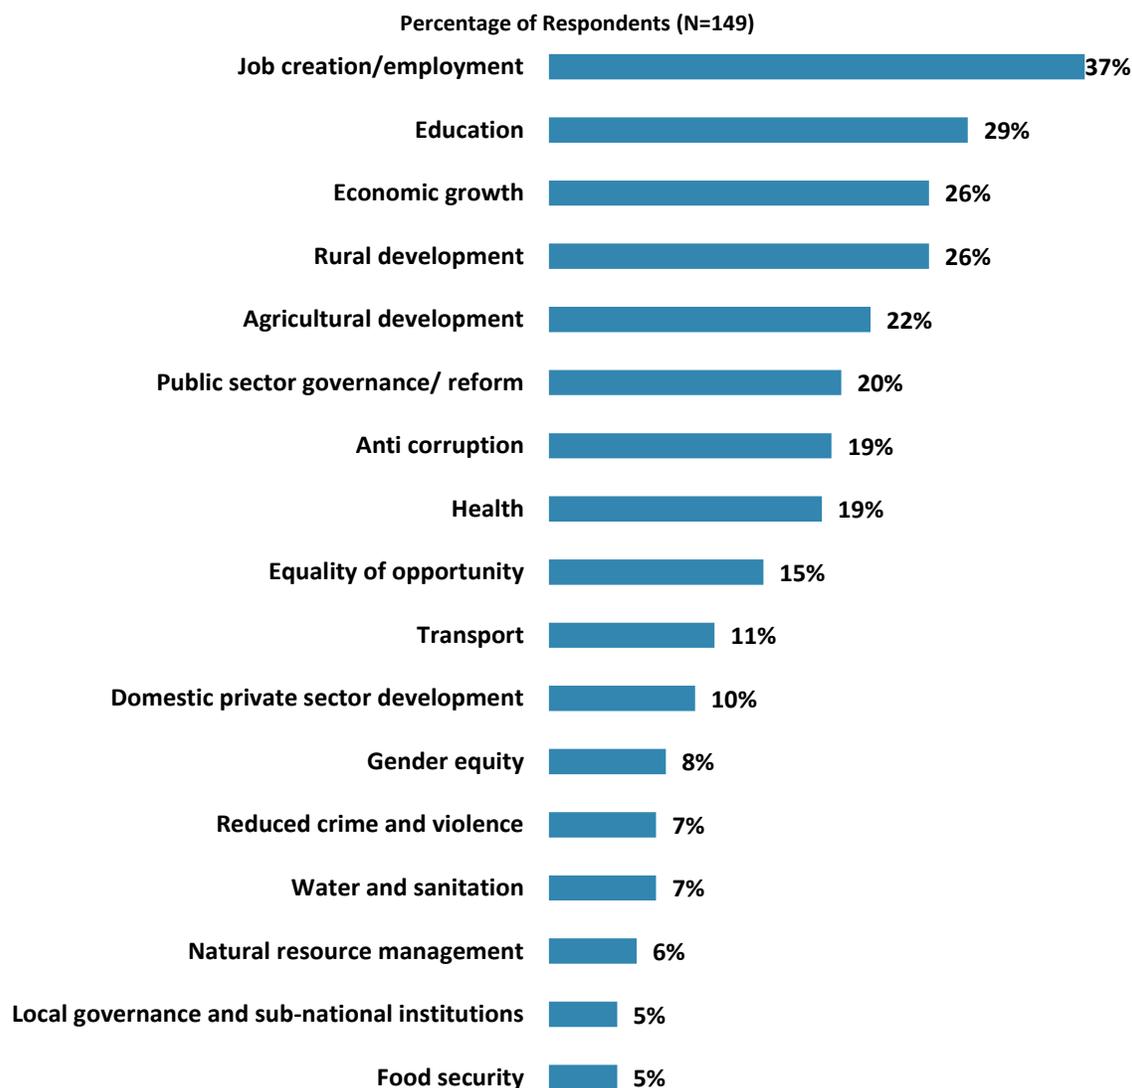

"Listed below are a number of development priorities in Papua New Guinea. Please identify which of the following you consider the most important development priorities in Papua New Guinea. (Choose no more than THREE)"
(Respondents chose from a list. Responses combined.)

When more than 10% of the sample are respondents from a particular sector (see the full list of specialized sectoral areas in question I2 in Appendix H), analyses are done to see these respondents' views about development priorities in comparison to respondents from other sectors.

IV. General Issues Facing Papua New Guinea (continued)

What Would Contribute Most to Reducing Poverty

- Respondents across stakeholder groups, geographic locations, and specialized sectors had statistically similar views about top contributors to poverty reduction in Papua New Guinea.

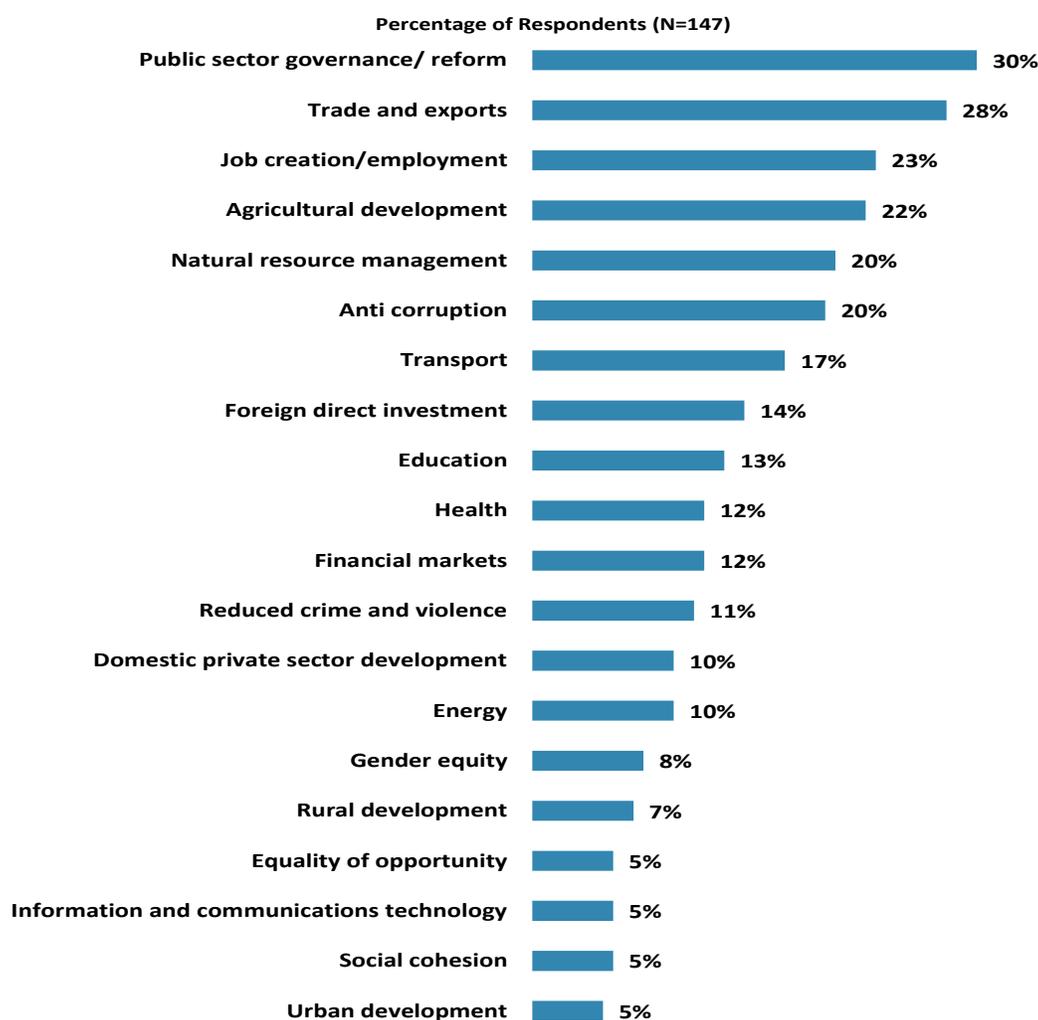

"Poverty reduction is a broad term that encompasses work in many different areas. Which THREE areas of development listed below do you believe would contribute most to reducing poverty in Papua New Guinea?" (Respondents chose from a list. Responses combined.)

When more than 10% of the sample are respondents from a particular sector (see the full list of specialized sectoral areas in question I2 in Appendix H), analyses are done to see these respondents' views about top contributors to poverty reduction in comparison to respondents from other sectors.

IV. General Issues Facing Papua New Guinea (continued)

What Would Contribute Most to Generating Economic Growth

- Respondents across stakeholder groups, geographic locations, and specialized sectors had statistically similar views about most of the top development areas contributing to economic growth in Papua New Guinea, except their views on “*reduced crime and violence*” and “*foreign direct investment.*” Respondents from other locations outside Port Moresby (National Capital District) were significantly more likely to indicate the WBG should focus most resources on these two areas than respondents from the capital.
- Respondents who do not professionally collaborate/work with the WBG were significantly more likely to indicate that “*public sector governance/reform*” would contribute most to generating economic growth in Papua New Guinea compared to respondents who professionally collaborate/work with the WBG.

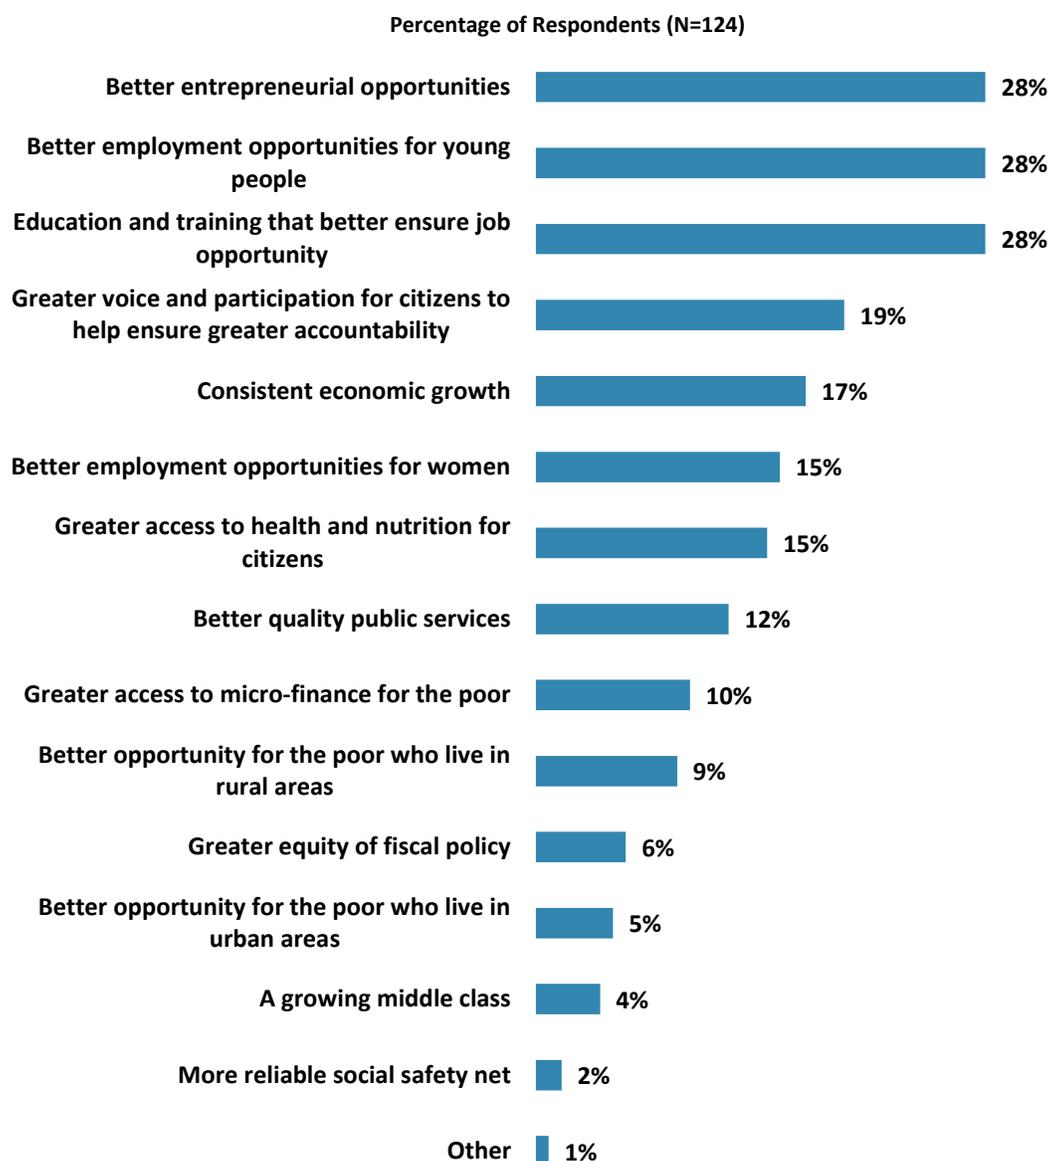

"Economic growth can be driven by a number of factors. Which THREE areas below do you believe would contribute most to generating economic growth in Papua New Guinea? (Choose no more than THREE)" (Respondents chose from a list. Responses combined.)

When more than 10% of the sample are respondents from a particular sector (see the full list of specialized sectoral areas in question I2 in Appendix H), analyses are done to see these respondents' views about top contributors to economic growth in comparison to respondents from other sectors.

IV. General Issues Facing Papua New Guinea (continued)

Factors Contributing to “Shared Prosperity”

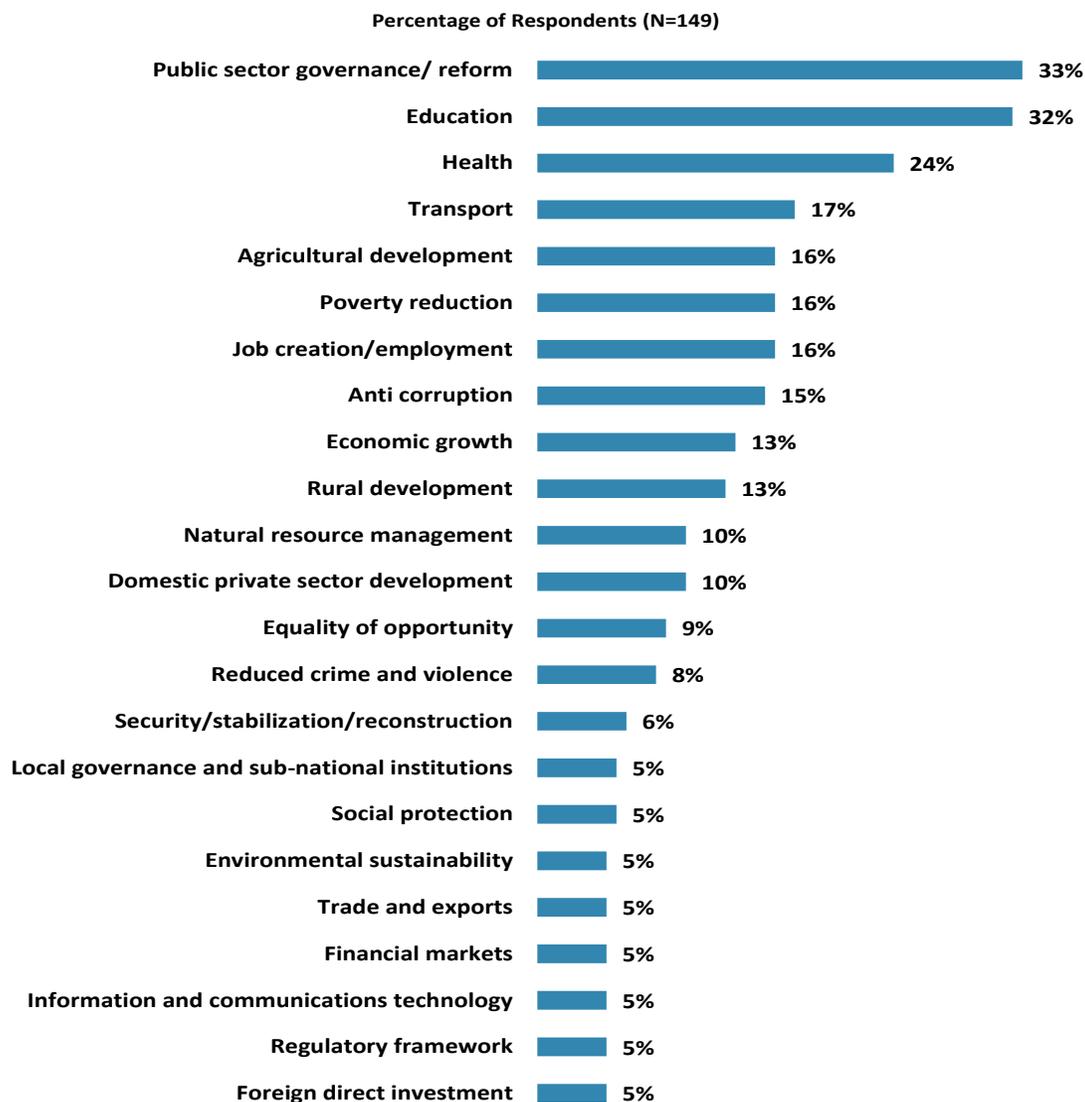

"When thinking about the idea of "shared prosperity" in your country, which of the following TWO best illustrate how this would be achieved in Papua New Guinea?
(Choose no more than TWO)" (Respondents chose from a list. Responses combined.)

V. Overall Attitudes toward the World Bank Group

Where the World Bank Group Should Focus its Resources

- Respondents across stakeholder groups, geographic locations, and specialized sectors had statistically similar views about the top development areas which the WBG should focus most of its resources on.
- Respondents who do not professionally collaborate/work with the WBG were significantly more likely to indicate that the WBG should focus most of its resources on “health” compared to respondents who professionally collaborate/work with the WBG.

“When thinking about how the World Bank Group can have the most impact on development results in Papua New Guinea, in which sectoral areas do you believe the World Bank Group should focus most of its attention and resources in Papua New Guinea? (Choose no more than THREE)”
(Respondents chose from a list. Responses combined.)

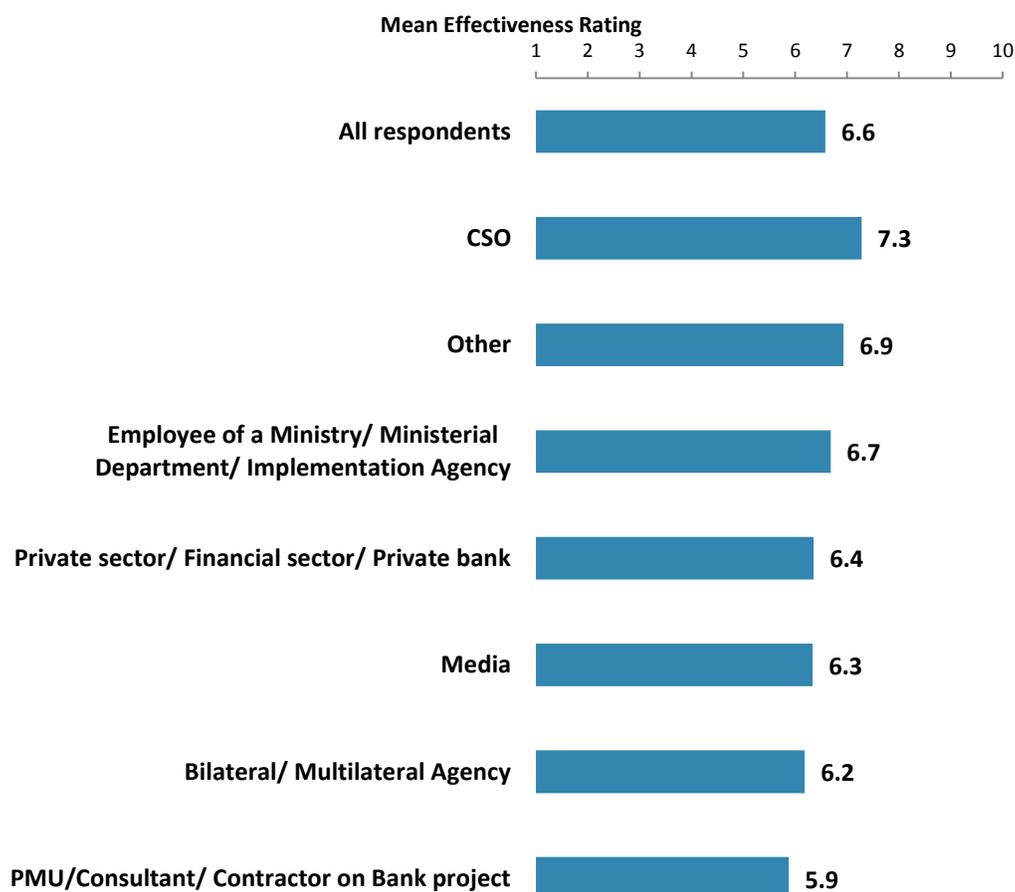

When more than 10% of the sample are respondents from a particular sector (see the full list of specialized sectoral areas in question I2 in Appendix H), analyses are done to see these respondents’ views about where the WBG should focus most of its resources in comparison to respondents from other sectors.

V. Overall Attitudes toward the World Bank Group (continued)

As noted in the “Methodology” section, the indicator questions referred to throughout the survey report are questions that are asked in every country that engages in the Country Opinion Survey. These will be aggregated for the World Bank Group’s annual Corporate Scorecard.

The World Bank Group’s Overall Effectiveness (*Indicator Question*)

- Respondents across stakeholder groups and geographic locations gave statistically similar ratings for the WBG’s overall effectiveness in Papua New Guinea.
- Respondents who do and do not professionally collaborate/work with the World Bank Group had statistically similar ratings for the WBG’s overall effectiveness.

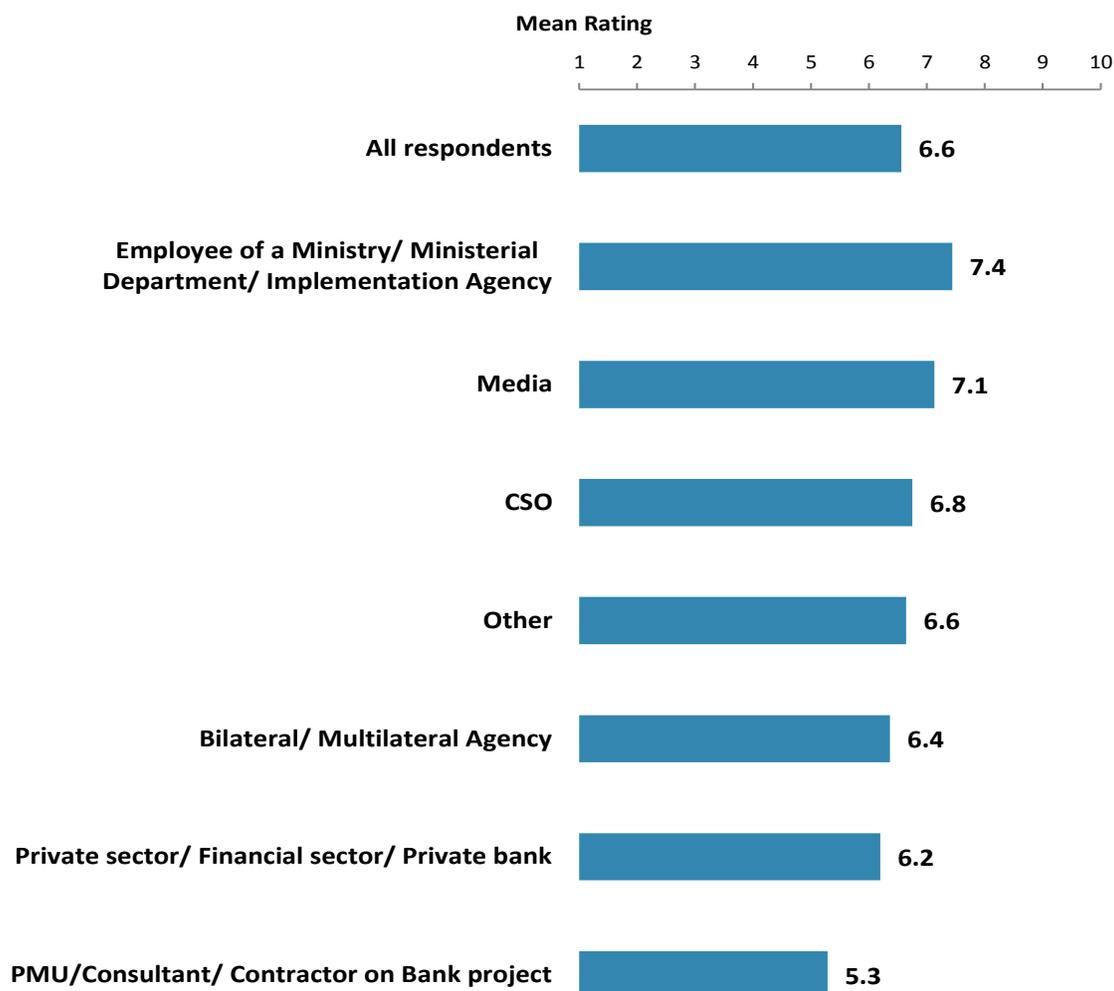

"Overall, please rate your impression of the World Bank Group's effectiveness in Papua New Guinea?"

(1 - "Not effective at all", 10 - "Very effective")

V. Overall Attitudes toward the World Bank Group (continued)

Achieving Development Results (*Indicator Question*)

- Respondents across stakeholder groups and geographic locations had statistically similar ratings for the World Bank Group helping achieve development results in Papua New Guinea.
- Respondents who do and do not professionally collaborate/work with the World Bank Group had statistically similar ratings for the WBG helping achieve development results in Papua New Guinea.

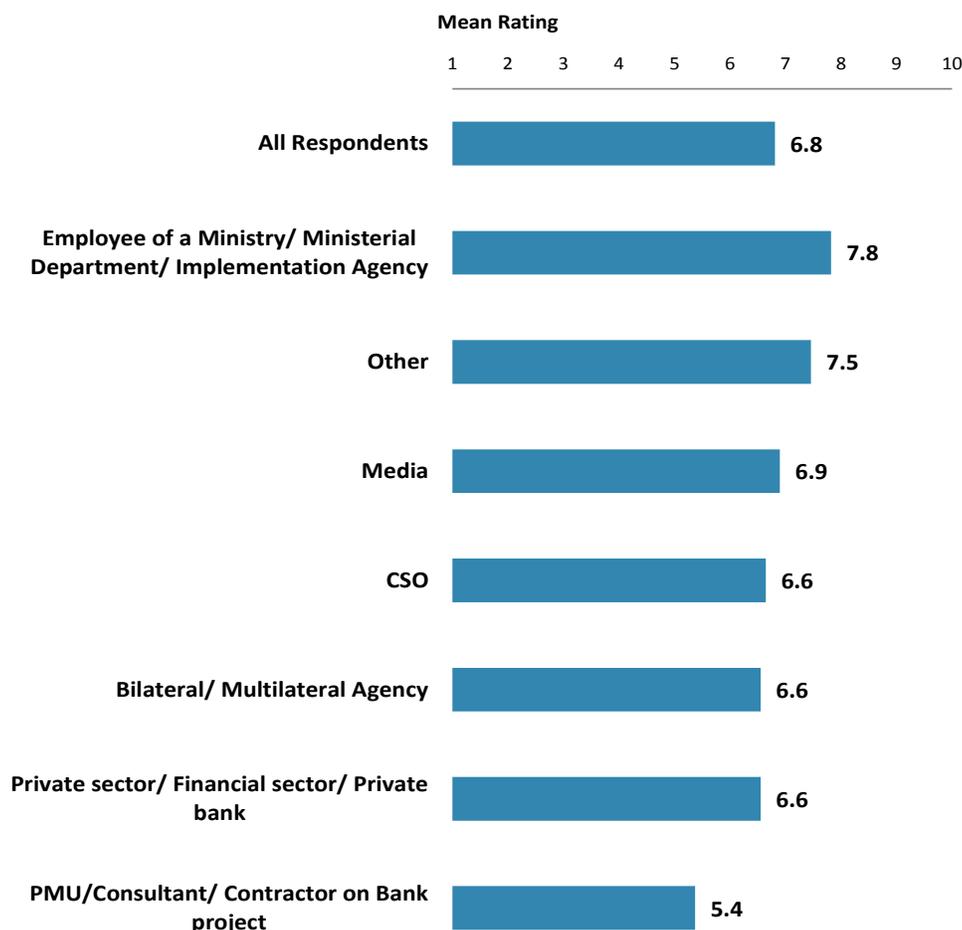

"To what extent does the World Bank Group's work help to achieve development results in Papua New Guinea?"
(1 - "To no degree at all", 10 - "To a very significant degree")

V. Overall Attitudes toward the World Bank Group (continued)

Staff Preparedness (*Indicator Question*)

- Respondents across stakeholder groups and geographic locations gave statistically similar ratings for the extent to which the WBG's staff is well prepared to help Papua New Guinea solve its most complicated development challenges.
- Respondents who do and do not professionally collaborate/work with WBG had statistically similar ratings for the extent to which the WBG's staff is well prepared to help Papua New Guinea solve its most complicated development challenges.

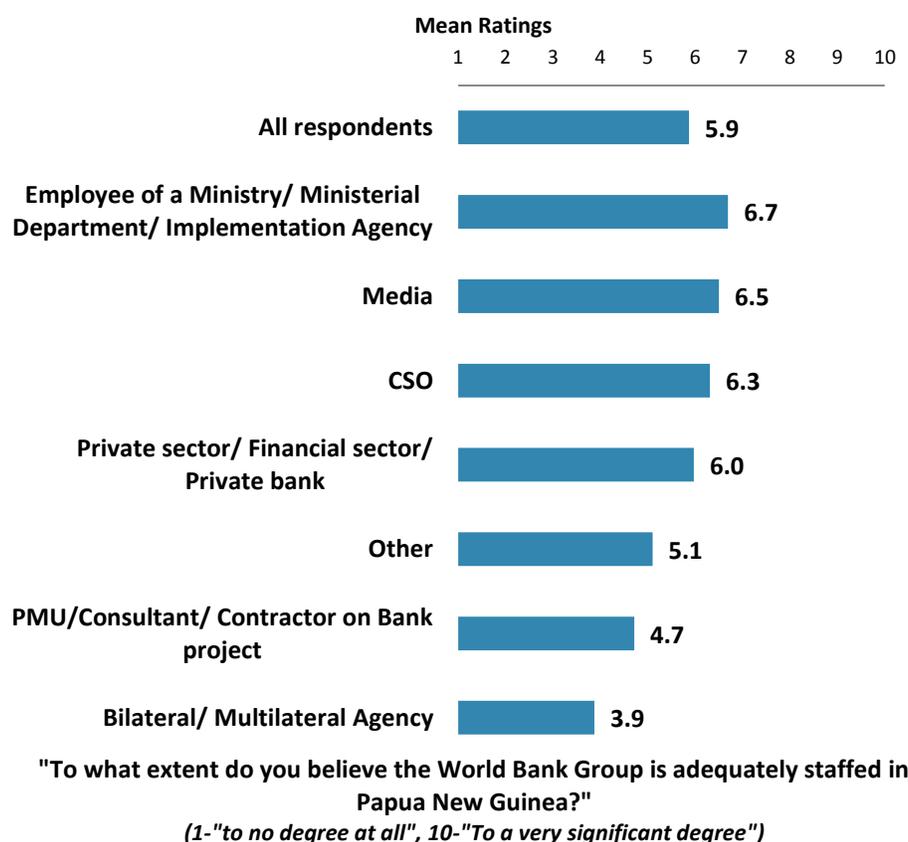

"To what extent do you believe the World Bank Group's staff is well prepared (e.g., skills and knowledge) to help Papua New Guinea solve its most complicated development challenges?"
(1-"To no degree at all", 10-"To a very significant degree")

V. Overall Attitudes toward the World Bank Group (continued)

Adequate Staffing (*Indicator Question*)

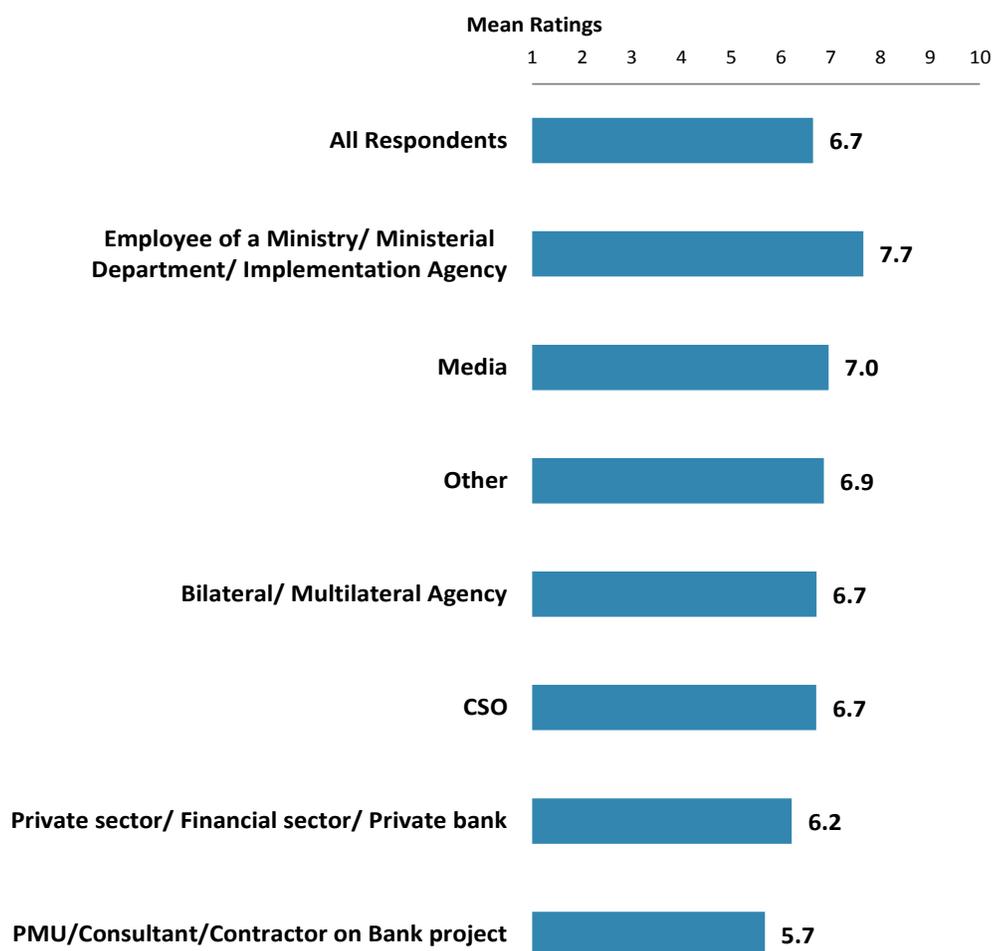

- Respondents from the media and employees of ministries/ministerial departments/implementation agencies had the highest ratings for the extent to which they believed the WBG was adequately staffed in Papua New Guinea, whereas respondents in bilateral/multilateral agencies had significantly lower ratings.
- Respondents across geographic locations gave statistically similar ratings for the extent to which they believed the WBG was adequately staffed in Papua New Guinea.
- Respondents who do and do not professionally collaborate/work with WBG had statistically similar ratings for the extent to which they believed the WBG was adequately staffed in Papua New Guinea.

V. Overall Attitudes toward the World Bank Group (continued)

Overall Ratings for Indicator Questions by Stakeholder Groups*

- There were significant stakeholder differences in the respondents' ratings for twenty seven indicator questions. Employees of ministries/ministerial departments/implementation agencies tended to give the highest ratings for these questions, whereas respondents from PMUs and consultants/contractors working on WBG projects tended to give significantly lower ratings.
- Respondents who professionally collaborate/work with the WBG gave statistically similar ratings (6.8) for twenty seven indicator questions as respondents who do not professionally collaborate/work with the WBG (6.4)
- Responses for individual indicator questions by stakeholder groups can be found in Appendix G (page 143).

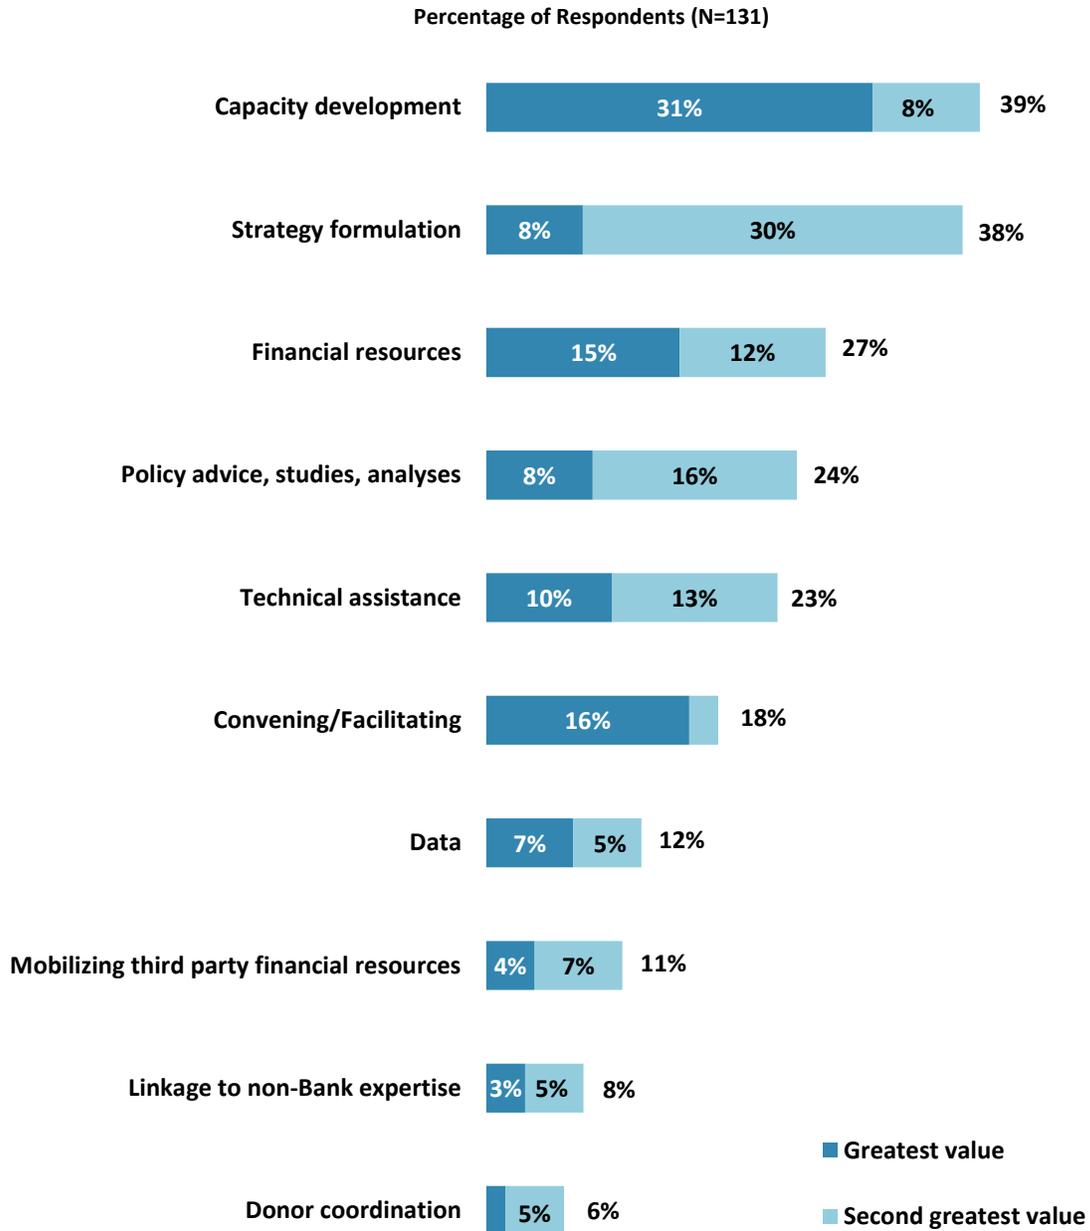

Mean Ratings for All Indicator Questions by Stakeholder Groups on a Scale from 1 to 10

* Responses to all twenty seven indicator questions can be found in Appendices F and G.

V. Overall Attitudes toward the World Bank Group (continued)

Greatest Value

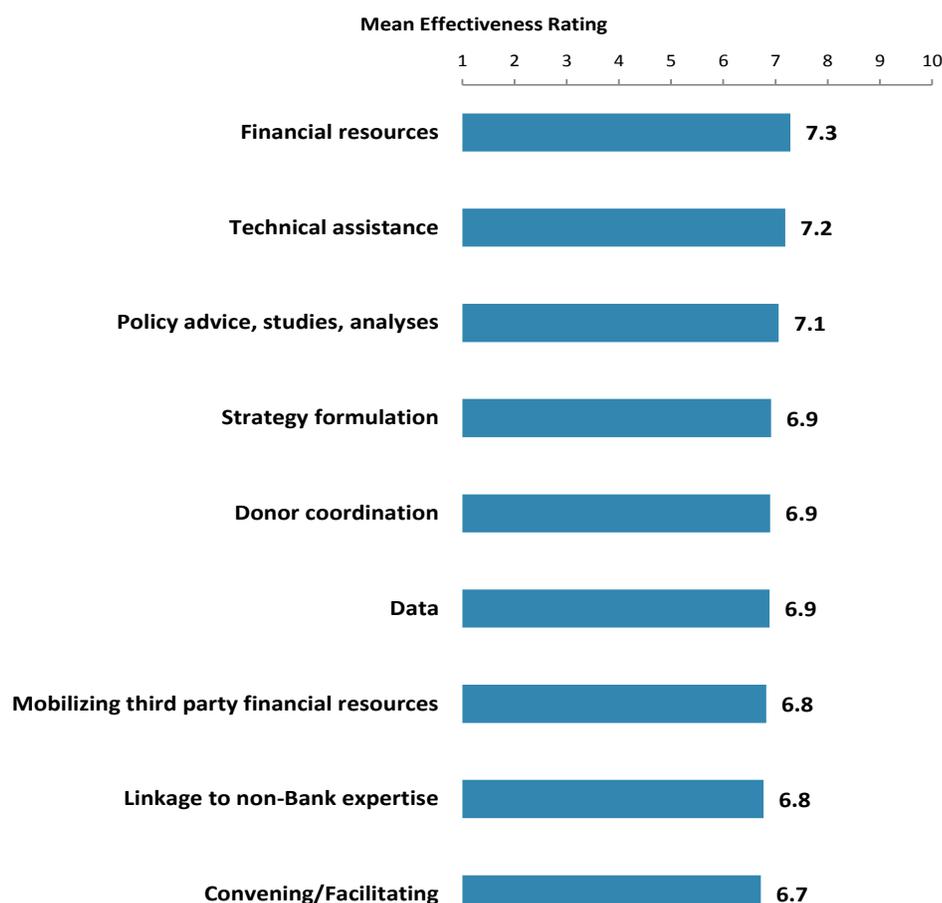

"When thinking about the World Bank Group's role, which activity do you believe is of greatest VALUE and which activity is of second greatest value Papua New Guinea?"
(Respondents chose from a list.)

V. Overall Attitudes toward the World Bank Group (continued)

Effectiveness of the WBG Activities

- There were significant stakeholder differences in the ratings for the effectiveness of the following WBG activities. For the most part, employees of ministries/ministerial departments/implementation agencies had the highest ratings, whereas respondents from bilateral/multilateral agencies and CSOs tended to have significantly lower ratings.
 - Policy advice, studies, and analyses;
 - Financial resources
 - Technical assistance;
 - Mobilizing third party financial resources; and
 - Donor coordination.
- Respondents across geographic locations had statistically similar ratings for the effectiveness of the following WBG activities in supporting Papua New Guinea's efforts to achieve development results.

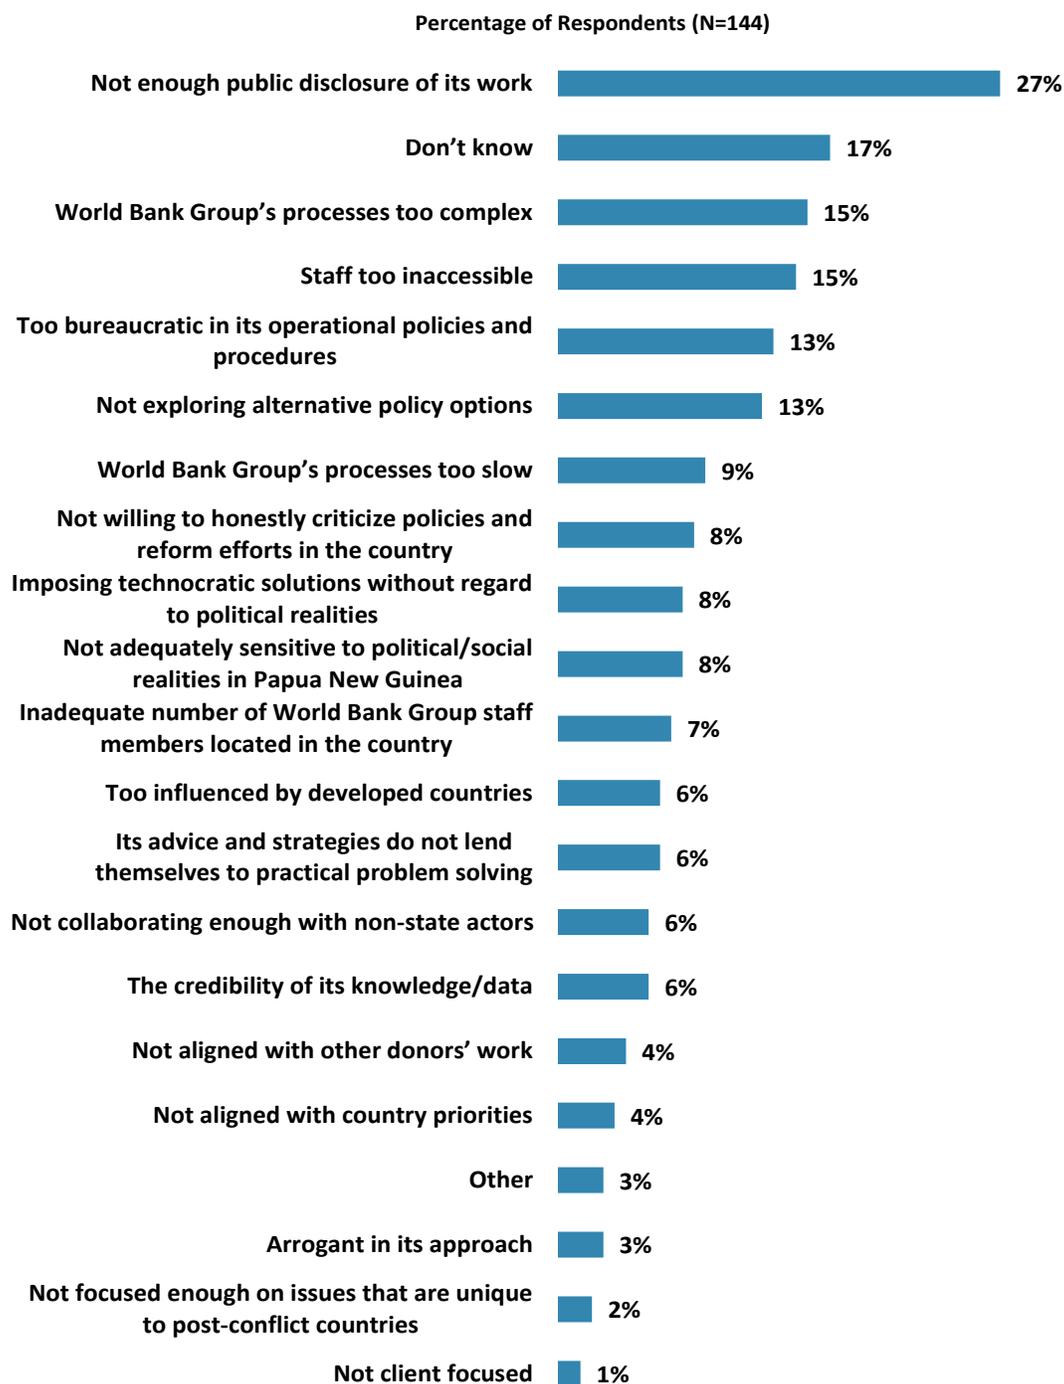

"How effective do the World Bank Group's activities below support Papua New Guinea's efforts to achieve development results?"

(1 - "Not effective at all", 10 - "Very effective")

V. Overall Attitudes toward the World Bank Group (continued)

Greatest Weakness

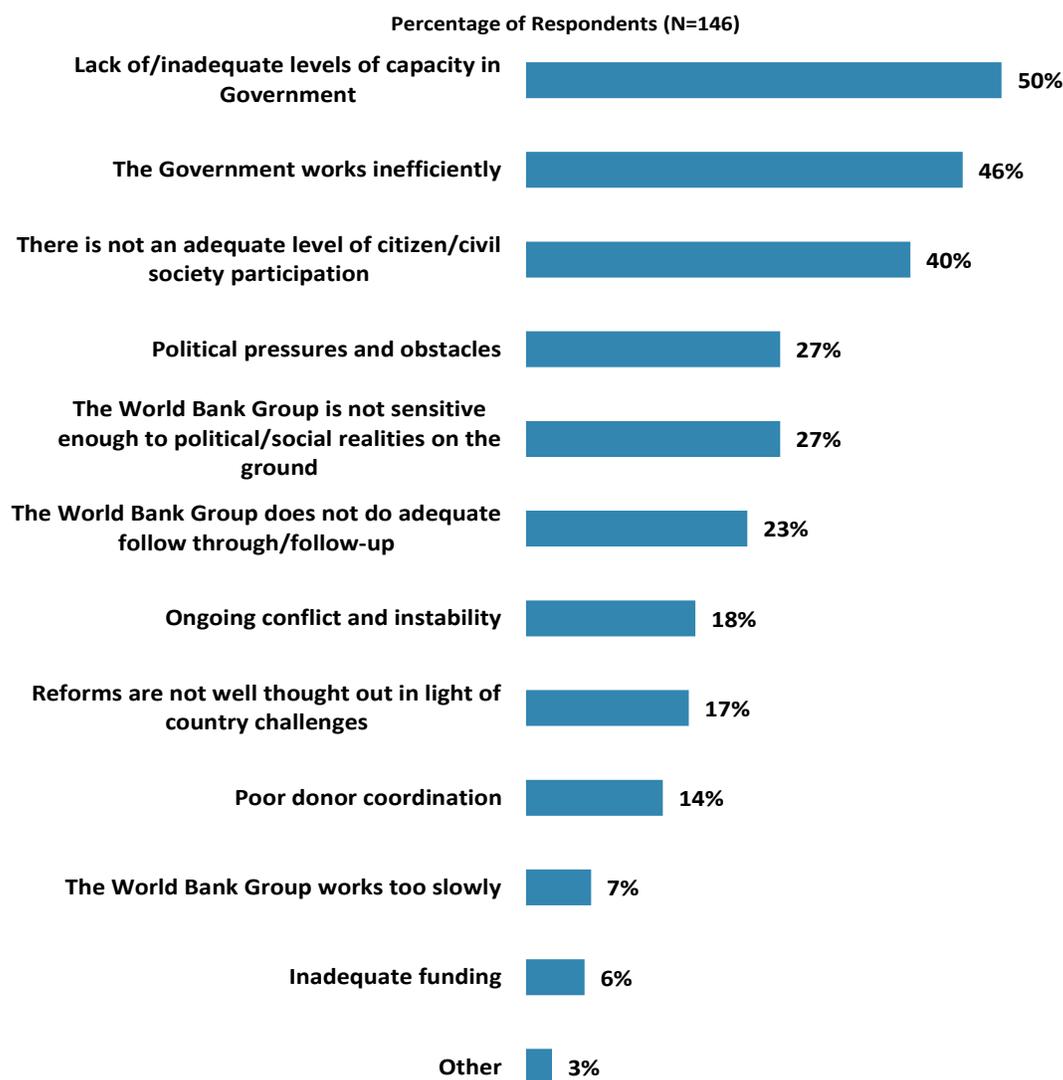

"Which of the following do you identify as the World Bank Group's greatest WEAKNESSES in its work in Papua New Guinea? (Choose no more than TWO)"
(Respondents chose from a list. Responses combined.)

V. Overall Attitudes toward the World Bank Group (continued)

Attributing Slow or Failed Reform Efforts

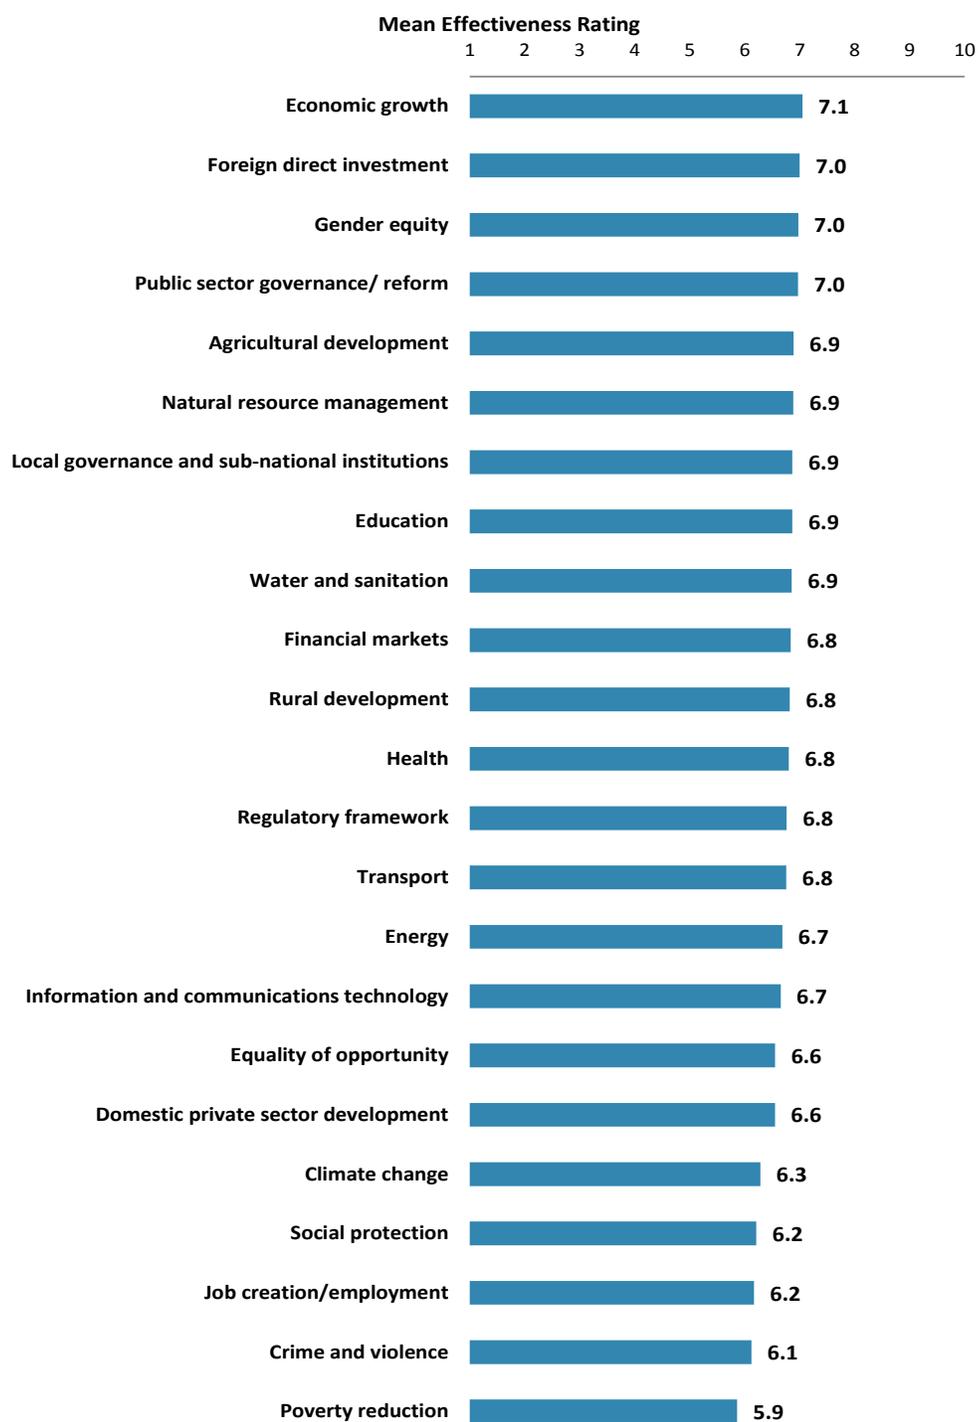

- Half of the respondents indicated that “*lack of/inadequate levels of capacity in Government*” was the biggest obstacle to successful WBG-assisted reforms. Consultants/Contractors working on WBG projects and respondents from PMUs were significantly more likely to indicate so than other stakeholder groups.
- Nearly half of the respondents indicated that failed or slow WBG-assisted reforms should be attributed to *inefficient Government*. Among all stakeholders, respondents from the media were significantly more likely to indicate so than other stakeholder groups.

"When World Bank Group assisted reform efforts fail or are slow to take place, which of the following would you attribute this to? (Choose no more than THREE)"
(Respondents chose from a list. Responses combined.)

VI. Sectoral Effectiveness

Effectiveness of Sectoral Areas

(1-"Not effective at all", 10-"Very effective")

VI. Sectoral Effectiveness (continued)

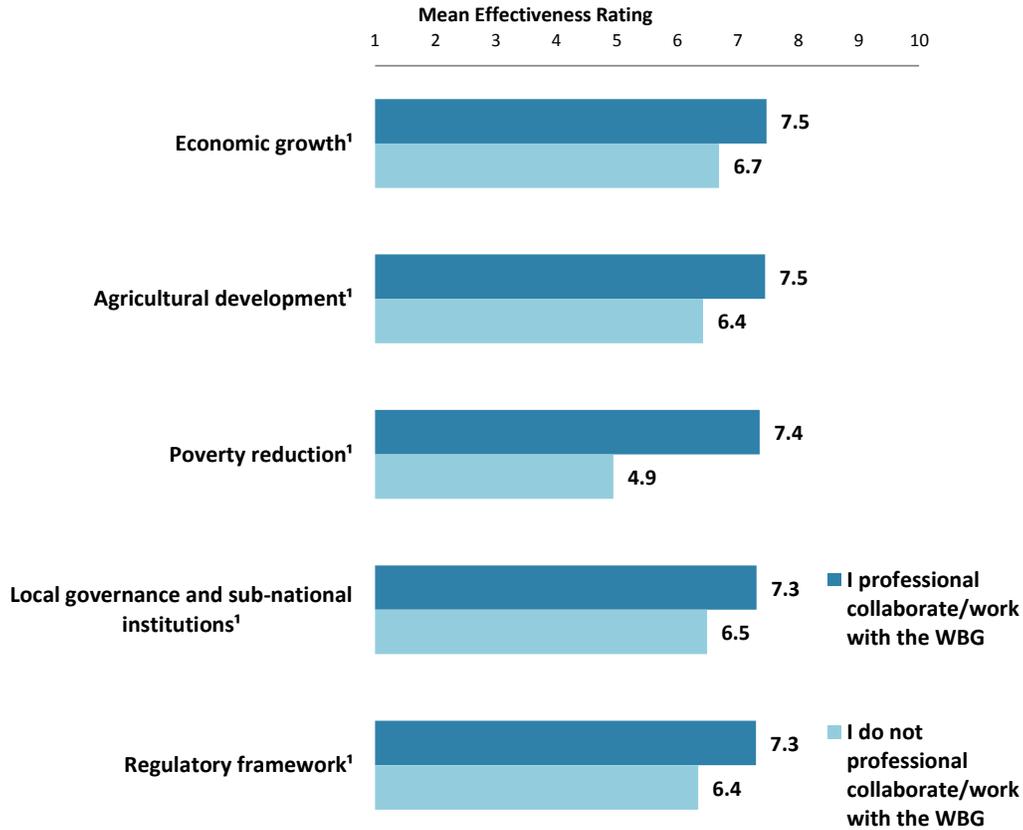

Effectiveness of Sectoral Areas (continued)

- There were significant stakeholder differences in the ratings for two of the twenty three development areas. The two areas are “*regulatory framework*,” and “*public sector governance/reform*.” Respondents from bilateral/multilateral agencies, the media, and employees of ministries/ministerial departments/implementation agencies had the highest ratings for the WBG’s effectiveness in these two areas, whereas respondents from PMUs and consultants/contractors working on WBG projects gave significantly lower ratings.
- Respondents from Port Moresby (National Capital District) gave significantly higher ratings for the WBG’s effectiveness in “*regulatory framework*,” and “*transport*” than respondents from other geographic locations.
- Note in the Appendix on the sectoral effectiveness (Appendix A, page 65) that primarily informed stakeholders responded to this question.
- Responses across all stakeholder groups and geographic locations can be found in the Appendix.

VI. Sectoral Effectiveness (continued)

Effectiveness of Sectoral Areas (continued)

- Respondents who professionally collaborate/work with the WBG gave significantly higher ratings for the WBG’s effectiveness in the following development areas compared to respondents who do not professionally collaborate/work with the WBG.

(1- "Not effective at all", 10- "Very effective")

(*Significantly different between respondents who do and do not collaborate/work with the World Bank Group)

VI. Sectoral Effectiveness (continued)

Drivers of Effectiveness

To determine the key drivers of respondents' ratings of the World Bank Group's overall effectiveness and ratings of its ability to help achieve development results in Papua New Guinea, bivariate correlational analyses were conducted using respondents' ratings of the twenty three specific areas of effectiveness.

Correlational analyses, however, are not able to tell us exactly what is causing respondents' ratings of the World Bank's overall effectiveness or ratings of its ability to help achieve development results. Rather, these analyses tell us that as ratings of effectiveness in one area increase, respondents' ratings of the Bank's overall effectiveness increase, or as ratings of effectiveness in one area increase, ratings of the WBG's ability to help achieve development results increase. Thus, it can be inferred that respondents' perceptions of effectiveness in one specific area are related to, or drive, respondents' perceptions of the Bank's overall effectiveness or perceptions of the WBG's ability to help achieve development results.

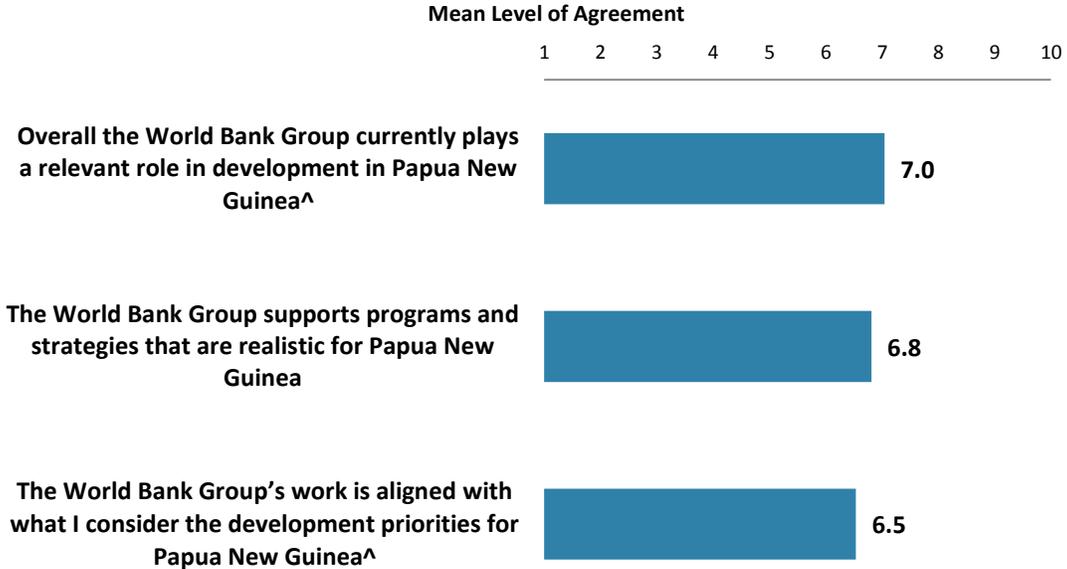

- Overall Effectiveness: Those specific areas with the highest Pearson Product-Moment correlations were determined to be the most closely related to perceptions of the Bank's overall effectiveness, suggesting that ratings of effectiveness in those specific areas are drivers of perceptions of the Bank's overall effectiveness in Papua New Guinea. The areas determined to be key drivers from these analyses were:
 - The WBG's effectiveness at information and communications technology;
 - The WBG's effectiveness at energy;
 - The WBG's effectiveness at regulatory framework;
 - The WBG's effectiveness at crime and violence;
 - The WBG's effectiveness at local governance and sub-national institutions; and
 - The WBG's effectiveness at domestic private sector development.

- Achieving Development Results: Those specific areas with the highest Pearson Product-Moment correlations were determined to be the most closely related to perceptions of the WBG's ability to help achieve development results in Papua New Guinea, suggesting that ratings of effectiveness in those specific areas are drivers of perceptions of the WBG's ability to help achieve development results. The areas determined to be key drivers from these analyses were:
 - The WBG's effectiveness at transport;
 - The WBG's effectiveness at regulatory framework;
 - The WBG's effectiveness at poverty reduction;
 - The WBG's effectiveness at domestic private sector development;
 - The WBG's effectiveness at economic growth; and
 - The WBG's effectiveness at crime and violence.

VII. How the World Bank Group Operates

The World Bank Group’s Work in Papua New Guinea

- Respondents across stakeholder groups and geographic locations had statistically similar levels of agreement with all of the statements below.
- Respondents who do and do not professionally collaborate/work with WBG had statistically similar levels of agreement with all of the statements below.

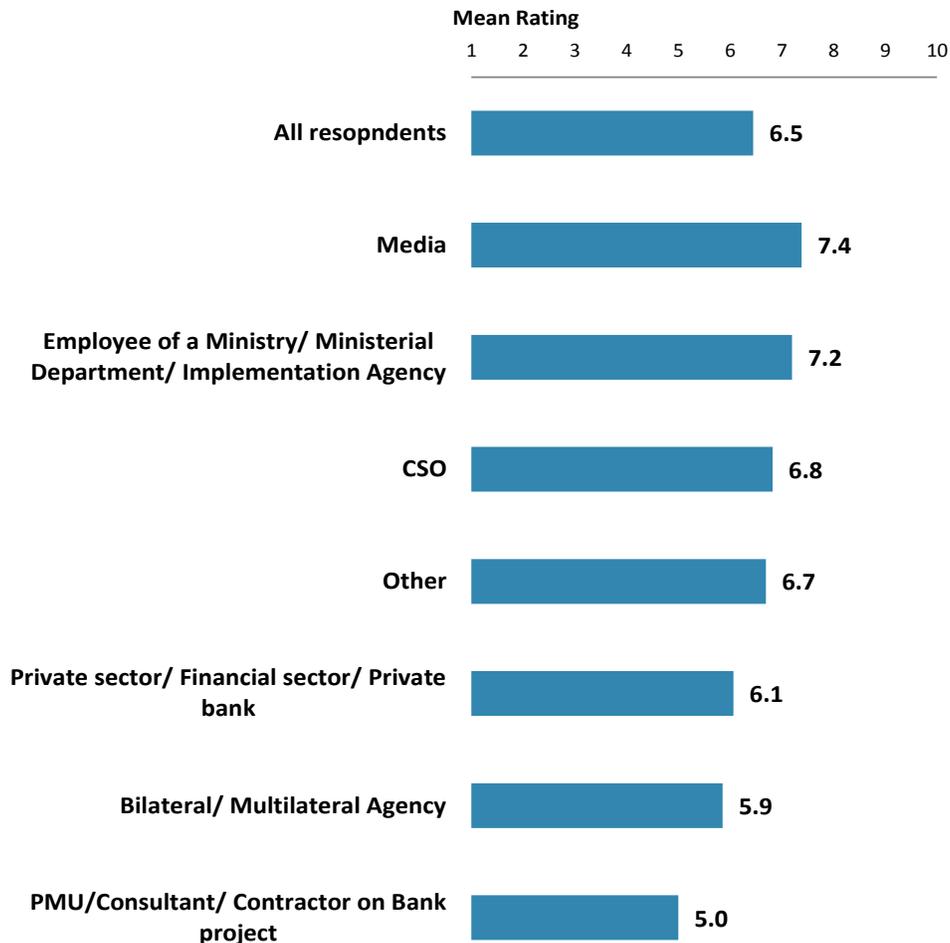

"To what extent do you agree with the following statements about the World Bank Group’s work in Papua New Guinea?" (1-"Strongly disagree", 10-"Strongly agree")

Building/Strengthening Existing Country Systems *(Indicator Question)*

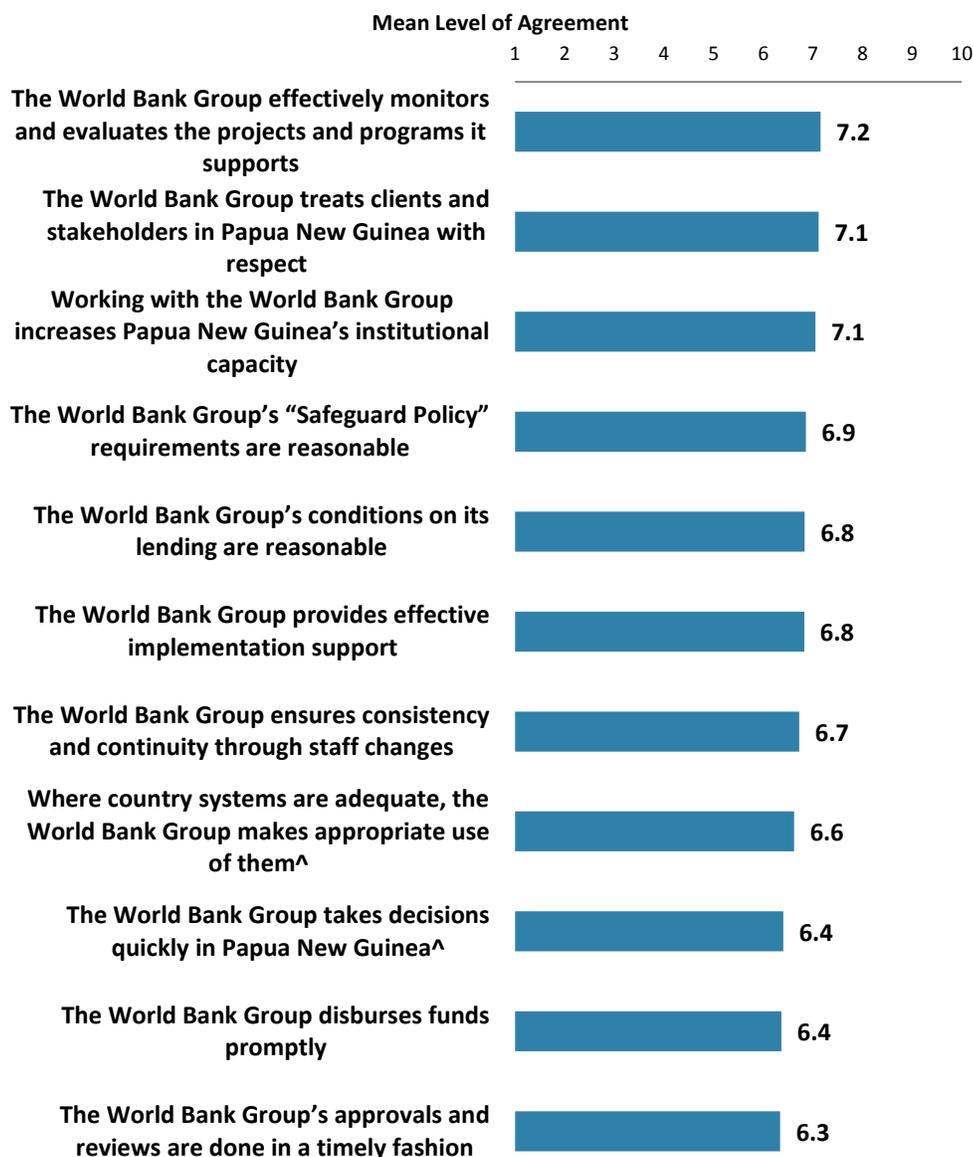

- Respondents from the media and employees of ministries/ministerial departments/implementation agencies had the highest ratings for the extent the WBG helped to build/strengthen existing country systems in Papua New Guinea, whereas respondents from PMUs and contractors/consultants working on WBG projects had significantly lower ratings.
- Respondents across geographic locations had statistically similar ratings for the extent the WBG helped to build/strengthen existing country systems in Papua New Guinea.
- Respondents who do and do not collaborate/work with the WBG had statistically similar ratings for the extent the WBG helped to build/strengthen existing country systems in Papua New Guinea.

"To what extent does the World Bank Group help to build/strengthen existing country systems in Papua New Guinea?"
(1-"To no degree at all", 10-"To a very significant degree")

VII. How the World Bank Group Operates (continued)

Overall Perceptions

"To what extent do you agree/disagree with the following statements?"

(1-"Strongly disagree", 10-"Strongly agree")

^Indicator Question

VII. How the World Bank Group Operates (continued)

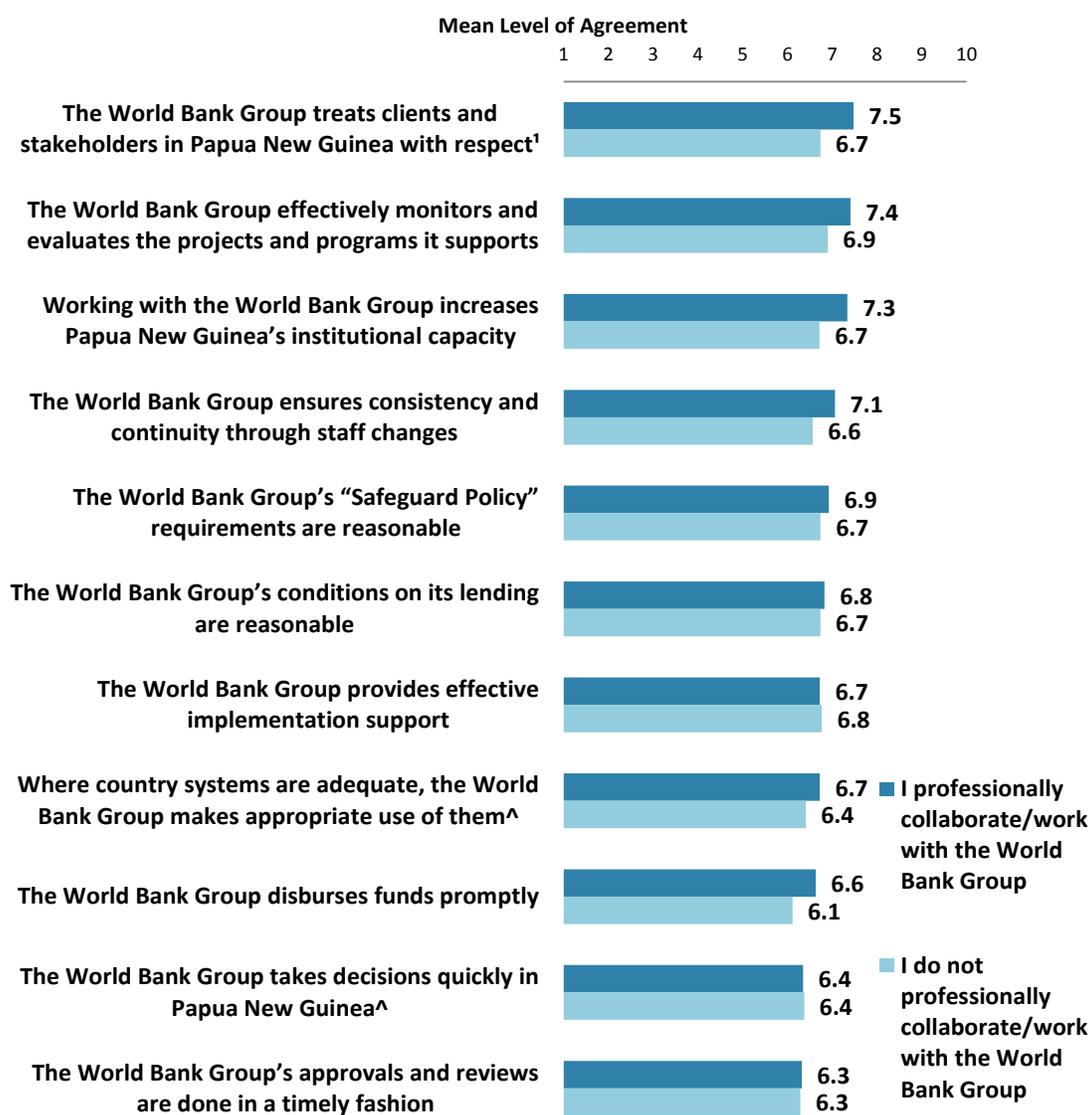

Overall Perceptions (continued)

- There were significant stakeholder differences in respondents' levels of agreement with four of the following statements. These statements include "*the WBG effectively monitors and evaluates the projects and programs it support,*" "*the WBG's approvals and reviews are done in a timely fashion,*" "*the WBG's 'Safeguard Policy' requirements are reasonable,*" and "*where country systems are adequate, the WBG makes appropriate use of them.*" For the most part, respondents from the media and employees of ministries/ministerial departments/implementation agencies had the highest levels of agreement with these statements, whereas respondents from PMUs and contractors/consultants working on WBG projects had significantly lower levels of agreements.
- Respondents across geographic locations had statistically similar levels of agreement with all the following statements about the WBG's operations.
- Respondents across stakeholder groups and geographic locations had statistically similar levels of agreement with the indicator statement that "*the WBG takes decisions quickly in Papua New Guinea.*"
- Respondents across geographic locations had statistically similar levels of agreement with the indicator statement that "*where country systems are adequate, the WBG makes appropriate use of them.*"

VII. How the World Bank Group Operates (continued)

Overall Perceptions (continued)

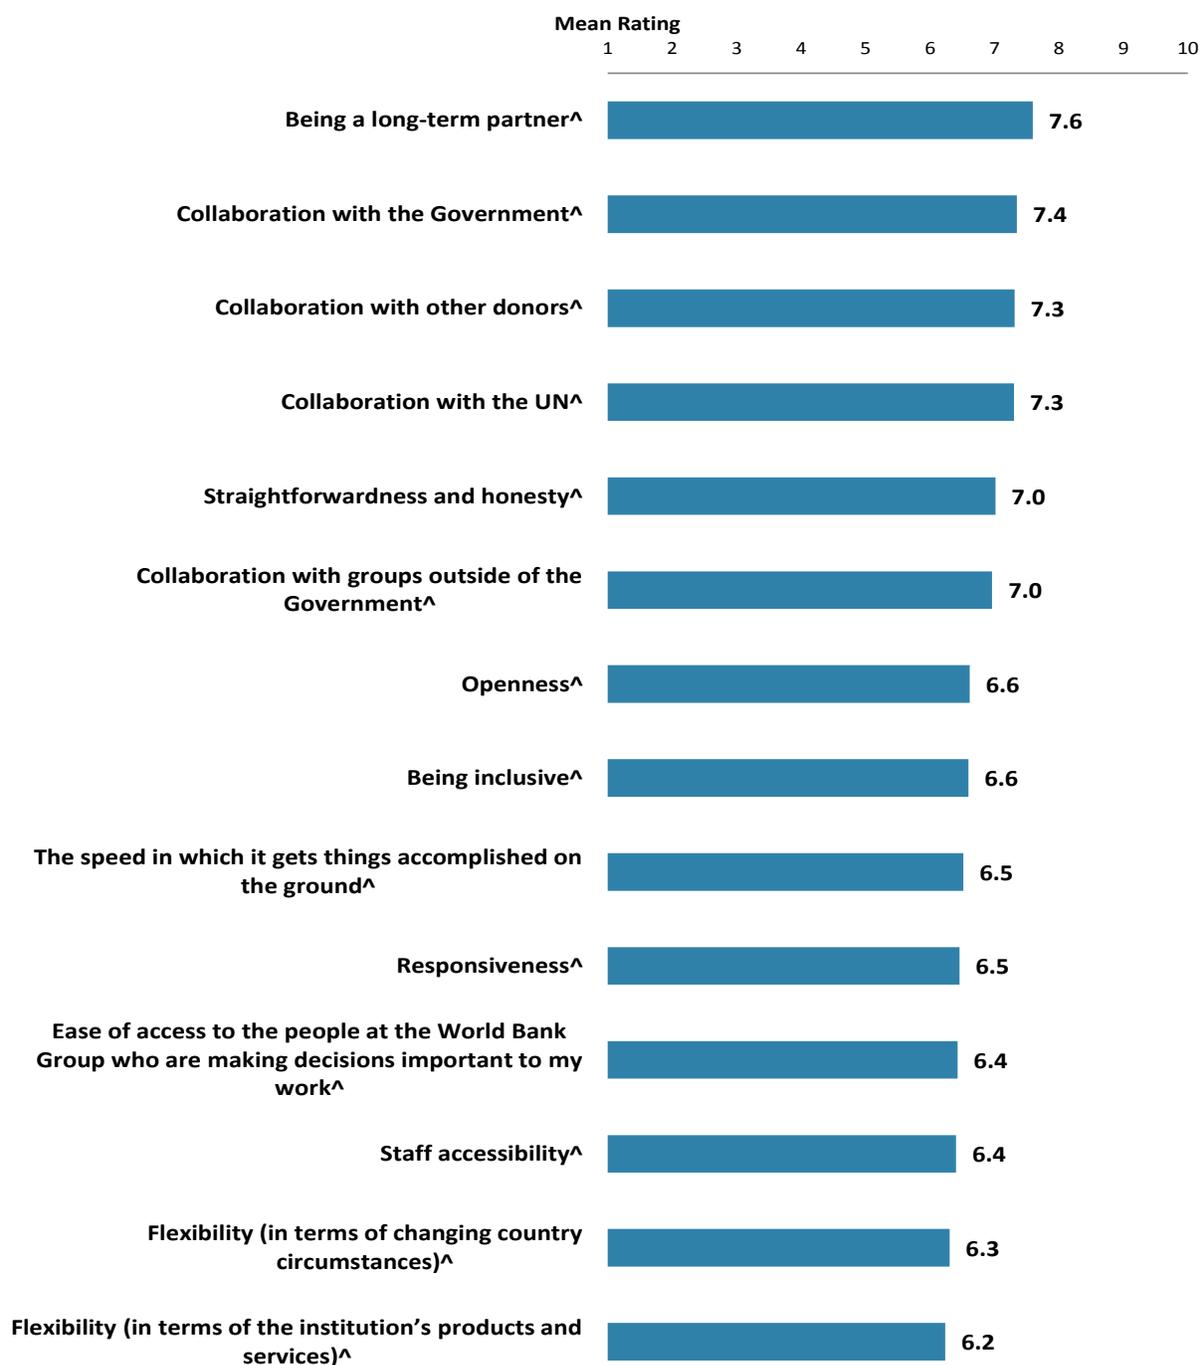

- Respondents who professionally collaborate/work with WBG had significantly higher levels of agreement with the statements that “*the WBG treats clients and stakeholders in Papua New Guinea with respect*” compared to respondents who do not collaborate/work with WBG.
- Respondents who do and do not collaborate/work with the WBG had statistically similar levels of agreement with all other statements about the WBG including the two indicator statements.

"To what extent do you agree/disagree with the following statements?"
 (1- "Strongly disagree", 10- "Strongly agree")
 (¹Significantly different between respondents who do and do not collaborate/work with the WBG)

VII. How the World Bank Group Operates (continued)

The World Bank Group as an Effective Development Partner

"To what extent is the World Bank Group an effective development partner in Papua New Guinea, in terms of each of the following?"

(1-"To no degree at all", 10-"To a very significant degree")

[^]Indicator Question

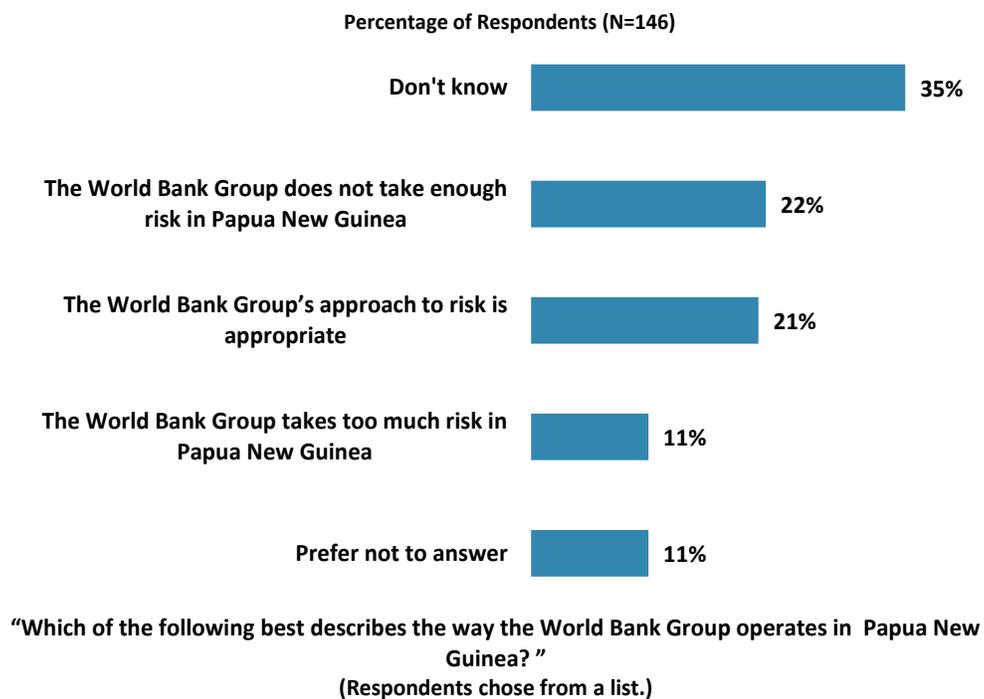

VII. How the World Bank Group Operates (continued)

The World Bank Group as an Effective Development Partner (continued)

- There were significant stakeholder group differences in their ratings for the WBG “*being a long-term partner*.” Respondents from the media and employees of ministries/ministerial departments/implementation agencies tended to give the highest ratings, whereas respondents from PMUs and consultants/contractors working on WBG projects tended to give significantly lower ratings (see Appendix B for details).
- There were significant differences between geographic locations in respondents’ ratings for three qualities of the WBG being an effective development partner. These qualities are “*being inclusive*,” “*collaboration with groups outside the Government*,” and “*collaboration with other donors*.” Respondents from the Port Moresby (National Capital District) had significantly higher ratings for these qualities of the WBG than respondents from other geographic locations.
- Respondents who professionally collaborate/work with the WBG had significantly higher ratings for the WBG’s “*openness*,” and “*staff accessibility*” compared to respondents who do not professionally collaborate/work with the WBG.

(Respondents chose from a list.)

VIII. World Bank Group's Knowledge and Instruments

Meeting Papua New Guinea's Knowledge Needs (*Indicator Question*)

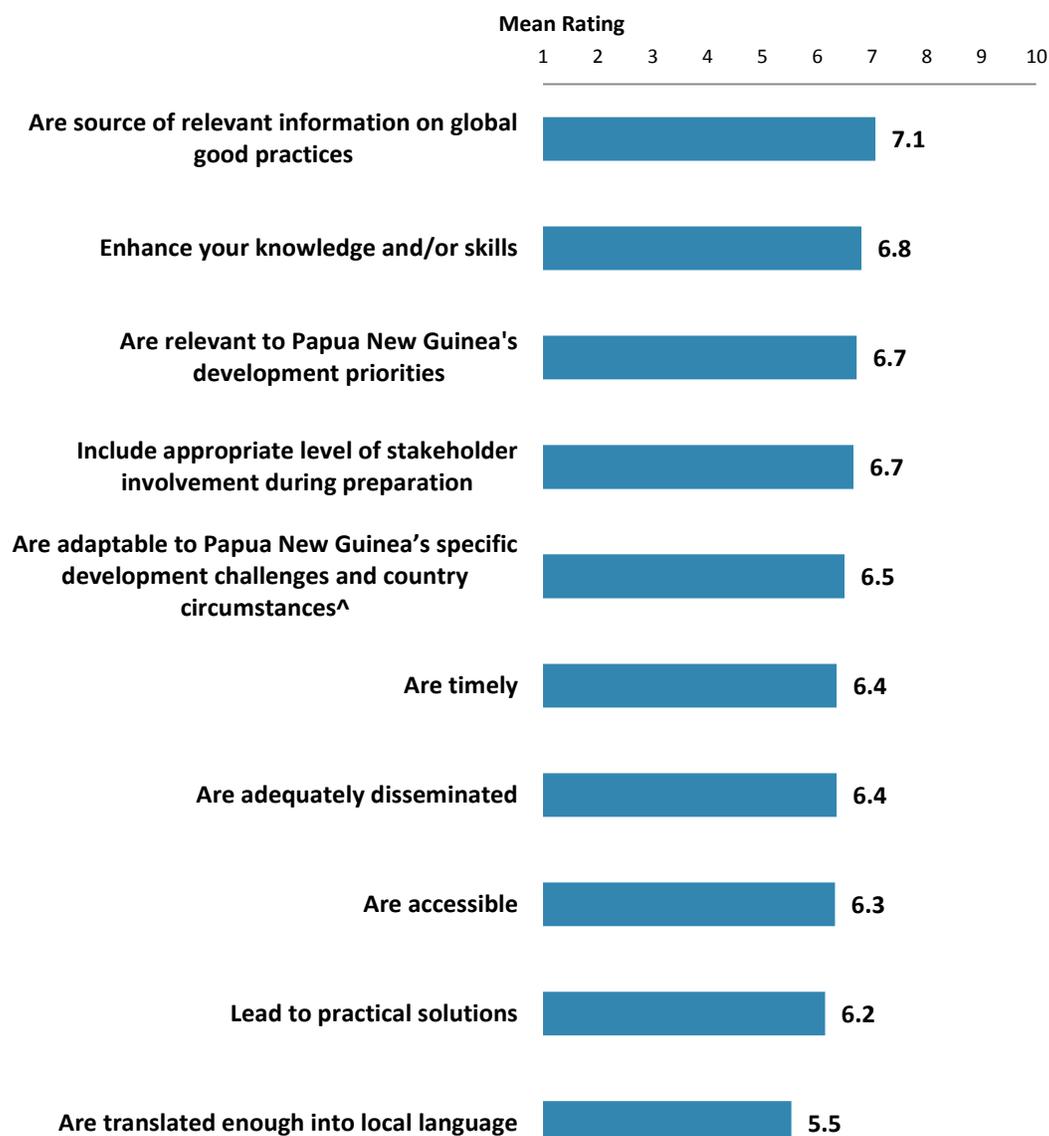

- Employees of ministries/ministerial departments/implementation agencies had the highest levels of agreement that the WBG meets PNG's needs for knowledge services, whereas respondents from private sector/financial sector/private banks and CSOs tended to have significantly lower levels of agreement.
- Respondents across geographic locations had statistically similar ratings for the levels of agreement that the World Bank Group meets Papua New Guinea's needs for knowledge services.
- Respondents who professionally collaborate/work with the WBG had significantly higher levels of agreement that the WBG meets Papua New Guinea's needs for knowledge services compared to respondents who do not collaborate/work with the WBG.

"The World Bank Group meets Papua New Guinea's needs for knowledge services"
(1-"Strongly disagree", 10-"Strongly agree")

VIII. World Bank Group's Knowledge and Instruments (continued)

Qualities of the WBG's Knowledge Work and Activities

"In Papua New Guinea, to what extent do you believe that the World Bank Group's knowledge work and activities:"

(1-"To no degree at all", 10-"To a very significant degree")

^Indicator Question

VIII. World Bank Group's Knowledge and Instruments (continued)

Qualities of the WBG's Knowledge Work and Activities (continued)

- There were significant stakeholder group differences in respondents' ratings for three of the qualities of the WBG's knowledge work and activities. These qualities include *"timeliness," "being a source of relevant information on global good practices,"* and *"enhancing your knowledge and/or skills."* Respondents from bilateral/multilateral agencies and employees of ministries/ministerial departments/implementation agencies tended to give the highest ratings, whereas respondents from PMUs and consultants/contractors working on WBG projects tended to give significantly lower ratings for these qualities.
- Respondents across geographic locations had statistically similar ratings for all of the following qualities of the WBG's knowledge work and activities (including the indicator question).
- Respondents who professionally collaborate/work with the WBG had significantly higher ratings for two qualities of the WBG knowledge work and activities compared to respondents who do not professionally collaborate/work with the organization. These qualities are that the WBG knowledge work and activities *"include appropriate level of stakeholder involvement during preparation,"* and *"enhance your knowledge and/or skills."*

VIII. World Bank Group's Knowledge and Instruments (continued)

Contribution of the WBG's Knowledge Work and Activities (*Indicator Question*)

- Respondents from the media and employees of ministries/ministerial departments/implementation agencies had the highest ratings for the significance of the contribution that the WBG's knowledge work and activities make to development results in Papua New Guinea, whereas respondents from PMUs and contractors/consultants on WBG project had significantly lower ratings.
- Respondents across geographic locations had statistically similar ratings for the significance of the contribution that the WBG's knowledge work and activities make to development results in Papua New Guinea.
- Respondents who do and do not professionally collaborate/work with the WBG had statistically similar ratings for the significance of the contribution that the WBG's knowledge work and activities make to development results in Papua New Guinea.

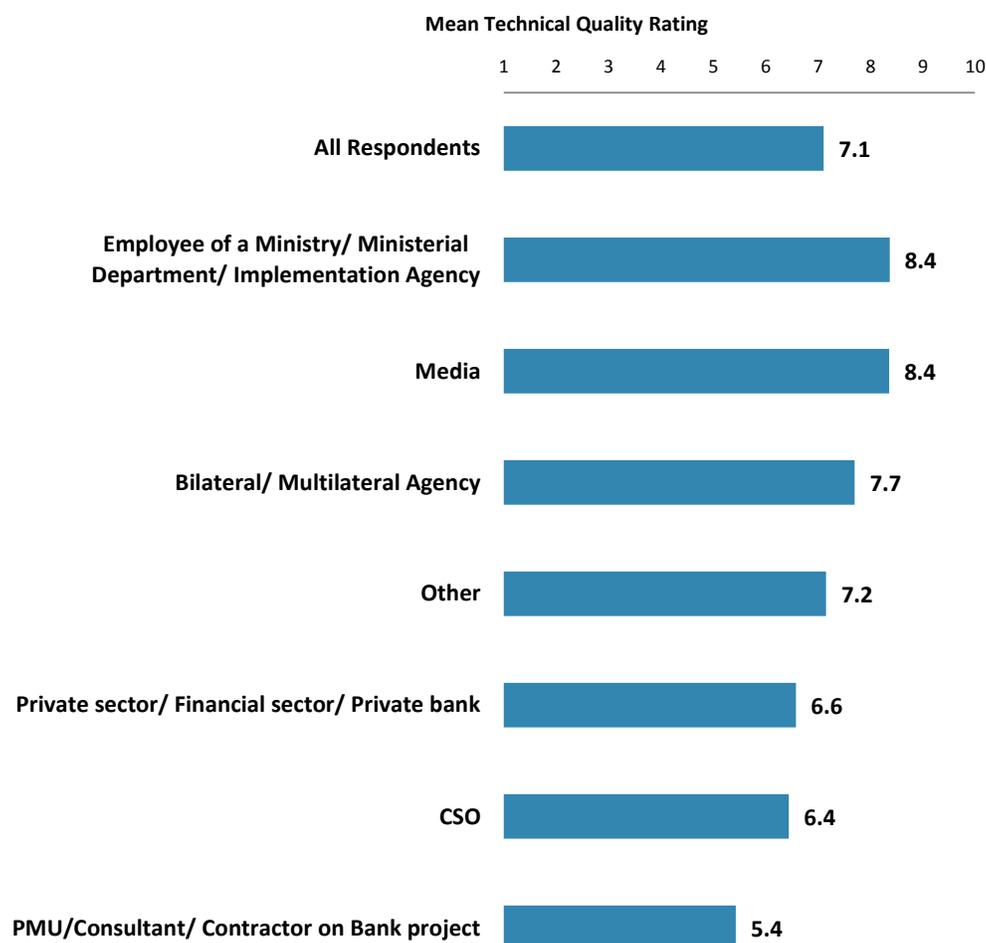

"Overall, how significant a contribution do you believe the World Bank Group's knowledge work and activities make to development results in your country?"
(1-"Not significant at all", 10-"Very significant")

VIII. World Bank Group's Knowledge and Instruments (continued)

Technical Quality of the WBG's Knowledge Work and Activities (*Indicator Question*)

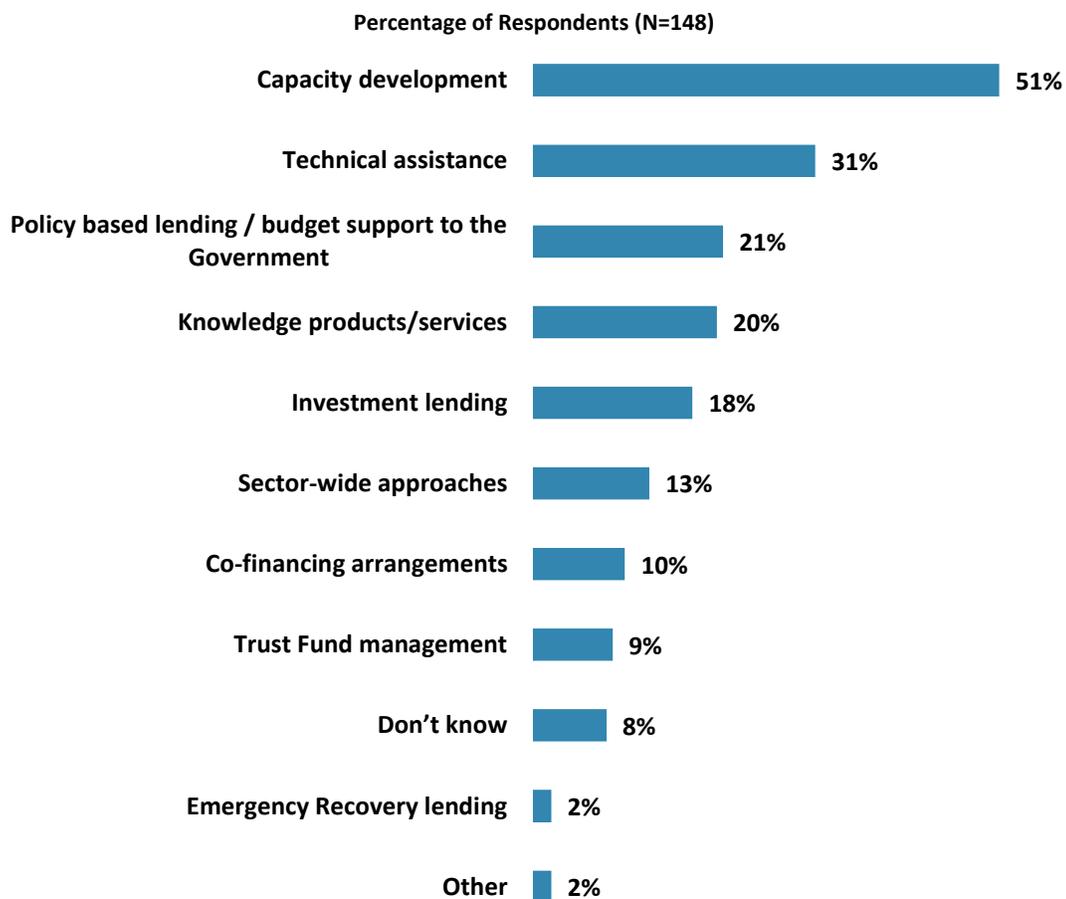

- Respondents from the media and employees of ministries/ministerial departments/implementation agencies had the highest ratings for the technical quality of the WBG's knowledge work and activities, whereas respondents from PMUs and contractors/consultants on WBG project had significantly lower ratings.
- Respondents from Port Moresby (National Capital District) had significantly higher ratings for the technical quality of the WBG's knowledge work and activities compared to respondents from other locations.
- Respondents who do and do not professionally collaborate/work with the WBG had statistically similar ratings for the technical quality of the WBG's knowledge work and activities.

"Overall, how would you rate the technical quality of the World Bank Group's knowledge work and activities?"
 (1-"Very low technical quality", 10-"Very high technical quality")

VIII. World Bank Group's Knowledge and Instruments (continued)

Most Effective Instruments in Reducing Poverty

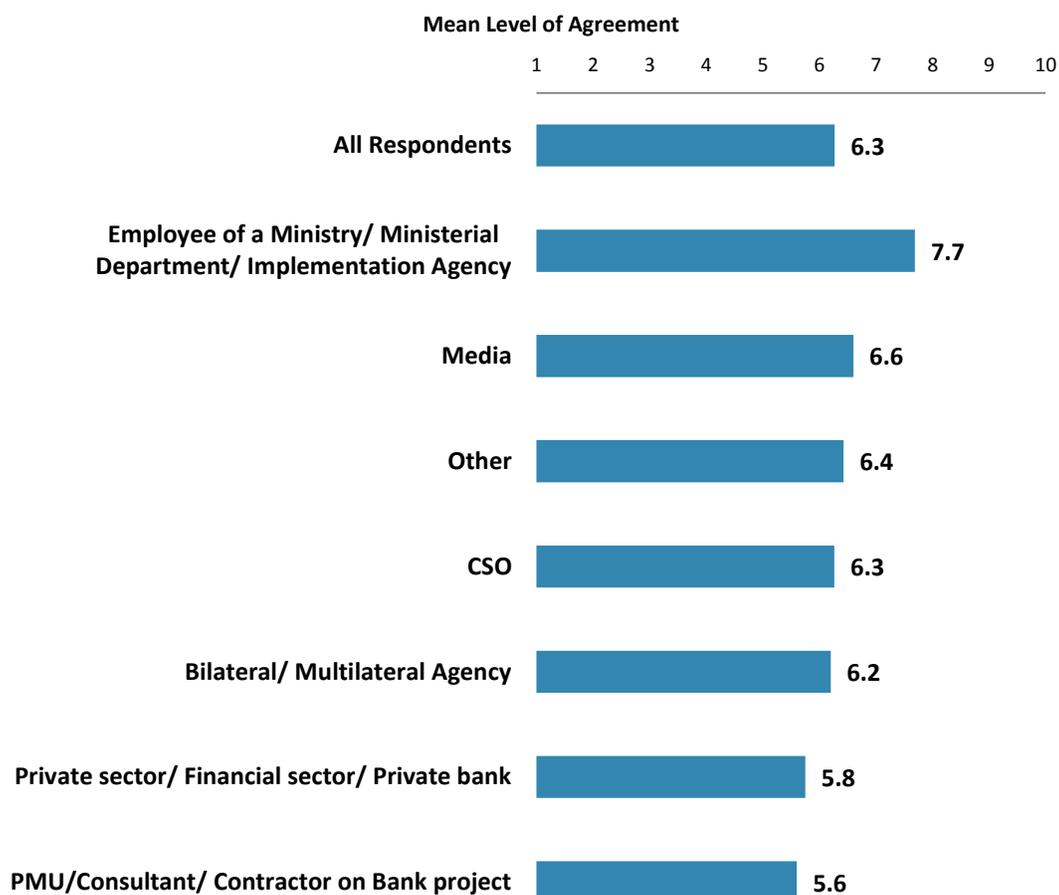

“Which World Bank Group instruments do you believe are the MOST effective in reducing poverty in Papua New Guinea? (Choose no more than TWO)”
(Respondents chose from a list. Responses combined.)

VIII. World Bank Group's Knowledge and Instruments (continued)

World Bank Group Country Survey FY14 – Papua New Guinea

The World Bank Group is interested in gauging the views of clients and partners who are either involved in development in Papua New Guinea or who observe activities related to social and economic development. The following survey will give the World Bank Group’s team that works in Papua New Guinea, greater insight into how the Bank’s work is perceived. This is one tool the World Bank Group uses to assess the views of its stakeholders, and to develop more effective strategies that support development in Papua New Guinea.

A local independent consultant has been hired to oversee the logistics of this survey. This ensures anonymity and confidentiality. We hope you’ll be candid.

Finally, the survey relates to the World Bank Group’s work. The World Bank Group consists of IBRD, IDA, IFC, MIGA, and ICSID. When responding to the survey, please consider the area of the World Bank Group with which you are most familiar.

To complete the survey, please circle/check the response that most accurately reflects your opinion. If you prefer not to answer a question, please leave it blank. If you feel that you do not have an adequate amount of information on a subject, please check “Don’t know”.

PLEASE NOTE: IN SOME CASES THE SURVEY WILL ASK FOR A SPECIFIC NUMBER OF RESPONSES. PLEASE DO NOT CHOOSE ANY MORE THAN REQUESTED. IF MORE RESPONSES ARE CHOSEN, DATA CANNOT BE INCLUDED IN ANALYSIS.
