For use only by the Central Bureau of Statistics. Data collected is strictly confidential.

Dear household members:

An enumerator from the Institute of Statistics has visited your household and has left you this diary of food expenditures that we request that you fill in for 14 days.

This food diary is an important part of the Syrian Household Income and Expenditure Survey which will be conducted from **January 2009 to December 2009**. Your participation in this survey is crucial in order to be able to determine the economic situation of Syrian households.

Your household has been randomly chosen. The data collected for this survey is strictly confidential and the information collected will be used for statistical purposes only; all information will remain anonymous.

Instructions for filling out this dairy:

The enumerator will help you fill in the booklet for yesterday, and then we request that you fill in the diary for the next 14 days beginning today. It is composed of 3 parts:

Note: You must fill the diary every day without skipping a day.

1) All purchases of food, drinks and tobacco that you have done during the day, no matter where you have bought them. Even if the purchase was of a large quantity that will be used for longer than the 14 day period of the diary, please record the purchase.

2) Non-purchased food products:

-Products produced by your household - that come from your household's garden, or from fishing or hunting.

-Food products given to you as a gift or as aid.

-Products that were given for work or other in-kind payment.

Attention: Please give an estimate for the value of the non-purchased products in Syrian pounds, using the value of the products in your area.

3) Food eaten outside the home during the day by any member of the household:

-Food eaten in a restaurant.

-Fast food consumed by any household member.

-Food or non-alcoholic beverages in a bar or café.

Describe the kind of meal and other products consumed by different household members outside the home.

Use the column to write the total value in Syrian pounds of the products consumed outside the home for all the members.

For use only by the Central Bureau of Statistics. Data collected is strictly confidential.

Write the date here _____
