My name is _____. We are conducting research on four thousand families in all regions of Russia, in order to understand the impact of economic reform on the daily life of Russian citizens.

We need to talk to all members of your family without excluding anyone, and therefore we ask you to answer the questions on this questionnaire. Our discussion will cover how you live, how your health is, how you eat, whether you have enough to live on? Has anything changed in the last year or not?

Your family, as well as four thousand other families in Russia, was randomly chosen by computer. The goal of our work is to understand how the life of Russian citizens has recently changed. Therefore, we now want to interview the same people again.

All information collected in the course of this research will be used only in synthesized form. No one, except myself and the organizers of this research, will know about our discussion.

We understand that you will spend some of your free time on the interview. Besides this, answering these questions is, of course, work. Therefore, we will pay you as much as our resources allow.

Participation in our survey is voluntary, and you always have the right to refuse to answer the questions.

Before we begin the interview, I would like to precisely define the words "family" and "household," which will often appear in our questionnaire. By family or, in other words, household, in this study we mean all people living with you having common incomes and expenses with you.

SECTION "MIGRATION"
