

**Ministry of Education – Timor Leste**

**Teacher Questionnaire (Oct – Nov 2011)**

The Ministry of Education is conducting a study to better understand how children learn to read. Your school was selected through a process of statistical sampling. We would like your help in this. But you do not have to take part if you do not want to.

- Your name will not be recorded on this form, or mentioned anywhere in the survey data. The results of this survey will be published in the form of collective tables. The information acquired through this instrument will be shared with the Ministry of Education with the hope of identifying areas where additional support may be needed.
- The name of your school and the grade level and class you teach will be recorded, but only so that we can correctly link school, class, and student data so as to analyze relationships between children's learning and the characteristics of the settings in which they learn. Your school's name will not be used in any report or presentation. The results of analysis will be used by the Ministry of Education to help identify additional support that may be needed.
- If you agree to help with this study, please read the consent statement below, check the "Yes" box, and answer the questions in this questionnaire as completely and accurately as you can, regarding your teaching preparation and activities. It should take you no more than 10 minutes. Return the completed form to the EGRA supervisor before the team leaves your school.
- If after reading this message you prefer not to participate, please return this form with no markings to the EGRA supervisor.

**CONSENT STATEMENT:** I understand and agree to participate in this reading research study by filling out this questionnaire as completely and accurately as possible.

**YES**

Please answer all questions truthfully. Write each response in the space on the right across from each item. Where response options are given, clearly circle the number on the far right of the option that corresponds most closely to your response. For example,
