E Section two			
EH1	Now I am going to ask you about your operational practices and your experience with custom and non customs agencies. I want to remind you that your answers are confidential, so please respond as candidly as possible.		
E1	From your experience, do your clients consolidate import shipments of different products/ clients (that is, make consolidate shipments)? [INT] Single response.	1. Always 2. Frequently 3. Sometimes 4. Rarely	E2
		5. Never DK (Don't know - Do not read out)	E3
E1a	From your experience, do your clients usually consolidate import shipments of different products or from different clients	1. combine products of different clients 2. combine different products of the same client 3. combine different products and involve more clients into a single shipment	
E2	Based on your experience, how much more do you earn on one consolidated shipment (relative to non-consolidated shipment) [INT] [open ended]	1. 1 to 5 % 2. 5 to 10% 3. 10 to 20% 4. 20 to 50% 5. More than 50% DK (Don't know - Do not read out)	EH2
E2a	Consider a shipment of your most traded product. How much time is expected for your typical shipment to go through customs clearans. By "Custom clearans" is meant a procedures done by by the customs and non-customs agencies. (Fito, Fito food, veterinary and other inspections) which could be done on a border outpost or other place where the state services inspect imports. Such locations may actually be within the physical borders of Serbia, for example, in places like Belgrade. [INT] Single response.	6. Less than one hour 7. 1-2 hours 8. 3-5 hours 9. 5-10 hours 10. The shipment stays overnight. 11. The shipment spends at least 24 hours at the border. 12. The shipment spends 2-5 days at the border 13. The shipment spends more than 5 days at the border DK (Don't know - Do not read out)	
EH2	Read to respondent: In following questions (E3 – E11) we ask about “delays in customs clearance”. The word “delay” here means a period of time that is both unexpected and long enough to risk a breach of contractual obligations.		
E3	How much ADDITIONAL UNEXPECTED TIME must pass with your shipment in customs clearance at the border post or terminal for you to be at risk for breaching your contractual obligations? Please think only about additional time, not the time you mentioned in previous question. [INT] Single response.	1. 1-2 hours 2. 3-5 hours 3. 5-10 hours 4. The shipment stays overnight. 5. The shipment spends at least 24 hours at the border post or terminal 6. The shipment spends 2-5 days at the border post or terminal 7. The shipment spends more than 5 days at the border post or terminal DK (Don't know - Do not read out)	E4
E4	In your experience does the consolidation of shipments increase the risk of intensive physical inspection at the border post or terminals? (i.e. “intensive physical inspection” (customs and noncustoms inspection) means that packaging is opened and goods themselves are inspected)	1. Yes 2. No DK (Don't know - Do not read out)	E5
E5	In your experience does the consolidation of shipments increase the risk of delays in customs clearance at the border post or terminals?	1. Yes 2. No DK (Don't know - Do not read out)	E6
E6	In your experience do intensive physical inspections frequently lead to extended delays in customs clearance at the border post or terminals? Remember that by "custom clearans" we mean procedures done by by the customs and non-customs agencies	1. Yes 2. No DK (Don't know - Do not read out)	E7

E7	What is your normal response to delays in customs clearance at the border post or terminals? <i>[INT] Show card E7</i>		1. Absorb losses (shipment continues as normal to initial destination, freight forwarder bears liability / losses) 2. Redirect shipments (shipping to nearby city instead - so goods don't spoil, for example) 3. Driver responds (driving faster/shorter) 4. Other: _____ DK (Don't know - Do not read out)			E8
E8	Do you personally communicate with drivers about shipments when goods are delayed in customs clearance at the border post or terminals?		1. Yes 2. No DK (Don't know - Do not read out)			E9
E9	In your experience in what proportion of cases does it happen that the shipment spends at least one night in customs clearance at the border post or terminal.		1. _____ % DK (Don't know - Do not read out)			E10
E10	Please indicate the top 3 causes for the unexpected delays at the border post or terminals for one night or more. <i>[INT] Multiple responses. Up to 3 answers. Show card E10</i>		First cause	Second cause	Third cause	EH3
1. traffic elsewhere on the route,		1	2	3		
2. driver decisions/performance,		1	2	3		
3. other counterparties' decisions/performance		1	2	3

	1. Date of delivery?	1	2	3		
	2. Hour of delivery (other than close of business)?	1	2	3		
E13	If the answer on E12 was YES for the date or the hour of delivery ask: Are there penalties for delivering the goods later than the date/hour of delivery specified in the contract?		1. Yes			E14
2. No			E19			
DK (Don't know - Do not read out)			E14			
E14	If there are penalties, do they usually apply to		1. All goods 2. Some goods DK (Don't know - Do not read out)			E15
E15	If there are penalties, do they usually apply to		1. All customers 2. Some customers DK (Don't know - Do not read out)			EH4
EH4	Please describe the normal penalty structure for late delivery					E16
E16	In case that a TYPICAL shipment is unexpectedly held at the border or terminal overnight and therefore is delivered 1 day later than specified in the contract. How large are the penalties in this case? You can tell us about the penalties as actual value in EURs, or as percentage of the value of the product.		1. _____ EUR 2. _____ % of the value of the product			E17

		DK (Don't know - Do not read out)		
E17	Are there any greater punishment for a longer delay? (If the penalty for one day delay is for example 150 EUR, will the penalty for three days delay be 450 (3 x 150) EUR, or the penalty increases with each day of delay (For example, first day 150 EUR, 200 EUR for second day...)?	1. Yes, it increases with each day of delay		E18
		2. No, it remains the same for each day		E19
		3. Other: _____		
		DK (Don't know - Do not read out)		E18
E18	If so, can you give a representative example of larger penalty for longer delay? [INT] [open ended]	_____ _____ _____ _____		E19

E47	<p>Suppose you have an opportunity to ship a half-truckload of a certain product from Munich tomorrow and a second half-truckload shipment of the same product two days later. The product will not spoil, and is not subject to phytosanitary, veterinary or other such inspections, so you expect few delays at the border. What is your most likely course of action, and what is the reason for choosing it?</p> <p>[INT] Single response</p> <p>Show card E47</p>	<p>1. Wait two days so you can send a full truckload because the transportation cost savings are substantial.</p> <p>2. Send two half-full trucks because timely delivery is more valuable than the transportation cost savings.</p> <p>3. Send two half-full trucks because warehousing the goods in Munich is more costly than the transportation cost savings.</p> <p>4. Attempt to mix the product with other goods which will raise the probability of inspection but will lower transportation and warehousing costs.</p> <p>5. A situation like this rarely occurs because supply chains are well organized.</p> <p>DK (Don't know - Do not read out)</p>		S1
