

### **Bosnia & Herzegovina**

- 10,324 individuals;
- 37,123 observations;
- 4 Waves; 2001-2004;
- 2001: 9,464; 2002: 9,766; 2003: 8,765; 2004: 9,128.
- All ages;
- From Wave 1, keeps the panel sample that was followed in Wave 2.
- Does not exclude proxy respondents or those non-interviewed/refused. The exclusion of the latter group will bring the figure to the interviews documented in the reports.
- Caution must be paid to the use of the do-files. Some variables from the yearly files might have been dropped. The user will need to go the program-files and select to keep these variables in case he/she needs to use them. However, the majority of variables is included
