Data Collection Organization:

INDEX Albania

Fieldwork Period:

17-02-2002 - 05-03-2002.

Universe:

National Population, Both sexes, 18 and more years

Sample size:

1000

Estimated Error:

3,2

Questionnaire:

From 17th February until 5th March, Index-Albania, Tirana, conducted a national survey of public opinion in Albanian territory.

Sample:

The Albanian universe was divided in four regions, Tirana, Center, South and North. All the 36 districts of Albania were included in the sample, using an administrative classification of rural area (village), town, and city. A nationally representative multistage random probability sample of the population aged 18+ was used for this survey. The sample comprised 1000 respondents and the sample design was drawn based on 2001 census results, of the population aged 18 years and over, incorporating characteristics of the surveyed universe per age, gender, education type of settlement, national affiliation and region. Selection of households, in urban and rural areas was executed on random route. In the urban areas was the neighbourhood firstly selected by lottery, and secondly the road, in the same way. In the road was selected each household only in the one side of the street, because the most part of the doors were closed or not open by the people. In rural areas, the villages near the urban centre were selected - if these villages have been not included in a survey, conducted by Index Albania during a period of 6 months. It was difficult and sometimes impossible to travel to every village, selected by lottery, during winter. Selection of a respondent was carried out via "next

birthday" selection key.

Remarks about sampling:

-Final number of clusters or sampling points: 111 -Sample unit from office sampling: Household

Survey procedure:

Personal Face to Face Interview

Fieldwork:

Survey procedure was face-to-face interview, 92% in-home of the respondent and the other part out home (about 8% of the respondents interviewed out home were respondents of urban areas). A total of 56 interviewers were employed in the survey 32 of them were males and 24 females. 5 interviewers were between 21-25 years old, 14 persons between 26-30 years old, and 15 persons between 31-40 and 22 interviewers 41+ years old. The 94% of the interviewers were graduated persons. 90% of the interviews were made in the first visit. A training session with the interviewers was carried out. A team of 15 supervisors and 4 persons from the management team have administered supervision and the quality of the questionnaires there were realised 7.2% direct controls, 3.8 % by phone and 3.3% back-check ones.

Response rate:

Refusal rate stands at 48.3%. Regions with highest refusal rate were Tirana-19.2%; Shkodra-9.3%, Berati -5.1%, Vlora-3.4%, Elbasani-2.2%, Fieri-1.9%, Korca-1.2%. Some said "have no time", some other "have no electricity", some interviews were conducted in the light of candle and the interview was interrupted when the electricity was recovered because the respondents had works to do. There are a number of refusals because some people do not believe in the person of interviewer.

V82.- Some people feel they have completely free choice and control over their lives, while other people feel that what they do has no real effect on what happens to them. Please use this scale where 1 means "none at all" and 10 means "a great deal" to indicate how much freedom of choice and control you feel you have over the way your life turns out.

Albania 2002(N=1000)

Disa njerëz mendojnë se mund ta drejtojnë dhe të kontrollojnë lirisht jetën e tyre, të tjerë mendojnë se ajo që u ndodh nuk është aspak në dorën e tyre. Ju lutem, përdorni këtë shkallë ku 1 nënkupton "Nuk e kanë në dorë aspak jetën e tyre" dhe 10 nënkupton "E kanë shumë në kontroll jetën e tyre"

Tani do të desha të më tregonit pikëpamjet tuaja për çështje të ndryshme. Ku do t'i vendosnit pikpamjet tuaja në këtë shkallë? 1 nënkupton se pajtoheni plotësisht me pohimin në të majtë; 10 nënkupton se pajtoheni plotësisht me pohimin në të djathtë; dhe nëse pikpamjet tuaja ndodhen diku midis 1 dhe 10, zgjidhni numrin e përshtatshëm.

Idetë që i kanë qendruar kohës janë përgjithësisht më të mira

V172.- I'm going to read off some things that people sometimes say about a democratic political system. Could you please tell me if you agree strongly, agree, disagree or disagree strongly, after I read each one of them? Democracy may have problems but it's better than any other form of government

Albania 2002(N=1000)

Po ju lexoj disa gjëra që njerëzit thonë shpesh për sistemin politik demokratik. A mund të më thoni nëse pajtoheni, plotësisht, pajtoheni, nuk pajtoheni, nuk pajtoheni aspak me to ?

Demokracia mund të ketë probleme por ajo është më e mirë se ndonjë formë tjetër qeverisje.
