Data Collection Organization:

TNS Gallup Argentina

Fieldwork Period:

20-07-2006 - 24-07-2006.

Universe:

National Population, Both sexes,18 and more years

Sample size:

1002

Estimated Error:

3,2

Questionnaire:

-In confidence in institutions (V131/147, we included we also asked confidence for some other institutions: Educative System, NGOs, Municipalities, Banks, TV News, IMF -At the end of the questionnaire we add some question regarding religiosity. All this questions were included in previous waves of the WVS WVS question number or description of question: V91 to V94 Reason(s) not included: We did included them but there was a mistake and another scale was use. Instead of asking agreement in a scale from 1 to 10 it was asked in a scale from 1 to 6, as it was done in the last wave. This is the reason why the question is not include in the data set.

Sample:

The sampling method applied was Stratified according 2 criteria and Random Multi Stage in the selection process of the sampling units. After stratifying the nation geographically and by size of community in order to insure conformity of the sample with the latest available estimates by National Census of the distribution of the adult population, 201 different sampling locations or areas were selected on a random basis from within cities which have in turn to be selected on a mathematically random basis. The interviewers had no choice whatsoever concerning the part of the city in which they conduct their interviews. Approximately five interviews were conducted in each such randomly selected sampling point. Interviewers were given maps of the area to which they were assigned, with

a starting point indicated; they were required to follow a specific direction. The selection of the final sample unit was selected according predetermined age and sex quotas. These quotas are established according the distribution of these variables in each locality/ city. The procedures described above, are designed to produce samples approximating the adult civilian population (18 and older) living in private households (that is, excluding those in prisons, hospitals, hotels, religious, and educational institutions and those living on reservations or military bases).

Remarks about sampling:
There is a specified direction, interviewers should follow. After a successful interview, the interviewer should leave 4 households and make an interview at the 5th household. If there is a refusal or it´s out of target, they try in the household inmediately after the one selected by the probabilistic sample.

Survey procedure:
Personal Face to Face Interview

Weighting:
By size of locality/ stratum

V115.- Imagine two secretaries, of the same age, doing practically the same job. One finds out that the other earns considerably more than she does. The better paid secretary, however, is quicker, more efficient and more reliable at her job. In your opinion, is it fair or not fair that one secretary is paid more than the other? (Code one answer):

Argentina 2006(N=1002)

Imagine dos secretarias, de la misma edad, que hacen prácticamente el mismo trabajo. Una de ellas se entera que la otra gana más al mes que ella, se queja al jefe y éste le dice -lo cierto- que la otra secretaria es más rápida, más eficiente y que se puede confiar más en ella en su trabajo. En la opinión de Ud., ¿Es justo o no es justo que a una secretaria se le pague más que a la otra?

V246.- How much independence do you have in performing your tasks at work? If you do not work currently, characterize your major work in the past. Use this scale to indicate your degree of independence where 1 means "no independence at all" and 10 means "complete independence" (code one answer):

Argentina 2006(N=1002)

¿Cuánta independencia tiene Ud. para realizar las tareas en su trabajo? Si no está Ud. trabajando en la actualidad refiérase a su trabajo principal en el pasado. Utilice esta escala para indicar su nivel de independencia en la que el 1 significa que no tiene "ninguna independencia" y el 10 significa que tiene "total independencia". (CODIFICAR UNA RESPUESTA)
