- 2 G>gbe (Ga)
- 3 Blugbe (Twi/Akan)

[NOTE: if relevant, use codes appropriate to your own society]

V259. Weight variable (Provide a 4-digit weight variable to correct your sample to reflect national distributions of key variables. If no weighting is necessary, simply code each case as "1." It is especially important to correct for education. For example, if your sample contains 10 percent more university-educated

respondents as there are in the adult population, members of this group should be downweighted by 10 percent, giving them a weight of .9, coded as "90").
