ANDORRA 2005

Geographical scope:

Andorra

Principal investigator(s):

Joan Rafel Micó Ibañez Av. Enclar, 126 1er AD600 Santa Coloma (Principat d'Andorra) E-mail: cres@andorra.ad

Data Collection Organization:

CRES (Centre de Recerca Sociològica)

Fieldwork Period:

14-11-2005 - 10-02-2006.

Universe:

National Population, Both sexes, 18 and more years

Sample size:

1003

Estimated Error:

3,2

Questionnaire:

Questionnaire in Catalan, Spanish, French and English Questions 75 and 76, 290 and 209.1: We have considered it necessary to make a change in these questions as 74% of the population over 18 years old that lives in Andorra don't actually have Andorran nationality. Question 131: As it's a country in which the majority of the population is Catholic. Question 132: We have left this question out as Andorra does not have armed forces, only a police force. Question 140.- We have left this question out as in Andorra parliament and the courts is the same thing. Questions 222 and 258: We have added the languages most spoken in Andorra. Questions 231 to 234: These are the political parties that exist at present in the Principality of Andorra. Questions 254 and 255: We have added these to find out the nationality and the years of residence in Andorra of the 74% of the population that does not have Andorran nationality. Question 255: We have left out the options of over 50,000 inhabitants as the largest town in Andorra has 24,000 inhabitants. Question 257: The parish is the administrative unit into which the Principality of Andorra is divided (there are 7 parishes). WVS question Legislative institution (Consell General) has been asked in V137

Sample:

Representative sample of the Andorran population aged 18 and over

Remarks about sampling:

Questionnaires were distributed in proportion to the population in each of the 7 parish (administrative units of Andorra). Selection of sampling points in each parish was drawn depending on the number of inhabitants. The interviews were made by a random start method. Respondents were selected according to quotas of sex, age and nationality. Respondent could be substituted for another who fits the quotas. Size of each parish was used to design the sampling points. Limitations due to the inaccurate population census (including people who have left the country) Low coverage of the aged and Portuguese due to the difficulty in interviewing them and the non-response rate.

Survey procedure:

Personal Face to Face Interview

Response rate:

1097 A Total issued B Not eligible (ill, dead, non-English speaking, not at this address) 1097 C Total eligible 1003 D Total questionnaires received 94 E - non-responses (including non-contact; see note above under sample type) 15 F Refusals (including questionnaires less than half filled in) 76 G Non-contact (included in E) 3 H Other non-response (included in E)

Weighting:

The weight variable has been calculated to correct the sample distribution of sex and nationality on the basis of the national population aged 18 and over.

Hi ha gent que opina que certs tipus de problemes estarien millor tractats per les Nacions Unides o per organitzacions regionals en lloc de per cada govern nacional per separat. Uns altres opinen que aquests problemes haurien ser la exclusiva responsabilitat dels governs nacionals. Citaré alguns problemes. Per cadascun, ens podria dir si creu que les polítiques d'aquesta zona (Europa) haurien de ser decidides pel governs nacionals, per organitzacions regionals (consell d'Europa) o per les Nacions Unides?
