**V180.-** Some people believe that certain kinds of problems could be better handled by the United Nations or regional organizations rather than by each national government separately. Others think that these problems should be left entirely to the national governments. I'm going to mention some problems. For each one, would you tell me whether you think that policies in this area should be decided by the national governments, by regional organizations, or by the United Nations? (Read out and code one answer for each problem): Protection of the environment
