In the table below please present the information from census or from other government surveys or other high-quality data (column SOURCE 1) and the proportions obtained in your data, before and after weighting

**\* About Age groups data, we have only 15-19 year-old data (not 18-19 year-old) of the Basic Resident Register. \* \*National census is taken place each five years in Japan. Though, the questions concerning years of schooling are posed only per decade. We use the data about years of schooling from the 2000 census result.**
