Technical Record

Study #

New Zealand 1998_v20180912

NEW ZEALAND 1998

Geographical scope:

New Zealand

Fieldwork Period:

24-11-1998 - 01-12-1998.

Universe:

National Population, Both sexes, 18 and more years

Sample size:

1201

Estimated Error:

2,9

Questionnaire:

The WVS questionnaire was in English, Maori, Pacific, Chinese and Japanese. There have been included some special variable labels such as: V56 neighbours: There were three versions for different minorities but none was included in the original file and V149 Institutions: This variable was asked and referred to "CER with Australia" but was excluded in the original file because New Zealand assumed it should refer to the European Union. Special categories labels are: V167 Least liked Groups and 203/ V204: Geographical affinity. The variable V217 Education is not compatible with codebook. Country Specific variables included are: V208: Ethnic identification, 1. Maori, 2. Pakeha 3. European, 4. Pacific 5. Asian, 6. Other; V209: Language at home: 1. English, 2. Maori, 3. Pacific, 4. Chinese, 5. Japanese and 6. Other. The variables political parties V210 and V212; V232 Size of Town; V 233 Ethnic Group and Region: V 234 are also included as country specific variables. The V 206 Born in this country is also different in New Zealand.

Sample:

The sampling frame used was an electronic version of New Zealand electoral Roll. In New Zealand, enrolment is compulsory, but is rarely ever enforced. The defined age range was 18-90 years. A simple systematic sample of 1749 was drawn from the Maori electorates. A systematic sample of 225 was drawn from the European electorates. This represents an approximate double oversample, in an effort to increase the Maori response rate. A systematic sample of 25 was drawn from a small number of Census mesh blocks in South Auckland and Porirua (Wellington suburb) which are extremely low household income areas. Again, this was an attempt to increase the response rate from people who traditionally are low responders to surveys.

Survey procedure:

Postal interview

Fieldwork:

It is based on a self-administered postal survey. It was posted out to 2024 people throughout New Zealand about 24 September 1998. Along with a cover letter it included the incentive of a NZ\$1.00 coin. Approximately two weeks later a reminder letter and a new questionnaire was sent to those that had not responded.

Response rate:

65.3%

V73.- Now I would like to ask you something about the things which would seem to you, personally, most important if you were looking for a job. Here are some of the things many people take into account in relation to their work. Regardless of whether you're actually looking for a job, which one would you, personally, place first if you were looking for a job?

	TOTAL	Sex			Age

V178.- Here are two statements which people sometimes make when discussing good and evil. Which one comes closest to your point of view? A. There is absolutely clear guidelines about what is good and evil. These always apply to everyone, whatever the circumstances. B. There can never be absolutely clear guidelines about what is good and evil. What is good and evil depends entirely upon the circumstances at the time.

Y001.- Materialism/Postmaterialism (12-item index) The MatPMat12 values index used here is created as follows from V104 to V109: V104. People sometimes talk about what the aims of this country should be for the next ten years. On this card are listed some of the goals which different people would give top priority. Would you please say which one of these you, yourself, consider the most important? CODE ONE ANSWER ONLY UNDER "First Choice." V105. And which would be the next most important? CODE ONE ANSWER ONLY UNDER "Second Choice." First ChoiceSecond Choice 1 A high level of economic growth11 Making sure this country has strong defense forces22 *Seeing that people have more say about how things are done at their jobs and in their communities 33 Trying to make our cities and countryside more beautiful 44 Don't know [DO NOT READ OUT] 99 V106. If you had to choose, which one of the things on this card would you say is most important? CODE ONE ANSWER ONLY V107. And which would be the next most important? CODE ONE ANSWER ONLY First ChoiceSecond Choice Maintaining order in the nation11 *Giving people more say in important government decisions22 Fighting rising prices 33 *Protecting freedom of speech44 Don't know [DO NOT READ OUT] 99 V108. Here is another list. In your opinion, which one of these is most important? CODE ONE ANSWER ONLY V109. And what would be the next most important? CODE ONE ANSWER ONLY First ChoiceSecond Choice A stable economy 11 *Progress toward a less impersonal and more humane society22 *Progress toward a society in which ideas count more than money 33 The fight against crime44 Don't know [DO NOT READ OUT] 99 MatPMat12 index is constructed by summing the number of Postmaterialist items chosen as either first or second choice in its group (these five items are designated with an asterisk above). This produces an index that runs from 0 (no Postmaterialist items are given high priority) to 5 (all five Postmaterialist items are given high priority). SPSS code used to build V1000 is as follows: COMPUTE V1001=0. COMPUTE V1002=0. COMPUTE V1003=0. COMPUTE V1004=0. COMPUTE V1005=0. IF (V104=3 OR V105=3) V1001=1. IF (V106=2 OR V106=4) V1002=1. IF (V107=2 OR V107=4) V1003=1. IF (V108=2 OR V108=3) V1004=1. IF (V109=2 OR V109=3) V1005=1. COMPUTE V1010=9. IF NOT (V104=0 & V105=0 & V106 =0 & V107=0 & V108=0 & V109=0) V1010=V1001+V1002+V1003+V1004+V1005.

Y003.- Autonomy Index is a computed variable based on the Children qualities battery. It uses only four variables: V22= Children qualities: Religious Faith V24= Children qualities: Obedience V15= Children qualities: Independence V21= Children qualities: Perseverance Only variables with answers to all v22,v24,v15,v21 have an index. The SPSS like formula is: Compute Y003=-5. if v22>=0 and v24>=0 and v15>=0 and v21>=0 then Y003=(v22 + v24)-(v15 +v21).
