Q2: Negotiations

Nº	Question	Variable Name in R	Variable Name in Baseline Report
1	Case 1		
	<i>The teacher asks the class to enroll in a science project. You are very excited about one particular project, but only one student can join the group dprojects of 5 persons that already exists. Anna your classmate wants to join the project too. When you sought advise from your teacher about it, she said that you should solve it on your own.</i>		
	<i>What to do?</i>		
	<i>Order the following statements from 1: Your most probable answer to this situation to 5: Your least likely answer in this situation. Remember , there are no right or wrong answers to this question.</i>		
	A. I try not to hurt Anna. If the project is that important to her I don't want to stand in her way, there will be another opportunity for me in the future.	X1_2_1A_E_Negotiations_E	
	B. I try to convince Anna that I should be the one to join the group. I need to be firm in my position to win.	X1_2_1B_E_Negotiations_E	
	C. I make a compromise to Anna so each one of us join half the time of the project. This is not what I want, but it is better than nothing.	X1_2_1C_E_Negotiations_E	

	D. I don't want to antagonize Anna. I ask the teacher again to solve things since it was she that put us in that difficult situation.	X1_2_1D_E_Negotiations_E	
	E. I need to find out more about Anna and ask her why she wants to join the project group. I am not sure but perhaps we can find a solution that works for both of us.	X1_2_1E_E_Negotiations_E	
	Case 2		
2	<i>A friend's uncle gave him a scooter and you ask him about the bicycle that he is not using and you always wanted. But he wants to sell it for 40\$, which you can't afford.</i>		
	<i>What to do?</i>		
	<i>Organize the following 5 statements from 1 : Your most probable answer in this situation to 5 : Your least probable answer in this situation. Remember there are no right or wrong answers to this question.</i>		
	A. If this is what he is asking for, it is what he needs, after he demonstrates his good faith by charging only \$35, I don't want to take advantage of my friend more than needed. I ask my parents for money and close the deal.	X1_2_2A_E_Negotiations_E	
	B. I offer him \$10 and i show him my reluctance to make concessions. I know he might think I'm irrational. But I can only win if I stand firm in my position.	X1_2_2B_E_Negotiations_E	
	C. I do a counter-offer of \$20 Which I think is a fair price for the bike. He offers me to split the difference in half, in \$30. This is still a little bit more than what I am willing to spend. But it is a fair solution. All the parties should compromise to negotiate and get to an agreement.	X1_2_2C_E_Negotiations_E	

	D. It is uncomfortable for me to dribble with a friend like this. And I don't want to put the friendship at risk over an old bicycle. Even though I'm still interested in the bicycle, I tell him I will think about it and wait for him to make a better offer in the future.	X1_2_2D_E_Negotiations_E	
	E. You ask him what he wants to spend the \$40 on. You are not sure but perhaps you have something that is of value to him and that you can trade off in return for the bike.	X1_2_2E_E_Negotiations_E
