The Threshold Program of the Millennium Challenge Account of Honduras confirms the acceptance of the evaluation findings submitted by Social Impact on the *Honduras Threshold Country Program Interim Evaluation Report* which was presented to the institutional counterparts in Tegucigalpa on October 25<sup>th</sup>, 2018.

This report was very useful to demonstrate how the institutions have participated in the activities of the Threshold Program and how the activities have affected and impacted the processes in the institutions.

The findings will support the future design and implementation of programs related to Public Financial Management and Public Private Project assistance.

Best regards,
