INFORMED CONSENT

Hello, my name is _____ with the firm Philippine Survey and Research Center (PSRC). You are being asked to participate in a research study. The study is being done by the World Bank in cooperation with the Department of Social Welfare and Development (DSWD). The purpose of the study is to better understand the conditions within your community and household in order to improve available social programs. You are being asked to participate in this study because you live in one of the communities selected for the present study. We would appreciate if you could spare approximately one hour and a half to answer some questions. The information you provide will help your local government and international organizations design programs that will improve the existing sanitation conditions in your area.

--Hello, ako po si _____ (sabihin ang pangalan) ng Philippine Survey and Research Center (PSRC). Kayo po ay inaanyayahang magpartisipa sa isang research. Ang pag-aaral na ito ay ginagawa ng World Bank kasama ang Department of Social Welfare and Development (DSWD). Hangarin ng pag-aaral na ito na mas maintindihan ang mga kondisyon sa inyong komunidad at pamamahay para mapabuti pa ang mga programang pang-komunidad. Hinihiling namin na magpartisipa kayo sa survey na ito dahil naninirahan kayo sa isa sa mga komunidad na napili para sa pag-aaaral na ito. Ikagagalak po namin kung mapagbibigyan niyo kami ng isa hanggang isa't kalahating oras para sagutin ang mga tanong. Ang mga impormasyon g ibibigay ninyo ay makakatulong sa inyong lokal na gobyerno at mga international organizations sa paggawa ng mga programa na makakapagpabuti ng kasalukuyang kondisyon ng kalinisan sa inyong lugar.

There is no risk or benefit to you if you decide to participate in the study. Even if you agree to participate in the study, you are not obliged to answer every question. Also, if you agree to participate in the study now, no one from our team will be allowed to ask you additional questions in the future without asking for your consent again.

--Wala pong panganib o benepisyo sa inyo kung magdesisyon kayong magpartisipa sa pag-aaral. Kahit pumayag kayong magpartisipa sa pag-aaral, hindi po kayo obligadong sagutin ang bawat tanong. Kung papayag din po kayong magpartisipa sa pag-aaral ngayon, wala po sa aming grupo ang papayagang magtanong muli sa inyo ng karagdagang tanong sa hinaharap nang hindi humihingi ng pahintulot mula sa inyo.

Please feel free to ask any questions you have about the study now or throughout the interview. If you have questions or concerns later, you can call me at _____. You can also contact any of the following survey firm staff: _____ at _____ with any questions or concerns.

--Maaari po kayong magtanong tungkol sa pag-aaral na ito ngayon o habang ginagawa ang interbyu. Kung may mga katanungan o alinlangan kayo mamaya, maaari niyo po akong tawagan sa _____. Maaari niyo rin pong kontakin ang kahit na sino mula sa PSRC: _____ sa _____.

Thank you.
--Maraming salamat.

S2. Do you agree to participate in this survey?
--Pumapayag po ba kayong magpartisipa sa pag-aaral na ito?

I am now going to ask you some questions which are a little bit similar to “pera o bayong”, but they are about losing money as opposed to winning money. There is no right or wrong answer, I am just curious to hear what you prefer.

-- Ngayon ay mayroon po akong ilang tanong na malapit nang kaunti sa “pera o bayong”, pero tungkol sa pagkawala ng pera sa halip ng pagkapanalo ng pera. Wala pong tama o maling sagot, nais ko lang pong malaman kung alin ang inyong mas gusto.

I am going to ask you to make the choice between two options, represented by these two jars. The first jar contains 4 balls. If you choose the first jar, one ball will be drawn from the jar. If a black ball is drawn you will lose 400 pesos and if a white ball is drawn you will lose nothing. This means there is an equal chance of losing 400 pesos and losing nothing (fifty-fifty). If you choose the second jar you will lose 200 pesos for sure. --Papipiliin ko kayo mula sa dalawang options, na nirepresenta ng dalawang garapon na ito. Ang unang garapon ay may apat na bola.
