TITLE

Global Adult Tobacco Survey 2009

COUNTRY

Name	Country code
Poland	POL

STUDY TYPE

Other Household Survey [hh/oth]

SERIES INFORMATION

This is the first GATS conducted by Poland.

ABSTRACT

The Global Adult Tobacco Survey (GATS) is the global standard to systematically monitor adult tobacco use and track key tobacco control indicators. GATS is a nationally representative household survey of adults 15 years of age or older, using a standard protocol. It is intended to generate comparable data within and across countries. GATS enhances countries' capacity to design, implement and evaluate tobacco control interventions.

KIND OF DATA

Sample survey data [ssd]

UNIT OF ANALYSIS

Individuals

VERSION DESCRIPTION

Public-use dataset

Scope

NOTES

GATS is composed for a set of core and optional questions designed to gather data on the following domains:

1. Background characteristics: Gender, age, education, work status, possession of household items.
2. Tobacco smoking: Pattern of use; Former/past tobacco consumption; Age of initiation of daily smoking; Frequency of consumption of different smoked tobacco products; Nicotine dependence, Frequency of quit attempts.
3. Smokeless Tobacco: Pattern of use; Former/past tobacco consumption; Age of initiation of daily smokeless tobacco use; Frequency of consumption of different smokeless tobacco products; Nicotine dependence, Frequency of quit attempts.
4. Cessation: Advice to quit smoking/smokeless tobacco use by health care provider; Methods used to try to stop smoking/smokeless tobacco use.
5. Second-hand smoke exposure: Smoking allowed in the home; Exposure to secondhand smoke at home and public places; Indoor smoking policy at work place; Knowledge of serious illness in non-smokers due to secondhand smoke.
6. Economics: Type of tobacco product and quantity bought; Cost, brand and type of tobacco products(s); Source of tobacco products.
7. Media: Exposure to tobacco related advertisement in various places; Exposure to sporting events connected with tobacco; Exposure to music, theatre, art or fashion events connected with tobacco; Exposure to tobacco promotion activities; Health warning labels on cigarette packages; Exposure to anti-tobacco advertising and information.
8. Knowledge attitudes and perceptions: Knowledge about health effects of smoking/smokeless tobacco use.

Countries may also select optional modules on Water Pipe (Shisha/Nargile) and Electronic Cigarettes.

Sampling

SAMPLING PROCEDURE

A multi-stage, geographically clustered sample design was used to produce nationally representative data. 14,000 households were sampled from the Central Statistical Office (GUS) household address database. One individual was randomly chosen from each participating household to complete the survey.

RESPONSE RATE

There were a total of 7,840 completed interviews with an overall response rate of 65.1%.

WEIGHTING

See Sample Weights Manual.

ACCESS CONDITIONS

The user undertakes:

- (1) to acknowledge the data source.
- (2) to share any planned publications with WHO prior to publication.
- (3) to offer co-authorship of any reports or publications using the survey results to the coordinator of the survey.
- (4) to use the data for non-commercial, not-for-profit public health purposes only.

CITATION REQUIREMENTS

Publications based on GATS data should use the following acknowledgement:

"This paper uses data from the Global Adult Tobacco Survey (GATS). GATS is supported by the World Health Organization and the US Centers for Disease Control and Prevention."
