# PART A

## Level and Trends in Resources Allocation to Schools by School System

The tables presented in **Part A** of this document provide information about the *levels of school resources in SACMEQ countries in 2007* and the *trends in these resources between 2000 and 2007*.

There are six tables presented in this part:

**Table 3a:** Levels of Essential Classroom Resources by School Systems in 2007 (Percentages of Grade 6 Pupils in Schools with Stated Resource)

**Table 3b:** Trends in Essential Classroom Resources by School Systems (2000 – 2007)

**Table 4a:** Levels of Desirable Physical Resources by School Systems in 2007 (Percentages of Grade 6 Pupils in Schools with Stated Resource)

**Table 4b:** Trends in Desirable Physical Resources by School Systems (2000 – 2007)

**Table 5a:** Levels of Desirable Human Resources by School Systems in 2007 (Percentages of Grade 6 Pupils in Schools with Stated Resource)

**Table 5b:** Trends in Desirable Human Resources by School Systems (2000 - 2007)

Information on how to read the tables listed above is provided in **Boxes 1** and **2**. In addition, some notes on the above tables have been provided in **Box 3** (for Essential Classroom Resources), **Box 4** (for Desirable Physical Resources), and **Box 5** (for Desirable Human Resources). The sources of school resources variables have been provided in **Appendix 1**.

## BOX 1: Three Groups of Educational Resources Defined

The aim of this section is to present information about resource inputs to schooling in SACMEQ school systems. These resource inputs were assessed by 36 indicators that have been aligned along three main dimensions:

(a) **Essential Classroom Resources**

Twelve indicators have been presented in **Tables 3(a)** and **3(b)** that were concerned with two essential resource areas: “Teaching and Learning Materials” and “Equipment and Facilities”. These indicators were selected because they described the presence of “essential classroom resources” that could reasonably be expected to be available in all school classrooms if effective teaching and learning is to take place.

High levels of access to all of these essential resources are required for all schools in a school system because they provide a minimal standard of educational environment for all pupils. For example, teachers can only teach the required curriculum if they have access to a teacher guide, pupils can only learn effectively if they have access to textbooks, and schools can only operate in an acceptable fashion when pupils have access to water and have places to sit and write.

(b) **Desirable Physical Resources**

Twelve indicators have been presented in **Tables 4(a)** and **4(b)** that were concerned with two physical resource areas: “Buildings” and “Equipment and Facilities”. These indicators were selected because they described the presence of “desirable physical resources” that could reasonably be expected to enhance the quality of the general conditions of schooling.

High levels of access to these resources imply that pupils will undertake their lessons in comfortable buildings that have suitable physical facilities for pupils, teachers, and school heads. For example, better physical resource environments should feature school buildings that have been well maintained, and that have working areas for both teachers and school heads. Additional physical resources would include classroom storage areas, sports fields or playgrounds, and modern equipment such as a television set and a photocopier.

(c) **Desirable Human Resources**

Twelve indicators have been presented in **Tables 5(a)** and **5(b)** that were concerned with three human resource areas: “School Heads”, “Teachers”, and “Educational Environment”. These indicators were selected because they described the presence of “desirable human resources” that could reasonably be expected to improve the quality and educational impact of human interactions within schools.

High levels of access to these resources imply that pupils will experience their education in uncrowded classrooms that are supervised by well-trained and knowledgeable teachers, and that these educational experiences will be managed by a well-trained school head. For example, better human resource environments should feature school heads that have completed at least senior secondary school and appropriate management training, and teachers who have completed pre-service and in-service training, and have a high level of subject matter knowledge.

## BOX 2: Benchmark Levels and Trends in School Resources

The three groups of educational resources described in **Box 1** above were analyzed using data from the SACMEQ research program in order to illustrate levels of resources in school systems during 2007, and trends in resources in school systems between 2000 and 2007:

### (a) **Levels of Resources**

The figures presented in **Tables 3(a), 4(a), and 5(a)** represent the percentages of Grade 6 pupils in schools with the stated resources during 2007. The percentages have been colour-coded in two ways.

First, in **Table 3(a)** which describes “essential educational resources”, the colours of figures were selected to indicate whether a percentage is either above a minimal benchmark value of 85 percent (green) or below this value (red). Note that the cutoff point of 85 percent was selected by starting with the assumption that all pupils (that is, 100 percent) should be in schools with these 12 essential classroom resources, and then conceding that new schools or temporary schools might require this figure to be relaxed to a level of 85 percent. For example, the first entry in **Table 3(a)** for Botswana indicated that (i) 79 percent of Grade 6 pupils in Botswana during 2007 were taught by teachers who had Teachers’ Guides for Reading, and (ii) that this percentage (presented in red) was below the minimal benchmark cutoff point of 85 percent.

Second, in **Table 4(a)** and **5(a)** which describe “desirable educational resources”, a different approach to colour coding was applied. It was not necessary for these resources to have a high and uniform fixed benchmark level of 85 percent as described above - because these resources were “desirable” but not absolutely “essential” for effective teaching and learning. Instead it was decided adopt a relative assessment of these figures by employing the SACMEQ average percentage as the benchmark comparison figure. The first entry in **Table 4(a)** for Botswana indicated that 67 percent of Grade 6 pupils in Botswana were in schools where buildings were reported to be in “good” condition by the school heads, and that this percentage (presented in green) was above the SACMEQ average of 53 percent shown at the bottom of the first column of the table. Similarly in **Table 5(a)** the second entry for Botswana indicated that 43 percent of Grade 6 pupils in Botswana were in schools with a school head that had completed senior secondary school or a higher academic qualification, and that this percentage (presented in red) was below the SACMEQ average of 86 percent shown at the bottom of the second column of the table.

### (b) **Trends in Resource Levels**

The symbols presented in **Tables 3(b), 4(b), and 5(b)** provides a graphical representation of trends in educational resources levels between the data collections for the SACMEQ II Project (2000) and the SACMEQ III Project (2007). Improvements in resource levels between 2000 and 2007 were identified with green arrow heads pointing upward ( $\triangle$  - improved by 5 to 10 points,  $\blacktriangle$  - improved by more than 10 points). Similarly, deteriorations in resources levels between 2000 and 2007 were identified with red arrow heads pointing downward ( $\nabla$  - deteriorated by 5 to 10 points,  $\blacktriangledown$  - deteriorated by more than 10 points). Changes in resources levels of less than 5 points were identified with grey arrow heads pointing sideways ( $\blacktriangleright$ ).

**Table 3a:** Levels of Essential Classroom Resources for SACMEQ School Systems in 2007

### BOX 3: Notes on Essential Classroom Resources (Tables 3(a) & 3(b))

- **Textbooks:** From **Table 3(a)** it can be seen only Mauritius and Swaziland had acceptable levels of provision for reading and mathematics textbooks in 2007, and all the other school systems were badly off on these two items - especially Tanzania (where only 3% of the Grade 6 pupils reported that they had their own reading and mathematics textbooks). Other school systems that were doing particularly badly on these two items were Zimbabwe, Uganda and Kenya where less than 20 percent of the Grade 6 pupils in these school systems had their own reading and mathematics textbooks. From **Table 3(b)**, it can further be seen that the mathematics textbook situation had improved considerably in Lesotho, Swaziland and Zanzibar while the situation had deteriorated noticeably in Botswana, Malawi, Namibia and Seychelles between 2000 and 2007.
- **Water:** From **Table 3(a)**, it can be seen that 81 percent of pupils in SACMEQ school systems were in schools with water (piped, borehole, tank or spring) in 2007. However, over 40 percent of the pupils in Tanzania and Mozambique were in schools without water. In most school systems the water situation remained more or less the same across 2000 and 2007, except in Kenya, Uganda and Zanzibar where the situation improved markedly, and Tanzania where the water situation declined noticeably.
- **Teacher Guide:** Between 2000 and 2007 (**Table 3(b)**), most school systems improved substantially on mathematics teacher guides - except in Zambia where the situation declined substantially, and in Lesotho where the situation remained roughly the same.
- **Summary:** In 2007 (**Table 3(a)**) most school systems were doing well on classroom items such as writing boards, teacher guides, and pupil working places (except Malawi); and doing badly on certain pupil items (such as exercise book, pen or pencil and ruler, reading and mathematics textbooks), school items (such as libraries) (except Botswana, Mauritius, Namibia, Seychelles and Uganda) and radios (except Kenya, Mauritius, and Seychelles). Mauritius, Seychelles, and Swaziland appeared to have done well on most of these essential items.

**Table 4a:** Levels of Desirable Physical Resources for SACMEQ School Systems in 2007

(Percentages of Grade 6 Pupils in Schools with Stated Resource)

## BOX 4: Notes on Desirable Physical Resources (Tables 4(a) & 4(b))

- **Building Conditions:** From **Table 4(a)** it can be seen that about one-half (53%) of the pupils in SACMEQ were attending schools perceived to be of good building conditions. Put in another way, about one-half (47%) of the pupils were attending school perceived to be of poor building conditions. Building conditions appeared poorer in Uganda, Zambia, Kenya and Tanzania where about 60 percent (or more) of the pupils were in schools perceived to be of poor building conditions.
- **Computers:** Given the importance of computers in today's world, it was surprising that only 37 percent of the SACMEQ pupils were in school with at least one computer (**Table 4(a)**). The computer situation appeared particularly bad in Malawi (2%), Tanzania (4%), Lesotho (5%) and Uganda (7%). Nevertheless, it is encouraging to note that computer situation seemed to have improved in most SACMEQ school systems especially in Botswana, Namibia, South Africa, Swaziland, Zanzibar, and Zambia which recorded substantial growth on this item.
- **Electricity:** Almost one-half (45%) of the pupils in SACMEQ school system were in school without electricity. The electricity situation appeared worse in Kenya, Lesotho, Malawi, Tanzania and Uganda where over 70 percent of the pupils were in schools lacking this important resource in 2007 (**Table 4(a)**). From **Table 4(b)** it can be seen that five school systems (Botswana, Namibia, South Africa, Swaziland and Zanzibar) improved notably on electricity, and that these five school systems also improved on most electrical appliances such as television, photocopier and computers. Mozambique is the only school system that recorded a notable decline in electricity situation.
- **Play/Sports Ground:** In general, between 2000 and 2007, the sports or playground situation deteriorated in most SACMEQ school systems, especially in Lesotho and Mozambique (**Table 4(b)**).
- **Summary:** In 2007, Seychelles, Mauritius, Namibia, South Africa and Botswana scored well on most of these desirable items while Malawi, Mozambique, Uganda, and Zambia scored poorly on these items (**Table 4(a)**). On the other hand, Namibia recorded some improvement on most of the desirable items (except class bookshelf) between 2000 and 2007 (**Table 4(b)**).

**Table 5a:** Levels of Desirable Human Resources for SACMEQ School Systems in 2007

## BOX 5: Notes on Desirable Human Resources (Tables 5(a) & (5b))

- **Female Teachers and School Heads:** From **Table 5(a)**, it can be seen that 55 percent of the pupils in SACMEQ had female reading teachers and that 37 percent of the pupils had female school heads. In Zanzibar, 73 percent of the pupils had female reading teachers but only 21 percent of the pupils had female school heads. Similarly, in Kenya, 46 percent of the pupils were taught reading by female teachers and 15 percent had female school heads. In Botswana, Lesotho and Seychelles vast majorities of the pupils were taught reading by females and clear majorities of the pupils were in schools with female principals.
- **Teacher Attendance:** In 2007, Uganda had the worst teachers in terms of class attendance in SACMEQ with 44 percent of pupils in Uganda attending schools where teacher absenteeism and skipping of classes was frequent (**Table 5(a)**). In addition, teacher class attendance situation in most SACMEQ school systems seemed to have deteriorated between 2000 and 2007 (**Table 5(b)**).
- **HIV-AIDS Training:** From **Table 5(a)**, it can be seen that 65 percent of the pupils in SACMEQ had school heads who had attended a course on HIV and AIDS issues. It can also be seen that 62 percent of the pupils in SACMEQ were in schools where at least one teacher had special training on HIV and AIDS issues. Mauritius scored poorly on School Head HIV and AIDS courses (9%) and teachers' special training on HIV and AIDS issues (4%).
- **Summary:** Except for school head academic qualification, teacher pre-service training, and teacher class attendance, most SACMEQ school systems fared rather badly on most of the other human resource items – especially Tanzania and Malawi, which appeared to be struggling on most of these items in 2007.

# PART B

## Level and Trends in Resources Allocation to Schools by Region

The tables presented in **Part A** of this document provide information about the *levels of school resources in SACMEQ school systems by regions in 2007* and the *trends in these resources between 2000 and 2007*.

There are six tables presented in this part:

- Table 6a: Essential Classroom Resources by Regions – Teaching & Learning Materials
- Table 6b: Essential Classroom Resources by Regions – Equipment and Facilities
- Table 7a: Desirable Physical Resources by Regions – Buildings
- Table 7b: Desirable Physical Resources by Regions – Equipment and Facilities
- Table 8a: Desirable Human Resources by Regions – School Heads & Environment
- Table 8b: Desirable Human Resources by Regions – Teachers

Information on how to read the arrow heads listed in the above tables is provided in **Box 2**. It should be noted that the colour scheme (green and red) used to show the levels in tables in Part A of this document is not used in this part of the document. The sources of school resources variables have been provided in the **Appendix 1**.

## Appendix 1: Sources of School Resources Variables

Essential Classroom Resources		Source	Instrument	Variable(s)
1	Teacher has Teacher Guide (Reading)	Teacher	TBK#14.04	XRESTGR
2	Teacher has Teacher Guide (Math)	Teacher	TBK#14.05	YRESTGM
3	Dictionary in Classroom	Teacher	TBK#14.02	XRESENGD
4	Pupil has Exercise Book & Pen/Pencil & Ruler	Pupil	PBK#28.1; PBK#28.7/PBK#28.3 & PBK#28.6	PMAT01; PMAT03; PMAT06; PMAT07
5	Pupil has Own Reading Textbooks	Pupil	PBK#53	PTEXTR
6	Pupil has Own Math Textbooks	Pupil	PBK#54	PTEXTM
7	Writing Board in Classroom	Teacher	TBK#12.1	XRESCKBD
8	Pupil has a Sitting & Writing Place	Pupil	PBK#29 & PBK#30	PWPLACE
9	Teacher has a Table & Chair	Teacher	TBK#12.8 & TBK12.9	TWPLACE
10	School or Classroom has a Library	Teacher & School Head	TBK#12.7/SHBK#19.01	XRESCLIB; SRES01
11	School has a Radio	School Head	SHBK#19.21	SRES21
12	School has Water	School Head	SHBK#19.15	SRES15

  

Desirable Physical Resources		Source	Instrument	Variable(s)
1	Building Conditions	School Head	SHBK#18	SCONDIT
2	School has a School Head Office	School Head	SHBK#19.04	SRES04
3	School has a Staff Room	School Head	SHBK#19.03	SRES03
4	School has a Meeting Hall	School Head	SHBK#19.02	SRES02
5	Class Cupboard in Classroom	Teacher	TBK#12.5	XRESCPBD
6	Class Bookshelf in Classroom	Teacher	TBK#12.6	XRESBKSH
7	School has Sports/Play Ground	School Head	SHBK#19.07	SRES07
8	School has School Fence	School Head	SHBK#19.09	SRES09
9	School has Electricity	School Head	SHBK#19.20	SRES20
10	School has Television	School Head	SHBK#19.23	SRES23
11	School has Photocopier	School Head	SHBK#19.29	SRES29
12	School has Computer	School Head	SHBK#19.31	SRES31

  

Desirable Human Resources		Source	Instrument	Variable(s)
1	School has a Female School Head	School Head	SHBK#4	SSEX
2	School Head has Senior Sec. Educ. or More	School Head	SHBK#6	SQACADEM
3	School Head has Attended a Management Course	School Head	SHBK#10	SQSPEC
4	School Head has Attended a Special Course on HIV/AIDS	School Head	SHBK#32	SHCRSHIV
5	Female Reading Teachers	Teacher	TBK#1	XSEX
6	Reading Teacher has Attended In-service Training in the Last 3yrs	Teacher	TBK#7	XINSERVC
7	Reading Teacher has Pre-service Training of 2yrs or More	Teacher	TBK#5	XQPROFES
8	School has a Teacher with Special Training on HIV/AIDS Issues	School Head	SIBK#46.1	SSPECHV
9	Teacher Subject Knowledge (Reading)	Teacher	Teacher Reading Test	ZRALOCT
10	Teacher Subject Knowledge (Mathematics)	Teacher	Teacher Math Test	ZMALOCT
11	Acceptable Class Size ( $\leq 40$ )	Teacher	SF No. of Pupils	SFPUP
12	Teacher Class Attendance	School Head	SHBK#16.02 SHBK#16.03	STCHPR02; STCHPR03
