

The National Department of Education (NDOE) in PNG is conducting a study to better understand how children learn to read. We would like to ask teachers some questions about how they teach reading.

- Your name will not be recorded on this form, or mentioned anywhere in the survey data. The information obtained in this questionnaire will be used by the Department of Education to help identify areas where additional support may be needed.
- The name of your school, the grade level and class you teach will be recorded, but only so that we can correctly link school, class and student data in order to analyse relationships between children's learning and the characteristics of the schools in which they learn. Your school's name will not be used in any report or presentation.
- If you agree to help with this study, please read the consent statement below, mark ' $\mathbf{X}$ ' in the "Yes" box and answer the questions in this questionnaire as completely and accurately as you can. It should not take you more than 15 minutes. Please give the completed form to the EGRA supervisor before the team leaves the school.
- If, after reading this information, you prefer not to participate, please return the blank questionnaire to the study team. You do not have to complete the questionnaire if you do not want to.

CONSENT STATEMENT: I understand and agree to participate in this reading study by filling out this questionnaire as completely and accurately as possible. YES $\square$
