

**Revised estimates**  
**General Household Survey**  
**2005**

The General Household Survey (GHS) 2005 data is in four files. The files are flat, ASCII, fixed field files, with one line of given length per record. This format was chosen so as to make the data usable with as many statistical programs as possible, and thus accessible to as wide a range of people as possible.

Other important information for users is found in the:

- ◆ Questionnaire
- ◆ Additional code lists (occupation, industry, place names)
- ◆ Relevant publications
- ◆ Web-site ([www.statssa.gov.za](http://www.statssa.gov.za))

## THE DATA FILES

The files and the corresponding sections of the questionnaire are as follows:

<b>PERSON:</b>	Data from Flap and Section 1
<b>WORKER:</b>	Data from Section 2
<b>TOURISM:</b>	Data from Section 3
<b>HOUSE:</b>	Data from Section 4

The files also contain some derived variables.

The information in each file contains the following:

- Nature of records in the file and population covered
- Description of variables

### Description of variables

The description of the variables comprises the following information:

**Descriptive name:** This is a short English description plus the variable name in the original file used by Stats SA to construct the ASCII file.

**Position of the variable:** The position of the data within the record, recorded in the format (@xxx y.). “@xxx” indicates that the data begins at position (i.e. column) xxx and “y.” indicates that it is y digits wide. All data is numeric. All data is right justified.

**Source:** This is either the question in the questionnaire or, for derived variables, the method of derivation. Derived variables are usually found towards the end of a record.

**Valid range:** The range of valid values for the variable. For continuous variables this reflects the upper and lower limits as found in the data.

**Not applicable:** The code for not applicable is provided for each variable. These are now numeric.

**Missing value:** A code for “missing”/unspecified values is given for each variable.

**Notes:** Specific observations to be noted by users.

Most questions in the General Household Survey questionnaire are pre-coded, i.e. there is a set number of choices from which one or more must be selected. For open-ended ‘write-in’ questions, the description will note that post-coding occurred and explain how this was done. Most variables have been pre-coded from the questionnaire and is not repeated in the variable

description. Where the coding is not apparent, the description either provides the codes or indicates where code lists are to be found.

### Linking files

The data from different files can be linked on the basis of a record identifier. The record identifier is the first field/s in each file. Each record contains a number (UqNr), which constitutes a unique household identifier. All records with a given household identifier, no matter which file they are in, belong to the same household. For individuals, a further two digits constitute the Person number (PersonNr). When these are added to the household identifier, a unique individual identifier is created. Again, these can be used to link records from the PERSON and WORKER files. The syntax needed to merge information from different files will differ according to the statistical package used.

## METHODOLOGY

### Sample design

A multi-stage stratified sample was drawn using probability proportional to size principles.

The sample was drawn from the master sample, which Statistics South Africa uses to draw samples for its regular household surveys. The master sample is drawn from the database of enumeration areas (EAs) established during the demarcation phase of Census 2001. As part of the master sample, small EAs consisting of fewer than 100 households are combined with adjacent EAs to form primary sampling units (PSUs) of at least 100 households, to allow for repeated sampling of dwelling units within each PSU. The sampling procedure for the master sample involves explicit stratification by province and within each province, by urban and non-urban areas. Within each stratum, the sample was allocated disproportionately. A PPS sample of PSUs was drawn in each stratum, with the measure of size being the number of households in the PSU. Altogether approximately 3 000 PSUs were selected. In each selected PSU a systematic sample of ten dwelling units was drawn, thus, resulting in approximately 30 000 dwelling units. All households in the sampled dwelling units were enumerated.

The master sample is divided into five independent clusters. In order to avoid respondent fatigue, the Labour Force Survey (LFS) is a rotating panel survey that is conducted twice yearly, whereas the GHS sample uses different clusters.

### Weighting the GHS of July 2005

A two-stage weighting procedure was done on the GHS 2005. The PSU inclusion probability is given by

$$P_{PSU} = \frac{n_{PSU}}{N_{PSU}} \cdot n_s$$

where  $n_{PSU}$  is the number of households constituting the selected PSU during census fieldwork,  $n_s$  is the number of PSUs per stratum, and  $N_{PSU}$  is the number of households constituting the selected stratum during census fieldwork. The household inclusion probability per PSU is given by

$$P_{HH} = \frac{n_{HH}}{H_{HH}}$$

where  $n_{HH}$  is the number of selected dwelling units per PSU,  $H_{HH}$  is the number of dwelling units in the PSU in question at a particular time different from the census time.

The household weight adjusted for non-response is given by  $\frac{1}{P_{HH} \cdot r_{HH}}$

where  $r_{HH}$  is the response rate and is given by  $r_{HH} = \frac{n_{RESP}}{n_T}$  where  $n_{RESP}$  is the number of responding households and  $n_T$  is the total number of visited households per PSU. The adjusted sample weights are now given by

$$W_{HH} = \frac{1}{P_{PSU} \cdot P_{HH} \cdot r_{HH}}$$

A SAS macro called CALMAR was used to benchmark  $W_{HH}$  to the mid-year estimates. The mid-year estimates were adjusted to give population estimates for July 2005 (when survey fieldwork took place).

### Coverage

The target population is private households in all nine provinces of South Africa and residents in workers' hostels. The survey does not cover other collective living quarters such as students' hostels, old age homes, hospitals, prisons and military barracks.

### DEFINITIONS OF TERMS

**The population of working age** – people aged 15–65 years.

**Not economically active population** includes people who are not available for work, such as full-time scholars and students, full-time homemakers, those who are retired and those who are unable or unwilling to work.

**Economically active population** includes people aged 15–65 who are employed and those not employed.

#### **Official and expanded definition of unemployment**

Statistics South Africa (Stats SA) uses the following definition of unemployment as its official definition. The *unemployed* are those people within the economically active population who: (a) did not work during the seven days prior to the interview, (b) want to work and are available to start work within two weeks of the interview, and (c) have taken active steps to look for work or start some form of self-employment in the four weeks prior to the interview. The expanded definition of unemployment excludes criterion (c).

**Workers** include the self-employed, employers and employees.

**Formal dwellings** include a house on a separate stand, a flat or apartment in a block of flats, a townhouse, a room in a backyard, and a room or flatlet on a shared property.

**Informal dwellings** include shacks or shanties in informal settlements or in backyards.

**Piped water in dwelling or on site** refers to piped water inside the household's own dwelling or in their yard. It excludes water from a neighbour's tap or a public tap that is not on site.

**Clean water** refers to piped water (regardless of from where) and water from a water carrier/tanker.

**Electricity for cooking, heating and/or lighting** refers to electricity from the public supplier

**Hygienic toilet facility** refers to a flush toilet, chemical toilet or pit latrine with a ventilation pipe.

**Table A: Contents of the GHS 2005 questionnaire**

Section	Number of questions	Details of each section
Cover page		Household information, response details, field staff information, result codes, etc.
Flap	6	Demographic information (name, sex, age, population group, etc.)
Section 1	45	Biographical information (education, health, disability, welfare)
Section 2	22	Activities related to work and unemployment

<b>Section 3</b>	17	Trips undertaken in the 12 months prior to the survey interview
<b>Section 4</b>	90	Household information (type of dwelling, ownership of the dwelling and other assets, electricity, water and sanitation, environmental issues, services, transport, expenditure, etc.)
<b>All sections</b>	180	Comprehensive coverage of living conditions

**Table B: Response rates by households, GHS 2005**

<b>Final Result code</b>	<b>Number of responses</b>	<b>Percent</b>

**DATA FILE: PERSON**

*Unique number (UqNr)* (@1 14.)

Unique Household Identifier

Note: This is the unique household identifier, which can be used to link data from this file with data for the same household from other files.

*Person number (PersonNR)* (@15 2.)

Person (respondent) number within Household  
Valid range: 1 – 24

Note: The two fields above (unique number and personnr number) create a 16-digit unique person identifier, which can be used to link data from this file with data for the same individuals from other files.

*Primary sampling unit (PSU)* (@17 8.)

Valid range: 10100002 - 98601041

*Province (Prov)* (@25 1.)

South African provinces

Derived variable: Derived from the first digit of the Unique Number.

**Final code list**

- 1 = Western Cape
- 2 = Eastern Cape
- 3 = Northern Cape
- 4 = Free State
- 5 = KwaZulu-Natal
- 6 = North West
- 7 = Gauteng
- 8 = Mpumalanga
- 9 = Limpopo

*Stayed Nights (B\_4Night)*

(@26 1.)

<b>B</b>	<b>Has ..... stayed here (in this household) for at least four nights on average per week during the last four weeks?</b> 1 = YES 2 = NO <i>→ End of questions for this person</i>
----------	---

**Note to users**

This question is asked for each person found in the selected dwelling. Those who are not household members (those who haven't spent at least four nights per week) would be eliminated on the second category (2 = No). The instruction in this question is to end the interview with those who have answered "No" in this question. It is through this question where household members are identified within the selected dwelling.

**Universe**

Every person who normally resides in this household at least four nights a week.

**Final code list**

- 1 = Yes

*Gender (Gender)*

(@27 1.)

<b>C</b>	<b>Is ..... a male or a female?</b> 1 = MALE 2 = FEMALE
----------	---

**Note to users**

This question is asked for each household member, to determine his or her gender. This question is only applicable if there is a "Yes" in the previous question, which determines whether a person is a household member or not. The enumerators are instructed not to assume the gender of the members of the households by just looking at people's names or physical appearances.

**Universe**

Every person who normally resides in this household at least four nights a week.

**Final code list**

- 1 = Male
- 2 = Female

Age (Age)

(@28 3.)

<b>D</b>	<b>How old is .....? (In completed years - In whole numbers)</b> <i>Less than 1 year = 00.</i>
----------	---

**Note to users**

This question is asked to find out the ages of the household members. This is asked for each member of the household. The instruction is to write the years in whole numbers and not in words. Moreover, these years must be completed, thus if a person is two years and six months, the instruction is to write the two completed years. For those children who are less than a year, the instruction is to write 00.

**Universe**

Every person who normally resides in this household at least four nights a week.

**Final code list**

*Less than 1 year = 0*

Valid range: 000 - 130

Age group (Agegrp)

(@31 2.)

**Final code list**

- 01 = 00 - 04 years
- 02 = 05 - 09 years
- 03 = 10 - 14 years
- 04 = 15 - 19 years
- 05 = 20 - 24 years
- 06 = 25 - 29 years
- 07 = 30 - 34 years
- 08 = 35 - 39 years
- 09 = 40 - 44 years
- 10 = 45 - 49 years
- 11 = 50 - 54 years
- 12 = 55 - 59 years
- 13 = 60 - 64 years
- 14 = 65 - 69 years
- 15 = 70 - 74 years
- 16 = 75 +

Population group(Popgrp)

(@33 1.)

<b>E</b>	<b>What population group does ..... belong to?</b> 1 = AFRICAN/BLACK 2 = COLOURED 3 = INDIAN/ASIAN 4 = WHITE
----------	--

	5 = OTHER, <i>specify</i>
--	---------------------------

**Note to users**

This question is asked to determine the population group of persons from the selected dwelling. The respondent must answer for each member without any assumptions. In this instance the enumerator is also instructed not to make any conclusions, which may be influenced by his observation or using people’s names during the interview. This question may seem very sensitive to some respondents especially in this post apartheid era, but it is really important to find out the composition of the South African population.

**Universe**

Every person who normally resides in this household at least four nights a week.

**Final code list**

- 1 = African/Black
- 2 = Coloured
- 3 = Indian/Asian
- 4 = White

**SECTION 1**

*Relationship to the head (Q11relshh)*

(@34 2.)

<b>1.1</b>	<p><b>What is .....’s relationship to the head of the household?</b> (i.e. to the person in column 1)</p> <ul style="list-style-type: none"> <li>1 = <i>Mark the head/acting head</i></li> <li>2 = HUSBAND/WIFE/PARTNER</li> <li>3 = SON/DAUGHTER/STEPCHILD/ADOPTED CHILD</li> <li>4 = BROTHER/SISTER/STEP BROTHER/STEP SISTER</li> <li>5 = FATHER/MOTHER/STEP FATHER/STEP MOTHER</li> <li>6 = GRANDPARENT/GREAT GRANDPARENT</li> <li>7 = GRANDCHILD/GREAT GRANDCHILD</li> <li>8 = OTHER RELATIVE (E.G. IN-LAWS OR AUNT/UNCLE)</li> <li>9 = NON-RELATED PERSONS</li> </ul>
------------	--

**Note to users**

This question is asked for each member of the household to determine their relationship to the head of the household. The respondent is asked to give the information on how each member is related to the head of the household. The enumerator is instructed to cross check the information in this question with the one on the flap, especially on the head or acting head of the household.

**Universe**

Every person who has stayed in the households in selected dwelling units at least four nights a week in the four weeks prior the interview

**Final code list**

- 01 = Mark the head/acting head
- 02 = Husband/wife/partner
- 03 = Son/Daughter/Stepchild/Adopted child
- 04 = Brother/Sister/Step brother/Step sister
- 05 = Father/Mother/Step father/Step mother

- 06 = Grandparent/Great grandparent
- 07 = Grandchild/Great grandchild
- 08 = Other relative (e.g. in-laws or aunt/uncle)
- 09 = Non-related persons
- 99 = Unspecified

*Marital status (Q12amari)*

(@36 1.)

<b>1.2.a</b>	<p><b>What is .....’s present marital status?</b></p> <p>1 = MARRIED</p> <p>2 = LIVING TOGETHER LIKE HUSBAND AND WIFE</p> <p>3 = WIDOW/WIDOWER</p> <p>4 = DIVORCED OR SEPARATED</p> <p>5 = NEVER MARRIED</p>
--------------	--

} → *Go to Q 1.3.a*

**Note to users**

This question is about the marital status of the members of the household. Both modern and traditional marriages are considered in this question.

If the response is widow/widower, divorced or separated and never married the enumerator is instructed to go to Q 1.3.a, which is on mortality for households.

**Universe**

Every person who has stayed in the households in selected dwelling units at least four nights a week in the four weeks prior the interview

**Final code list**

- 1 = Married
- 2 = Living together like husband and wife
- 3 = Widow/Widower
- 4 = Divorced or Separated
- 5 = Never married
- 9 = Unspecified

*Spouse/partner (Q12bspou)*

(@37 1.)

<b>1.2.b</b>	<p><b>Does .....’s spouse/partner live in this household?</b></p> <p>1 = YES</p> <p>2 = NO           → <i>Go to Q 1.3.a</i></p>
--------------	---

**Note to users**

This question is only applicable for those people who indicated that they are “Married or living together as husband and wife” (Q1.2.a). If the response is “NO” the enumerator is instructed to skip to Q1.3a which is on mortality for households.

**Universe**

Only those people who are married or living together as husband and wife.

**Final code list**

- 1 = Yes
- 2 = No
- 8 = Not applicable

9 = Unspecified

*Spouse number (Q12cpsnn)*

(@38 2.)

<b>1.2.c</b>	<b>Which person is the spouse/partner of .....?</b> <i>Give person number</i>
--------------	--

**Note to users**

This question is only applicable for those people who said “Yes” in (Q 1.2.a), thus “Married or living together as husband and wife”. It confirms the information on the previous question, which seeks to determine whether couples within the visited household live together or not.

**Universe**

Only applicable to those living with their spouses in the same dwelling unit.

**Final code list**

Valid range: 1 – 14

Not applicable: 88

Unspecified: 99

*Father alive (Q13afath)*

(@40 1.)

<b>1.3.a</b>	<b>Is ..... ‘s biological father still alive?</b> 1 = YES 2 = NO 3 = DON’T KNOW } → <i>Go to Q 1.4.a</i>
--------------	--

**Note to users**

This question wants to find out if the father is still alive or has passed away. The father does not necessarily have to be member of the household. That means one’s father may be alive but living somewhere outside the selected dwelling unit. For codes 2 and 3 the instruction is to go to Q 1.4.a.

**Universe**

This is applicable to each member of the household.

**Final code list**

1 = Yes

2 = No

3 = Don’t know

9 = Unspecified

*Father part of the household (Q13bfpar)*

(@41 1.)

<b>1.3.b</b>	<b>Is .....’s biological father part of the household?</b> 1 = YES 2 = NO → <i>Go to Q 1.4.a</i>
--------------	---

**Note to users**

This is a follow up question to the previous one (Q 1.3.a), but interested on whether the father is the member of the visited household or not. The instruction is that for those who said “No” the interview must proceed to question Q 1.4.a.

**Universe**

Only for those with “Yes” in the previous question (1.3.a).

**Final code list**

- 1 = Yes
- 2 = No
- 8 = Not applicable
- 9 = Unspecified

*Father person number (Q13cfpsn)*

(@42 2.)

<b>1.3.c</b>	<b>Which person is .....’s biological father?</b> <i>Give person number</i>
--------------	--

**Note to users**

This is a follow up question, to the previous question (Q 1.3.b) to verify whether the father is part of the household or not. The answer to this question can be cross-checked with (Q 1.1) to find out about the status of the father.

**Universe**

Only for those who said “Yes” in the previous questions (1.3.a and 1.3.b).

**Final code list**

- Valid range: 1 – 11
- Not applicable: 88
- Unspecified: 99

*Mother still alive (Q14amoth)*

(@44 1.)

<b>1.4.a</b>	<b>Is ..... ’s biological mother still alive?</b> 1 = YES 2 = NO 3 = DON’T KNOW } → <i>Go to Q 1.5.a</i>
--------------	--

**Note to users**

This question wants to find out if the mother is still alive or has passed away. The mother does not necessarily have to be a member of the household. That means one’s mother may be alive but living somewhere outside the selected dwelling unit. For codes 2 and 3 the instruction is to go to Q 1.5.a.

**Universe**

This is applicable to each member of the household.

**Final result code**

- 1 = Yes
- 2 = No
- 3 = Don’t know
- 9 = Unspecified

*Mother part of household (Q14bmpar)*

(@45 1.)

<b>1.4.b</b>	<b>Is .....’s biological mother part of the household?</b> 1 = YES 2 = NO → <i>Go to Q 1.5.a</i>
--------------	---

**Note to users**

This is a follow up question to the previous one (Q 1.4.a), but interested on whether the mother is the member of the visited household or not. The instruction is that for those who said “No” the interview must proceed to question Q 1.5.a.

**Universe**

Only for those who said, “Yes” in the previous question (1.4.a).

**Final code list**

1 = Yes  
2 = No  
8 = Not applicable  
9 = Unspecified

*Mother person number (Q14cmpsn)*

(@46 2.)

<b>1.4.c</b>	<b>Which person is .....’s biological mother?</b> <i>Give person number</i>
--------------	--

**Note to users**

This is a follow up question, to the previous question (Q 1.4.b) to verify whether the mother is part of the household or not. The answer to this question can be cross-checked with (Q 1.1) to find out about the status of the mother.

**Universe**

Only for those who said, “Yes” in the previous questions (1.4.a and 1.4.b).

**Final code list**

Valid range: 1 – 17  
Not applicable: 88  
Unspecified: 99

*Fetching water (Q15afetw)*

(@48 1.)

<b>1.5.a</b>	<b>In the last seven days, did ..... spend at least one hour fetching water for home use (not for sale) from a source outside the property?</b> 1 = YES 2 = No <b>→ Go to Q 1.6.a</b>
--------------	--

**Note to users**

This question is asked to all members of the household, but only applicable in the last seven days. The number of hours is calculated throughout the seven days. Even if a person can spent as little time as possible to collect water per week, as long as the minutes add up to one hour per week she/he qualifies. The instruction in this question is that the water that is collected should not be for sale. If the answer is “No” a person should skip to Q 1.6.a.

**Universe**

For all household members in the selected dwellings.

**Final code list**

1 = Yes  
2 = No  
9 = Unspecified

*Hours spent (Q15bhrsw)*

(@49 2.)

<b>1.5.b</b>	<b>How many hours did ..... spend on fetching water in the last seven days?</b>
--------------	---

**Note to users**

This question is asked to all members of the household, but only applicable in the last seven days. The number of hours is calculated throughout the seven days. This question is only applicable if there is a “Yes” in the previous question (Q 1.6.a).

**Universe**

For all household members in the selected dwellings.

**Final code list**

<b>1.6.a</b>	<b>In the last seven days, did ..... spend at least one hour fetching wood/dung for home use (not for sale)?</b> 1 = YES 2 = NO  <i>→ Go to Q 1.7</i>
--------------	---

**Note to users**

This question is asked to all members of the household, but only applicable in the last seven days. The number of hours is calculated throughout the seven days. Even if a person can spent as little time as possible to collect wood/dung per week, as long as the minutes add up to one hour per week she qualifies. The instruction in this question is that the wood/dung collected should not be for sale. If the answer is “No” a person should skip to Q 1.8.

1 = Yes

2 = No

9 = Unspecified

*Hours spent (Q16bhrsd)*

(@52 2.)

<b>1.6.b</b>	<b>How many hours did ..... spend on fetching wood/dung in the last seven days?</b>
--------------	---

**Note to users**

This question is asked to all members of the household who collected wood/dung in the last seven days. The number of hours is calculated throughout the seven days. This question is only applicable if there is a “Yes” in the previous question (Q 1.7.a).

**Universe**

For all household members who collected wood/dung in the last seven days.

-------------	---

**Note to users**

This question is only applicable to those who answered “Yes” in question Q 1.11. Both distance and correspondence education are included in this question. The enumerators are instructed not to make assumptions by taking people’s ages with the level of education, but rather consider what the respondent gives.

**Universe**

Only members of the household who are currently attending an educational institution.

**Final code list**

------------	--

**Note to users**

This question is meant to identify persons temporarily absent from their income earning and own production activities. The most common group of people included here are those on annual leave. They did not work in the last seven days, but they have a job to go back to and should be recorded as active in their usual job as they are still part of the labour force. There is no time limit given, which for example, allows women on maternity leave to be recorded as temporarily absent. It is relatively easy to identify people temporarily absent from wage jobs. It is more difficult when the person is self-employed in a business activity or working on his/her own farm.

Note that a person not working because of the off-season in agriculture or other seasonal industries is not to be regarded as temporarily absent. If we recorded such persons as temporarily absent we would miss any measure of seasonal unemployment.

If the answer is ‘No’, Go to Q2.12 and ask the unemployment and non-economic activity questions.

### Note to users

This question is applicable to household members who have been performing certain economic activities in the last seven days. This question is only applicable if there was no answer in Q 2.9, thus in case of a non-response, refusal or don't know. Since this kind of information is very personal the enumerator is instructed to inform the respondent that there are certain closures (Acts) that protect individuals in cases of this nature. Statistics South Africa as a government department is therefore compelled to abide by them.

### Universe

### Note to users

This is applicable to all persons unemployed or not economically active regardless of whether a person has worked before or not. The interest in this question is to find out how people support themselves even though they are not working. The enumerator is instructed to ask all the given categories. There should either be a "Yes" or "No" for each category. For any other reason that is not categorised the enumerator has to complete the information in the provided space. If the answer is code "1 = Did odd jobs during the past seven days" where a person "did odd jobs during the past seven days" the instruction is to go back to Q 2.1.

### Note to users

This question Q3.9 is a combination of both the cost of the package trip and the other money spent on other things. The idea behind items included in the package is to unpack whatever has been paid for in the package trip, hence a person has only to tick “Items included in the package” but without any amounts. That means you only supply the amount spent/consumed on other things not included in the package.
