[Message] We have been commissioned to conduct a study among Canadian citizens on their values and attitudes in society as part of an academic research project, the World Value Survey. This research project is being carried out in more than 80 countries and aims to compare the results among Canadiens from different provinces and demographic backgrounds, as well as with results from past researches and with the results found in

other countries from the World Value Survey. All responses to this study will remain confidential and will be treated as a whole, so no one will be able to identify you and link you to the responses you give. The analysis of the global data from this study will eventually be the subject of academic publications. This research project is carried out in Canada by the Center for Research on Values, Attitudes and Societies (CRVAS) and is funded by the Secretariat of Quebec for Canadian Relations (SQRC). If you would like more information on this study and the results of this research project, please visit the World Value Survey website <http://www.worldvaluessurvey.org>. In order to participate in this study, you must read this form and give your consent. **CONSENT FORM:**

[ConcordiaLOGO.png] **INFORMATION AND CONSENT FORM** Study Title: World Value Survey Canada 2020 Researcher: Prof. Guy Lachapelle, Professor, Political Science Researcher's Contact Information: Concordia University, Political Science Dept., S-SB 323, 514-848-8704, guy.lachapelle@concordia.ca Source of funding for the study: Concordia University and Secr tariat du Qu bec aux relations canadiennes (Quebec Secretariat for Canadian Relations - SQRC) You are being invited to participate in the research study mentioned above. This form provides information about what participating would mean. Please read it carefully before deciding if you want to participate or not. If there is anything you do not understand, or if you want more information, please ask the researcher.

A. PURPOSE The purpose of the research is to establish values and attitudes of Canadians of all provinces and to compare the results among Canadians from different provinces and demographic backgrounds, as well as with results from past researches and with the results found in other countries from the World Value Survey (wave 7).

B. PROCEDURES If you participate, you will be asked to respond to a survey questionnaire. In total, participating in this study will take about 45 minutes.

C. RISKS AND BENEFITS You might face certain risks by participating in this research. These risks include: - feeling uncomfortable answering certain questions. This research is not intended to benefit you personally.

D. CONFIDENTIALITY We will gather the following information as part of this research: demographic information (age, gender, education level, language spoken at home and household revenue), contact information, responses to surveys and opinions on particular topics. We will not allow anyone to access the information, except people directly involved in conducting the research. We will only use the information for the purposes of the research described in this form. The information gathered will be coded. That means that the information will be identified by a code. The researcher will have a list that links the code to your name. We will protect the information by using secure electronic files accessible only via password. We intend to publish the results of the research. However, it will not be possible to identify any participant in the published results. The data will also be kept by World Values Survey Association (WVSA) secretariat in Vienna, Austria. The data will be made public by the WVSA two years after the data collection.

F. CONDITIONS OF PARTICIPATION As a compensatory indemnity for participating in this research, you will receive 4.50\$. If you withdraw before the end of the research, you won't receive 4.50\$ and the data gathered upon the time of withdrawal will not be used for the study. To make sure that research money is being spent properly, auditors from Concordia or outside will have access to a coded list of participants. It will not be possible to identify you from this list. There are no negative consequences for not participating, stopping in the middle, or asking us not to use your information.

G. PARTICIPANT'S DECLARATION If you have questions

about the scientific or scholarly aspects of this research, please contact the researcher. Their contact information is on page 1. You may also contact their faculty supervisor. If you have concerns about ethical issues in this research, please contact the Manager, Research Ethics, Concordia University, 514.848.2424 ex. 7481 or oor.ethics@concordia.ca.

	1	2	3	4	5	6	7	8	9	10

[Q111] Here are two statements people sometimes make when discussing the environment and economic growth. Which of them comes closer to your own point of view?

Row:

[r1] Protecting the environment should be given priority, even if it causes slower economic growth and some loss of jobs.

[r2] Economic growth and creating jobs should be the top priority, even if the environment suffers to some extent.

[Q112] Now I'd like you to tell us your views on corruption – when people pay a bribe, give a gift or do a favor to other people in order to get the things they need done or the services they need.

How would you place your views on corruption in Canada on a 10-point scale where “1” means “there is no corruption in Canada” and “10” means “there is abundant corruption in Canada”? If your views are somewhat mixed, choose the appropriate number in between.

[Q113_Q117] Among the following groups of people, how many do you believe are involved in corruption? Tell us for each group if you believe it is none of them, few of them, most of them or all of them.

Now, we would like you to read some statements and ask you how much you agree or disagree with each of these statements. For these questions, a 1 means that you “completely disagree” and a 10 means that you “completely agree.”

[Q158] Science and technology are making our lives healthier, easier, and more comfortable.

[Q159] Because of science and technology, there will be more opportunities for the next generation.

[Q160] We depend too much on science and not enough on faith.

[Q161] One of the bad effects of science is that it breaks down people’s ideas of right and wrong.

[Q162] It is not important for me to know about science in my daily life.
