Data Documentation for SLWRMP

Lists of datasets (with CTO questionnaires) included:

	Baseline	Midline	Endline
Household	Yes	Yes	Yes
Community	Yes	Yes	Yes
Kit	NA	Yes	Yes

Data Cleaning Notes

- Codes of missing values in the data:

    - `.d` for Don't know
    - `.r` for Refused to answer
    - `.o` for Other

- All the variable with personally-identifying information (PII) have been removed.

- Linking observations across rounds:

    - The household level datasets can be combined using unique id `hhid`
    - The community datasets can be combined using unique id `com` in Baseline and `comid` in Midline and Endline
    - The Kit datasets can be combined using `comid`
