interviewer_name_other	Specify other. <i>Question relevant when: selected(\${interviewer_name} , 'other')</i>																																							
note_rosterst	We will now confirm the staff roster that was provided during our visit in January/February 2015? <i>Question relevant when: selected(\${consent} , '1')</i>																																							
All workers (1) <i>Group relevant when: selected(\${consent} , '1')</i>		(Repeated group)																																						
stillwork <i>(required)</i>	Does [name] still work in this facility? <i>Response constrained to: not(selected(., '2') and not(selected(., '1')))</i>	<table border="1"> <tr><td>1</td><td>Yes</td></tr> <tr><td>0</td><td>No</td></tr> </table>	1	Yes	0	No																																		
1	Yes																																							
0	No																																							
outpatient	Does [name] perform outpatient consultation regularly? <i>Note: At least once in a week</i> <i>Question relevant when: selected(\${stillwork} , '1')</i>	<table border="1"> <tr><td>1</td><td>Yes</td></tr> <tr><td>0</td><td>No</td></tr> </table>	1	Yes	0	No																																		
1	Yes																																							
0	No																																							
note_vignette	To vignette enumerator: Please ask the health worker to stay in the facility and wait for a further interview. <i>Question relevant when: selected(\${stillwork} , '1') and selected(\${outpatient} , '1')</i>																																							
staffherev <i>(required)</i>	How many CLINICAL staff who perform outpatient consultation regularly are currently PRESENT at this facility that WERE NOT IN THE PREVIOUS LIST?																																							
Additional workers (1) <i>Group relevant when: \${staffherev} > 0</i>		(Repeated group)																																						
name_vig_staff <i>(required)</i>	Write the name of the additional worker # 1.																																							
outpatient1 <i>(required)</i>	Does [name_vig_staff] perform outpatient consultation regularly? <i>Note: At least once in a week</i>	<table border="1"> <tr><td>1</td><td>Yes</td></tr> <tr><td>0</td><td>No</td></tr> </table>	1	Yes	0	No																																		
1	Yes																																							
0	No																																							
note_vignette1	To vignette enumerator: Please ask the health worker to stay in the facility and wait for a further interview. <i>Question relevant when: selected(\${outpatient1} , '1')</i>																																							
clin_staff	Vignette Enumerator: We would now like to speak to all clinical staff that perform outpatient consultation regularly and are present today. <i>Question relevant when: selected(\${consent} , '1')</i>																																							
All workers currently present (1) <i>Group relevant when: selected(\${consent} , '1')</i>		(Repeated group)																																						
stillhere <i>(required)</i>	We would now like to speak to [present_name]. Is (s)he still here and available right now?	<table border="1"> <tr><td>1</td><td>Yes</td></tr> <tr><td>0</td><td>No</td></tr> </table>	1	Yes	0	No																																		
1	Yes																																							
0	No																																							
generated_note_name_43	We have come here today as part of our research on Quality Enhancement of Primary Healthcare in Nigeria. The research is conducted by the World Bank and Federal Ministry of Health in collaboration with HANOVIA Medical Limited. One of the aims of our research is to collect information and statistics on quality of health services and infrastructure, and is part of the government's on-going efforts to improve utilization of resources and quality of services. We therefore want to kindly ask you to spend a few minutes to assist us in learning more about the daily work that clinicians do. To understand the realities of your work we will be present during some of daily activities in your facility. In addition it is																																							

Field	Question	Answer				
	<p>important to understand how the work could be conducted, this time without the constraints of having patients present during our survey. To achieve this my colleague will pretend to be a patient, and would then ask you to do a consultation on him/her. What I ask from you is simply to pretend that s/he is one of your normal patients and to treat him/her just like normal.</p> <p>Permission for the survey has been obtained from the Federal Ministry of Health [show letter].</p> <p>All information and responses that you provide will be confidential and no information will be attributed to you personally. All the summaries of information collected in this survey will be available in reports within about 6 months. The questionnaire will take approximately 30 minutes to complete per health worker. Do you have any questions?</p> <p><i>Question relevant when: selected(\${stillhere} , '1')</i></p>					
permission <i>(required)</i>	<p>Do you agree to be interviewed?</p> <p><i>If agreed, observer (Data Collector) to the clinical staff: Thank you, then I think we are ready to start.</i></p> <p><i>Question relevant when: selected(\${stillhere} , '1')</i></p>	<table><tr><td>1</td><td>Yes</td></tr><tr><td>0</td><td>No</td></tr></table>	1	Yes	0	No
1	Yes					
0	No					
nopermission <i>(required)</i>	<p>What is the reason for refusal?</p> <p><i>Question relevant when: selected(\${permission} , '0')</i></p>					
generated_note_name_46	<p>Case Simulation</p> <p>Observer (Data Collector): invite health workers for case simulations. Please ensure privacy during this exercise and re-assure the health worker of confidentiality of information provided.</p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>					
generated_note_name_47	<p>Vignette Enumerator (Case Study Patient) explains to the clinical staff: I will now pretend to be different patients – one at a time. The patients will be children or women (adult).</p> <p>Please manage the patients like you would your usual patients, i.e. ask history questions, tell us what systems you would examine, what tests you would request, make preliminary diagnosis, prescribe treatment and provide the patient any health information as necessary. You should not ask for any test that you cannot do or prescribe any medicines that you do not think the patient can get locally. Everything should be just as you would attend to your usual patient during a regular consultation.</p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>					
generated_note_name_48	<p>Observer (Data Collector) asks the clinical staff: Have you understood what to do? Do you have any questions? We will begin by showing you an example.</p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>					
generated_note_name_49	<p>Observer (Data Collector): Now we will begin the case simulations</p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>					
generated_note_name_51	<p>In the following illustration example, Observer (Data Collector) will act as Clinician while the Vignette Enumerator (Case Study Patient) will act as the patient during Illustration.</p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>					
generated_note_name_52	<p>Illustration Case</p> <p>Observer (looks at the patient, pretends to be the clinician): Now you can start</p> <p>Patient: I am a 30 year old man. I do not feel well, and I have had a fever for three days. I think I have malaria.</p> <p>Observer: Do you have any other symptoms?</p> <p>Patient: What kind of symptoms?</p> <p>Observer: Do you feel weak?</p> <p>Patient: I feel weak, I have a headache and nausea.</p> <p>Observer: Is the fever persistent or intermittent?</p> <p>Patient: It comes and goes.</p> <p>Observer: Do you have chills and rigors (heat followed by shivering)</p> <p>Patient: Yes</p> <p>Observer: How is your appetite?</p> <p>Patient: I have lost my of appetite</p> <p>Observer: Are you vomiting?</p> <p>Patient: No</p> <p>Observer: Do you have pain while swallowing?</p> <p>Patient: No.</p> <p>Observer: Do you have abdominal pain?</p> <p>Patient: No.</p> <p>Observer (turns to the clinician and says): At this point I would like to examine the patient. I will just tell the patient what I want to examine, and the patient will tell me what I would find.</p> <p>Observer (turns to the patient and says): I would take your temperature.</p> <p>Patient: The temperature is 38 degrees.</p> <p>Observer: I would take your pulse.</p> <p>Patient: The pulse is 90 beats per minute.</p> <p>Observer: I will like to examine you for pallor</p> <p>Patient: No Pallor</p> <p>Observer: I will like to examine your abdomen</p> <p>Patient: Normal</p> <p>Observer: I will now perform a chest examination</p> <p>Patient: Chest- Clear</p> <p>Observer (turns to the clinician and says): I now think I know what is wrong with the patient. I will tell him the diagnosis</p>					

Field	Question	Answer						
	<p>but will send for malaria parasite tests for confirmation and recommend a treatment.</p> <p>Observer (turns to the patient and says): I think you have malaria. I will write a prescription for an artemisinin-based combination therapy (Coartem). Take 4 tablets in the morning and 4 tablets at night for 3 days. Remember to use insecticide treated bed nets, carry out environmental sanitation and intermittent spraying with insecticides. Please come back if you do not get better after one week.</p> <p>Patient: Thank you doctor.</p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>							
timestampa <i>(required)</i>	<p>Swipe forward</p> <p><i>This records the present time and date. Please make sure the date and time is correct and swipe forward.</i></p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>							
generated_note_name_55	<p>Observer (Data Collector) will now observe and take note of the case simulations between the health worker and the vignette enumerator</p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>							
generated_note_name_56	<p>Case Study One</p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>							
generated_note_name_57	<p>Patient: Good morning (afternoon) ma/sir. I am the mother of a 13 month old boy. His name is Noel. My son has diarrhoea.</p> <p><i>Question relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i></p>							
All workers currently present (1) > Case 1: History Taking								
<i>Go up relevant when: selected(\${permission} , '1') and selected(\${stillhere} , '1')</i>

nopmissionb <i>(required)</i>	What is the reason for refusal? <i>Question relevant when: selected(\${permissionb} , '0')</i>																	
generated_note_name_402	Case Simulation Observer (Data Collector): invite health workers for case simulations. Please ensure privacy during this exercise and re-assure the health worker of confidentiality of information provided. <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>																	
generated_note_name_403	Vignette Enumerator (Case Study Patient) explains to the clinical staff: I will now pretend to be different patients – one at a time. The patients will be children or women (adult). Please manage the patients like you would your usual patients, i.e. ask history questions, tell us what systems you would examine, what tests you would request, make preliminary diagnosis, prescribe treatment and provide the patient any health information as necessary. You should not ask for any test that you cannot do or prescribe any medicines that you do not think the patient can get locally. Everything should be just as you would attend to your usual patient during a regular consultation. <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>																	
generated_note_name_404	Observer (Data Collector) asks the clinical staff: Have you understood what to do? Do you have any questions? We will begin by showing you an example. <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>																	
generated_note_name_405	Observer (Data Collector): Now we will begin the case simulations <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>																	
generated_note_name_407	In the following illustration example, Observer (Data Collector) will act as Clinician while the Vignette Enumerator (Case Study Patient) will act as the patient during illustration. <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>																	
generated_note_name_408	Illustration Case Observer (looks at the patient, pretends to be the clinician): Now you can start Patient: I am a 30 year old man. I do not feel well, and I have had a fever for three days. I think I have malaria. Observer: Do you have any other symptoms? Patient: What kind of symptoms? Observer: Do you feel weak? Patient: I feel weak, I have a headache and nausea.																	

Field	Question	Answer						
	<p>Observer: Is the fever persistent or intermittent?</p> <p>Patient: It comes and goes.</p> <p>Observer: Do you have chills and rigors (heat followed by shivering)</p> <p>Patient: Yes</p> <p>Observer: How is your appetite?</p> <p>Patient: I have lost my of appetite</p> <p>Observer: Are you vomiting?</p> <p>Patient: No</p> <p>Observer: Do you have pain while swallowing?</p> <p>Patient: No.</p> <p>Observer: Do you have abdominal pain?</p> <p>Patient: No.</p> <p>Observer (turns to the clinician and says): At this point I would like to examine the patient. I will just tell the patient what I want to examine, and the patient will tell me what I would find.</p> <p>Observer (turns to the patient and says): I would take your temperature.</p> <p>Patient: The temperature is 38 degrees.</p> <p>Observer: I would take your pulse.</p> <p>Patient: The pulse is 90 beats per minute.</p> <p>Observer: I will like to examine you for pallor</p> <p>Patient: No Pallor</p> <p>Observer: I will like to examine your abdomen</p> <p>Patient: Normal</p> <p>Observer: I will now perform a chest examination</p> <p>Patient: Chest- Clear</p> <p>Observer (turns to the clinician and says): I now think I know what is wrong with the patient. I will tell him the diagnosis but will send for malaria parasite tests for confirmation and recommend a treatment.</p> <p>Observer (turns to the patient and says): I think you have malaria. I will write a prescription for an artemisinin-based combination therapy (Coartem). Take 4 tablets in the morning and 4 tablets at night for 3 days. Remember to use insecticide treated bed nets, carry out environmental sanitation and intermittent spraying with insecticides. Please come back if you do not get better after one week.</p> <p>Patient: Thank you doctor.</p> <p><i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i></p>

generated_note_name_454	<i>Patient says: Less than 3 months ago</i> <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		
Treatment	Medication/treatment <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
Treatment_other	Specify other. <i>Question relevant when: selected(\${Treatment} , 'other')</i>		
generated_note_name_456	<i>Patient says: No</i> <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		
Additional workers currently present (1) > Case 1: Physical Examination <i>Group relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
label2b	Physical Examination: Did the health worker mention or do any of the following? <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
label2b_other	Specify other. <i>Question relevant when: selected(\${label2b} , 'other')</i>		
General_fatigue	General health condition (awake/lethargic/tiredness/fatigue)	1	Yes

Field	Question	Answer		
			0	No
		other	Other	
General_fatigue_other	Specify other. <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
generated_note_name_461	Patient says: He is awake but lethargic <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
Take_temperature	Take temperature <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		1	Yes
			0	No
		other	Other	
Take_temperature_other	Specify other. <i>Question relevant when: selected(\${Take_temperature} , 'other')</i>			
generated_note_name_463	Patient says: 37.0 degrees Celsius <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
Skin_pinch	Skin pinch <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		1	Yes
			0	No
		other	Other	
Skin_pinch_other	Specify other. <i>Question relevant when: selected(\${Skin_pinch} , 'other')</i>			
generated_note_name_465	Patient says: The skin goes back very slowly, more than 2 seconds <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
Offer_drink	Offer drink <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		1	Yes
			0	No
		other	Other	
Offer_drink_other	Specify other. <i>Question relevant when: selected(\${Offer_drink} , 'other')</i>			
generated_note_name_467	Patient says: Drinks poorly <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
Mucous_mucosa	Mucous membrane (oral mucosa) <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		1	Yes
			0	No
		other	Other	
Mucous_mucosa_other	Specify other. <i>Question relevant when: selected(\${Mucous_mucosa} , 'other')</i>			
generated_note_name_469	Patient says: Dry to very dry <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
Look_anaemia	Look for palmar pallor (or other signs of anaemia) <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		1	Yes
			0	No
		other	Other	
Look_anaemia_other	Specify other. <i>Question relevant when: selected(\${Look_anaemia} , 'other')</i>			
generated_note_name_471	Patient says: No signs of anaemia <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
Neck_stiffness	Neck stiffness <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		1	Yes
			0	No
		other	Other	
Neck_stiffness_other	Specify other. <i>Question relevant when: selected(\${Neck_stiffness} , 'other')</i>			
generated_note_name_473	Patient says: Normal <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
Check_throat	Check ear/throat <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		1	Yes
			0	No
		other	Other	
Check_throat_other	Specify other. <i>Question relevant when: selected(\${Check_throat} , 'other')</i>			
generated_note_name_475	Patient says: Normal <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
Check_rate	Check respiratory rate <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		1	Yes
			0	No
		other	Other	
Check_rate_other	Specify other. <i>Question relevant when: selected(\${Check_rate} , 'other')</i>			
generated_note_name_477	Patient says: Normal <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>			
Palpate_spleen	Palpate for the spleen <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>		1	Yes
			0	No
		other	Other	
Palpate_spleen_other	Specify other.			

Field	Question	Answer	
	<i>Question relevant when: selected(\$ {Palpate_spleen}, 'other')</i>		
generated_note_name_479	<i>Patient says: Normal</i> <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>		
Check_wasting	Check for visible severe wasting <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
Check_wasting_other	Specify other. <i>Question relevant when: selected(\$ {Check_wasting}, 'other')</i>		
generated_note_name_481	<i>Patient says: None</i> <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>		
Weight_Weight	Weight <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
Weight_Weight_other	Specify other. <i>Question relevant when: selected(\$ {Weight_Weight}, 'other')</i>		
generated_note_name_483	<i>Patient says: 9kg</i> <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>		
Sunken_eyes	Sunken eyes <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
Sunken_eyes_other	Specify other. <i>Question relevant when: selected(\$ {Sunken_eyes}, 'other')</i>		
generated_note_name_485	<i>Patient says: The eyes are sunken</i> <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>		
Check_chart	Check weight (against a growth chart) <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
Check_chart_other	Specify other. <i>Question relevant when: selected(\$ {Check_chart}, 'other')</i>		
generated_note_name_487	<i>Patient says: No signs of malnutrition</i> <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>		
Look_feet	Look for oedema of both feet (swollen feet) <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
Look_feet_other	Specify other. <i>Question relevant when: selected(\$ {Look_feet}, 'other')</i>		
generated_note_name_489	<i>Patient says: No swelling</i> <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>		
Additional workers currently present (1) > Case 1: Tests <i>Go up relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>			
label3b	Tests: Did the health worker recommend any of the following? <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
label3b_other	Specify other. <i>Question relevant when: selected(\$ {label3b}, 'other')</i>		
RBS	Random Blood Sugar (RBS) <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
RBS_other	Specify other. <i>Question relevant when: selected(\$ {RBS}, 'other')</i>		
generated_note_name_494	<i>Patient says: Normal(70-140mg/dl)</i> <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>		
Stool_rota_adeno_virus	Stool for rota/adeno virus (Culture) <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
Stool_rota_adeno_virus_other	Specify other. <i>Question relevant when: selected(\$ {Stool_rota_adeno_virus}, 'other')</i>		
generated_note_name_496	<i>Patient says: Result awaited</i> <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>		
Stool_ova_and_cyst	Stool for ova and cyst (Microscopy) <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>	1	Yes
		0	No
		other	Other
Stool_ova_and_cyst_other	Specify other. <i>Question relevant when: selected(\$ {Stool_ova_and_cyst}, 'other')</i>		
generated_note_name_498	<i>Patient says: None detected</i> <i>Question relevant when: selected(\$ {permissionb} , '1') and selected(\$ {stillhere1} , '1')</i>		

Field	Question	Answer						
generated_note_name_500	Case 1: Diagnosis <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>							
Observer_preliminary_diagnosis	Observer: It will take some time to get the results, ask the health worker to make a preliminary diagnosis of the case. That is, s(he) should tell you the disease condition of the patient. <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>							
Acute_Diarrheab	Did s(he) make the correct diagnosis? <i>To Observer: This is a case of Acute diarrhoea with severe dehydration</i> <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>	<table border="1"> <tr> <td>1</td><td>Yes</td></tr> <tr> <td>0</td><td>No</td></tr> </table>	1	Yes	0	No		
1	Yes							
0	No							
Acute_Diarrhea2b	Observer: Please add any comment on the diagnosis made by clinician here <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>							
Otherthan_AcuteDiarrhoeab	What other diagnosis did s(he) give? <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1') and selected (\${Acute_Diarrheab} , '0')</i>							
Additional workers currently present (1) > Case 1: Treatment <i>Group relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>								
label4b	Treatment: Did the health worker prescribe any of the following? <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>	<table border="1"> <tr> <td>1</td><td>Yes</td></tr> <tr> <td>0</td><td>No</td></tr> <tr> <td>other</td><td>Other</td></tr> </table>	1	Yes	0	No	other	Other
1	Yes							
0	No							
other	Other							
label4b_other	Specify other. <i>Question relevant when: selected(\${label4b} , 'other')</i>							
Rehydration_ORs	Rehydration using Oral Rehydration Salts <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>	<table border="1"> <tr> <td>1</td><td>Yes</td></tr> <tr> <td>0</td><td>No</td></tr> <tr> <td>other</td><td>Other</td></tr> </table>	1	Yes	0	No	other	Other
1	Yes							
0	No							
other	Other							
Rehydration_ORs_other	Specify other. <i>Question relevant when: selected(\${Rehydration_ORs} , 'other')</i>							
Ringer_LS	Give 100ml/kg Ringer's Lactate Solution. (Intravenous fluid) <i>Question relevant when: selected(\${permissionb} , '1') and selected(\${stillhere1} , '1')</i>	<table border="1"> <tr> <td>1</td><td>Yes</td></tr> <tr> <td>0</td><td>No</td></tr> <tr> <td>other</td><td>Other</td></tr> </table>	1	Yes	0	No	other	Other
1	Yes							
0	No
