

Guide to download Microdata

Step I : Please visit at url <http://mospi.gov.in/> to select the type of data required.

The screenshot shows the homepage of the Ministry of Statistics and Programme Implementation (Mospi) of the Government of India. The page features a navigation menu at the top with links for Home, About Us, Projects, Events, Statistics, Acts/Rules, Public Document/Tender, and RTI. A prominent banner for 'MANN Ki BAAT' is displayed, dated 24th April, 2022, with a toll-free number 1800 11 7800. Below the banner, there are three data highlights: Gross Domestic Product (8.9%), Index of Industrial Production (1.3%), and Consumer Price Index (6.07%). The 'What's New' section lists recent press releases and reports, including payroll reporting and quarterly bulletins. The 'Hon'ble Minister' section features a profile of Rao Inderjit Singh, Minister of State for Statistics and Programme Implementation. A red box highlights the RTI icon in the right-hand sidebar.

National Data Archive

An online microdata library

[Microdata Catalog](#)

[Data Dissemination](#)

[Contact Us](#)

The Ministry of Statistics and Programme Implementation, Government of India, has been disseminating microdata from its surveys and censuses since long. This web-based survey cataloging system is powered by the [National Data Archive \(NADA\)](#) software developed by the [International Household Survey Network \(IHSN\)](#). This system serves as a portal for researchers to browse, search, and download relevant census or survey documents and metadata.

The Microdata Archive provides web based access to the complete metadata of over 143 surveys and censuses conducted under the National Sample Survey (NSS) programme, Annual Survey of Industries (ASI) and the Economic Census currently available with the Ministry. Efforts are on to include metadata of surveys conducted by the State Governments and other government agencies.

The metadata now provided in the archive includes, survey methodology, sampling procedures, questionnaires, instructions, survey reports, classifications, code directories etc. Importantly the archive provides all details of the data files that are disseminated to users along with case summaries.

NATIONAL COLLECTION

Annual Survey of Industries

Annual Survey of Industries covers the manufacturing units in the registered sector. It provides comprehensive information relating to input, output, value added, employment, assets etc of the registered factories.

Household Consumer Expenditure

These are surveys to capture household expenditure on consumption of various items in both quantitative and value terms. There are both annual and quinquennial surveys.

Economic Census

Economic Census (EC) is the complete count of all establishments (i.e. units engaged in production and/or distribution of goods and services not for the purpose of sole consumption) located within the geographical boundaries of the country.

Enterprises Surveys

These studies cover unorganised sectors like trade, manufacturing and services and provide data on input, output, value added, employment and related variables.

Employment and Unemployment

The basic objective of the employment-unemployment surveys NSSO is to get estimates of the employment and unemployment characteristics at national and state level. The studies include both thin sample and large sample surveys. Related subjects like informal sector, migration etc are also included.

Select Collection to explore catalogs in it . Here Employment and Unemployment collection.

Extracting data in desired format

Step 1 : Download and Extract files from downloaded *.rar file (compressed file) , as portable *. Nesstar file and NesstarExplorerInstaller.exe.

Step 2: Install Nesstar Explorer (NesstarExplorerInstaller.exe) and open *. Nesstar file OR double click on *. Nesstar file to open in Nesstar Explorer.

Step 3 : Using the navigation frame appearing on the left-hand side, navigate through the metadata or microdata or Dataset.

Step 4: Scroll down the [Dataset\(s\)](#) on the left frame appearing in the Nesstar Explorer.

Step 5 : Select dataset(s) to export in the formats like STATA, SPSS, SAS, DBF, ASCII etc.

Step 6 : Click on main menu **File** → **Export All Datasets** or **Export Dataset** to export all / selected data dataset(s) in desired format.
