

Cultivation methods

Do you practice zero or low tillage? Yes/No

If yes, please specify:

	Hectares with one decimal point
Zero tillage (direct seeding)	
Conservation tillage (low tillage)	

Work from agricultural service companies

Have you from June 19, 2019 until June 18, 2020 received assistance from agricultural service companies?

Yes/No

Irrigation

Do you practice irrigation? Yes/No

If yes, please specify:

	Hectares with one decimal point
How big an area <i>can</i> you irrigate?	
How big an area have you actually irrigated in the last 12 months?	

Greenhouses 2020

Please specify greenhouse areas in square meters distributed by crops

	Square meters
Salad	
Cherry and cocktail tomatoes	
Other tomatoes	
Cucumbers	
Herbs	
Pepper and chili	
Others vegetables and mushrooms	
Strawberries under glass or other permanent cover	
Cut flowers and cut foliage	
Potted plants, green	
Potted plants, in flower	
Nursery products	
Bedding plants, young plants and cuttings	
Experimental greenhouse crops	
Cannabis for medical purposes	
Other greenhouse crops	
Unused greenhouse area	

Agricultural education

What is your highest education in agriculture, horticulture or forestry?	
	One cross
Practical experience only	
Basic agricultural or horticultural education	
Education as a agricultural manager	
Agro scientific education from university or degree in agricultural technology	
Have you in the recent 12 months taken part in training courses regarding agriculture, horticulture or forestry? Yes/No	

Labour force

Does your farm have a farm safety plan ? Yes/No

Average work time

Is the farm run by owner/ tenant or by a manager

If the farm is run by owner/ tenant:							
Average weekly working hours on the farm					Work outside the farm		
>= 37 hours	27-36 hours	19-26 hours	9-18 hours	1-8 hours	Yes, more than one the farm <input type="radio"/>	Yes, less than one the farm <input type="radio"/>	No work outside the farm <input type="radio"/>

Do you have a spouse or partner? Yes/No

If yes to spouse or partner								
Average weekly working hours on the farm						Work outside the farm for spouse/partner		
>= 37 hours	27-36 hours	19-26 hours	9-18 hours	1-8 hours	0 hours	Yes, more than one the farm <input type="radio"/>	Yes, less than one the farm <input type="radio"/>	No work outside the farm <input type="radio"/>

If the farm is run by a manager							
Average weekly working hours on the farm					Age	Gender of the manager	
>= 37 hours	27-36 hours	19-26 hours	9-18 hours	1-8 hours		Man <input type="radio"/>	Woman <input type="radio"/>

Non-family workers

	Average weekly working hours on the farm				
	>= 37 hours	27-36 hours	19-26 hours	9-18 hours	1-8 hours
	Number of persons working permanently on the farm by working hours				
Men					
Women					

Family workers

	Average weekly working hours on the farm					Work outside the farm for family workers		
	>= 37 hours	27-36 hours	19-26 hours	9-18 hours	1-8 hours	More than one farm	Less than one farm	No work outside the farm
	Number of persons working permanently on the farm by working hours					Number of persons		
Men								
Woman								

	Please specify number of work days or salary paid	
Non-regular labour force in the last 12 months	Number of full working days	Salary

Other activities on the farm

Other economic activities on the farm	
Agricultural service for other farms	Yes/No
Snow removal or other entrepreneurial work using the equipment of the farm	Yes/No
Rural tourism, e.g. bed and breakfast and showing the farm to visitors	Yes/No
Handicraft	Yes/No
Processing of farm products	Yes/No
Sale of renewable energy (e.g. wind and bio gas)	Yes/No
Farm shop, also small scale shop	Yes/No
Riding school	Yes/No
Tree felling from your own forest	Yes/No
Activities related to provision of health, social or educational services	Yes/No
Other non-agricultural activities on the farm	Yes/No

In case you have answered yes to at least one of the above mentioned activities:			
What is the share of the farm's total turnover of these other activities	Less than 10 per cent	10-50 per cent	More than 10 per cent

Who works on these activities?
Manager
Spouse/partner
Family workers
Non-family workers
Owner/tenant

In case the manager works on these activities:
Works more time on agriculture (crops/ livestock) than on other activities
Works less time on agriculture than on other activities
In case spouse/partner works on other activities:
Works more time on agriculture (crops/ livestock) than on other activities
Works less time on agriculture than on other activities
In case owner/tenant works on these activities:
Works more time on agriculture (crops/ livestock) than on other activities
Works less time on agriculture than on other activities

	Work more time on agriculture (crops/ livestock) than on other activities	Work less time on agriculture (crops/ livestock) than on other activities
	_____ Number of persons _____	
In case family workers work on other activities:		

	Work more time on agriculture (crops/ livestock) than on other activities	Work less time on agriculture (crops/ livestock) than on other activities
	----- Number of persons -----	
In case non-family workers work on other activities:		

Livestock

For cattle and fur animals the details are collected from registers
Cattle yes/no
Minks yes/no

	Number of animals June 19, 2020
Sheep, goats and horses	
Sheep, breeding females	
Other sheep	
Goats, breeding females	
Other goats	
Horses, including ponies	
Pigs	
Boars for service	
Pigs (over 50 kg) for breeding	
Sows to farrow for the first time	
Other sows to farrow	
Barren sows	
Sows with litters	
Piglets	
Weaners under 50 kg.	
Pigs for slaughtering, 50- kg	
Sows and boars taken out for slaughter	
Poultry	
Roosters	
Egg laying hens, eggs for human consumption	
Egg laying hens, eggs for hatching	
Chickens planned for breeding	
Broilers	
Turkeys	
Ducks	
Geese	
Other poultry, e.g. doves and pheasants	
Rabbits	
Rabbits, breeding females	
Other rabbits	
Bees	
Bee hives owned by the farm	

Animal housing for cattle

Please specify the percentage distribution of the cattle of the farm on the stable types mentioned below. If more than one type is used, please specify in accordance with your best estimate.		
	Diary cows	Other cattle
	Per cent	
Tied stable with drain, solid manure and slurry		
Tied stable with grids, slurry		
Cubicle with solid floor with scraper and no drain, slurry		
Cubicle with solid floor, slurry		
Cubicle with slats (Channel, wire-type barn cleaner), slurry		
Cubicle with slats (channel, back flush or ring flush), slurry		
Cubicle, regular drained floor with scraper and liquid manure drain		
Deep litter		
Other animal housing for cattle		
Always outdoor		

	Months per year on grass
Dairy cows	
Dairy cows and calves for slaughtering	
Cows kept for suckling, calves, heifers and bulls	
Do the cattle of the farm have access to exercise yards? Yes/No	

Animal housing for pigs

Please specify the percentage distribution of the sows on the stable types mentioned below. If more than one type is used, please specify in accordance with your best estimate.	
	Per cent
Farrowing house/section	
Farrowing pen, partly solid floor	
Farrowing pen, fully slatted floor	
Loose housing system, nursing sows, partly solid floor	
Loose housing system, nursing sows, fully slatted floor	
Service and pregnancy house	
Loose housing system for pregnant sows, partly slatted floor	
Farrowing pen for service, fully slatted floor	
Farrowing pen for service, partly slatted floor	
Farrowing pen for service, solid floor	
Loose housing system, deep litter	
Outdoor herd	
Other stables for pigs	

Please specify the percentage distribution of the other pigs than sows on the stable types mentioned below. If more than one type is used, please specify in accordance with your best estimate.	
	Per cent
Drained floor, floor and slats, (50%/50%)	
Drained floor, floor and slats, (33%/67%)	
Partly slatted floor, 25-49% solid floor	
Partly slatted floor, 50-75% solid floor	
Early weaning station, partly slatted floor	
Deep litter	
Solid floor, whole area	
Outdoor herd	
Other stables for pigs	

Outdoor herd pigs, number of months outdoor per year
Do the pigs of the farm have access to exercise yards? Yes/No

Animal housing for egg laying hens

Please specify the percentage distribution of egg laying hens on the stable types mentioned below. If more than one type is used, please specify in accordance with your best estimate.	
	Per cent
Cage production	
Deep litter on floor or slats	
Deep litter in multiple-deck system	
Free-range on floor or slats	
Free-range in multiple-deck system	
Organic production on floor or slats	
Organic production multiple-deck system	
Other cages and stables	

Storage capacity for livestock manure

Please specify below how the farm in the last 12 months has stored the livestock manure distributed by methods. If more than one method has been used, please specify in accordance with your best estimate.	
	Per cent
Slurry siloes and liquid manure tanks without cover	
Slurry siloes and liquid manure tanks with floating layer	
Slurry siloes and liquid manure tanks with impermeable cover	
Manure solid storage in heaps	
Manure stored in compost piles	
Manure stored in pits below animal confinement	
Deep litter in the stable	
Manure stored in other facilities	
Manure not stored but is spread daily or delivered to other farms, biogas plants etc.	

Please specify the storage capacity for the methods used by the farm in the last 12 months

	Months
Manure stored in compost piles	
Slurry siloes and liquid manure tanks	
Manure storage in pits below animal confinement	
Deep litter in the stable	
Other storage of livestock manure	

Spread of livestock manure and commercial fertilisers

Has the farm spread livestock manure on the fields in the last 12 months, also manure from other farms, and also if the work has been done by agricultural service companies?
Yes/No

If yes, please specify the method or methods you have used and the percentage importance. If you have used more than one method, please specify the distribution in accordance with your best estimate.

	Per cent
Manure broadcast with no incorporation	
Manure broadcast with incorporation within 4 hours	
Manure broadcast with incorporation after 4 hours	
Manure band spread trailing hose incorporation	
Manure band spread trailing shoe incorporation	
Manure injection shallow/open slit	
Manure injection deep/closed slit	
How big is the area where the farm has spread livestock manure in the recent 12 months _____ Hectares with one decimal point	

Commercial fertilizers

Has the farm spread commercial fertilizers on the fields in the last 12 months? Yes/No

If yes, how big is the area? _____ Hectares with one decimal point
