## Thailand (2000) Household Socio-Economic Survey 2000 (SES 2000)

Overview	
<b>Type</b>	Socio-Economic/Monitoring Survey [hh/sems]
<b>Identification</b>	THA-2000-SES-v01-M
<b>Version</b>	v01-M
<b>Series</b>	The first Household Socio-Economic Survey was conducted by the National Statistical Office (NSO) in 1957, known as "The Household Expenditure Survey". This name was changed to the Household Socio-Economic Survey in 1968 - 1969, and the survey was conducted every five years. Due to the rapid economic expansion and the importance of the survey in order to set the anti-poverty policy, the Ministerial Cabinet passed an approval on September 8, 1987 for the NSO to carry out the survey every two years. The 2000 survey is the fifteenth survey of this kind. (The 1999 was conducted special periodic survey by the cabinet assignment.)
<b>Abstract</b>	
The primary objective of the survey is to collect information on household income and household expenditures, household consumption, changes in assets and liabilities, durable goods ownership, and housing characteristics including other living conditions of households.	
<b>Kind of Data</b>	Sample survey data [ssd]
<b>Unit of Analysis</b>	Households and individuals

### Scope & Coverage

#### Scope

The survey is a representative, national, cross-sectional survey of income and expenditures in Thai households. Expenditures include durables and non-durables and are broken down into considerable details within each category (e.g, meat, fruit, alcohol, tobacco). Home produced consumption items such as rice are also included. Income is broken down by sources, e.g, agriculture, business, interest, remittance, etc. The survey also contains considerable demographic information, such as household size, geographic location, occupation, mobility and so on.

The scope of the Household Socio-Economic Survey 2000 includes:

- Household characteristics, household head, record control
- Household member characteristics
- Income from other sources
- Change of assets / liabilities and debts
- Housing characteristics
- Consumption of goods and services
- 7-Day Food Consumption
- Household Income

<b>Topics</b>	consumption/consumer behaviour [1.1], economic conditions and indicators [1.2], income, property and investment/saving [1.5], housing [10.1]
---------------	--

#### Geographic Coverage

National coverage  
Region  
Province

#### Universe

The survey covered all private, non-institutional households residing permanently in municipal areas and non-municipal areas of all regions. However, it excluded that part of the population living in transient hotels and rooming houses, hostels, boarding schools, temples, military barracks, prisons, welfare institutes, hospitals and other such institutions. It also excluded households of foreign diplomats and other temporary residents.

## Producers & Sponsors

<b>Primary Investigator(s)</b>	National Statistical Office
<b>Funding Agency/ies</b>	National Statistical Office (TNSO)

## Sampling

### Sampling Procedure

Since 1988 onwards, a stratified two-stage sampling was adopted for the survey. The primary sampling units were blocks for municipal areas and were villages for non-municipal areas. The secondary sampling units were private households. (Source: [http://web.nso.go.th/en/survey/house\\_seco/socio01.htm](http://web.nso.go.th/en/survey/house_seco/socio01.htm))

### Weighting

Refer to Technical Document, page 10 in "Socio - Economic Survey 2000 Data Dictionary (record 01 to 09)", filename Datadic\_SES2000(43) E.pdf.

## Data Collection

<b>Data Collection Dates</b>	start 2000-01 end 2000-12
<b>Data Collection Mode</b>	Face-to-face [f2f]
<b>Data Collector(s)</b>	National Statistical Office (TNSO) , Office of the Prime Minister

## Data Processing & Appraisal

### Estimates of Sampling Error

The TNSO computed estimates of confidence intervals and coefficient of variation of the household monthly current income. Refer to estimates given in the Technical Documents (Summary Tables, Tables 40 and 41 ).

## Accessibility

# Variables Description

Dataset contains 407 variable(s)

File ses43_1 Household characteristics			
<b>#1 hid: Household ID</b>			
<b>Information</b>	[Type= discrete] [Format=numeric] [Range= 10100101-96302407] [Missing=*]		
<b>Statistics [NW/ W]</b>	[Valid=24735 /-] [Invalid=0 /-]		
<b>Definition</b>	<p>The private household was referred to as:</p> <p>(1) One-person households, i.e., a person who made provision for his own food and other essentials of living without combining with any other persons.</p> <p>(2) Multiperson households, i.e., a group of two or more persons who made common provision for food and other essentials of living. They might be either related or unrelated such as:</p> <p>2.1 a household composed of a group of related persons by blood, marriage or adoption</p> <p>2.2 a household comprised of a group of unrelated persons, not exceeding five, who live together sharing the lodging (included as one private household).</p> <p>2.3 a household comprised of a group of employees living together, not exceeding five persons (included as one private household).</p> <p>2.4 a household comprised of a group of six or more persons, among them at least four persons who are relatives, or not exceeding three relatives where one among them is responsible for all expenses (included as one private household).</p> <p>Remarks: Items 2.2 and 2.3 were different from the previous surveys conducted before the year 1998, in that each person was treated as one-person household.</p>		
<b>#2 id1: Region</b>			
<b>Information</b>	[Type= discrete] [Format=numeric] [Range= 1-5] [Missing=*]

<b>Definition</b>	Occupation was defined as the type of work performed by a person at his place of work. Generally, a person held only one job. During the last 52 weeks if the person had more than one job, the job at which he worked for the greater number of weeks was recorded. If the number of weeks worked for each job were the same, the job which gave him the highest income was recorded.

### #9 hmnr: HM: Member Number

**Information** [Type= discrete] [Format=numeric] [Range= 1-25] [Missing=\*]

**Statistics [NW/ W]** [Valid=87387 /-] [Invalid=0 /-]

**Definition** Private household members are persons who usually live in a particular household, including persons who were temporarily absent at the time of interviewing (but do not normally live somewhere else permanently) but fit into one of the following categories, i.e.

(1) those living away from home temporarily for less than three months, such as an inpatients, priests (excluding the members who moved away for education or occupation and therefore have another permanent residence, prisoners, soldiers and psychiatric patients.)

(2) those living away from home for more than three months without permanent residence, such as crews, salesman, etc.

(3) those going abroad for less than six months for education or training.

(4) those who work away from home temporarily for less than 30 days per year, such as sugar-cane harvesters.

Household members included unrelated boarders or lodgers who had lived at the address temporarily for more than three months.

## Questionnaires

**Socio - Economic Survey Questionnaire**, National Statistical Office of Thailand, Thailand [tha], Thai [tha], "Doc\Questionnaires\QNCrisis\_SES43.pdf"

## Technical documents

**Socio - Economic Survey 2000 Data Dictionary (record 01 to 09)**, National Statistical Office, Thailand [tha], English [eng], "Doc\Technical\Datadic\_SES2000(43) E.pdf"

### Description

The document provides the details of input data per record: Field, Field Name, Starting Position, Length of Bytes, Possible Codes and Meaning, and Remarks, if any.

**Socio - Economic Survey 2000 Data Dictionary (record 10)**, (*The Impact of the Economic Crisis on Households, 2000*), National Statistical Office, Thailand [tha], English [eng], "Doc\Technical\DatadicCrisis\_SES43.pdf"

### Description

The document provides the details of input data per record: Field, Field Name, Starting Position, Length of Bytes, Possible Codes and Meaning, and Remarks, if any.

**Note on Thailand SES Data**, Thailand [tha], English [eng], "Doc\Technical\Notes for SES data.doc"

### Description

The document briefly explains how the data files from the 1994, 1996, 1998, 1999, 2000 and 2002 Socio Economic Surveys are organized.

**Zipped Dictionary Files (used to convert ascii data to stata)**, Thailand [tha], English [eng], "Doc\Technical\dict.zip"

**Household Socio-Economic Survey 2000**, *Study Documentation*, Accelerated Data Program, November 2010, Thailand [tha], English [eng], "Doc\Technical\SES2000\_StudyDoc.pdf"

### Description

The report documents the metadata for the survey based on available information, and following the Data Documentation Initiative (DDI) version 2.0 and Dublin Core Metadata Initiative as documentation standards. It was generated using the IHSN Microdata Management Toolkit.

**Report of the 2000 Household Socio-Economic Survey - Appendix - Background, Concepts and Definitions, Bangkok Metropolis, Nonthaburi, Pathum Thani and Samut Prakan, National Statistical Office, July 2001, Trinidad and Tobago [tto], English [eng], "Doc\Technical\THA\_2000\_SES\_Appendix.pdf"**

**Description**

Appendix part of the 2000 SES Report which contains the background, concepts and definitions used.

**Tables compiled by the National Statistical Office - 2000 Socio-Economic Survey, National Statistical Office, Thailand [tha], English [eng], "[http://service.nso.go.th/nso/nso\\_center/project/search\\_center/23project-en.htm](http://service.nso.go.th/nso/nso_center/project/search_center/23project-en.htm)"**

**Description**

41 summary tables published in the TNSO website.

**Table of Contents**

2000 TABLES

1. Average Monthly Expenditure For Goods And Services Other Than Food And Beverages By Region And Area: 2000
2. Average Household Expenditure In A 7-Day Period For Food, Beverages And Tobacco By Region And Area: 2000

4. Average Monthly Expenditure Per Household By Socio-Economic Class Of Household: 2000
5. Average Monthly Expenditure Per Household By Socio-Economic Class , Greater Bangkok Metropolitan Area: 2000
6. Average Monthly Expenditure Per Household By Socio-Economic Class, Municipal Areas (Outside Of Greater Bangkok Metropolitan Area): 2000
7. Average Monthly Expenditure Per Household By Socio-Economic Class, Non-Municipal Areas (Outside Of Greater Bangkok Metropolitan Area): 2000
8. Average Monthly Income Per Household By Source Of Income, Region And Area: 2000
9. Average Debt Per Household For The Purpose Of Borrowing, Region And Area: 2000
10. Average Monthly Income Per Household By Source Of Income And Socio-Economic Class: 2000
11. Average Debt Per Household For The Purpose Of Borrowing By Socio-Economic Class: 2000
12. Average Monthly Income Per Household By Source Of Income And Socio-Economic Class , Greater Bangkok Metropolitan Area: 2000
13. Average Debt Per Household For The Purpose Of Borrowing By Socio-Economic Class, Greater Bangkok Metropolitan Area: 2000
14. Average Monthly Income Per Household By Source Of Income And Socio-Economic Class, Municipal Areas (Outside Of Greater Bangkok Metropolitan Area): 2000
15. Average Debt Per Household For The Purpose Of Borrowing By Socio-Economic Class, Municipal Areas (Outside Of Greater Bangkok Metropolitan Area): 2000
16. Average Monthly Income Per Household By Source Of Income And Socio-Economic Class, Non-Municipal Areas (Outside Of Greater Bangkok Metropolitan Area): 2000
17. Average Debt Per Household For The Purpose Of Borrowing By Socio-Economic Class, Non-Municipal Areas (Outside Of Greater Bangkok Metropolitan Area): 2000
18. Average Monthly Expenditure Per Household By Per Capita Consumption Expenditure Decile Groups: 2000
19. Average Monthly Expenditure Per Household By Per Capita Consumption Expenditure Decile Groups, Greater Bangkok Metropolitan Area: 2000
20. Average Monthly Expenditure Per Household By Per Capita Consumption Expenditure Decile Groups, Municipal Areas (Outside Of Greater Bangkok Metropolitan Area): 2000
21. Average Monthly Expenditure Per Household By Per Capita Consumption Expenditure Decile Groups, Non - Municipal Areas (Outside Of Greater Bangkok Metropolitan Area): 2000
22. Average Monthly Income Per Household By Per Capita Consumption Expenditure Decile Groups: 2000
23. Average Monthly Income Per Household By Per Capita Consumption Expenditure Decile Groups, Greater Bangkok Metropolitan Areas: 2000
24. Average Monthly Income Per Household By Per Capita Consumption Expenditure Decile Groups, Municipal Areas (Outside Of Greater Bangkok Metropolitan Areas): 2000
25. Average Monthly Income Per Household By Per Capita Consumption Expenditure Decile Groups, Non - Municipal Areas (Outside Of Greater Bangkok Metropolitan Areas): 2000
26. Average Monthly Expenditure Per Household By Expenditure Group And Province: 2000
27. Average Monthly Income Per Household By Source Of Income And Province: 2000
28. Percentage Of Households By Total Monthly Consumption Expenditure Class, Total Current Income Class And Household Size: 2000
29. Percentage Of Households By Per Capita Monthly Consumption Expenditure Class, Per Capita Monthly Current Income Class And Household Size: 2000
30. Selected Characteristics Of Households By Socio-Economic Class: 2000
31. Selected Characteristics Of Households By Socio-Economic Class, Greater Bangkok Metropolitan Area: 2000
32. Selected Characteristics Of Households By Socio-Economic Class, Municipal Areas (Outside Greater Bangkok Metropolitan Area): 2000
33. Selected Characteristics Of Households By Socio-Economic Class, Non - Municipal Areas (Outside Greater Bangkok Metropolitan Area): 2000
34. Percentage Of Households By Selected Housing Characteristics By Region And Area: 2000
35. Percentage Of Households By Socio-Economic Class And Selected Housing Characteristics: 2000
36. Percentage Of Household Members By Type Of Households, Socio-Economic Class And Other Characteristics: 2000
37. Percentage Of Households Reporting Ownership Of Some Selected Durable Goods By Region And Area: 2000

38. Monthly Per Capita Current Income Received By Decile Groups Of Households Ordered By Per Capita Current Income: 2000
39. Percentage Of Households Current Income By Decile Groups Of Households Ordered By Per Capita Current Income: 2000
40. Estimation Of Average, Interval And Coefficient Of Variation Of Household Monthly Consumption Expenditure By Province: 2000
41. Estimation Of Average, Interval And Coefficient Of Variation Of Household Monthly Current Income By Province: 2000

## Scripts and programs

**SPSS Programs**, Thailand [tha], English [eng], "Programs\spss\_programs.zip"
