

Ref. No. BLES-G-08-0266

March 7, 2008

**DR. ROMULO A. VIROLA**  
**Secretary General**  
National Statistical Coordination Board  
Midland Plaza Bldg.  
Sen. Gil Puyat Ave., Makati City

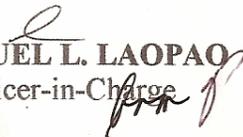

Dear **Secretary General Virola**,

We are submitting the attached Statistical Survey Notification Forms for the conduct of the 2008 Occupational Wages Survey (OWS) and 2007/2008 BLES Integrated Survey (BITS).

We are also providing you the 2008 OWS and 2007/2008 BITS questionnaires for your reference.

Thank you very much and regards.

Very truly yours,

  
**MANUEL L. LAOPAO**  
Officer-in-Charge

NSCB  
OFFICE OF THE SECRETARY

STATISTICAL SURVEY NOTIFICATION FORM

PLEASE READ ATTACHED INSTRUCTIONS BEFORE COMPLETING THIS FORM

I. GENERAL INFORMATION

1. Title of the statistical survey 2008 Occupational Wages Survey (OWS)	
2. Legal basis E.O. 126, dated January 30, 1987, reorganizing the DOLE and creating the BLES/E.O. 352 dated July 1, 1996	
3.1 Proponent agency Name Bureau of Labor and Employment Statistics Address 3/F DOLE Bldg. Gen. Luna, Intramuros, Manila	3.2 Conducting agency Name Bureau of Labor and Employment Statistics Address 3/F DOLE Bldg. Gen. Luna, Intramuros, Manila
3.3 Other cooperating agencies DOLE Regional Offices except NCR	3.4 Funding source/s (Specify) a. <input checked="" type="checkbox"/> Gov't of the Phils. (GOP) _____ b. <input type="checkbox"/> Local private _____ c. <input type="checkbox"/> Foreign _____
3.5 Consultants Name of organization/person NONE	Nature of consultancy service _____ _____
4. Objectives and relevance of the survey (Cite specific use of the data to be collected, or programs/issues to be addressed.) To generate statistics for wage and salary administration and wage determination in collective bargaining negotiations.	
5.1 Status of survey a. <input checked="" type="checkbox"/> Existing (Proceed to 5.2) b. <input type="checkbox"/> New (Proceed to 5.3)	5.2 Status of survey form/questionnaire a. <input type="checkbox"/> Existing statistical survey form being reported to the NSCB for the first time. What year was this first used? _____ b. <input checked="" type="checkbox"/> Existing form for clearance renewal with revision. c. <input type="checkbox"/> Existing form for clearance renewal without revision. If b or c, give previous clearance no. <u>BLES-0608-01</u>
5.3 Is this survey a rider to another survey? a. <input type="checkbox"/> Yes. (Specify) b. <input checked="" type="checkbox"/> No	5.4 Is this survey a component of a national or international program? a. <input checked="" type="checkbox"/> Yes (Specify) BLES Survey Agenda (2006-2015) b. <input type="checkbox"/> No

STATISTICAL SURVEY NOTIFICATION FORM

II. TECHNICAL DESCRIPTION			
1. Type and number of respondents			
<i>Type of respondent</i>	<i>Size of universe</i>	<i>Size of sample</i>	<i>Expected response rate</i>
a. <input type="checkbox"/> Individual			
b. <input type="checkbox"/> Household			
c. <input checked="" type="checkbox"/> Establishment	31,379	7,630	70%
d. <input type="checkbox"/> Enterprise			
e. <input type="checkbox"/> Government agency			
f. <input type="checkbox"/> Others (Specify)			
2. Reference period of the survey • June 30, 2008	3. Geographical area covered by the survey, e.g., Phils., Region IV, etc.  Philippines	4. Geographic disaggregation of the data to be produced a. <input checked="" type="checkbox"/> National b. <input checked="" type="checkbox"/> Regional c. <input type="checkbox"/> Provincial d. <input type="checkbox"/> Others (Specify)	
5. Frequency of data collection a. <input type="checkbox"/> One-shot b. <input type="checkbox"/> Monthly c. <input type="checkbox"/> Quarterly d. <input type="checkbox"/> Annually e. <input checked="" type="checkbox"/> Others (Specify) <u>every 2 years</u>	6. Method of data collection (Check as many as applicable) a. <input checked="" type="checkbox"/> Personal interview b. <input checked="" type="checkbox"/> Mail c. <input type="checkbox"/> Telephone d. <input type="checkbox"/> Others (Specify)		
7. Survey questionnaire titles			
<i>Form No.</i>	<i>Form Title</i>		
	2008 Occupational Wages Survey		
8. Major data items to be collected (e.g., family income and expenditures, employment, compensation, prices) • Occupational wage rates (basic pay and allowances) of time-rate workers on full time basis in selected occupations in selected industries and corresponding employment • Distribution of time-rate workers on full time basis by basic pay and allowance intervals			
9. List of tables and other outputs to be generated			
<u>National</u>			
• Average Monthly Wage Rates of Time-Rate Workers on Full Time Basis in Selected Industries and Occupations			
• Average Monthly Wage Rates of Benchmark Occupations in Non-Agricultural Industries			
• Median Monthly Basic Pay and Monthly Allowances of Time-Rate Workers on Full-time Basis by Industry			
• Percent Distribution of Time-Rate Workers on Full-time Basis by Industry and Monthly Basic Pay			
• Percent Distribution of Time-Rate Workers on Full-time Basis by Industry and Monthly Allowances			
<u>Regional</u>			
• Median Monthly Basic Pay and Monthly Allowances of Time-Rate Workers on Full-Time Basis by Region			
• Percent Distribution of Time-Rate Workers on Full-time Basis by Region and Monthly Basic Pay			
• Percent Distribution of Time-Rate Workers on Full-time Basis by Region and Monthly Allowances			

(Use additional sheets if necessary)

**STATISTICAL SURVEY NOTIFICATION FORM**

<p>10. Type of data processing (Check as many as applicable)</p> <p>a. <input checked="" type="checkbox"/> Manual</p> <p>b. <input checked="" type="checkbox"/> Microcomputer</p> <p>c. <input type="checkbox"/> Minicomputer</p> <p>d. <input type="checkbox"/> Mainframe computer</p>	<p>11. Statistical classification systems used</p> <p>a. <input type="checkbox"/> Phil. Standard Commodity Classification (PSCC)</p> <p>b. <input checked="" type="checkbox"/> Phil. Standard Geographic Code (PSGC)</p> <p>c. <input checked="" type="checkbox"/> Phil. Standard Industry Classification (PSIC)</p> <p>d. <input checked="" type="checkbox"/> Phil. Standard Occupational Classification (PSOC)</p> <p>e. <input type="checkbox"/> Phil. Standard Classification of Education (PSCED)</p> <p>f. <input type="checkbox"/> Others (Specify)</p>
<p>12. Brief description of the sampling design and estimation procedure. (The details should be attached in separate sheet. If complete information is available in survey proposal, attach copy instead.)</p>	
<p>a) <i>Desired level of reliability and the proposed statistical measure to be used for assessing such reliability (e.g., standard errors of means)</i> 10% CV</p>	
<p>b) <i>Type of sampling design (The details should be attached in separate sheet.)</i> Stratified sampling where the strata are the industry and employment size e.g., 20-99, 100-199 and 200 and over</p>	
<p>c) <i>Sampling unit (per stage if applicable)</i> Non-agricultural establishment employing 20 and over</p>	
<p>d) <i>Domain</i> Minor industry group</p>	
<p>e) <i>Sampling frame</i> 2008 BLES Survey Sampling Frame updated from 2006 NSO List of Establishments, status of respondents in 2006 BLES conducted surveys and Lists of Establishments from external sources e.g. Department of Trade and Industry; Philippine Chamber of Commerce and Industries; and Inspection Reports from DOLE-ROs.</p>	
<p>f) <i>Sample size (total, per stratum/cluster/stage)</i> 7,630</p>	
<p>g) <i>Method of determining sample size</i> See attached (page 5)</p>	
<p>h) <i>Estimation procedure</i> Estimates are obtained by simple expansion, i.e. multiplying the sample values by the computed weights per stratum (industry group and employment size) which is the ratio of the eligible population of establishments to the number of responding establishments. These estimates are then aggregated to the desired levels to arrive at totals.</p>	
<p>i) <i>Imputation procedure for non-response</i> Non-response is taken into account in the weighing procedure as the raising factor is the ratio of eligible establishment to the number of responding establishment.</p>	
<p>13. Statistical analysis of results (e.g., descriptive, multivariate) Descriptive</p>	

III. ESTIMATED DIRECT COST OF SURVEY (in pesos)		
1. <u>Personal Services</u>	Printing Expenses	62,000
2. <u>Maintenance and Other Operating Expenses</u>	Others (Specify)	5,192,469
Travelling Expenses PHP 393,053	Training Expenses	108,800
Supplies 42,800	Wages of Enumerators	4,931,069
	Communication	152,600
	<b>TOTAL COST</b>	<b>PHP 5,690,322*</b>
	*Total Cost of OWS and BITS	
IV. TIMETABLE OF ACTIVITIES		
Stage	Schedule	Agency Responsible
<b>A. Planning and Preparation</b>		
1. Formulation of survey design <i>(to include formulation of objectives, scope and coverage; development of methodology; formulation of sampling design and frame; design of table formats; preparation of questionnaire and manuals)</i>	Feb - May	BLES
2. Pre-test of the questionnaire	NAP	NAP
3. Revision based on pre-test of the questionnaire	NAP	NAP
4. Submission to NSCB for review of survey design <i>(allow 15 days after submission of all required documents)</i>	March 7, 2008	BLES
5. Finalization of questionnaires and manuals	Questionnaires: NLT April 15 Manuals: NLT May 16	-do-
6. Printing of questionnaires and manuals	NLT Jun 20	-do-
<b>B. Field Operations</b>		
1. Training of personnel	July	BLES/DOLE ROs
2. Distribution and collection of questionnaires	July - December	-do-
3. Field editing	-do-	-do-
<b>C. Data Processing</b>		
1. Office editing	August-December	BLES
2. Data encoding	October - March 2009	-do-
3. Verification	October -March 2009	-do-
4. Tabulation	April - June 2009	-do-
<b>D. Report Preparation</b>		
1. Analysis and interpretation of data	published in LABSTAT Updates	July - December 2009
2. Report writing		-do-
<b>E. Release of Survey Results (statistical tables in the website)</b>	June 30, 2009	-do-

STATISTICAL SURVEY NOTIFICATION FORM

II. TECHNICAL DESCRIPTION (cont'd.)

12. Brief description of the sampling design and estimation procedure.  
(The details should be attached in separate sheet. If complete information is available in survey proposal, attach copy instead.)

g) Method of determining sample size

In designing the survey, the margin of error ( $e$ ) was fixed at 5% and the level of significance or the probability that the estimated total number of employed persons ( $y$ ) is within 5% of the population total ( $Y$ ) was specified as 95%, that is, setting  $\alpha = 0.05$ . This means that the probability that the estimated total number of employed persons will differ from the true number of employed persons is 5 percent. The desired precision for this survey can be expressed as follows:

$$P(|y - Y| \leq e) = 1 - \alpha$$

$$P(|y - Y| \leq 0.05) = 1 - 0.05$$

$$P(|y - Y| \leq 0.05) = 0.95$$

To compute for the sample size,  $n$ , a targeted CV of 2.5% was used, that is,

$$\begin{aligned} n &= \frac{z_{\alpha/2}^2 CV^2}{e^2 + \frac{z_{\alpha/2}^2 CV^2}{N}} = \frac{1.96^2 (2.5)^2}{0.05^2 + \frac{1.96^2 (2.5)^2}{31,379}} \\ &= \frac{24.01}{0.0025 + \frac{24.01}{31,379}} = 7,353.88 \end{aligned}$$

$$n \approx 7,353$$

In allocating the samples, the 3,136 establishments employing at least 200 workers were covered with certainty as their employment represents 57 percent of total employment in population. These establishments, however, comprise only 9.5 percent of the reference establishment population. The remaining 4,217 establishment samples were allocated to the non-certainty stratum with employment size 20-99 and 100-199 depending on their proportion to the total establishment employment exclusive of the certainty strata, that is, 70 percent and 30 percent, respectively. The sample sizes in each cell (industry group and employment size) in the non-certainty strata are allocated proportionately to the number of establishments.

However, establishments in the Metallic Ore Mining, Non-metallic Ore Mining, Manufacturing of Coke, Refined Petroleum, Air Transport, Research and Development, Call Centers and Medical Transcription industries are sampled with certainty because of their relatively few number and these are emerging industries and/or industries, which are critical to the labor market. Also, a minimum of 10 samples in the cells is maintained to accommodate expected non-responses.

Thus, for 2008 OWS, the total adjusted sample size is 7,630.
