**EVERYONE SHOULD PLEASE ANSWER THIS QUESTION.**

- 20.** It is important to establish the spending power of the population in order to measure and understand the economy. Therefore the census needs information on the income of all people.

Think of the past year (1 October 1995 to 30 September 1996) and the money each person received. **Please indicate this person's income category before tax.** Answer this question by indicating this person's weekly, monthly or annual income. Include all sources of income, for example housing loan subsidies, bonuses, allowances such as car allowances and investment income. **If this person receives a pension or disability grant**, please include this amount.

*For example, if this person wants to indicate a weekly income and has an income of R270 per week, circle 5 in the income category column; if this person wants to indicate an annual income and has an income of R55 000 per annum, circle 9 in the income category column.*
