New member of the household is a person, who joined the household during the research month, whereby, using the common monetary and/or food resources of the household and does not have an alternative main place of living.

Long-term guest of the household is a person, who does not belong to this household (has an alternative main place of living and/or is a member of another household), but who stayed with the household during the research month for at least one week and consumed the food and other resources with the household.

Research month is the month during which the household fills in the income and expenditure diary.

MEMBERS OF THE HOUSEHOLD (B1, B2). CHANGES IN THE COMPOSITION OF THE HOUSEHOLD (P). THE ECONOMIC SITUATION OF THE HOUSEHOLD (Q).

We defined your household during my first visit to your household. Meanwhile, a long time has elapsed and there could be changes in your household. Let's define who actually lived in your household during the month of research. We will ask you to think of the persons, who left the household, were temporarily absent, new members and guests who were present for at least one week of the research month.
