

Using the Senegal Education PETS/QSDS Data Set

The Senegal PETS/QSDS data set is a survey of 151 primary schools, 99 of which are located in rural areas. The primary schools are located in 4 regions, identified in variable 'zone'. Variable labels are in French.

All files include a variable named 'mod_id', which represents the primary school facility identifier. All files can therefore be merged using that variable. Variable 'pweight' represents the sampling weight for each school. For school personnel, variable 'weight_m1p' represents the sampling weight for each teacher in the full sample of primary school teachers in Senegal.

FILE	DESCRIPTION
Sn_Education_Module1_personnel_V3.dta	General data on all staff members in primary schools.
Sn_Education_Module1_ecole_V3.dta	General data on structure, staff, material, class size, attendance and budgets.
Sn_Education_Module2_V3.dta	Detailed data collected on up to 10 teachers per school during an announced visit.
Sn_Education_Module3_V3.dta	Detailed data collected on up to 10 staff members per school during a follow-up, unannounced visit.
Sn_Education_Module4_V3.dta	Grade 4 Classroom Observation log
Sn_Education_Livret_Enseignant_V3.dta	Teacher examination dataset. 250 teachers were administered the survey test.
Sn_Education_Livret_Eleve_V3.dta	Grade 4 student examination dataset. 1,484 grade 4 students pupils were administered the survey test.
