2010 FSM-WIDE CENSUS of POPULATION & HOUSING

KOSRAE STATE

Census is On! Count Me, Count You, Count All

PRELIMINARY COUNTS

This pamphlet contains the preliminary results of the 2010 FSM-Wide Census. These results are made available to the public so as to give some idea of the population growth as well as its distribution.

It is worth highlighting that the 2010 census has recorded fewer residents compared to 2000, which is the result of substantial net-migration over the past decade.

The 2010 data presented is provisional, therefore, subject to change after validation processes are completed and the data is finalized.

SUPPORT AND ACKNOWLEDGEMENT

The FSM Office of SBOC, Division of Statistics and the National Government have secured funding and technical assistance for the project from the FSM Congress, the US Department of Interior, the United Nations Population Fund (UNFPA), and the Secretariat of the Pacific Community (SPC).

The Office of SBOC gratefully acknowledges these donors for their support. Our utmost gratitude goes out to the people of the FSM for their cooperation in the Census activities.
