

**Table H-3C
(Appendix)**

**DISTRIBUTION OF HOUSEHOLDS LIVING IN
CENSUS HOUSES BY PREDOMINANT
MATERIAL OF FLOOR**

*Level of presentation: India / State / District / City
Corresponding Table of 1991 Census: Appendix to Table H-2
Part A and H-2 Part B*

This appendix table gives the distribution of households by the predominant material of floor of the census houses occupied by them for fully as well as partly residential purpose. The table excludes the institutional households. The materials of floor are grouped into 7 broad categories. These are: Mud; Wood, Bamboo; Brick; Stone; Cement; Mosaic, Floor tiles; and any other material. For determining the material of floor, the major portion of which the floor of the house was made has been considered. The data in this appendix table are presented for total, rural and urban areas separately.

The city level data are available only in electronic format.
