Dissemination of the Indonesian 2010 Population Census Results

Overview of 2010 Population Census

Background

Indonesia is the 4th largest country in terms of total population (around 237.6 million people) after China (1.34 billion), India (1.15 billion) and USA (308.7 million)

Law No. 16 Year 1997 on Statistics

UN's Agenda on Population and Housing Census in 2010 and around

Census in Indonesia

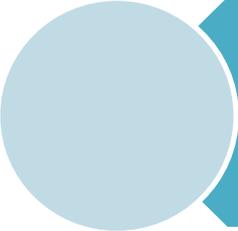

Two censuses during Dutch Administration

- 1920 Only in Java Island
- 1930 First Census, it covers the whole country

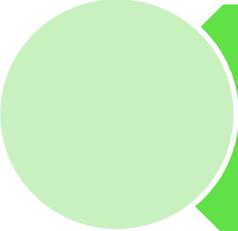

Six censuses after the independence (1945)

- 1961, 1971, 1980, 1990, 2000 and 2010

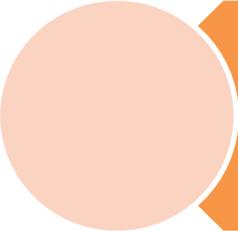

Methodology

Using two approaches, namely de jure and de facto, in data collection

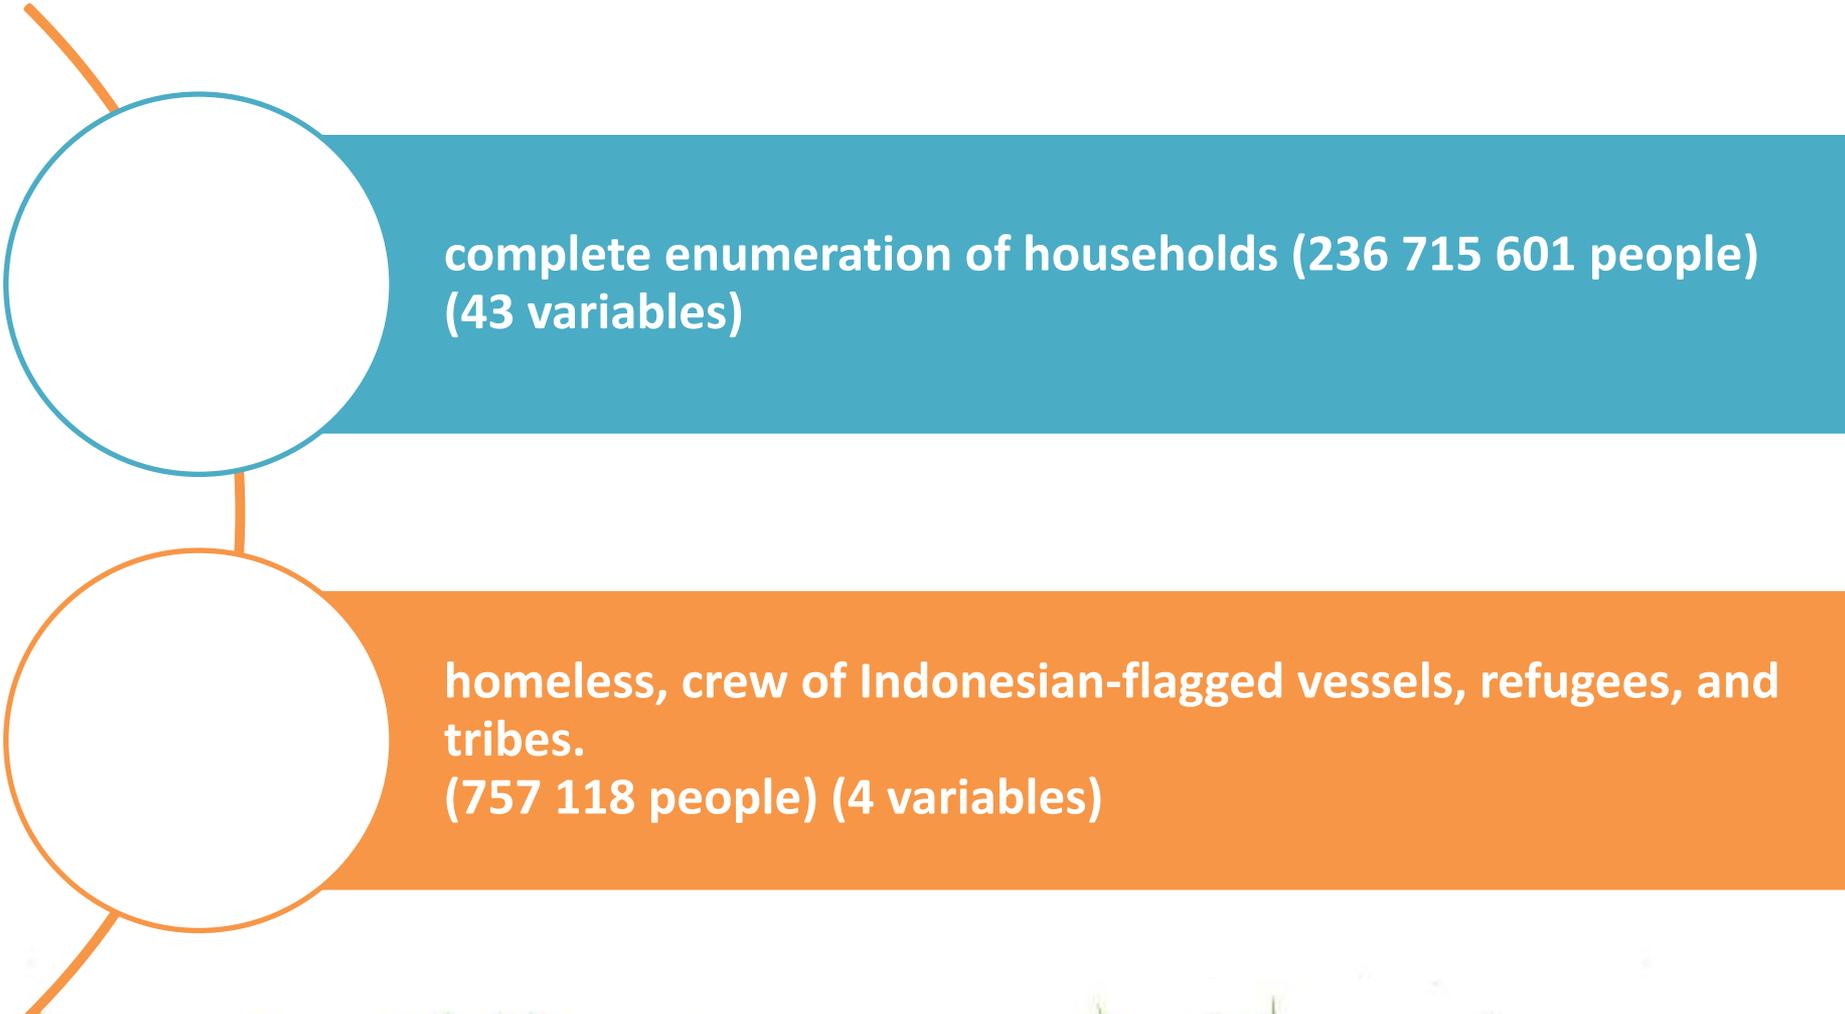

De jure record where a normal population residing (usual residence), and de facto record the population where it was found during the census

Each enumerator is equipped with a census block map

2010 Population Census Form

**complete enumeration of households (236 715 601 people)
(43 variables)**

**homeless, crew of Indonesian-flagged vessels, refugees, and
tribes.
(757 118 people) (4 variables)**

Objectives

Provide Results of 2010 Population Census to Data Users with

Comprehensive information

Easy to access by data user

Provide various types of information

2010 Census Questionnaire

Subject	No. of questions
Identity & List of Household Members	2
Personal Characteristics	5
Religion	1
Fertility	3
Mortality	8
Migration	2
Labor Force	3
Education	3
Difficulty	1
Language, Ethnicity and citizenship	3
Housing	12
Total	43

Urgency of 2010 PC

Fully assess the entire population of Indonesia is not an exception to the basic data needs of the population

2010PC made towards development plan relating to the plurality of the nation

Depicting the dynamics and mobility of the population of Indonesia

Basis for developing sampling frame for various surveys and main basis for population projection 2010-2020

Estimates of demographic parameters

Source of data for program targeting

Valuable input in monitoring the progress for achieving the MDGs and other goals

Explanation

Relationship to Head of Household

Definition

One of the members of the household (ART), which is responsible for the fulfillment of daily needs in the household, is appointed as KRT.

Explanation:

KRT has more than one residences, only recorded in one of his residences where is the longest one he stay.

KRT which has activity/business somewhere else and return to home regularly (every week, every month, every 3 months, that is still less than 6 months), recorded as heads of households (KRT) at home.

KRT who works as seafarer working on board foreign-flagged and sails more than 6 months, not recorded as KRT.

Functionality

Sampling frame household; number of households and household expenditure.

Age Group

Definition

Age is calculated in years by rounding down or the same as the age at last birthday.

Example: 27 years 9 months, recorded 27 years; less than 1 year, counted for 0 years.

Functionality

Determination of policy relating to a single age or age group, eg in the education sector.

Keterangan Umum **Organisasi** Metodologi Diseminasi

Penjelasan Umum
Penjelasan Umum Kegiatan SP2010 merupakan sensus penduduk ke enam. Sensus penduduk di Indonesia biasa disebut pencacahan penduduk, yaitu pengumpulan data/informasi yang dilakukan terhadap seluruh penduduk yang tinggal di wilayah teritorial Indonesia.
Hasil SP2010 berguna sebagai bahan perencanaan, monitoring, dan evaluasi pembangunan.

Dasar Hukum
Undang Undang Nomor 16 tahun 1997 tentang Statistik.
Peraturan Pemerintah Nomor 51 Tahun 1999 tentang Penyelenggaraan Statistik.
Peraturan Presiden Nomor 86 Tahun 2007 tentang Struktur Organisasi BPS.

Waktu Pelaksanaan Sensus
1-31 Mei 2010.

Hari Sensus
15 Mei 2010.

Tujuan
• Mengumpulkan dan menyajikan data dasar kependudukan sampai wilayah administrasi terkecil.
• Membentuk Kerangka Sampel Induk (KSI) untuk kepentingan survei-survei lain yang dilakukan dengan pendekatan rumah tangga.
• Memperkirakan berbagai parameter kependudukan sampai wilayah administrasi tertentu.
• Mengumpulkan informasi kependudukan yang dapat digunakan/dimanfaatkan untuk penyusunan basis data kependudukan.

No	Term	Description
1	Accommodation	places to stay or temporary housing for employees or enumerators on duty census
2	Age Specific Death Rate (ASDR)	The number of deaths in specific age group per 1000 population in same age group. Purpose: ASDR can be compared between regions, especially at certain ages that become an issue.
3	Age Specific Fertility Rate (ASFR)	The number of births during a year per 1000 women in certain age groups
4	Age	Age can be calculated if the day, month and year of birth in known. Calculation of age for the population census is stated in completed years or age at last birthday. If the date, month and of birth is unknown, the enumeration has to obtain information on age by relating it to national or local events, such as the beginning of Japanese occupation (1942) and Independence (1945)
