

**Southern Africa Consortium for Monitoring Educational Quality**  
**(SACMEQ)**  
**Pilot Study Manual for Data Collectors**  
**(October 1994)**

There are a number of tasks that you will need to attend to in order to ensure that the SACMEQ Pilot Study runs smoothly in your country. These tasks have been summarised as a “checklist” on pages 10 to 12 of this manual. Please read this checklist carefully. As you complete each task, make a tick in the appropriate position on the checklist. Please make certain that you complete ALL tasks!

**1. Identification (ID) Numbers**

On the front page at the top left hand side of each instrument, there are some Identification (ID) numbers. For any one school, the first four ID numbers (Country ID, Region ID, District ID, and School ID) must be identical on all the instruments. The fifth ID number is a sequential number for pupils which should run from 01 to 20. Simply put 01 in the fifth position on the first Pupil Booklet, 02 on the second Pupil Booklet, and so on until you put 20 on the final Pupil Booklet. The sixth ID number is listed in order to identify which instrument is involved: 1 for Pupil Booklet, 2 for Teacher Questionnaire, and 3 for School Head Questionnaire. You will be asked to complete the first four ID numbers during the meeting that you attend for training. Make sure that you have the required number of Booklets for your school(s) and that no pages are missing. If any are missing, ask for a complete copy. When replacing with a new copy, make sure to transfer all of the ID numbers correctly. You should also have a metre ruler (with some “sticky stuff”) that you will use to measure the height of the pupils.

***Special Note:***

*The tests and questionnaire that have been sent to you are valuable research instruments. A great deal of effort and many thousands of dollars have been expended in preparing them for the SACMEQ project.*

*Please treat these instruments as confidential documents that should not be misplaced or copied. If they were to be distributed or misused by persons outside the SACMEQ project, they could lose their validity for the main data collection.*

*Make sure that you return all of the research instruments (completed and uncompleted) to the National Research Coordinator after you visit your school(s)*

**2. On Arriving at Your School**

Please make sure that the School Head has been informed about your visit one or two days in advance. You should arrive at least one hour before the testing is to begin in order to check that all necessary arrangements are in place.

If the School Head has already been forewarned of your visit he/she will be expecting you. If not, go to the School Head first and explain the purpose of the study. The purpose is to pilot test the instruments for a large national study of Grade 6 reading that will take place next year as an important co-operative endeavour of a number of countries in Southern Africa.

Make sure that you explain to the School Head that this data collection is confidential and that no pupil, teacher, or school head will be identified as part of the data collection.

Ask the School Head for some spare pencils -- just in case some pupils do not have a pencil when they arrive for the testing session.

### **3. Select Pupils Using Random Number Tables**

#### **Step 1: Obtain Grade 6 Registers of Attendance.**

These registers are to be obtained for all Grade 6 pupils that attend normal (not “special”) classes. In multiple session schools, both morning and afternoon registers are to be obtained. Check that you have Grade 6 registers and not registers for another grade.

Make sure that the registers are accurate and up-to-date. Any pupils not now attending the school should be crossed off the registers.

#### **Step 2: Assign Sequential Numbers to all Grade 6 Pupils.**

Use a soft pencil to place a sequential number beside the name of each Grade 6 pupil so that the numbers can be erased later.

**Example:** Consider a school with one session and a total of 48 pupils in Grade 6. Commence by placing the number “1” beside the first pupil on the Register; then place the number “2” beside the second pupil on the Register; ... etc. ...; finally, place the number “48” beside the last pupil on the Register.

**Another example:** Consider a school with 42 pupils in the morning session and 48 pupils in the afternoon session of Grade 6. Commence by placing the number “1” beside the first pupil on the morning register; ... etc. ...; then place a “42” beside the last pupil on the morning register; then place a “43” beside the first pupil on the afternoon register; ... etc. ...; finally place a “90” beside the last pupil on the afternoon register.

#### **Step 3: Locate the Appropriate Set of Selection Numbers.**

In Appendix A, sets of “selection numbers” have been listed for a variety of school sizes. For example, if a school has 48 pupils in Grade 6, then the appropriate set of selection numbers is

listed under the “R48” heading. Similarly, if a school has 90 Grade 6 pupils then the appropriate set of selection numbers is listed under the “R90” heading.

**Step 4: Use the Appropriate Set of Selection Numbers.**

After locating the appropriate set of selection numbers, use the numbers to select the sample of pupils. Use the first selection number to locate the Grade 6 pupil with the same sequential number on the Register(s). Use the second selection number to locate the Grade 6 pupil with the same sequential number on the Register(s). Continue with this process until the full sample of 20 pupils has been used.

**Example:** In a school with a total of 50 pupils in Grade 6 the first pupil selected has sequential number “2”; the second pupil selected has sequential number “4”; the third pupil selected has sequential number “5”, ... the sixth has sequential number “9”, and so on.

**Step 5: Copy the names of 20 selected pupils onto the Pupil Name Form (Appendix B).**

**Step 6: Complete all information on the Pupil Name Form (class, shifts, age, sex).**

**4. Go to Testing Classroom**

Go to the assigned classroom and make sure that everything is ready for the testing. If a child is absent, draw a red line through his ID number on the Pupil Name Form (see Appendix B). You must not replace the absent pupil with another one.

Find out if there is any child who really cannot read at all or who cannot answer the test. If the child cannot read (check this with at least two teachers), write the comment “unable to read” in the remarks column. If a pupil has a disability that makes it impossible for him/her to mark answers on the test, write “unable to answer test”. If there is a pupil who has never learned language of the test, write “does not know language”.

Use the list of ID numbers and pupil names on the Pupil Name Form to pass out the Booklets to the children. Make sure that each child gets his/her correct ID number. Then pass out pencils to those children not already having one. Tell the pupils that the testing will be in two parts. The first part is where they will answer questions about themselves and the second part is a reading test. They will have a 15-minute break between the first and second sessions.

## **5. The Pupil Questionnaire Session (Session 1)**

### **(a) Before the Test**

Ask the pupils to check that they have the correct ID numbers on their Booklets. Do this by reading out the list of 20 ID numbers and names from the Pupil Name Form. Ensure that the 20 pupils that you have selected using the random number tables are present.

If a pupil is present whose name is not on the list, ask the pupil to leave the room. If there is a pupil on the list who has not appeared in the classroom, write “Absent” on the top of the front page of his/her Booklet. You must not replace this pupil with another one. You must return this Booklet with the others when you package everything up to return to the Regional Office.

Say to the pupils:

**I WANT YOU TO TRY YOUR BEST. ARE THERE ANY QUESTIONS?**

When you have answered all questions, make sure that all pupils have a pencil or pen. Now hand out a copy of the Pupil Booklet to each pupil.

### **(b) Testing Session**

After making sure that the pupils have settled down, say:

**THE BOOKLET IN FRONT OF YOU IS IN TWO PARTS. WE WILL COMMENCE WITH THE FIRST PART WHICH CONTAINS QUESTIONS ABOUT YOURSELF.**

At this point, ask the pupils to open the Booklet and answer Question 1. You should read the question aloud in English or in the mother tongue of the pupils.

**WHICH GRADE 6 CLASS ARE YOU IN THIS TERM? IF YOU ARE IN 6A, TICK THE BOX BELOW 6A. IF YOU ARE IN 6B, TICK THE BOX BELOW 6B. IF YOU ARE IN 6C, TICK THE BOX BELOW 6C AND SO ON.**

In a school using a classification system different from 6A, 6B, etc., the Data Collector should write the school's names for classes on the blackboard and write clearly which is to be labelled 6A, 6B, etc. For example, some schools use colour codes for naming their classes. The classes in these schools could be named red, blue, green, and yellow. You should write these names on the blackboard in alphabetical order (blue, green, red, yellow) and then write 6A beside blue, 6B beside green, and so on. Remember that the same system of naming classes should be used for the first question of the Teacher Questionnaire.

Go round and check that the children are filling in the answers correctly and that there are no missing data. You must also check that the pupils do not break their pencils, etc.

When all pupils have completed the fourth question, say:

**QUESTIONS 5 TO 19 ARE ABOUT YOUR “HOME”. THAT IS, THEY ARE QUESTIONS ABOUT THE PLACE WHERE YOU USUALLY LIVE WHEN YOU ARE GOING TO SCHOOL. ARE THERE ANY QUESTIONS ABOUT THIS?**

When all questions have been answered, say:

**PLEASE START WITH QUESTION 5.**

When all pupils have completed question 19, say:

**QUESTION 20 to 26 ARE BOUT YOUR SCHOOL. ARE THERE ANY QUESTIONS ABOUT THIS?**

When all questions have been answered, say:

**PLEASE START WITH QUESTION 20.**

When the pupils reach Question 21, explain to them that a reader (or an English textbook) is the book that pupils normally use for reading in their mother tongue language classes.

At the end of the PART 1 of the Pupil Booklet, say:

**PUT YOUR PENCILS DOWN. WE SHALL NOW HAVE A FIFTEEN MINUTES BREAK. YOU MAY GO OUTSIDE TO PLAY BUT LEAVE YOUR BOOKLETS ON THE DESK WHERE YOU ARE SITTING. PLEASE REMEMBER WHERE YOU ARE SITTING.**

## **6. The Testing Session (Session 2)**

After 15 minutes, call the pupils back to the classroom. **It is essential that you make sure that each pupil sits in the same place he/she was in before and has the same Booklet.**

When the pupils have settled down, say:

**BEFORE YOU START THE READING TEST, WE WILL COMPLETE SEVERAL PRACTICE QUESTIONS. TURN TO PAGE 9 OF THE BOOKLET. THERE IS A STORY CALLED “THE BIRTHDAY PRESENT”. LET US READ THIS QUESTION TOGETHER.**

Read the passage of “The Birthday Present”, and say:

**AFTER THE STORY, THERE ARE SOME QUESTIONS. UNDER EACH QUESTION, THERE ARE FOUR ANSWERS MARKED A, B, C, OR D. BETWEEN THOSE LETTERS AND THE ANSWERS, THERE ARE BOXES. YOU MUST PUT A TICK IN THE BOX OF THE ANSWER YOU CHOOSE. IN THE PASSAGE, DAN GOT A BIKE FOR HIS BIRTHDAY. SO YOU SHOULD PUT A TICK IN THE BOX NEXT TO THE B. LET US PRACTICE SOME MORE.**

Read the second question, elicit their answer, and give feedback. Do the same for the third and the fourth questions. Follow this with practice exercise 2 “Magazine Prices”. After working through these two practice exercises, ask the pupils if there are any questions. Then tell them to turn the page, and read the “Directions” out aloud for them. Ask if there are any questions. After all questions have been answered, say:

**START THE TEST NOW.**

Go around the class and make sure that the pupils are putting ticks in the boxes. If some pupils finish early, they may hand their tests in to you and read a book.

*Special Note:*

*There are three blank pages in the test: on page 21, page 41, and page 45. Please make sure that the pupils do not stop at these pages. They should continue their work until they reach question 63, which is the last question on the test.*

After 45 minutes, say:

**PUT A CIRCLE AROUND THE NUMBER OF THE QUESTION THAT YOU ARE NOW ANSWERING.**

Check that the pupils have done this correctly, and then say:

**NOW CONTINUE.**

After 60 minutes, say:

**PUT A SQUARE AROUND THE NUMBER OF THE QUESTION THAT YOU ARE NOW ANSWERING AND THEN CONTINUE WITH THE TEST.**

After 75 minutes, say:

**PUT A TRIANGLE AROUND THE NUMBER OF THE QUESTION THAT YOU ARE NOW ANSWERING AND THEN CONTINUE WITH THE TEST.**

After 90 minutes, say:

**PUT TWO CIRCLES AROUND THE NUMBER OF THE QUESTION THAT YOU ARE NOW ANSWERING AND THEN CONTINUE WITH THE TEST.**

By this time most of the pupils should have finished. However, allow those who have not finished to continue until all have finished. Note the time that the last pupil finishes.

After 105 minutes, say:

**STOP NOW. PUT YOUR PENCILS DOWN. CLOSE THE BOOKLET. I SHALL NOW COLLECT THE BOOKLETS.**

Then collect the tests and place them in a pile in the sequential numbering of pupils from 01 to 20. Then say:

**THANK YOU VERY MUCH. I HOPE YOU ENJOYED TAKING THE TEST.  
NOW YOU SHOULD RETURN TO YOUR CLASSES.**

If, during the testing, a pupil is present for one session only or has to be excused during a session, write this in the Remarks column on the Pupil Name Form.

**7. Measuring the Height of Each Pupil**

The height of each pupil is to be measured with each pupil being in ‘bare feet’. The easiest way to do this is to attach the metre ruler to a wall using ‘sticky stuff’ and then ask each pupil to stand up straight in front of the ruler. Enter the height of each pupil in the appropriate place on the Pupil Questionnaire.

**8. Collection and Dispatch**

After all of the Pupil Booklets have been collected and put into a pile and tied with string, the test administrator should return to the School Head and the Teacher who were completing their Questionnaires. First of all the Data Collector should ask them how they liked the Questionnaire and if they had any problems or if they felt there were some important things about their school that were not asked. Make a note of what these were and give the note to your NRC.

**9. Final Check**

Check each of the Questionnaires for completeness. If any of the questions were not answered ask the respondents to complete what they have missed. If they have had problems, help them

Find out why they missed questions and if there was a reason add this to the note that you have prepared for your NRC. When they have completed the Questionnaires add them to your pile. Thank the School Head and the Teachers very much for their co-operation and return to the place designated by the NRC and hand the pile to him/her together with the Pupil Name Form and the little note that you have prepared on difficulties encountered.

### **Appendix A: Checklist for Data Collectors**

<b>Actions to be Taken</b>	<b>Tick</b>
<b><u>Phase 1: Before Visiting the School</u></b>	
1. You have completed the identification numbers on the Pupil Booklets, Teacher Questionnaire(s), and School Head Questionnaire for each school that you will visit.	
2. You have checked that you have the required number of Booklets and Questionnaires.	
3. You have checked that there are no missing pages in the Booklets or Questionnaires.	
4. You have examined the way to get to the school.	
5. You have made sure that the School Head has been informed about your visit.	
6. You have obtained a metre ruler and some “sticky stuff” which you will use to measure the height of each of the 20 pupils in the sample.	
7. You have obtained some pens and pencils to use at the school.	

<p style="text-align: center;"><b>Actions to be Taken</b></p> <p style="text-align: center;"><b><u>Phase 2: At the School</u></b></p>	<p style="text-align: center;"><b>Tick</b></p>
1. You have obtained all Grade 6 registers and checked them for accuracy.	
2. You have selected 20 pupils using the random number tables.	
3. You have arranged the classroom for testing.	
4. You have entered necessary information in the Pupil Name Form.	
5. You have read the ID numbers and pupil names to the pupils so that they can check that they have the correct Pupil Booklet.	
6. You have helped the pupils with the Pupil Questionnaire so that there are no missing data.	
7. You have timed how long session 1 (Questionnaire) took.	
8. You have checked that, before commencing the second testing session, all pupils have returned to the same seat that they were in for the first session and that they have the same Booklet in front of them.	
9. You have demonstrated the way to answer the reading test using the practice questions.	
10. You have instructed pupils to put a circle after 45 minutes, a square after 60 minutes, a triangle after 75 minutes, and a double circle after 90 minutes.	
11. You have waited until the last pupil finishes the reading test and noted the time it took.	
12. You have measured the height of the pupils and you have entered this in the appropriate place on the Pupil Questionnaire.	
13. You have collected Pupil Booklets, put them in sequential order, and tied with string.	
14. You have taken note of the comments on the Questionnaires that were given by the Teachers and School Head.	
15. You have checked that there are no missing data in Teacher Questionnaires or the School Head Questionnaire.	

<p style="text-align: center;"><b>Actions to be Taken</b></p> <p style="text-align: center;"><b><u>Phase 3: After Leaving the School</u></b></p>	<p style="text-align: center;"><b>Tick</b></p>
<p>You have submitted to your NRC all the instruments, Pupil Name Form, School Form, and the notes you took.</p>	

## Appendix B: Random Number Tables for the Selection of 20 Grade Six Students Within Each Selected School
