

Organisation of data of 58th Round

Following table gives the name and record length of the work-files created for different types of schedules of 58th round.

Sched. type	Srl. No.	Work-file Name	Record Length	Number of Records	Remarks
1.0	1.	wrk5801.txt	162	1,54,198	Person level records
	2.	wrk5802.txt	125	32,45,770	Item level records
1.2	1.	all01201.txt	270	97,882	Household level records
	2.	all01202.txt	285	3,91,528	Construction-wise records
	3.	all01203.txt	100	5,818	Slum dweller households
0.21	1.	wrk21s.txt	117	692	Slum-wise records
3.1	1.	wrk31s.txt	124	4,646	Village-wise records
26	1.	w1.txt	117	3,96,943	Person(all) level records
	2.	w3.txt	116	19,050	Enrollment of disabled person
	3.	w4.txt	118	70,302	Household level records
	4.	w5.txt	153	86,745	Person(disabled) level data

Above mentioned work-files and soft copies of 'Instruction to field staff', both volumes I & II are given in the CD enclosed to this.

Use of multipliers: In all these work-files ns-count(sub-samplewise) is given at 29(3), ns-count(combined) is given at 32(3) and multiplier(sub-samplewise) is given at 35(10) in assumed two place of decimal.

$$\begin{aligned}\text{Value of multiplier} &= \text{mult}/200 && \text{if } nsc > nss \\ &= \text{mult}/100 && \text{if } nsc = nss\end{aligned}$$
